

CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY (A)

CBIT ALUMNI

.....The Knowledge Partners

Date: 29-04-2020

Dear CBITians,

We; The Management, Faculty, Staff and the Students, at the outset, Wish you and your Families a Healthy and Safe Living wherever you are across the Globe. Your Wellbeing has always been and will always be our Prayer.

CBIT, conditioned to the Guidelines that Government imposed on movements of People, is under the Lockdown, which is why we could not stay in touch with you all, till this date, as we were trying to raise ourselves to the demanding situations on various fronts to conduct Online Classes, submit Reports to Regulatory Bodies and so on. The Institute is in the Red Zone on account of its location in Ranga Reddy District and Hyderabad , which means more tighter norms to adhere to. Once we are through with the situation, we shall come back to you all as we had done since December.

We would like to share with you, few developments, that can probably make you all feel Proud of your Institute. In the last few Months we have been transforming into a more Technology driven Institution and we are happy to share with you that we have conducted successfully Online Classes, with few hiccups here and there, but largely successful and probably we are one of those Institutes who initiated this exercise first and also completed our Syllabus before any other College.

Another Good News that could put you all on the wave of Pride is that our Institute has been shortlisted by NITI AAYOG, as the prospective Centre to establish ATAL COMMUNITY INNOVATION CENTRE". There were in all, 900 Plus Contestants /Applicants mostly Universities and few Institutes across the Country and only 22 were shortlisted of which we are the one and the only one in Telangana. We are all working to comply to the final conditions for confirmation.

Another feather in the Cap is the Institute receiving approval as the HOST INSTITUTE, by MSME for setting up Incubation Centre and the Progress in this effort has been steady and appreciable. The Students and Faculty could ideate on 32 Projects which have been uploaded.

We are waiting for the approval from MSME, for these Projects with Funds from the Government and we can see some of them could even be initiated into Startups.

We have embarked on making CBIT, a Smart Campus and towards this established The Centre of Excellence for IOT in Strategic Alliance with M/s Kernel Sphere. In your next visit you can experience a different Campus.

The Ecosystem is also gradually metamorphosing into Research and Entrepreneurship at the Institute and this would impact the Teaching- Learning on a more experiential learning Pattern and it is encouraging to see that Students and Faculty are now rearing to work on their Ideas and initiate the Innovation and Incubation effort. We have signed an MOU with DSCI (DATA SECURITY COUNCIL OF INDIA), for Cybersecurity for Training and Joint Research and the Institute has been recognised by the US Council for Training on Cyber Security.

We remember the Genesis of the Institute for standing tall began with the First Batch and how each of the Batches contributed to the Value and Positioning of the Institute as it stands and the Seeds of your efforts are now bearing Fruits with subsequent Batches contributing their Best to keep the Banner of CBIT high.

During this devastating Corona Virus Pandemic, which has disrupted Global health, Economies and Social Systems, We assume that each one of you must have gone through testing times both on the Occupation and Personal fronts and we are also hopeful some of you must have contributed your best to your Companies, Countries and Communities through your Innovative Contributions manifesting out of your Experience and Domain Expertise. We will be happy to place them on the CBIT Website for all the Students and Stake Holders to learn how each of the CBITians are contributing to the Global Cause and if you have any such Technologies, Products or Systems that can also be implemented here, we will Promote them on your behalf here in the State and Country for the Good of Many on a Startup Model that can even integrate Revenue Structure if needed.

We , thought, we will have to get across to you not only to Wish You Safe and Happy Home Stay, but also share with you the ongoing developments and achievements of your most coveted Institute that you all dream to see it becoming stronger and stronger, Year on Year.

We will always be Happy to hear from You and it will be our Pleasure if we can be of any help !!

CBITian is ever a CBITian..... Tall in Achievements!

FACULTY AND STUDENTS ALUMNI COMMITTEE - CBIT
