Organising Webinar on

Master Class Ep 2: Direction on Recruitment Process of JPMorgan Chase & Co.

(Code: CBIT/R&D-ECE/TP/86/August 2021)

Saturday, 7th August 2021

17.00 PM – 18.00 PM

Abstract / About the Programme:

After the successful first episode with the same enthusiasm, we move to the second episode where we have someone who got placed in a multinational company which is a global leader in financial services, JPMorgan Chase & Co as a software engineer. This session is promising for all the students who want to grab their dream job at this company, especially for graduates of 2023 and 2024. He is intended to share key tips on the recruitment process, technical as well as non-technical skills that are needed to be developed, about the coding platforms that will prove beneficial and projects that can help you build the resume. This session will be very valuable for the students who want to make it big into the tech giant.

Name of the Speaker:

Mr. Harsh Rathi

Software Engineer, JPMorgan Chase & Co, Hyderabad

About the Speaker:

To introduce the essence of wisdom, we have Mr. Harsh Rathi, our second speaker who is one of the brightest minds of CBIT from the Computer Science department. He had successfully started his career as a software engineer and made his way into “JP Morgan Chase & co”, which is one of the world's biggest technical driven companies. Apart from his academics he was an outstanding leader and speaker. He worked as the Deputy Secretary General of CBIT MUN. His passion and zeal to achieve something big is inspiring. He was also certified for building a crypto currency news site using python and Django with his tremendous skills in python, C, C++, Java. In this session, he will be focusing on the recruitment process of this corporate giant, which helps many students to crack an interview and also helps the students to brushup their skills in order to get placed into their dream company. Hence, with his insights it would be beneficial to many students and serve as a key takeaway.
