Dear Prof. BVS Rao,

It was a pleasure finally catching up with you earlier this week. It brought back so many fond memories. I realize it has taken some time to reconnect, but I am looking forward to re-establishing connections and personally contributing and helping the educational institutions and professors I have had the opportunity to learn from. The success of our 1992 classmates is a testimony to the strong education & guidance we received and the personal individual character and determination we possess to forge ahead in this world in whatever fields we chose.

I look forward to meeting you soon. As per your request, I've attached a copy of my bio and here is my LinkedIn profile: <https://www.linkedin.com/in/abhay-edlabadkar-8733b91/>.

Please do not hesitate to call me anytime. I'm in Hyderabad for the next 2-3 weeks. My local number is 73308 20190.

Wish you a wonderful weekend!

Regards,

- Abhay

Proudly Presents  
ONLINE SHORT TERM TRAINING PROGRAMME  
(STTP)

on  
DEVELOPMENT OF LABORATORY  
INSTRUCTION AND MANUAL

4<sup>th</sup> to 8<sup>th</sup> February 2019

in Association with  
NATIONAL INSTITUTE OF TECHNICAL  
TEACHERS' TRAINING & RESEARCH, Kolkata

Jointly Organized by  
DEPARTMENTS OF CSE AND EEE,  
CBIT (A), Hyderabad-75.

#### About CBIT

CBIT is one of the premier Engineering Institutes in INDIA, pioneer in Telangana state which is at idyllic surroundings of Gandipet Lake, Hyderabad. The college offers Nine UG and Eleven PG programs. It has been standing as a temple of knowledge for the past 39 years by producing about 21,000 eminent and skilful graduate engineers, who are successful in their careers, serving all over the world. It was accredited many times by NBA--AICTE and NAAC--UGC. UGC has granted Autonomous status to this Institute from the academic year 2013-14 onwards. The grants received from AICTE/UGC are worth about Rs. 2.5 crores. Brilliant and meritorious candidates with good EAMCET rank are seeking admission. CBIT students are grabbing the opportunity of entering into MNCs through college placement cell.

#### About NITTTR:

National Institute of Technical Teachers' Training & Research (NITTTR), Kolkata was established in 1965 as Technical Teachers' Training Institute (TTTI), Calcutta. This was the first among four such institutes (other three being at Chandigarh, Bhopal & Chennai) established by the Dept. of Education, MHRD, Govt. of India as fully centrally funded autonomous institutions for providing pre & in-service training to the teachers and staff of Degree and Diploma level training institutions and also for conducting various activities related to quality improvement of the technical education system of the country. The Govt of India, in 2003, accorded national status to this institute, (along with the three sister institutes) in recognition of the contribution of these institutes for the expert service rendered for overall improvement of quality of Technical Education System.

The focal activities of the institute are (i) Education & Short-term Training, (ii) Curriculum Development, (iii) Learning Resources Development, (iv) Research & Development and (v) Extension Services & Consultancy.

AICTE has recognized the Short-term training programmes conducted by the Institute for consideration for the purpose of movement to higher grades under **the Career Advancement Scheme(CAS)**.

The Institute is also offering three AICTE approved, two year Post Graduate Degree Programmes in Manufacturing Technology, Multimedia & Software Systems, Mechatronics Engineering and Structural Engineering leading to M.Tech Degree of Maulana Abul Kalam Azad University of Technology (MAKAUT, formerly West Bengal University of Technology (WBUT)).

#### About the STTP

- ❖ To arrange for practical training for technical teachers in industries on a cooperative education plan.
- ❖ To undertake systematic research to provide research inputs for development of technical education systems and their management.
- ❖ To undertake action research for development of innovative methods, processes and practices for improvement of teaching-learning environment in technical and vocational education.
- ❖ To design new instructional system and strategies for production of multimedia learning materials.
- ❖ To develop and disseminate learning resources like Textbooks, Laboratory Manuals, Video Programmes, Computer Assisted Instructional Multimedia Packages to technical and vocational institutions and other organisations.
- ❖ To offer programmes for technical and vocational teachers in distance learning mode using state-of-the-art technologies.

#### Broad Topics to be Covered:

- Role of Laboratory in Technical Education
- Introduction to Laboratory Instruction and Manual
- Development of Laboratory Exercise and Preparation of Laboratory Report
- Development of Laboratory Exercise: Practice
- Common Hazards in Laboratory
- Introduction to Safety Management in Laboratory
- Safe Operating Procedure (SOP) for Laboratory Activities
- Practice of SOP (Participants)
- Effective Laboratory Instruction and Manual

Eligibility

This Programme is meant for both Teaching Faculty and Technical Staff (Lab Assistants).

Salient features of the Programme.

1. No Course Fee
2. Working Lunch will be Provided for the Participants
3. Timings : 10:00 AM - 1:00 PM, 2.00 to 5.00 PM

About the Dept. of CSE :

Computer Science and Engineering Department started in the year 1985 with an intake of 20 in Bachelor of Engineering programme. The intake gradually increased to 180 with three sections by the year 2013. M.Tech. programme started in the year 2002 with an intake of 18 and increased to 36 from the academic year 2011-12 onwards. UG Program BE(CSE) was Accredited by the National Board of Accreditation(NBA) of All India Council for Technical Education(AICTE) in the year 1998 with 'A' grade for 3years,subsequently,in the years 2004, 2008, 2012 and 2017. PG program M. Tech (CSE) was accredited by NBA for three years in the year 2016. The department is also accredited by NAAC and is an ISO certified.

-Zig Ziglar

About the Dept. of EEE :

Electrical & Electronics Engineering department was started in 1994 with UG programme in EEE with an intake of 40 and later upgraded into two sections (each of 60)and one PG programme in Power Systems & Power Electronics in the year 2006. UG & PG programs are accredited by NBA & NAAC. The Department is enriched with qualified and experienced 29 staff (Prof-3 ,Asso.Prof-2 & Asst Prof- 24) out of which 7 are with Ph.D in the specializations of Power Electronics &FACTS, Power Systems, Machines &Drives and also published more than 240 papers in various National/ International conferences and journals. The Department is augmented with 16 lakhs worth projects under AICTE-MODROBS for PE & PS Labs. The department received AICTE grant of 6.05 lakhs to organize FDP among staff and research scholars and received a huge response. The department organized Two National Conferences named RTPSD under TEQIP-II with a technical support of CPRI, I-Managers and ISTE. The staff of the department is very enthusiastic and looking forward to take-up joint research activities in the areas of recent trends in Vedic Mathematics in addition to Power Systems, Power Electronics, Electrical Machines and Renewable energy sources. Department is attracting top ranking students to take admission and continue to maintain academic standards with support and personal attention from the staff.

**Brief Report on STTP (online) titled “DEVELOPMENT OF LABORATORY INSTRUCTION AND MANUAL” conducted from 4-2-2019 to 8-2-2019.**

The Short term training Program has started with the Registration of Participants followed by Inaugural session of the event, in which Dr. P.Ravinder Reddy, Principal has stressed on Importance of Laboratories in Engineering. The Conveners of the STTP explained about the entire week events, very briefly. The Sessions started by Dr. SubrataMondal, Resource Person from NITTTR Kolkata in ICT mode. On day 1, he explained about the Role of Laboratories in Technical Education and also he gave guidelines on preparing Laboratory Manual. On day 2, he emphasized on Development of Laboratory Exercise and Preparation of Lab Report.

On day 3, he explained about the common Hazards which may occur in Labs and what are the safety measures and practices to be taken in various Labs. On day 4, the Resource Person explained about the Safety operating Procedure (SOP) for Laboratory Activities and also about the practice of the same He insisted about various fire hazards which may occur and how to caution the students. Awareness about various protection equipment has been trained depending upon the requirement of the Lab. On day 5 the Resource Person explained about the Effective Laboratory Instruction and Manual Preparations, like how to prepare the Lab Manual in accordance with the changing syllabus. Dr. SubrataMondal also trained the participants that the Lab Manual should be self-explanatory, in such a way the next younger generation faculty can easily understand without any ambiguity. The Final day ended with the Valedictory Session and all the Participants were happy with the STTP.

## A Report on NITTR sponsored STTP on "NBA Accreditation"(ICT01)

STTP on NBA Accreditation', was conducted by Chaitanya Bharathi Institute of Technology (A) as Nodal Center from 22-04-2019 to 26-04-2019 for the faculty members. The program was conducted in association with ICT ACADEMY. The resource person was Dr. Rayapati Subba rao, Associate Professor, Mechanical Engineering, NITTR Kolkata.

The following topics were covered during the training session:

1. Need for accreditation and its main purpose
2. Identify the Impact of NBA Accreditation
3. Benefits of accreditation to the Institute
4. Role of NBA accreditation in facilitating constant quality improvement in Engineering Education Institutes
5. Parameters, criteria and proforma for institutional accreditation
6. Prepare Vision, Mission, program Educational objectives
7. Major steps involved in accreditation procedure
8. Process of preparing self assessment report (SAR) for Accreditation by NBA
9. Readiness for the visit by the Accreditation committee
10. Practice Criteria i to x

Dr. Rayapati Subba rao answered all the doubts raised by the participants and made them aware that having the NBA accreditation will be a major achievement for any institute and one can achieve it with proper planning and execution

A good number of participants got benefitted out of this Short term Training program. It would help the faculties to understand the concept and process of NBA accreditation.

Details of Workshop

1. Title of the Workshop: " Pattern Recognition and Machine Learning"
2. Workshop Convener(s): Dr.P.Narahari Sastry & Sri.M. Ramana Reddy
3. Date(s) of Workshop: 30<sup>th</sup> - 31<sup>st</sup> May 2019
4. Supported by: TEQIP
5. Chief Guest: Dr. S.K. Udgata, Professor, University of Hyderabad for the Inaugural session on 30/05/2019. And Dr. D. Sudhir Reddy, Scientist, ADRIN, Department of Space, Hyderabad for Valedictory Function on 31/05/2019.
6. Resource Persons and Topics delivered:

S.No.	Name of the Resource Person	Topic Covered
1	<b>Dr.S.K Udgata</b> Professor University of Hyderabad	Introduction to machine learning: Scope, Limitations and Applications
2	<b>Dr. T.V.Rajanikanth</b> , Professor, SNIST, Hyderabad.	Machine learning Algorithms Implementation
3	<b>Dr. D. Sudhir Reddy</b> Scientist- F, ADRIN Dept of Space, Hyderabad	Function Approximation and data Models
4	<b>Dr.P.Narahari Sastry</b> Dept of ECE, CBIT, Hyderabad	Pattern Recognition Applied to palm Leaf character recognition

7. Number of delegates: 37 (Faculty (15) + Research Scholars (22))
8. **Outcomes of workshop:** This Workshop provided a platform for young Researchers and faculty members to understand the basic concepts in Pattern Recognition and Machine Learning. These concepts were very much useful in developing various algorithms in many application areas like biometrics, handwriting recognition, robotics and many more upcoming research topics of their in their Ph.D work. In the first session Dr. S.K. Udgata gave a detailed lecture on the scope covered by Machine learning algorithms. Further he also discussed the applications involved with machine learning and the limitations were also listed. Dr. T.V. Rajanikant continued the second session by teaching the implementation part of the algorithms related to robotics and biometrics. Dr. P. Narahari Sastry covered the lectures related to Pattern recognition applied to palm leaf characters, which was very informative and the audience showed lot of interest in the subject. Dr. D. Sudhir Reddy gave insight and mathematics involved in the machine learning algorithms. Some of the participants have suggested for providing Practical sessions on Machine learning. Further they have expressed that this type of workshop should be conducted for a week long instead of 2 days in, future programs. The participants expressed that the speakers were very good in this subject domain.

## A Brief Report on the Training on Cadence Tools

**Title:** Training on Cadence Tools

**Duration:** 11-12 February 2019

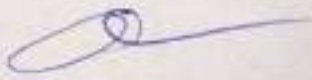

**Audience:** Faculty, ME(ES&VLSID) students and few B.E 3/4 students

**Venue:** ES&VLSID lab

As a part of training programs which are being periodically organized by ECE Department an internal training on 'Cadence Tools' was organized for the benefit of Faculty, ME(ES&VLSID) students and few B.E 3/4 students during 11- 12 February 2019. This training was conducted by Sri.Sarath Kanth from Entuple Technologies, Bangalore. In this training, the participants have hands on experience on various tools like virtuoso for custom IC design using various technology libraries like 18nm, 90nm. During this training, participants were actively interacted with speaker. Dr.D.krishna Reddy, Head ECE and Dr.N.Aivelu Manga, Associate Professor coordinated this program.

**Brief report of one-day seminar on  
"Artificial Intelligence /Internet of Things"**

On 29th December 2018, a seminar entitled "Artificial Intelligence /Internet of Things" organized by the department of ECE in association with Redpine signals. About 16 faculty members from ECE, EEE, IT & CSE have attended the seminar. Mr. Govardhan Mattela and Mr. Devanjan Sikdar are the speakers for this program.

To enable faculty with the latest industry knowledge in AI, IoT, and Edge Intelligence, Redpine Signals has the design of AI and IoT Innovation Lab. The lab can be used by students to learn Artificial Intelligence, Machine Learning, Internet of Things from both software and hardware point of view. The lab aims to introduce students to the latest industry trends in the area. The purpose of the workshop was to bring together the industry and the institute collaboration to establish a new laboratory on artificial intelligence and internet of things.

### ABOUT THE COLLEGE

Chaitanya Bharathi Institute of Technology is one of the premier Engineering Colleges in the self-financing category in Telangana. It has been accredited five times in 1998, 2004, 2008, 2013 and 2017. It is also the first ISO 9001-2008 certified Engineering Institute of Telangana. The total constructed area is 4,45,467 sq. ft. worth about few hundred of crores, spread over 30 acres. The grants received from AICTE are worth about Rs. 4.0 crores. The college offers 9 UG and 11 PG programmes. Brilliant and meritorious candidates with top EAMCET ranks are seeking admission in CBIT (especially in ECE, EEE, CSE, IT, Mechanical Engineering etc.). The pass percentage is consistent with 95% on an average out of which 80% of the students are passing either in distinction or in first class. More than 75% of the students are being placed in nationally and internationally reputed companies through campus placements. The remaining students pursue higher education or go for Govt. sector jobs.

### ABOUT THE DEPARTMENT

The Department of Computer Science and Engineering started in the year 1985 with an intake of 20 in Bachelor of Engineering programme. The intake gradually increased to 180 with three sections by the year 2013. M.Tech programme started in the year 2002 with an intake of 18 and increased to 36 from academic year 2011-12 onwards. The department was accredited by NBA-AICTE five times in the years 1998, 2004, 2008, 2013 & 2017. The Department is recognized as Research Center by Osmania University. Faculty members of the Department have considerable academic, industrial and research experience. The department has specialists in the fields of Machine learning, Image Processing, Security and IoT.

### Preamble

Artificial intelligence (AI) and Internet of Things (IoT) are the terms that project futuristic, scientific imagery and both have been identified as drivers of business disruption. In fact both are more real today than any time in the past. AI makes machines to learn from experience, adjust to new inputs and perform human-like tasks. Data is all around us. The Internet of Things (IoT) and sensors have the ability to harness large volumes of data, while AI can learn patterns in the data to automate tasks for a variety of business benefits.

### Objective

- To train the faculty in the important area of industrial relevance through academic and industrial experts.
- To provide hands on experience on the usage of various tools, models, methodologies and techniques.
- To provide comprehensive idea of various industrial best practices in the field and make them adapt in their academic curriculum as case studies.
- Achieve competitive teaching and learning environment and channelize development with respect to academic qualifications.
- Acquire knowledge about current technological developments in AI and IoT.
- To apply the analytics on the IoT data for extracting patterns using intelligence.
- To learn the Various IoT applications related to applying the intelligence and intelligent things.

### Course Contents

- Overview of Artificial Intelligence
- Knowledge Representations
- Learning Techniques
- Knowledge in Learning
- Intelligent Agents
- Introduction to IoT
- Data Handling and Analytics
- Data Analysis Tools
- Case studies using IoT
- Applications and Trends in IoT

### Resource Persons

Eminent Speakers from IIT Hyd, IIIT Hyd, Osmania University, JNTUH, NIT, RCI, CDAC etc

### Eligibility

The course is open to all the Engineering faculties and research scholars belonging to CSE, IT and ECE departments of AICTE recognized Institutions. Admission will be offered subject to the availability based on the AICTE guidelines.

### Accommodation & TA

Accommodation will be provided to the outstation participants on request basis and travelling allowances will be given as per AICTE guidelines (3AC).

### Registration

Registration is free for faculties from AICTE approved Institutions. Selected participants are requested to pay an amount of Rs. 500/- by Demand Draft drawn in favor of "The Principal, CBIT", payable at Hyderabad which is refundable to the participants on the final day of the Programme.

From the earliest days of computer science, women have made crucial contributions to its progress. As our world today moves towards a brighter and more equal future, it is time we sit up and take notice of these contributions.

Organizations around the globe are pushing for more recognition for women in technology, and young girls are being encouraged to take up technology as a career choice.

In keeping with this spirit, the Department of Computer Science & Engineering, CBIT is proud to host its first ever event focused on the role of women in technology. May we all learn to celebrate, inspire, and network.

### Objectives of the FDP

- To introduce and train faculty, on various aspects of Advancements in 'Outcome Based Education (OBE) and NBA Accreditation Process.
- To promote Student-Centric effective Teaching-Learning Practices among the Faculty, in compliance to the National Educational Policy and Regulatory Authorities Guidelines released periodically on improving the Quality of Higher Education in Engineering.
- To enable the faculty to understand the NBA Assessment Criteria and Prepare Tier-I UG Documentation along with the necessary exhibits to be shown to the expert committee.

### Expected Outcomes

After successful completion of the Program, Faculty should be able to

- Structure their Lessons as per the needs of the Students and with the Interaction of Industry on emerging Areas of Designs, Applications and Solutions to the Problems.
- Map the level of achievements/failures of Outcomes by a Student during the 4 years of Graduation as this impacts the entire evaluation.
- Distinguish PEOs and POs/PSOs
- Establish correlation among COs, POs and PEOs
- Identify, Design and Apply appropriate Assessment methods for COs, POs and PEOs
- Identify the Scope and develop Action Plan for Continuous Improvement based on CO-PO attainment Values
- Assess all the Criteria's in the NBA's SAR
- Distinguish among AICTE, NBA and NAAC
- Distinguish NBA SAR and NAAC SSR

**About the program:**

CBIT is excited to announce a short duration learning program to its students to help building critical skills on Robotic Process Automation.

In the wake of the coronavirus (Covid-19,) organizations are turning to RPA to mitigate business disruptions and advance public health, keep global supply chains moving and governments afloat.

We bring the learning program to extend the support to the students to build the skills online using Automation Anywhere University platform.

The students are advised to take advantage of the program and stay essential at the fast-changing workforce.

**About Robotic Process Automation:**

Robotic Process Automation is simple—and powerful—business process automation software.

Robotic Process Automation enables you with tools to create your own software robots to automate any business process. Your “bots” are configurable software set up to perform the tasks you assign and control.

RPA really is for everyone. And the benefits of RPA span all industries and business units. Applying RPA for business process automation is limited only by the imagination and creating bots to work has never been easier, with a growing marketplace of ready-made, ready-to-deploy Digital Workers available on demand, requiring no specialized IT infrastructure.

**About Automation Anywhere**

Automation Anywhere is a global leader in Robotic Process Automation (RPA), empowering customers to automate end-to-end business processes with software bots – digital workers that perform repetitive and manual tasks, resulting in dramatic productivity gains, improved customer experience and more engaged employees. The company offers the world’s only web-based and cloud native intelligent automation platform combining RPA, artificial intelligence, machine learning and analytics right out of the box, to help organizations rapidly start and scale their process automation journey.

With offices in more than 40 countries and a global network of 1,200 partners, Automation Anywhere has deployed over 7 million bots to support some of the world’s largest enterprises across all industries.

For additional information

visit [www.automationanywhere.com](http://www.automationanywhere.com).

**Program benefits:**

- Understand the nuances of Robotic Process Automation
- Building the basic capabilities to develop Software Bots using Automation Anywhere tools and technologies
- Students will receive Bot Aspirant online badge after successful completion of the learning trail

**“BOT ASPIRANT”**

**Learning outcomes**

- Understand the concepts of Digital Workforce Development & Robotic Process Automation
- Describe how Automation Anywhere’s RPA tool can be used for creating software robots (Bots)
- Describe the new features of the Automation Anywhere client to build the Bots

**Content of Learning program - 12 Hours**

1. Hello Bot: Introduction to RPA and Use Cases v11 (3 hours)
2. Build the digital work force (5 hours)
3. Storing and Manipulating Data: How to Automate Database-related Processes (30 Mins)
4. Automating Excel Operations: Methods to Work with Excel Workbooks (30 Mins)
5. Working with PDF Documents: Methods to Automate PDF-Related Processes (30 Mins)
6. Automating Structured Data: How to Work with XML Streams (30 mins)
7. Automating String Operations: Methods to Manipulate and Extract Strings (30 mins)
8. Communicating with Email Servers: Methods to Automate Email Messages (30 mins)
9. Communicating with Emulators: How to Automate Terminal Applications (30 mins)
10. Unleash Your Intelligent Bots: Developing Cognitive Bots, driven by AI & Machine Learning (IQ Bot) (30 Mins)
11. Bot Story: Where Automation Meets Analytics Using Bot Insight V11.0 (2 hours)

## RESEARCH DAY 2021 (ONLINE MODE)

The Research Day (28 August 2021) was successfully completed and it has inspired many faculty members and Researchers in initiating research-based start-ups and maintaining high standards in Research and Teaching.

It was great honour to have Dr. Amit Kumar Patra, Director, National Atmospheric Research Laboratory (NARL), Department of Space: Government of India as Chief guest. His motivating speech on academic standards and research quality impressed both the staff and students. Dr. A Govardhan, Rector, Jawaharlal Nehru Technological University Hyderabad, as a Guest of Honour, spoke on Research and has been an inspiration.

Two expert invited talks are arranged and they are well received. Dr. S Karunanidhi, Associate Director, FCI, DRDO has extensively discussed about Research Methodologies for Innovation and Creativity. His talk motivated us for future R&D collaboration with research organization. The second speaker Dr. Ramjee Pallela, Chief Operating Officer, Atal Incubation Centre, CCMB provided good information on Research to Invention & Innovation, Road to Societally Impactful Technologies in the context of Research and Innovation.

It has to be put on record that from the day of release of brochure, we received an overwhelming response of researchers all around the globe, even during the pandemic times.

We received around 220 abstracts not only from India but also from abroad (AP, Gujarat, Karnataka, Odisha, west Bengal, Tamil Nadu, Canada and Singapore)

Head Dept. of IT  
CBIT, Hyderabad

To maintain the high quality of papers we have constituted a reviewing committee of renowned academicians and researchers. They carefully have peer reviewed and selected 50% of total papers (110 best quality papers).

It is advised to HoDs to make necessary arrangements for online presentations in the afternoon from 14:00-16:00 IST (Hrs.) on 28 August 2021 (Saturday). And also given instructions to HoDs, invite a session chair if at least 6 papers are accepted for presentation. Maximum of 4 sessions can be conducted in parallel based on the count of the accepted papers. The session chair should be a renowned person preferably from reputed organizations. A total 15 Sessions are arranged for various departments.

In the concluding session respective HoDs presented brief details of Research Day proceedings. Principal Announced the names of the members of best paper of each session. This year we introduced appreciation certificates for the faculty who contributed most in terms of publications, citations and sponsored project funding to the last three NIRF rankings.

### RESEARCH DAY 2020 (ONLINE MODE)

The Research Day (23 August 2020) was successfully completed and it has inspired many faculty members and Researchers in initiating research-based start-ups and maintaining high standards in Research and Teaching. It was great honour to have Prof. S. Srinivas Kumar, Vice Chancellor, JNTU Anantapur as Chief guest and Key note speaker. His motivating speech on academic standards and research quality impressed both the staff and students. In addition to the Key Note address, another two expert invited talks are arranged and they are well received. Sri. Bhubesh Kumar, Director-Food & Agriculture, Research and Innovation Circle of Hyderabad (RICH), T-Hub, Hyderabad has extensively discussed about Transformational Research. His talk motivated us to have a MoU with RICH for benefitting both faculty and students and is under process. The third speaker Sri. Tapan Brahma IPR Attorney, Excylze IPR Services New Delhi presented excellent information on IPR Protection in the context of Research and Innovation.

### RESEARCH DAY-2019

Chaitanya Bharathi Institute of Technology (CBIT), committed to Research and Innovation, with an objective to facilitate Individual and Collaborative Research for Sponsored and Consultancy Projects, had established, on the 23rd of August, 2018, a State -of-the-Art Research and Development Centre, to support advanced Research and Innovation Ecosystem, connecting Innovators across Industry and Individuals. Dr. V. Malakonda Reddy, President CBIT, has been the inspiring strength for this Centre to become a reality. The Mission of the Centre is to streamline the Research Activities and contribute Products, Processes and Systems, to make a mark, in the 'Make in India' Program actively and aggressively promoted by the Government of India. To achieve this, each of the Departments will engage in Advanced Research Projects in the Independent space earmarked to them.

#### About the Speakers:

##### Dr. Haripriya Narasimhan

She is an Associate Professor and Head of the Department of Liberal Arts at IIT Hyderabad.

She received her PhD in Anthropology from Syracuse University, New York, U.S.A and pursued her postdoctoral research at London School of Economics, U.K. before joining IIT Hyderabad.

Her research interests are in the areas of medical anthropology, and anthropology of the media, and more recently, sustainability.

##### Dr. Aalok Khandekar

He is an Assistant Professor in the Department of Liberal Arts at IIT Hyderabad.

He holds B.E. and M.S. degrees in Electrical Engineering from Mumbai University and Pennsylvania State University respectively, and a Ph.D. in Science and Technology Studies from Rensselaer Polytechnic Institute USA.

His research explores the interconnections between science, technology, and society writ large.

### **Brief on Colloquia on Anthropology of Science, Engineering and Media**

Dr Hari Priya Narasimhan, Associate Professor and Head of the Department of Liberal Arts at IIT Hyderabad delivered a talk on Social Science research on Media during session 1.

Social media is an important tool in every day as it provides users with an easy way to engage and connect with others virtually. As per the speaker it has its impact on society both positively and negatively. She also expressed how people are getting influenced by this media, for ex the influence of cinema, TV serials, face book etc., and how these are exploiting the youth and generations are getting hit hard. There are several benefits too and it all depends upon how well we are utilizing the sources.

The different social media outlets are simply interactive pathways on the internet that companies and businesses use to form relationships and network with others without leaving one's desk. As a scientist, it is essential to attend conferences, give lectures, and lead panel discussions to network with others about common science interests. Today, there are an endless amount of resources accessible on the internet at your fingertips that allow you to do the same thing. Twitter first surfaced as a news and social networking site in which users post content and interact with each other through messages called tweets. The use of hashtags (a type of metadata tag) across all social media platforms allows people to search for certain interests and see all content related to that particular hashtag. This is a quick way to find and engage with people through common interests.

During session 2 Dr Aalok Khandekar, Assistant Professor in the department of Liberal Arts at IIT Hyderabad addressed the gathering. Though a graduate from science background his research explored the interconnections between science, technology, and society.

His ongoing research seeks to understand and develop interdisciplinary collaborative capacity among variously positioned social actors (among researchers in the sciences, engineering, and the humanities and social sciences, policy makers, and civil society based advocates, for example) that is necessary to address complex sustainability challenges of the twenty-first century.

He explored the audience with his collaborations that have many dimensions: they are simultaneously a problem of culture, of data, of infrastructure, and of ethics. Even as interdisciplinarity and collaboration have come to be valorized among scholarly and funding ecologies, models for actualizing such work are not yet readily available. Appropriate vocabularies, pedagogies, institutional reward structures, organizational modes, and ethical dispositions all need to be figured out still for meaningful interdisciplinary collaborations to take hold. The session ended with interaction with the participants and vote of thanks.

14:15- 15:45	3 D Printing in Medicine ( Dr. Falguni Pati)
15:45- 16:00	Tea
16:00- 16:05	Concluding remarks

**About the Speakers:**

**Dr. Anurag Tripathi**

He is an Assistant Professor in the Department of Physics at IIT Hyderabad.

He received his PhD in Theoretical High Energy Physics from HRI, Allahabad and pursued his postdoctoral research at University of Wuppertal, Germany and University of Torino, Italy before joining IIT Hyderabad.

His research interests are in the areas of QCD corrections, Resummation of soft and collinear gluons, Higgs boson Phenomenology.

**Dr. Harish N Dixit**

He is an Assistant Professor in the Department of Mechanical and Aeronautical Engineering at IIT Hyderabad.

He holds a BTech degree in Mechanical Engineering, Osmania Univ, MS in Mechanical, IIT Madras, and a Ph.D. from JNCR, Bangalore and pursued his postdoctoral research from Univ. Of British Cololumbia, Vancouver.

His research explores fundamental problems in fluid mechanics and hydrodynamic stability theory.

**Dr. Falguni Pati**

He is an Assistant Professor in the Department of Bio-Medical Engineering at IIT Hyderabad.

He holds Bachelor of Pharmacy from Rajiv Gandhi Univ. of Health Science, Karnataka and a Ph.D from IIT Kharagpur.

His research interests are in 3-D printing, biofabrication, tissue engineering and Regenerative medicine.

Sub: Proposal to organise one day inter-disciplinary seminar on 13<sup>th</sup> March 19

Dear Sir,

We would like to organise one day inter-disciplinary seminar in Physics Department on 13<sup>th</sup> March 19. We have contacted few eminent Scientists from various departments of IIT Hyderabad and they have kindly agreed to deliver lectures.

We believe that this would provide a platform to the faculty of our institute to share their experience and expertise with the researchers and would definitely open the window for collaborations. This also provides an ideal opportunity to the students to interact with them.

The Speakers are:

- 1) Dr. Anurag Tripathi, Ass Prof, Dept of Physics
- 2) Dr. Falguni Pati, Asst Prof, Dept of Biomedical
- 3) Dr. Harish N. Dixit, Asst Prof, Dept of Mechanical and Aeronautical Engineering

**Brief on one day seminar on Physics and its Applications in Engineering**

Dr Anurag Tripathi , Assistant Professor in the department of physics at IIT Hyderabad, delivered a session on Beauty,Symmetry and the Higgs Boson.

Dr Tripathi introduce about the notorious Higgs boson that has been discovered at the Large Hadron Collider at CERN. The Higgs is a subatomic particle whose existence was predicted by theoretical physics. Also termed the *god particle*, the Higgs boson is said to have given other particles their mass. Fundamental particles in our universe acquire mass through their interactions with the Higgs field. The Higgs boson can be a unique portal to finding signs of dark matter due to its own distinctive characteristics and properties. He explained about the symmetry of this particle and various models associated with it.

**Dr Harish N Dixit**, Assistant Professor from Mechanical department at IIT Hyderabad addressed the participants during session2 about a liquid drop bouncing on a surface always makes a contact with it.

When a liquid drop lands on a solid surface without wetting it, it bounces with remarkable elasticity<sup>1,2,3</sup>. Here we measure how long the drop remains in contact with the solid during the shock, a problem that was considered by Hertz<sup>4</sup> for a bouncing ball. Our findings could help to quantify the efficiency of water-repellent surfaces (super-hydrophobic solids<sup>5</sup>) and to improve water-cooling of hot solids, which is limited by the rebounding of drops<sup>6</sup> as well as by temperature effects.

Surfaces designed so that drops do not adhere to them but instead bounce off have received substantial attention because of their ability to stay dry<sup>1,2,3,4</sup>, self-clean<sup>5,6,7</sup> and resist icing<sup>8,9,10</sup>. A drop striking a non-wetting surface of this type will spread out to a maximum diameter<sup>11,12,13,14</sup> and then recoil to such an extent that it completely rebounds and leaves the solid material<sup>15,16,17,18</sup>. The amount of time that the drop is in contact with the solid—the ‘contact time’—depends on the inertia and capillarity of the drop<sup>1</sup>, internal dissipation<sup>19</sup> and surface–liquid interactions<sup>20,21,22</sup>. And because contact time controls

Liquid forms drops because it exhibits surface tension.<sup>(1)</sup>

A simple way to form a drop is to allow liquid to flow slowly from the lower end of a vertical tube of small diameter. The surface tension of the liquid causes the liquid to hang from the tube, forming a pendant. When the drop exceeds a certain size it is no longer stable and detaches itself. The falling liquid is also a drop held together by surface tension.

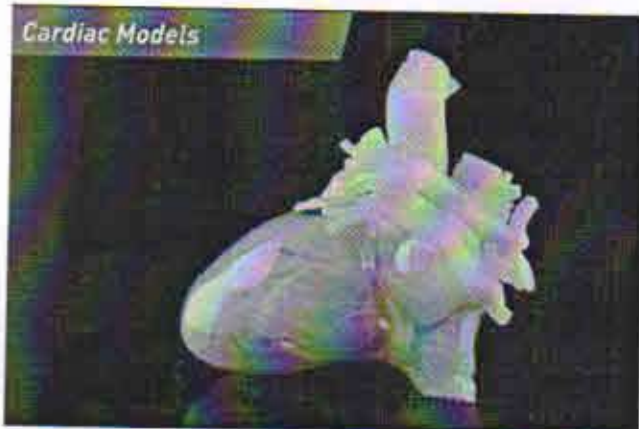

And also discussed about various experiments like viscosity and pitch drop experiments

To understand the contact time of the drop over the surface. The session is very interactive.

**Dr Falguni Pati, Assistant Professr from Bio-Medical Engineering at IIT Hyderabad** delivered an interesting lecture on 3D printing in Medicine. His session details are as follows

3D printing, also known as additive manufacturing, is based on the principle of layered manufacturing, in which materials are overlapped layer by layer. This technology can be used to quickly fabricate components with any complex shape by accurately accumulating material using solid modeling according to a computeraided design (CAD) model or computed tomography (CT) scan under computer control. The 3D printing industry has recently exploded due to the reduced manufacturing costs of 3D printers and to their improved printing precision and speed, allowing for huge advances in medical equipment, implant material, and cell printing. The preparation of organ models, rapid manufacturing of personalized scaffolds, and direct printing at the defect site can be achieved by 3D printing technology based on a patient's imaging data such as CT or magnetic resonance imaging. In this way, 3D printing technology brings new possibilities for building bionic tissue or organs and solving the donor-shortage problem. He has shown the research work at his work place.

### One Week Faculty Development Programme on UNIVERSAL HUMAN VALUES

July 2 – 6<sup>th</sup>, 2018

#### REPORT

A one-week faculty development programme on "UNIVERSAL HUMAN VALUES" organized by the Department of Physics, Chaitanya Bharathi Institute of Technology, Gandipet, Hyderabad within the campus from July 2<sup>nd</sup> to 6<sup>th</sup>, 2018, flagged off with a grand Inaugural session on 2<sup>nd</sup> July, 2018. The Principal of the Institute Dr. P. Ravinder Reddy graced the occasion and followed by the traditional lighting of the lamp. Delivered a motivating speech, reminding the need & benefits of Faculty Development Programs for the faculty and recalled how the management and the various departments makes efforts in motivating the faculty to enhance in their career with the skills attained while getting trained in the FDPs. He insisted the importance of Universal Human values to be invoke in our dally and professional lives, and the need to train the students too. He appreciated and encouraged the Head of Department and Faculty of Department of Physics, to conduct many more such sessions. After the convener outlined how the FDP is planned outlining the efforts put into it, he outlined the number and the different places from which the participants registered and participated. A Keynote Address, was delivered by the Keynote Speaker Prof. Sreenivas Sarma, who elaborated the importance of Universal Human Values in the society and how teaching acts as a bridge. He stressed the role of faculty in building a values and ethics-based society. Prof. K. Krishnaveni delivered a session on "The role of UHV in technical education", where she gave the definition of value education and how it helps one to understand 'what is valuable' for human happiness. The participants were made to understand the gaps in the present educational system where

complete emphasis is on science and technology and how 'Value education' when missed to be imparted will lead to counterproductive and serious crises at the individual, societal and environmental level inspite of faculty's tiresome effort.

On 3<sup>rd</sup> July, 2018, the resource person Prof. P. Sreenivas Sarma, delivered a thought provoking and interactive session on "Need for value education Program". He introduced how value education nurtures an individual to know himself and judge himself to take decisions, overcoming curiosity. He reminded how it develops in understanding one's own interests, attitudes, values and capacities. He said that this would help a person to first rejuvenate his own personality and become a resource person to many more in the society. The need to enhance the effort by a teacher to help the student develop positive and ethical competencies in addition to supporting and framing their academic achievement by careful crafting pedagogy for each individual student according the need is high lightened in this session by the resource person. In the noon session, Dr. G. Suresh Babu spoke on "Mulya Pravah", list of guidelines and its objectives framed to inculcate ethics and values in educational system identifying the need to create high quality practices and environment backed with human values and professional ethics in Higher Educational Institutions (HEIs). He also outlined Human Values and Professional Ethics, Values and Ethics for Stakeholders, stakeholder-Wise Implementation of Human Value and Professional Ethics in Higher Educational Institutions. He suggested to encourage students to practice moral values and ethics by explaining to them examples like the cherishing values followed by our freedom fighters for independence.

On the third day of the FDP, a session on "Happiness and Basic Human Aspirations" was delivered by Prof. P. Sreenivas Sarma. He started off the session, interacting with the faculty, the definition of "Happiness" collecting their opinions, and instructed how it's related with harmony and peace. He also insisted the importance and lead of the role of one's healthy and peaceful relationship with others and society. He reminded how humans are lacking happiness by wrongly connecting it to "prosperity". He aligned the participants to come up with their understanding and examples of "prosperity", and made them understand how happiness and prosperity are the bases of all our desires and the efforts. He insisted the need to assess one need of physical facilities, else how it lead to disharmony. He also

reminded the need to learn and utilize our intelligence effectively create a physical facility and lead a happy life. He trained the teachers how to promote these in our classroom teaching and pedagogy practices. Dr. A.V.N. Rao in the noon session resourced the participants by providing his thought-provoking ideas and opinions on "Harmony". He raised the importance for a student to understand values in human relationship, so that he can recognize the connectedness with every individual correctly and it becomes easy live in harmony with every human being-thus laying the foundation for an undivided society- from family to world family.

The role of "Trust & Respect" in building a value-based society was discussed in a session delivered on the fourth day of FDP by Dr. A.V.N. Rao. He outlined how knowing and understanding one's self, and the importance of building sound relationship with people around him and the society. And lead the discussion into the definition of Trust and Respect and their importance in peaceful relationship with the society. He said that the student needs to be trained to desire to see the others happy and earn trust from them. To maintain integrity and consistency in relationships, he insisted the self-examination of any lack of competence that leads others to hurt or loss and the need of right understanding of the intention of all the human beings around us. He gave hints and strategic plan of teaching the students to make them understand how this would improve his competence in others and in himself. He also lead the group to define "respect" as 'individuality' by gathering their opinions towards its definition and to understand how the sense of individuality is prime object towards respect. "Society and Nature" and its relationship with Universal human values were discussed in the noon session by Dr. G. Suresh Babu, wherein nbe introduced different levels of society and how an individual should be matured enough to accept everyone to bring harmony and happiness for himself.

On the final day of the FDP, "Professional Ethics" were discussed by the Resource Person-Prof P. Sreenivas Sarma, CBIT, Hyderabad. He insisted that developing ethical competence in the individual (profession) is the only effective way to ensure professional ethics and said that value education acts as a resource to achieve it. He guided the participants to understand that the competence in profession will only be the manifestation of one's right understanding, with illustrations. Need of clarity about comprehensive human

goal, Confidence in oneself, Clarity and confidence in ethical human conduct and its correlation with sustained personal as well as collective happiness and prosperity in professional grounds was highlighted. In light of these, he added that one's ability to identify and develop appropriate technologies, production systems etc adhering to people and eco-friendly principles. This was followed by Valedictory function, where faculty gave their summaries of what they've learnt in the form of feedback and it ended with vote of thanks by the convener of the programme.

**About College:** CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY, established in the Year 1979, esteemed as the Premier Engineering Institute in the States of Telangana and Andhra Pradesh, has been promoted by a Group of Visionaries with an objective to facilitate the Engineering and Management Education and contribute towards meeting the needs of Skilled and Technically conversant Engineers and Management Professionals across Industries. The Institute, committed to Education and Innovation, about the 40 Years, has emerged as a Dream Destination for; Students seeking to excel in Engineering and Management Education, Teaching Community to progress with a rewarding Career and Corporates to source well-rounded Engineers. With the Students being the singular Objective, the Institute has established excellent Academic Infrastructure such as State-of-the-Art Laboratories, Library, Sports, Hostel, and other Infrastructure for Extra and Co-Curricular Engagements, in the serene Ambience of 50 Acres to inspire, encourage and pursue Academics.

**About FDP:** As per the guidelines of AICTE, it is mandatory to complete Universal Human Values course by every undergraduate student of Engineering. It is also a component during the Student Induction Program for the newly joined students. Main Purpose behind this initiative is to set a healthy daily routine, create bonding in the batch as well as between faculty and students, family and in turn society. It is of utmost importance that the faculty members/teachers are well equipped and prepared to teach UHV and The FDPs like this will help in training the faculty members.

**Registration:** Teachers engaging or interested to engage UHV classes in AICTE approved institutions are eligible for participation. As the programme is of more interactive nature, number of participants is limited to 30. The participants are selected on first come first serve basis. The selected participants will be intimated by 20<sup>th</sup> June, 2018. There is no registration fee.

**Guidelines for participation:** The programme is scheduled daily from 10:00AM to 4:00PM. Attendance to all sessions is mandatory. Certificates will be awarded to all the participants who submit assignments/project report.

CBIT, established in 1979, is the premier Engineering College in the self-financing category in united Andhra Pradesh(India) now in state of Telangana. It was started under Chaitanya Bharathi Educational Society (CBES), by fore-sighted philanthropists belonging to various walks of life with a mission to promote quality technical education and give the nation self reliant engineers and entrepreneurs. CBIT is a dream destination for engineering and over the past 34 years it has produced about 18,500 eminent and skillful graduate engineers, who are successful in their careers, serving all over the World. CBIT has been Accredited four times by NBA (AICTE) and also accredited by NAAC • UGC. UGC has granted Autonomous status to this Institute from the academic year 2013-14 onwards. CBIT is also the first ISO 9001-2008 certified Engineering Institution in state of Telangana.

Department of Master of Computer Applications (MCA)

Master Of Computer Application Programme was started in the department of CSE in the year 1991 with an intake of 30 and subsequently increased to 60 in the year 2000. The MCA department has been formed full-fledged since September 2008. The Department has well qualified and experienced faculty with one Professor, four Associate Professors, two Senior Assistant Professors and two Assistant Professors. The department has good infrastructure facilities with full-fledged laboratories. The staff members are deputed to participate in International conferences, Symposia, Workshops and Refresher courses to keep in pace with recent developments in the field of Information Technology.

About the Workshop

The purpose of this one-day workshop is to introduce the participants to fundamentals of software testing, such as category-partitioning, test oracles, test coverage including MC/DC coverage, code instrumentation, unit testing, acceptance testing, user stories, and regression testing. Lectures on these fundamentals are supported by

by hands-on exercises in which participants use unit testing tools to develop a few test cases, instrument the code of the application under test to collect data to be used for code coverage analysis, and execute the tests. The workshop covers advanced topics in test automation as well, including pair-wise testing, AI planning, iterative relaxation event-flow graphs, GUI testing, predicate & heuristic based testing, "daily/nightly" builds and smoke tests, network protocol and web testing, and performance testing. In order to provide a holistic treatment of the topic, the workshop discusses testing broadly within the context of Software Engineering Requirements (UML), Design, Sequence Diagrams, Use Cases, and component-based software engineering.

**DATE OF WORKSHOP : 16/3/2019**

**PLACE : C 203 SEMINAR HALL, CBIT**

The Total number of participants are : 94 (12 Staff members and 82 Students )

Speaker 1 : Mr. I. Surya Prakash, Senior Project Leader, Tech Mahindra - Hyderabad

Speech Content : He said the various Skills required to become a Software Tester. Some of the skills are Analytical skills, Communication skill, Time Management & Organization Skills, GREAT Attitude and Passion

**Technical Skills** : Basic knowledge of Database/ SQL, Basic knowledge of Linux commands, Knowledge and hands-on experience of a Test Management Tool, Knowledge and hands-on experience of any Defect Tracking tool, and Knowledge and hands-on experience of Automation tool.

Speaker 2 : Mr. B. SRIHARI, Project team member, Tech Mahindra - Hyderabad

Speech Content : Selenium is a free (open source) automated testing suite for web applications across different browsers and platforms. It is quite similar to HP Quick Test Pro (QTP now UFT) only that Selenium focuses on automating web-based applications. Testing done using Selenium tool is usually referred as Selenium Testing.

Selenium is not just a single tool but a suite of software's, each catering to different testing needs of an organization. **It has four components.**

- Selenium Integrated Development Environment (IDE)
- Selenium Remote Control (RC)
- WebDriver
- Selenium Grid

A brief report on One day Seminar: "Advances in Animal Biotechnology"

**Speaker 1: Dr.Ravi Gandham**

Dr. Ravi spoke about the viral infections in sheep and goats. He has selected an anti viral vaccine strain and performed extensive work on RNA transcriptomics for the identification of genes involved in PPRV infection in sheep and goats. His talk mainly hilights the scope, importance and application Next generation sequencing in gene identification.

**Speaker 2: Dr.Bappaditya Dey**

Dr. Bappaditya dey work in the area of *Mycobacterium tuberculosis* and its infection strategies. He spoke how the MTB infects and cause disease in animals and humans. Moreover he also discussed about the possibility of vaccines and cure for MTB infection using probiotics as source. His contributions towards science has granted him two Indian patents and also one US patent. His main contribtion of works include the use of combination of vaccines which has greater efficacy toward providing immunity.

**Speaker 3: Dr.Prasad Rao H**

Jr. Prasad has extensively worked in the area of human genetics and reproduction. His talk is mainly on the concepts of genes identification at oell stages and suggesting the possible correction for having the offsprings without any genetic disorders. His work includes the arrest of the death of oocytes in females which are important for the production of eggs without any genetic orders, and also to increase their life span. His work is application oriented such that in cattle this would revolutionize the population.

**Speaker 4: Dr.Satya Pal Arya**

Dr. Satya has introduced us about the genome editing techniques and CRISPR-CAS9 technologies and their applications. He also demonstrated the animations how to use the genome editing technologies. He also provided quite number of examples which are the results of the Genome editing such as Horns less cows, MTB resistant sheep etc.

**Speaker 5: Dr.Abhijit Deshmukh**

Abhijit Deshmukh has given general introduction about the cloning of the genes of interest and about the different types of vectors. He interacting with the students by asking many question related to the molecular biology and genetics. He explained the characteristics of the vectors for the production of desired protein in bacterial systems.

## Manipal Institute Of Technology

Manipal Institute of Technology (MIT) was established in 1957 as one of the first self-financing engineering colleges and is recognized as one of the top private engineering institutions in India. In 2000, it became a constituent institute of the deemed university Manipal Academy of Higher Education (MAHE). MIT is offering the undergraduate and post graduate and Ph.D. programs in engineering with state-of-art class rooms and laboratory facilities. The academic programmes are approved by AICTE and accredited by NBA.

## Department Of Biotechnology

The Department of Biotechnology, MIT, Manipal was founded in the year 2005. The department has State-of-the-art infrastructure, well defined and updated curriculum, and wide range of electives to encourage interdisciplinary research. The faculty are highly qualified and experienced with research interests in diverse and emerging areas of biotechnology. The department has received up to 1 crore in research grants from various funding agencies.

10 OCT

The Institute of Engineers, Biotechnology Chapter (IERT) is a premier society of Indian engineers from MIT, Manipal, which organizes technical and non-technical activities relating to different aspects of biotechnology. Symbiot is a national level symposium conducted annually by IERT, manipal with the aim of providing participants an exposure to a real-life work environment. Every year more than 200 students from all over the country take part in this event.

Dear Dr.Kapil Sharma,

We would like to bring your kind notice and consideration that we would like to have a Guest lecture on "Advances in Metabolomics". As you are an expert in the field of Metabolomics we request you to kindly deliver the lecture on 10-10-2018, 1:20 PM to 3:20 PM at our Department, CBIT. Please kindly accept our invitation for delivering lecture and also kindly write confirmation mail to us at the earliest.

Thanking you,

Organized by  
Department of Biotechnology

Chaitanya Bharathi Institute of  
Technology (A)  
Affiliated to Osmania University  
Accredited by NBA-AICTE,  
NAAC(A)-UGC  
An ISO 9001:2015 Certified

Institution  
Chaitanya Bharathi Post. Gandipet  
Hyderabad - 500075  
Telangana State

### About CBIT (Autonomous)

Chaitanya Bharathi Institute of Technology (A) is one of the premier engineering colleges in the self financing category in Telangana. It has been accredited five times by NBA and two times by NAAC. It is also the first ISO 9001:2008 certified engineering institute in Telangana. The college offers 9 UG and 11 PG programmes. Brilliant and meritorious candidates with top EAMCET ranks seek admission in CBIT. The pass percentage of our college is consistently 95% on an average, out of which, 80% of the students are passing out either in distinction or in first class. More than 75% of the students are being placed in nationally and internationally reputed companies through campus placements. The remaining students pursue higher education or go for jobs in PSU's.

### About the Department

The Department of Biotechnology was started in the year 2005 with an intake of 60 seats with AICTE approval. Since, its inception the department has been striving to establish as an excellent academic and research

Key strengths of the department include 10 qualified full time faculty members from different academic backgrounds, such as Biotechnology, Life sciences, Chemical Engineering etc. The department has full fledged assistance and technological feedback for strengthening the areas of R & D from Osmania University, Hyderabad, UOH, ICRISAT and Dr. Reddy Labs. The focus of the department is presently to train the students in various theoretical and practical aspects of Biotechnology. The department has state art of the laboratory facilities in the fields of Genetic Engineering, Microbiology, Immunology, Bioprocess Engineering, Tissue Culture, Biochemistry, Bioinformatics. In addition to the formal education with an intensive practical exposure, the students are encouraged and guided to conduct and present papers, attend workshops and seminars to get them acquainted with the latest and recent trends in science and technology.

students in Phylogenetics theory and its application and also on Gene expression profiling in Bacteria using *in silico* methods. The major objective of the workshops is to provide hands on experience by the use of datasets available on the world-wide-web and also the data generated in *in-house* and the different software currently available for biologists across India. The workshops cater for researchers that have a basic to advanced background in the field of Phylogenetics and also Analysis of gene expression in Bacteria.

## Day 1

15<sup>th</sup> March, 2019

- 9:30 am onwards Registration (N-Block, Seminar hall, ground floor)
- 10:00 am -10:40 am Inaugural Function (Venue: N-Block, Seminar hall, ground floor)
- 10:45 am - 11:45 am Talk by chief guest  
**Prof.H.A.Nagarajaram**  
 HOD., Dept.of Systems & Computational Biology,  
 School of Life sciences,  
 University of Hyderabad.
- 11:50 am -12:00 pm Tea Break
- 12:05pm - 1:00pm Lecture by  
**Dr. N.Nageswara Rao Reddy**  
 Assistant professor,  
 Dept.of Biochemistry & Bioinformatics  
 GITAM University ,Visakhapatnam  
 (Venue: N-Block, Seminar hall, ground floor)  
 Topic:*Molecular Phylogenetics: Principles, Practice and Applications*
- 1:05pm - 2:00pm Lunch Break
- 2:00pm - 4:00pm Hands on training by Dr. N.Nageswara Rao Reddy  
 Venue: (Training and Placement Cell)

**Day 2**

**16<sup>th</sup> March, 2019**

**10:30am – 11:30am**

**Lecture by**  
**Prof.J.S.S.Prakash**  
Professor,  
Dept.of Biotechnology & Bioinformatics  
School of Life Sciences ,University of Hyderabad.  
**(Venue: N-Block, Seminar hall, ground floor)**  
**Topic: Gene Expression Profiling in Bacteria**

**11:35 am – 11:50 am**

Tea Break

**11:55 am – 1:00 pm**

**Hands on training by Prof.J.S.S.Prakash (Session 1)**  
**Topic: DNA Micro array & Cluster analysis of Gene Expression**

**1:00 pm--1:45pm**

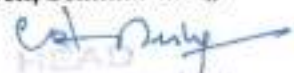

Lunch Break

**1:50 pm – 2:00 pm**

**Hands on training by Prof.J.S.S.Prakash (Session 2)**  
**Topic: DNA Micro array & Cluster analysis of Gene Expression(Continued...)**

**2:10 pm – 4:00 pm**

**Valedictory function and certificate distribution**

#### About CBIT (Autonomous)

Chaitanya Bharathi Institute of Technology (A) is one of the premier engineering colleges in the self financing category in Telangana. It has been accredited five times by NBA and two times by NAAC. It is also the first ISO 9001:2008 certified engineering institute in Telangana. The college offers 9 UG and 11 PG programmes. Brilliant and meritorious candidates with top EAMCET ranks seek admission in CBIT. The pass percentage of our college is consistently 95% on an average, out of which, 80% of the students are passing out either in distinction or in first class. More than 75% of the students are being placed in nationally and internationally reputed companies through campus placements. The remaining students pursue higher education or go for jobs in PSU's.

#### About the Department

The Department of Biotechnology was started in the year 2005 with an intake of 60 seats with AICTE approval. Since its inception the department has been striving to establish as an excellent academic and research

ambience. Key strengths of the department include 10 qualified full time faculty members from different academic backgrounds, such as Biotechnology, Life sciences, Chemical Engineering etc. The department has full fledged assistance and technological feedback for strengthening the areas of R & D from Osmania University, Hyderabad, I OHL, ICRISAT and Dr. Reddy Labs. The focus of the department is presently to train the students in various theoretical and practical aspects of Biotechnology. The department has state art of the laboratory facilities in the fields of Genetic Engineering, Microbiology, Immunology, Bioprocess Engineering, Tissue Culture, Biochemistry, Bioinformatics. In addition to the formal education with an intensive practical exposure, the students are encouraged and guided to conduct and present papers, attend workshops and seminars to get them acquainted with the latest and recent trends in science and technology.
