About CBIT (AUTONOMOUS)

ChaitanyaBharathi Institute of Technology is one of the premier Engineering Colleges in the self-financing category in Telangana. It has been accredited five times in 1998, 2004, 2008, 2013 and 2017. It is also the first ISO 9001-2008 certified Engineering Institute of Telangana. The college offers 9 UG and 11 PG programmes. Brilliant and meritorious candidates with top EAMCET ranks seek admission in CBIT (ECE, EEE, CSE, IT, Mech. ,Civil,Chemical &Bio-Tech.). The pass percentage is consistently 95% on an average, out of which 80% of the students are passing either in distinction or in first class. More than 75% of the students are being placed in nationally and internationally reputed companies through campus placements. The remaining students pursue higher education or go for jobs in PSU's.

About the Department

The Department of English in CBIT is newly born in the month of October, 2018. With this new identity and autonomy we are surging forth to establish and strengthen ourselves in the academic arena.

The Department has 8 well qualified, experienced faculty members of whom 4 are doctorates and the others are pursuing their PhDs. We offer courses to BE/B. Tech. MBA, MCA and M. Tech students. The focus of the department is to increase English proficiency, communication skills, soft skills & employability skills, counselling, confidence building and grooming the students to face challenges both in their personal and professional lives.

We are the initiators & conveners of various student clubs like *Communicando*, the literary club of CBIT,

Transcendent,*MUN*, *Streetcause*, *Toastmasters* and *Chaaya*, the film club of CBIT. The clubs are giving an exclusive space for the students to unleash their hidden talents, explore their creativity and learn outside the classroom. The department is committed to reach greater heights in the years to come...

About the Workshop

Twenty first century has seen revolutionary changes in almost every field, thanks to the fast developing digital technologies. Children born in this new era take to the new technologies as easy as fish to water. The new technologies, that have become an integral part of their lives, have created immense possibilities for them to learn, entertain and communicate, to name a few. On the flip side, students of the modern era do not seem to enjoy their academic life as much as students of the previous era. Teachers find themselves faced with new challenges in their career. Are we fully aware of the changed situation? Do we understand the 21st century 'digikids' well enough to make our teaching as interesting and relevant as possible to them? Or is there any disconnect somewhere? Do we find ourselves in a situation where there is less and less job satisfaction? How do we exploit the potential of students of this digital era? How do we make our classroom teaching more relevant and enjoyable to students? What changes do we need to bring about in our teaching strategies so as to make our classrooms more learning friendly?

Let us put our heads together, understand the prospects and find ways to cope with the new challenges.

Workshop Facilitators:

Mr. Rajeevan Karal: "Activity-based Instruction in Digital Classrooms".

Prof. T. Vijay Kumar: "Smart Problems, Smarter Solutions; followed by Guided Brainstorming".

Registration Fee per Participant: Rs. 300/-

Register on the following link:
