ACTION TAKEN ON STAKEHOLDERS FEEDBACKS 2021-22

INDEX

| S. No. | Name of the Topic | Pg. No. |
|--------|--|---------|
| 1 | Action taken on Students Feedback on curriculum | 2-11 |
| 2 | Action taken on Faculty Feedback on curriculum | 12 |
| 3. | Action taken on Alumni Feedback on curriculum | 13 |
| 4. | Action taken on Employers Feedback on curriculum | 14-15 |

CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY (A) DEPARTMENT OF INFORMATION TECHNOLOGY

Report on Program Exit Survey 2021-22

| S.No | Description | No. of | Value | Action Taken |
|------|---------------------------------------|-----------|-----------------------------------|----------------------------|
| | | Responses | (At the Scale 1 to 5) | |
| 1. | Association | 129 | 3.92 | |
| 2. | Infrastructure-Common-Laboratory | 129 | 3.96 | |
| | facilities | | | |
| | Computing facilities | 129 | 4.03 | |
| | Library facilities | 129 | 3.91 | |
| | Internet and Wi-Fi facilities | 129 | 2.95 | |
| | Games and Sports facilities | 129 | 3.57 | |
| | Admin. and Accounts Section Services | 129 | 3.67 | |
| | Academics & Examination Cell(AEC) | 129 | 3.66 | |
| | Services | | | |
| | Controller of Examinations(CoE) | 129 | 3.88 | |
| | Transport facilities(if applicable) | 129 | 3.62 | |
| | Canteen facilities | 129 | 3.45 | |
| | Health Center facilities | 129 | 3.56 | |
| | Basic amenities including washrooms | 129 | 3.27 | |
| | Hostel facilities(if applicable) | 129 | 3.28 | |
| | Overall facilities | 129 | 3.67 | |
| 3. | Placement and Training Cell- | 129 | 3.48 | |
| | >Training provided for placements. | | | |
| | Training and Placement Office | 129 | 3.91 | |
| | provided on/off campus placement | | | |
| | opportunities. | | | |
| | Career Counseling & Guidance for | 129 | 3.61 | |
| | higher studies provided. | | | |
| | Co and Extra Curricular opportunities | 129 | 3.74 | |
| | provided. | | | |
| | Motivation towards Research & | 129 | 3.62 | |
| | Development(R&D) | | | |
| 4. | Curriculum and Syllabus | 129 | 3.86 | |
| 5. | Suggestions-Curriculum | 19 | 1. Would suggest not to make the | 1. Curriculum is updated |
| | | | major project a mandatory one | as per the needs of the |
| | | | during 4-2 for students who are | industry in R-18 & R- 20 |
| | | | doing internships. | and also electives were |
| | | | 2. Although the curriculum and | added right from 3 rd |
| | | | syllabus is designed in the best | year onwards for |
| | | | possible way, still some personal | exposure/specialisation to |
| | | | suggestions are listed below: | cater to the interests of |
| | | | i. Include lab work for subjects | the students |
| | | | like Cloud Computing, Data | |
| | | | Science, etc. in general, | Following courses are |
| | | | include labs for the subject or | included in respective PO |
| | | | at least include an assignment | groups in R-20 |
| | | | or test or anything else which | |

revolved around the lab so that the students get exposed into the practical world which gives us an idea of how things work in the real corporate world and make us mentally prepared to see what's coming next.

- ii. For subjects like Cloud Computing, if a collaboration is done with popular cloud providers like google and azure (or) if access to these paid cloud portals is given for free to the students and the practical part is implemented using these resources, it helps the student a lot to learn the concept in a better way and expose them to different technology platforms.
- 3. Better to avoid including many core subjects in the 7th sem, because students need time to prepare for placements.
- 4. The syllabus needs to be updated with industry standards. We were taught about tom-cat servers and java-servlets in the Web Dev course, which are absolutely obsolete now.
- 5. The first sem should have coding and training of how the projects are done and next semester should have experiments, implementation on that coding part of projects.
- 6. Practical Knowledge required to get into placements.
- 7. Add full stack development Add new technologies introduction(docker,kubernetes,Go lang,Ruby) More projects from different domains instead of only ML/AI.

Curriculum for strengthening the curriculum. Knowledge – Oriented

PO1: Data Structures and Algorithms in Python, OOPS concepts using Python, AI - ML Tools, Techniques & Deplications are included. Problem Solving Skill group PO2 to PO4: Courses

like Engineering
Exploration, Design and
Analysis of Algorithms
Lab, Data Science and AI
Lab, Java
Programming & Data
Programming & Data
Analysis and
Visualization, Python
Full Stack Development.
Skill Oriented Group

PO5, PO9 to PO11: Courses like Soft Skills.

Employability Skills, Internships, Mobile Application Development with Kotlin, Augmented Reality and Virtual Reality, Robotics Process Automation, Agile Methodologies and DevOps, Business Intelligence, Reinforcement Learning, Data Engineering, Micro Services and API Cloud

included
Attitude-Oriented Group
PO6 to PO8 & PO12:

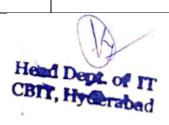

API Development and

Deployment are

Courses like Community Engagement, Universal Human Values, Rural Internship.

| | | ☐ Motivate students to participate in the programs organised in association with THUB, ACIC, TASK, MSME and encourage students and faculty to take up research activities |
|----|--|---|
| 6. | Kindly provide suggestions/modifications to revise the Vision of the Department | |
| | Improve curriculum, it is very theoretical and bookish. It is dated. Needs renewal and refinement | 1. Curriculum is updated as per the needs of the industry in R-18 & R-20 and also electives were added right from 3 rd year onwards for exposure/specialisation to cater to the interests of the students |
| | Need more Industrial exposure | MoUs with start-up's to motivate students for internships in start-ups. ☐ To strengthen in-house Internship drive. |
| | Integrate thinking of strategy and learning mindset than solution oriented | Motivating students to participate in Hackathons, Coding Competitions, Innovations/Product Development competitions. |
| | Please include corporate ready courses like product management and control version like git | Software Project Management course as an Elective in V Sem |
| | Include making students ready to face the current industry challenges while learning trending technologies | Motivating students to participate in the programs organised in association with THUB, ACIC, TASK, MSME and encourage students and faculty to take up research activities |
| | Concentrate more on using latest technologies trending in the software industry | full stack development, Ethical Hacking, Application Development with Kotlin |

| | Any other feedback / suggestions | | | |
|----|--------------------------------------|---|---|----------------------------|
| 7. | 1. The lab courses, exercises and | - | - | 1. Curriculum is updated |
| | syllabus is perfectly designed to | | | as per the needs of the |
| | meet the expectations of current | | | industry in R-18 & amp; |
| | market demand. All the latest trends | | | R-20 and also electives |
| | in technologies are being clearly | | | were added right from 3 |
| | discussed in the labs. Any | | | rd year onwards for |
| | technology will have its own | | | exposure/specialisation to |
| | complexity. The structure and the | | | cater to the interests of |
| | content of labs are designed in such | | | the students. |
| | a way that it gives students the | | | 2. Students are |
| | knowledge of technology to its | | | encouraged for |
| | roots thus helping in understanding | | | internships to bridge the |
| | and implementing it properly. 2. | | | gap between industry and |
| | The courses offered (either elective | | | academia. |
| | or compulsory) are the latest in | | | 3. Department is |
| | demand courses which makes the | | | motivating students to do |
| | students stick to the resources and | | | Mini Projects which |
| | teaching given by the department, | | | lead to paper |
| | thus preventing them from | | | publications. |
| | wandering, | | | |
| | 2. Mini Projects from 2nd year made | | | 4.Space, logistics and |
| | us understand not only theoretical | | | necessary computing |
| | but also practical way of using the | | | facilities be made |
| | subject. | | | available for exclusive |
| | | | | Projects Lab. |

BIG DATA ANALYTICS

Instruction 3L Hours per week
Duration of End Examination 3 Hours
SEE 60 Marks
CIE 40 Marks
Credits 3

Course Objectives:

- 1. To introduce the importance of big data, role of Hadoop framework in analyzing large datasets by writing mapper and reducer for a given problem.
- 2. To familiarize writing queries in Pig and Hive to process big data.
- 3. To present latest big data frameworks and applications using Spark and Scala.
- 4. To discuss the concept and writing applications using SparkSQL.
- 5. To provide the concepts of NoSQL databases and study the working mechanisms of MongoDB.

Course Outcomes:

Upon completing this course, students will be able to:

- 1. Understand the processing large datasets in Hadoop framework and Apply MapReduce architecture to solve real world problems.
- 2. Develop scripts using Pig over large datasets and query using Hive.
- 3. Understand the fundamentals of Spark and the Scala programming.
- 4. Expertise in using Resilient Distributed Datasets (RDD) for creating applications in Spark and query using SparkSQL.
- 5. Understand NoSQL databases and Develop data models using MongoDB.

Mapping of Course Outcomes with Program Outcomes and Program Specific Outcomes:

| | PO1 | PO2 | PO3 | PO4 | PO5 | PO6 | PO7 | PO8 | PO9 | PO10 | PO11 | PO12 | PSO1 | PSO2 | PSO3 |

UNIT-I

What is Big Data: Why is Big Data Important? When to consider a Big Data solution, Big Data use cases The Hadoop Distributed Files system: The Design of HDFS, HDFS Concepts, HDFS Federation, HDFS High Availability, Basic File system Operations, Hadoop File systems, Anatomy of a File Read, Anatomy of a File Write.

MapReduce: What is Map reduce, Architecture of map reduce.

How MapReduce Works: Anatomy of a MapReduce Job Run, Failures in Map Reduce, MapReduce Types and Formats: MapReduce Types, The Default MapReduce Job, Input Formats, Input Splits and Records, Text Input, Output Formats, Text Output, Developing a MapReduce Application.
