Respected Sir/ Madam

Internshala - the internship partner of AICTE, has launched a special initiative as a thank you gesture for all the people working in the healthcare sector at the forefront of India's fight against COVID-19.

Internshala has announced that it would provide free access to its online training programs to the children of all such staff till 15th April (last date for enrolment). The students can learn a number of skills in programming, data science, business, design, creative writing etc. on Internshala Trainings through its short duration online training programs. A student can choose maximum one program from the available programs for any batch of on or before 15th April.

Who is eligible?

1. Any student currently enrolled in a government recognised college (public or private) including distance learning programs AND
2. Whose parents (mother, father, or both) are currently employed (doctors, nurses, paramedical staff, cleaning staff, ambulance drivers, receptionists, billing, diagnostic, and people employed in any other departments of a hospital) at a government recognised hospital (public or private, excluding private nursing homes and clinics).

Students may visit - internshala.com/i/coronavirus-initiative to know more about this initiative, eligibility criteria, and the process in more detail.

We encourage you to please share this email with your students who could make use of this vital information.

Please feel free to reach out to trainings@internshala.com in case you have any further questions or concerns.

Note - Due to high email and call volumes due to COVID-19, it will take Internshala minimum of 4 days to process the student's free access.

Thanks & regards,
Dr. Neetu Bhagat
Deputy Director
Policy & Academic Planning Bureau, AICTE
