Abstract

In this talk, the education 4.0 program is aimed at providing graduates with the capabilities and competencies required by the digital-driven industry. The purpose of this talk is to discuss the strengths of education 4.0. This talk propose that education 4.0 creates an opportunity for educators to engage in new technology tools and it enhances the knowledge of the educators on technology more in depth. It also helps lecturers and students to enhance their knowledge & usage of technology in depth. In addition, it promotes the development of technology classroom into the 21st century skills.
