Instructions/Guidelines to be followed by the University/Institution

I. Disbursement of funds to University/Institutions

- The full amount of the grant sanctioned is being released as advance to the University/Institute.
- The amount spent by the institute on the conduct of STTP shall be adjusted on the basis of utilization certificate and detailed expenditure statement submitted by the University/Institution on the prescribed format along with other mandatory documents viz feedback form, copy of proceedings and completion report etc.
- The above said amount of grant shall be refunded back to AICTE if the Letter of Approval (LOA) / Extension of Approval (EOA) is not issued by AICTE to the institute for the academic year 2019-20.

II Maintenance of Accounts

- The Institute shall strictly follow the provisions laid down in the scheme document as available on the portal.
- Funds covered by this grant shall be kept separately and would not be mixed up with other funds so as to know the amount of interest accrued on the grant.
- The University/College/Institute shall maintain proper accounts of the expenditure out of the grants, which shall be utilized only on approved items of expenditure.
- The grant is intended to cover items of expenditure connected with the Short Term Training Programme such as Boarding & Lodging to the participants, TA to outstation participants, Honorarium to Course Coordinator, reading material to participants, Honorarium to resource persons, TA/DA to resource persons including two outstations resource persons & working expenses (reprographic services, postage, transport, daily wages, tea/coffee etc.

III. Conduct of test and issuance of certificate

A test shall be conducted by Program Evaluation Committee (PEC) at the end of the program and the certificates shall be issued to those participants who have attended the program and have qualified in the test.

IV. Submission of Documents by the University/Institutions to AICTE

- The following mandatory relevant documents are required to be submitted by the University/Institution within one month of the completion of the program:-

a. The following mandatory relevant documents are required to be submitted by the University/Institution within one month of the completion of the program:-

- (i) Original Statement of actual expenditure & Utilization Certificate in the prescribed proforma duly signed by the Head of the institution and countersigned by Registrar/Finance Officer/Govt. Auditor. In case of self-financing/private institutions, Statement of actual Expenditure & Utilization Certificate are required to be audited & signed and sealed by a Chartered Accountant endorsing the membership number and complete postal address. Format for the same is available on AICTE web portal.

The University/Institution is not required to submit bills/vouchers/invoices etc for the expenditure incurred out of recurring grants. However, such copies of bills/vouchers/invoices shall be digitized by respective institutions receiving grant and uploaded scanned copies of such bills/vouchers/invoices etc on the portal for availability and view at any point of time.

- (ii) Feedback form in the prescribed proforma.
- (iii) Copy of the proceedings and completion report.
- (iv) List of candidates who have successfully completed the program on the basis of the test conducted by Program Evaluation Committee (PEC).
- (v) Report submitted by Program Evaluation Committee (PEC).

b. The amount of the grant shall be adjusted on submission of utilization certificate & detailed expenditure statement by University/Institution. On receipt of these documents, the total amount of financial assistance, admissible as per the norms, shall be worked out and grant-in-aid adjusted.

V. General Instructions

- a. Preferably 10% of the participants may be industry professionals deputed by industry. Further, not more than 2 participants shall be from the host institution/group of institutions.
- b. Money to be reimbursed on the grant (for any reasons to include unspent amount, interest, penalty if imposed) shall be refunded back to AICTE in the form of Demand Draft payable to Member Secretary, AICTE, New Delhi.
- c. As AICTE needs adequate time for depositing the Demand Draft in the bank, the same be immediately dispatched to avoid any lapse of the validity period.
- d. The STTP is a residential program of a duration of six days with minimum 40 participants. The approved STTP shall be conducted within three months from the date of release of funds.
- e. If programme is not conducted in the period of three months of the issuance of this Sanction Order, the released amount, alongwith interest accrued thereon, has to be necessarily returned back to AICTE within a month.
- f. The expenditure under the Heads 'Honorarium to Course Coordinator' and 'Honorarium to Resource Persons' shall not exceed 1% & 20% respectively of the total sanctioned grant for the Programme. However, overall expenditure shall not exceed the funds sanctioned for the Programme.

- g. Any extra money required to complete the programme must be borne by the institute from their own resources. But the quality of the activities should not be compromised.
- h. Any unavoidable circumstantial change in the program with respect to name of Project Coordinator, Venue and date for organizing STTP would mandatorily require prior approval of the Council. All such requests should be addressed to AICTE, in advance, recording the specific reasons for proposed changes, failing which the offer for the grant already issued would be treated as automatically withdrawn and the financial assistance released in favour of the beneficiary institution shall be refunded immediately to the Council. Kindly mention the File No. 34-65/288/RIFD/STTP/Policy-1/2018-19 in your future correspondence.
- i. **Program Evaluation Committee (PEC)** is required to be constituted at institutional level. The constitution of the PEC shall be as under:
- (i) Principal/Director/Registrar of the institution (Chairperson).
 - (ii) Coordinator of the program (Member Secretary).
 - (iii) Two HoDs and one subject expert (members).

The members of the said PEC shall not be below the rank of Associate Professor. A test shall be conducted by Program Evaluation Committee (PEC) at the end of the program and the certificates shall be issued to those participants who have attended the program and have qualified in the test. The minutes of the meetings, along with PEC report, are to be submitted to the Council at end of the program along with other mandatory documents.

- j. **GoI GFR rules** (@<https://doe.gov.in/order-circular/general-financial-rules2017-0>) should be followed during utilization of grant.
- k. This Sanction Order may be treated as Offer Letter for all purposes.

NOTE:- Any deviation from the above will invoke serious action against the Institute.

Yours sincerely,

(Dileep N Malkhede)

Sub:-For information of AICTE approved institutes which have received grants for conducting STTP's/FDP's under AQIS 2018-19.

Sir,

This is in reference to grants released by AICTE under AQIS 2018-19 for conduct of STTP's/FDPs. It is being observed that due to present circumstances of ongoing pandemic of COVID-19, most of Institutes are facing difficulties in organizing and conducting STTP's. This office has received a number of requests from various institute to allow on line method of conducting STTP/FDP to complete their commitments.

In this regard, it is to inform that all such institutes, which have already received grants for conducting STTP's/FDPs through prevailing contact mode, are **allowed to conduct STTP's through online mode subject to following conditions:**

- (i) The Institute will be allowed to adjust the grants received for STTP at following rates:-

a.	Honorarium for Coordinator	Rs. 5000.00
b.	Honorarium to experts	Rs. 75000.00
c.	Provision for payment to lab attendant engaged during lab practices	Rs. 3000.00
d.	miscellaneous charge	Rs. 10000.00
	Total for each STTP's	Rs 93000.00

- (ii) The Institute will conduct more than one STTP's in multiples of Rs. 93000.00 within the total grant received by it and shall return the balance unspent amount to AICTE.

e.g.

if an Institute has received grant for STTP,	=Rs 3,00,000.00
Cost of three STTP	3x93000= Rs. 279000.00
Balance	= Rs. 21,000.00

The institute will return the balance unspent amount of Rs.21,000.00 alongwith interest earned on such amounts to AICTE while submitting UC for adjustment of accounts for keeping its eligibility for receiving grants in next AQIS.

- (iii) The institute will conduct all three STTP's as explained above on the same topic which has been approved by AICTE while releasing the grants.
- (iv) Firm dates for each program will be intimated to AICTE beforehand.

On similar lines FDP (02 week program) to be conducted online has the following approval totaling to Rs. 1,86,000.00.

a.	Honorarium for Coordinator	Rs. 5000.00
b.	Honorarium to experts	Rs. 1,68,000.00
c.	Provision for payment to lab attendant engaged during lab practices	Rs. 3000.00
d.	miscellaneous charge	Rs. 10000.00
	Total for each FDPs	Rs 1,86,000.00

The conducting of FDP's (two weeks program) shall be subjected to the similar conditions (i) to (iv) given above for conduct STTP courses, except rates of Honorarium to experts.

You are requested to acknowledge receipt of above guidelines and convey your consent if your institute is ready for conducting the STTP through online format on conditions explained above.

It is once again reiterated that online conduct of FDP & STTP will be on explicit permission of AICTE.

Yours sincerely,

ELECTRIC DRIVE UTILITIES IN
TRANSPORT SECTOR**

03rd – 08th August, 2020

Organized by

**DEPARTMENT OF ELECTRICAL
AND ELECTRONICS ENGINEERING**

CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY(A)

CBIT is one of the premier Engineering Institute in INDIA, pioneer in Telangana State, which is at idyllic surroundings of Gandipet Lake, Hyderabad. The college offers Nine UG and Eleven PG programs. It has been standing as a temple of knowledge for the past 41 years by producing about 25,000 Eminent and skillful Graduate Engineers, who are successful in their Careers, serving all over the world. The Institute has been Accredited by NBA--AICTE and NAAC--UGC. UGC has granted Autonomous Status from the Academic Year 2013-14 onwards. The Grants received from AICTE/UGC are worth about Rs. 2.5 Crores. Brilliant and Meritorious Candidates with good EAMCET Rank are seeking admissions at CBIT. CBIT Students are prepared and perfected to secure Placements in MNCs through College Career Development Center.

ABOUT THE DEPARTMENT

CBIT started Electrical & Electronics Engineering UG course in 1994 and was accredited thrice i.e. in years 2004, 2008 & 2013 by NBA. The intake was increased from 60 to 120 from the Academic Year 2013-14. The Department started offering a PG course in Power Systems & Power Electronics in 2006 with an intake of 18 and was accredited by NBA in the year 2016. The Department has highly qualified and experienced faculty. The Department is having well equipped labs with latest Hardware & Software. The Department is also certified by ISO 9001:2008. The Department is recognized as Research Centre in 2017 by Osmania University to carry out research for the award of Ph.D. degree. The Department is keen on developing consultancy services and welcomes funding research from outside agencies. The Department in the year 2019-20 has received a funding of Rs.2,72,000 under AICTE-STTP Scheme for MATLAB Research Methodology project, Rs. 3,00,000 under AICTE-STTP scheme for Hybrid Electric Utilities Project and Rs.11,00,000 under AICTE-RPS Scheme for Development of Low Cost Flexible Quality Conditioner to Mitigate Power Quality Issues and MODROBS for special electrical machines to the tune of Rs.17 Lakh.

ABOUT THE STTP

Deterioration in air quality, global warming, and a decrease in petroleum resources are becoming the major threats to human beings. More and more stringent emissions and fuel consumption regulations are stimulating an interest in the development of safe, clean, and high-efficiency transportation. It has been well recognized that electric, hybrid electric, and fuel-cell powered drive train technologies are the most promising solutions to the problem of land transportation in the future. In recent decades, the research and development activities related to

transportation have emphasized the development of high efficiency, clean, and Modern Electric, Hybrid Electric, and Fuel Cell Vehicles safe transportation.

Topics to be covered in STTP

- Over View of Electric Vehicle
- Govt. Policies and Guide Lines
- Special Electrical Machines
- Batteries for Hybrid Electric Vehicles
- Testing and Certification
- Electric Vehicle Design
- Axial Flux Machines
- Hybrid Electric Vehicles

RESOURCE PERSONS

Resource Persons will be from Renowned Institutions such as IIT's/NIT's, Industries like Tata Motors, and host Institution.

TARGET GROUP

The STTP is expected to benefit Engineers, Scientists, Researchers and Academicians who are working / Teaching / studying in the area of Hybrid Electric Vehicles.

Report on AICTE Sponsored STTP on “TRENDS & CHALLENGES OF HYBRID ELECTRIC DRIVE UTILITIES IN TRANSPORT SECTOR” during 03th - 08th August 2020

Totally 159 participants from 15 states registered for the STTP, but 106 participants regularly attended the program out of which only 91 received certificates by clearing the end examination with equal to or more than 60% in which was conducted on the last day i.e. on 08-08-2020. Every day three sessions are conducted (two in the morning and one in the evening) which is of 1 ½ hour duration. The program was conducted on google-meet platform. After the completion of each session the attendance and feedback forms are shared in the chat box. The detailed report of each session is given below.

03-08-2020

Session-1

Time: 10:40 AM to 01:10 PM

Speaker: Dr. U.K. Choudhury, Prof. & Director(I&I), CBIT, (Ex ED, CTM, BHEL)

Topic: Introduction to Electric Mobility, Policy and Guidelines, Trends and Challenges

The session started with Parts of electric vehicle, difference between ordinary vehicle & electric vehicle, Shape of the front panel of the vehicle & its impact on energy consumption, Electric bus layout, importance of electric vehicle power train, Challenges/barriers to electric vehicles in terms of Technical, Infrastructural, Market & Policy. The he compared the components & distribution of energy losses in diesel bus & battery-operated bus like aerodynamic losses, braking losses wheel losses, Transmission losses, Engine/Battery losses and ancillary losses. He concluded the session with Indian Government Initiatives toward electric vehicles like NMEM, NEMM, EVI, FAME-1 & Fame-2

03-08-2020

Session-2

Time: 02:15 AM to 04:10 PM

Speaker: Dr. U.K. Choudhury, Prof. & Director(I&I), CBIT, (Ex ED, CTM, BHEL)

Topic: Permanent Magnet Motor Drives for Electric Mobility

In this session, the advantages, classification and applications of the permanent magnet machines are discussed. The performance requirement of electric vehicle in terms of torque density, power density speed range, efficiency, hill climbing, intermittent overload capacity, overtaking, reliability, robustness, low acoustic noise and reasonable cost are discussed. Sir shown different pictures of permanent magnets, precision thin material, flexible magnets and the comparison between various magnets are discussed. Domain movement during magnetization, magnetizer and critical points for permanent magnet generators are deliberated.

04-08-2020

Session-1

Time: 09:30 AM to 11:00 AM

Speaker: Mr. Balwanth Reddy, Dy. Manager, BHEL R&D

Topic: Power Electronic Converters for Electric Mobility

Session started with the basic components of Power electronics, Significance of Static switches, PI control gains in the design of power converters, Importance of IGBT in the medium voltage high current applications, Intelligent power modules, Latest materials used in power devices like Silicon carbide, Gallium Arsenide, Thin Film, Superconductors etc. then presented the types of electric vehicles, Basic design aspect of converters like Importance of technical specifications, Application standards, selection of semiconductor device, EMI/EMC standards, DC link capacitor. The continued with Scalar & vector control of induction motor.

Report on AICTE Sponsored STTP on “TRENDS & CHALLENGES OF HYBRID ELECTRIC DRIVE UTILITIES IN TRANSPORT SECTOR” during 03th - 08th August 2020

04-08-2020

Session-2

Speaker: **Dr. U.K. Choudhury, Prof. & Director(I&I), CBIT, (Ex ED, CTM, BHEL)**

Topic: **Hybrid Electric Vehicle, Regenerative Braking and Future Trends**

The resource person has given overview of future advancements in e-mobility. This lecture mainly focused on Regenerative braking, Hybrid Electric Vehicle (HEV), Hydraulic Hybrid Vehicles. He discussed about the complexity in the design of HEVs than IC engine vehicles in all the aspects. He deliberated about advantages and disadvantages of different configurations of HEVs, Types of HEVs. He quoted different topics of research requirements on energy storage systems, regenerative braking, vehicle dynamics and optimization, Challenges in power electronics, vehicle control.

04-08-2020

Session-3

Speaker: **Dr. Y. Chandrasekhar, Dept of EEE, NITW**

Topic: **Optimal Dispatch of Electric Vehicle Battery in EV Charging Stations and Its Impact on Distribution**

The session started with a novel dispatch strategy to determine, when and at what rate EV battery should charge/discharge in order to maximize profits to EV owners and responding to power system's requirements while considering the effect of renewable DG power availability. This objective depends on many criteria like buying and selling price of energy, battery state of charge (SoC), Renewable DG power availability, and load levelling. The optimal dispatch strategy is applied to 100 and 200 EV fleets with random travel plan, the effect of these fleets with optimal dispatch strategy is tested on IEEE 33 bus distribution system with added DGs. Furthermore, optimal power dispatch of DGs in EV-rich distribution system is explained with BAT optimization algorithm (BOA).

05-08-2020

Session-1

Speaker: **Mr. M. Desai, DGM, ARAI, Pune**

Topic: **Testing Standards for Electric Vehicle and Its Components**

In this session Desai sir quoted the importance of regulatory mechanism like standardization, type of approval/certification Agencies, regulation frame work for electric vehicle under CMVR for 250W-EV, E-Rickshaw/E-cart vehicles. The electric vehicle approval requirements like AIS 038: Constructional & functional safety requirements like traction battery, protection against electric shock, high voltage marking etc. Then continued with AIS:039-Electrical energy consumption, AIS:040-Measurement of range, AIS:041-Maximum Power test, AIS:049-EV Specific requirements like grade-ability test at 60% of State of Charge. Battery Management System, AIS:048-performance and abuse testing for traction batteries are discussed. Then continued with the topics like Present scenario in India, new battery safety standard, Charges/Charging stations like conductive & inductive charging, EV Charging: Ministry of power Guidelines, Different types of charges and charger standards. The session ended with Vehicles converted to Electric-Hybrid, Hybrid vehicle regulations in India, e-motor test bed for 3-10 kW motors, Characterization of Li-ion Cell, module & pack, challenges with adoption of Electric Mobility and the role of Government agencies in India.

Report on AICTE Sponsored STTP on “TRENDS & CHALLENGES OF HYBRID ELECTRIC DRIVE UTILITIES IN TRANSPORT SECTOR” during 03th - 08th August 2020

05-08-2020

Session-2

Speaker: **Sri Y.K. Lee, MD, Edison Motors**

Topic: **Development of Electric Vehicle by Edison Motors Korea and Special Design Features**

Started with the introduction of Edison motors, their vision & mission from value market to trust market and its operating policy. Then their product electric bus constructional details, Power train, battery & Motor positions in cars, how they entered in Indian market with accelerated adoption of alternate fuels like CNG/LNG/Hybrid/Electric vehicles. He discussed about types of Li-Ion batteries, challenges with adoption of electric mobility, role of Ministry of Heavy Industry, Ministry of Road Transport to manufacture electric vehicles. Concluded the session with the products of Edison motors and their specifications.

05-08-2020

Session-3

Speaker: **Mr. S. Ravi, Hybrid fuel solutions Pvt. Ltd**

Topic: **Fuel Cell and Its Application for Electric Vehicle**

This session concentrated on basic components of fuel cells like PEM stack, Balance of plant, membrane electrode assembly etc. then discussed about hybrid fuel cells, bipolar plate fabrication cell, stack assembly, stack testing BOP components like blowers, LCD, Load connectors, Controller, Short Circuit unit are exemplified. Then depicted the MEA assembly unit, its requirements and applications of fuel cells in practical application like operating excavators in remote areas. Continued with the necessity of supercapacitor, DC-DC converter, Dc-bus in the system. He quoted that the fuel cell fleet is now mostly hydrogen fuelled.

06-08-2020

Session-1

Speaker: **Mr. S. Eswar Rao, Sr. DGM, BHEL R&D**

Topic: **Charging Station for Electric Vehicle**

Sri S. Eswar Rao sir has discussed charges for electric vehicles, batteries for e-mobility to meet the challenges of electric vehicles such as waiting time for recharge, range anxiety, high initial cost etc., continued his session with understanding battery characteristics and battery management system. Then explained about types of charging standards, dc charging station architecture, dc fast charger developed by BHEL, topology of high frequency-based charger, design of controller for grid connected converters, solar based ac charging stations, weigh side charging infrastructure, types of charging, difference between continuous charging and conductive charging. Concluded his session with on-board charges, off-board charges and types of chargers like Level-1, Level-2, Level-3 etc.

06-08-2020

Session-2

Speaker: **By Mr. A. Venkanna, Deputy Manager, EM Lab, BHEL**

Topic: **Liquid Cooled Induction Motor for Electric Mobility**

Report on AICTE Sponsored STTP on “TRENDS & CHALLENGES OF HYBRID ELECTRIC DRIVE UTILITIES IN TRANSPORT SECTOR” during 03th - 08th August 2020

Introduced water cooled induction motor application for electric vehicle. The first step is customers specification like cost, weight, volume and efficiency, IP 69 K requirements, motor mounting configurations. The main advantage of liquid cooling system in transportation is at the time of starting, overtaking of the vehicle and during transmission of vehicle on gradient surfaces. Then he continued his session on air cooling and water-cooled induction motors. Depicted the cross-sectional view of water-cooled induction motor. Then he concluded the session with electro magnetic design and analytical design of induction motors.

06-08-2020

Session-3

Speaker: **Mr. Y. Rama Rao, COO, M/s Deccan Auto**

Topic: **Design of an Electric Vehicle**

Explained about growing economy power in India. India stands fifth position in auto mobile industry. Hence the solution for future transportation is e-mobility. Given a comparison between IC engine and Electric vehicles. explained about batteries and their costs for electric vehicles. He also presented the statistics of electric car. Discussed in detail about electric charging regulations in India. Concluded the session with development challenges, electric vehicle safety, operability, centre of excellence on e-mobility.

07-08-2020

Session-1

Speaker: **Dr. P. V. N. Prasad, Prof. (Rtd), Dept of EE, OUCE**

Topic: **Reliability Modeling and Assessment of Hybrid Electric Vehicles**

In this session the importance of reliability in Hybrid Electric Vehicles is discussed. The need of reliability assessment is required because of the increasing automation, complexity in the system, Failure & Repairs, Quality of product, Reduction of overall cost. Two types of assessment viz. Past & Future assessment are discussed. The four parts of reliability are probability, adequate performance, Time, Operating conditions are introduced. Various reliability indices are like number of failures, average time between failures, average down time energy loss, revenue is quoted. The maintainability, availability and bath tub model is conferred. The Markov models for series-hybrid, Parallel hybrid and Series-Parallel Hybrid Electric Vehicles are discussed. Concluded that parallel-hybrid is more reliable than series-hybrid Electric Vehicles.

07-08-2020

Session-2

Speaker: **Mr. Jatil Sharma, MD, Tejaswi Green Engg. Pvt. Ltd**

Topic: **Application of E-mobility for Industrial Transport Application**

The vehicles landscape in India is introduced by the resource person. Discussed about EVs, BEVs, ZEVs & BOU etc., electric vehicles viabilities like charging infrastructure, increased efficiency, reduction of cost and policies related to motor drive technology. He more focused on innovation, life cycle, project management. Then continued with the products developed for various applications like EVs in golf-carts, vehicles for cleaning of solar panels, e-ambulances in hospitals, missile carriers in defence sector, vehicles for vigilance & security, forest & tourism, public health and sanitation by Tejaswi Green Engg. Pvt. Ltd.

07-08-2020

Session-3

Speaker: **Dr. Y. Chandrasekhar, Dept of EEE, NITW**

Topic: **Optical Planning of EV Charging stations and Battery Swapping Stations**

For the installation of EV charging stations the objectives are loss minimization and profit maximization in optimization process. Due to development of the batteries and its charging technologies, public incentives and growing criticism on dense air pollution, the electrical vehicles (EVs) gaining more popularity as compared to traditional fuel vehicles. In this scenario, the multi-objective optimal scheduling of Electric Vehicle batteries in Battery Swapping Station (BSS) is explained in order to optimize the number of EV batteries taken from battery stock. Further, degradation cost of batteries and electricity charging cost of batteries also considered for optimal scheduling of EV batteries in BSS. The dynamic electricity pricing model is considered to avoid new peaks of battery charging demand in BSS. EV battery swapping demand in each hour of the day is solved by using a multi-objective Shuffled Frog Leaping Algorithm (SFLA).

08-08-2020

Session-1

Speaker: **Dr. R. Gopalan, Director, ARCI**

Topic: **Materials for 21st Century Energy Crisis for Sustainable Transport Applications**

Session started with Sustainable energy, Matter of concern in India, Energy Crisis & demand, wind energy, solar energy, roof-top wind-solar hybrid systems, introduced about 50MW solar plant in Jodhpur, 1000MW solar plant in Tamilnadu, 21st century energy crisis in transport sector. Session continued with Transformation in vehicle technology, Carbon foot print, EV concept, Drivers for growth of electric vehicles in India, Electric vehicle status in India, Permanent magnet technology and its role for energy saving technology, Li-ion battery, possible combination of Li-ion battery, fabrication of Li-ion battery at ARCI, power and energy of various batteries, Alternative energy materials & systems, fuel cells, solar cells, Thermoelectric materials.

08-08-2020

Session-2

Speaker: **Dr. G. Tulasi Ram Das, Prof, Dept of EEE, JNTUH, Former Vice Chancellor (JNTUK)**

Topic: **Electrical Motor Drives for Electric Vehicles**

The session started with induction motor and its advantages & limitations in electric vehicles. The session continued with the importance of switched reluctance motors with its major advantages of less heat development, but the main drawback of complex control circuitry, insights for selecting the right motor for electric vehicles for two wheelers & three wheelers. Sir has illustrated the performance comparison between indirect field-oriented control and direct torque control of induction motors with case study. Session ended with future scope of research in electric vehicles.

Department of Electrical & Electronics Engineering

Date: 26-10-2020

Minutes of the meeting conducted on 26th October, 2020.

Members Present:

1. Dr. G. P. Saradhi Varma, Principal, CBIT *G.P.S.V.*
2. Dr. G. Suresh Babu, Prof & Head, Dept. of EEE, *G.S.B.*
3. Dr. U.K. Choudhury, Prof. Dept. of EEE, *U.K. Choudhury*
4. Dr. D. Krishna Reddy, Head, Dept. of ECE, *D.K.R.*
5. Dr. P.V. R. Ravindra Reddy, Head, Dept. of Mechanical Engg., *P.V.R.R.*
6. Dr. T. Murali Krishna, Assoc. Prof, Dept. of EEE, *T.M.K.*
7. Mr. M. Nagaraju, Asst. Prof, Dept. of EEE, *M.N.*
8. Dr. N.V. Phanendra Babu, Asst. Prof, Dept. of EEE, *N.V.P.B.*

The meeting started with the greetings from the Head of the department.

Item No.1 : To form Program Evaluation Committee

Minutes : Principal Dr. G. P. Saradhi Varma asked the same members to be in PEC

Item No.2 : To Conduct STTP Phase-II on on-line mode

Minutes : HoD asked the coordinator of STTP to prepare Brochure & Schedule for STTP Phase -2 as per the AICTE guidelines and send the invitation link to AICTE.

Item No.3: Conduct of STTP

Minutes : Dr. U. K. Choudhary suggested resource persons for the STTP.

Sri. M. Nagaraju & Dr. N. V. Phanendra Babu are asked be the co-coordinators for Phase-2

Phase - II

on

TRENDS & CHALLENGES OF HYBRID ELECTRIC DRIVE UTILITIES IN TRANSPORT SECTOR

02nd – 07th November, 2020

Organized by

DEPARTMENT OF ELECTRICAL AND
ELECTRONICS ENGINEERING

CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY(Autonomous)

CBIT, established in the Year 1979, has developed in Four Decades of its journey, as one of the Premier Engineering Institutes in INDIA, in Telangana State. The Institute offers Eleven UG and Eleven PG Programs into which Brilliant and Meritorious Candidates with good EAMCET Rank are seeking admissions at CBIT. CBIT Students are prepared and perfected holistically to secure Placements in reputed National and Multi-National Industries. Alumni, nearly 25,000 Graduate Engineers, are successfully placed in their Careers and as Entrepreneurs Globally. The Institute has been granted Autonomous.

ABOUT THE DEPARTMENT

CBIT started Electrical & Electronics Engineering UG course in 1994 and was accredited thrice i.e. in years 2004, 2008 & 2013 by NBA. The intake was increased from 60 to 120 from the Academic Year 2013-14. The Department started offering a

course in Power Systems & Power Electronics in 2006 with an intake of 18 and was accredited by NBA in the year 2016. The Department has highly qualified and experienced faculty. The Department is having well equipped labs with latest Hardware & Software. The Department is also certified by ISO 9001:2008. The Department is recognized as Research Centre in 2017 by Osmania University to carry out research for the award of Ph.D. degree. The Department is keen on developing consultancy services and welcomes funding research from outside agencies. The Department in the year 2019-20 has received a funding of Rs.2,72,000 under AICTE-STTP Scheme for MATLAB Research Methodology project, Rs. 3,00,000 under AICTE-STTP scheme for Hybrid Electric Utilities Project and Rs.11,00,000 under AICTE-RPS Scheme for Development of Low-Cost Flexible Quality Conditioner to Mitigate Power Quality Issues and MODROBS for special electrical machines to the tune of Rs.17 Lakh.

ABOUT THE FDP

Deterioration in air quality, global warming, and a decrease in petroleum resources are becoming the major threats to human beings. More and more stringent emissions and fuel consumption regulations are stimulating an interest in the development of safe, clean, and high-efficiency transportation. It has been well recognized that electric, hybrid electric, and fuel-cell powered drive train technologies are the most promising solutions to the problem of land transportation in the future. In recent decades,

the research and development activities related to of high efficiency, clean, and Modern Electric, Hybrid Electric, and Fuel Cell Vehicles safe transportation.

TOPICS TO BE COVERED IN STTP

- 📌 Over View of Electric Vehicle & Govt. Policies
- 📌 Hybrid Electric Vehicle and its performance
- 📌 Electric Vehicle Mechanics and Modelling
- 📌 Power Converters for Electric Vehicles
- 📌 PM motor Drives for EVs
- 📌 Induction Machine Drives for EVs
- 📌 High Energy Batteries
- 📌 Charging Stations & Wireless Chargers
- 📌 Testing & Certification
- 📌 PWM Techniques for Inverters

RESOURCE PERSONS

Resource Persons will be from Renowned Institutions such as IIT's/NIT's, Industries like Tata Motors, and host Institution.

TARGET GROUP

The STTP is expected to benefit Engineers, Scientists, Researchers and Academicians who are working / Teaching / studying in the area of Hybrid Electric Vehicles.

AICTE – Sponsored Short Term Training Program (STTP-Phase-2) Schedule

Report on AICTE Sponsored STTP on “TRENDS & CHALLENGES OF HYBRID ELECTRIC DRIVE UTILITIES IN TRANSPORT SECTOR” during 02nd - 07th November 2020

Totally 84 participants from 8 states registered for the STTP, but 58 participants regularly attended the program out of which 48 received certificates by clearing the end examination with equal to or more than 60% in which was conducted on the last day i.e. on 07-11-2020. Every day two sessions are conducted (one in the morning and one in the evening) which is of 1 ½ hour duration. The program was conducted on google-meet platform. After the completion of each session the attendance and feedback forms are shared in the chat box. The detailed report of each session is given below.

02-11-2020

Session-1

Time: 11:30 AM to 01:10 PM

Speaker: **Dr. U.K. Choudhury, Prof. & Director(I&I), CBIT, (Ex ED, CTM, BHEL)**

Topic: **Introduction to Electric Mobility, Policy and Guidelines, Trends and Challenges**

The session started with drivers for electric mobility, present scenario & challenges, govt initiatives and forecast, types of EVs, HEVs and their components, fuel cell EV, charging infrastructure and technology, strategy for R&D and manufacturing and opportunities. Then he discussed about electric vehicle components of pure electric vehicle with front wheel drive, back wheel drive and four-wheel drive. He also explained about rechargeable battery electric vehicle. Sir shown a statistic of usage of cars in all over the world along with Indian EV market growth in 2020.

02-11-2020

Session-2

Time: 02:30 PM to 04:00 PM

Speaker: **Dr. U.K. Choudhury, Prof. & Director(I&I), CBIT, (Ex ED, CTM, BHEL)**

Topic: **Permanent Magnet Motor Drives for Electric Mobility**

In this session, the design aspects, advantages, classification and applications of the permanent magnet machines are discussed. The performance requirement of electric vehicle in terms of torque density, power density speed range, efficiency, hill climbing, intermittent overload capacity, overtaking, reliability, robustness, low acoustic noise and reasonable cost are discussed. Sir shown different pictures of permanent magnets, precision thin material, flexible magnets and the comparison between various magnets are discussed. Domain movement during magnetization, magnetizer and critical points for permanent magnet generators are deliberated.

03-11-2020

Session-1

Time: 11:30 AM to 1:00 PM

Speaker: **Dr. U.K. Choudhury, Prof. & Director(I&I), CBIT, (Ex ED, CTM, BHEL)**

Topic: **Hybrid Electric Vehicle, Series/Parallel Hybrid, Plug-in Hybrid Vehicle**

Session started with the basic components of Power electronics, Significance of Static switches, PI control gains in the design of power converters, Importance of IGBT in the medium voltage high current applications, Intelligent power modules, Latest materials used in power devices like Silicon carbide, Gallium Arsenide, Thin Film, Superconductors etc. then presented the types of electric vehicles, Basic design aspect of converters like Importance of technical specifications, Application standards, selection of semiconductor device, EMI/EMC standards, DC link capacitor. The continued with Scalar & vector control of induction motor.

Report on AICTE Sponsored STTP on “TRENDS & CHALLENGES OF HYBRID ELECTRIC DRIVE UTILITIES IN TRANSPORT SECTOR” during 02nd - 07th November 2020

03-11-2020

Session-2

Time: 02:30 PM to 04:00 PM

Speaker: **Dr. P. Satish Kumar, Associate Professor, Dept. of EEE, Osmania University**

Topic: **Advances in PWM techniques for Inverters**

The resource person has given overview of Space-Vector pulse width modulation-based algorithm for multilevel inverters. He explained different pulse width modulation techniques used for multilevel inverters. He started with conventional two-level inverter operation and he focussed on detailed explanation of space-vector pulse width modulation technique. He has shown the comparison between two level and three level inverters in various parameters.

04-11-2020

Session-1

Time: 11:30 AM to 1:00 PM

Speaker: **Dr. U.K. Choudhury, Prof. & Director(I&I), CBIT, (Ex ED, CTM, BHEL)**

Topic: **Electric Hybrid Vehicle Mechanics, Modelling and Performance Calculation**

The session started with a description on series and parallel electric vehicle and regenerative braking in electric vehicles, and the comparison of TCO and payback for electric vs diesel buses. The variation of braking with respect to deceleration rate has explained. The concept of rolling resistance and grading resistance of road has been discussed for different types of roads. The torque development of the motor with respect to different surfaces is explained. Later, he discussed about aero dynamics concept of wind pressure on vehicle. How the rolling resistance varies with the speed of the vehicle has shown in the graph.

04-11-2020

Session-2

Time: 02:30 PM to 04:00 PM

Speaker: **Dr. Krishna Vasudevan, Professor, IIT Chennai**

Topic: **Design and Analysis of Power Converters for Electric Vehicles**

Sir started the session with steps involved for designing an inverter. He explained the selection procedure for power device based on current rating and power loss. Heat sink design considerations explained for inverter. Then he differentiated between diode voltage drop and IGBT voltage drop during selection of power device. The design of DC bus with a decoupling capacitor has been discussed. He also given detailed description about gate driver circuits by considering dead time and its effects.

Session-1

Time: 11:30 AM to 1:00 PM

Speaker: **Dr. O. Chandrasekhar, Associate Professor, Dept. of EE, NIT-Srinagar**

Topic: **Power Converters for Hybrid Electric Vehicle**

In this lecture, sir has given a detailed explanation of converter regarding objective, applications, IEC standards, general representation of converters. He compared various topologies implemented and available for converters and implementation of IB3 converter. For a given duty cycle what is a simulated voltage and what is a theoretical voltage also been explained. Then the same voltages have observed with different duty cycle. He has shown graphical explanation of power factor, efficiency and ripple content with respect to duty cycle variation. He also discussed the total

harmonic distortion by varying the voltage from 90 volts to 260 volts, and load with different impedances. for a proposed topology.

05-11-2020

Session-2

Time: 02:30 PM to 04:00 PM

Speaker: Dr. V.T. Soma Sekhar, Professor, Dept. of EE, NIT-Warangal

Topic: Open-end winding Induction Motor Drives

This session started with two level inverter concepts. The switches toggling, current waveform and voltage waveform has been explained with wave shape and it is non sinusoidal. Then he discussed the drawback of non-sinusoidal voltage given to induction motor. And sir discussed about pole voltage, motor phase voltage and common mode voltage with calculation of motor phase voltage with remaining two voltages. Sir has given detailed description of switching states and null states of two level inverter with total harmonic spectra with modulation and without modulation. He said how to get three level from two level inverter using space vector modulation. Then neutral point clamped and cascaded inverter concepts have been explained. He focussed on open end winding induction motor with isolated DC source. How to reduce the effect of zero sequence currents also been discussed.

06-11-2020

Session-1

Time: 11:30 AM to 1:00 PM

Speaker: Mr. Manoj Desai, General Manager, ARAI

Topic: Testing and Certification

This session is on testing and certification of electric vehicles. Sir has explained why the standards are required and salient features of electric vehicle. The regulation frame work and the rules followed by vehicle certification of less than 250 watts rating. Also discussed about type approval testing with verification, safety and performance. Then the battery management systems and their performance has been discussed. He focussed on ARAI approaches such as AIS 038 for M and N vehicles, AIS 156 high category vehicle. Described about the AIS 157 and 168 for fuel cell and agricultural. The classification and standards for battery charging stations also depicted. The phase-2 of FAME scheme implemented by govt of India is also been discussed.

06-11-2020

Session-2

Time: 02:30 PM to 04:00 PM

Speaker: Dr. Venugopal, Ex- ISRO official.

Topic: High Energy Batteries and Performance

Started with definition of battery and its specifications like energy density, power density and safety. Classification of batteries based on active materials, electrolytes, and case materials etc. And then he discussed about various materials used for anode, cathode, separator and electrolyte etc. He quoted about evolving process of Lithium manganese aluminium oxides in the battery technology. Sir has focussed more on progress of Lithium ion, silicon anode and try electrode. Then he discussed about electric vehicle battery pack design trade off. He quoted about aerodynamics and electric vehicles in the city limits. National Automotive testing R&D infrastructure project is also been discussed. Sir explained about battery swapping also.

07-11-2020

Session-1

Time: 11:30 AM to 1:00 PM

Speaker: Mr. Jatil Sharma, MD, Tejaswi Green Engg. Pvt. Ltd.

Topic: Electric Vehicle for Transport Application

The vehicles landscape in India is introduced by the resource person. Discussed about EVs, BEVs, ZEVs & BOU etc., electric vehicles viabilities like charging infrastructure, increased efficiency, reduction of cost and policies related to motor drive technology. He more focused on innovation, life cycle, project management. Then continued with the products developed for various applications like EVs in golf-carts, vehicles for cleaning of solar panels, e-ambulances in hospitals, missile carriers in defence sector, vehicles for vigilance & security, forest & tourism, public health and sanitation by Tejaswi Green Engg. Pvt. Ltd.

Organized by

Department of Electrical & Electronics
Engineering
Chaitanya Bharathi Institute of Technology
(Autonomous under UGC)
Affiliated to Osmania University
Gandipet, Hyderabad – 500075
Telangana State, India.

CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY (A)

CBIT is one of the premier Engineering Institute in INDIA, pioneer in Telangana State, which is at idyllic surroundings of Gandipet Lake, Hyderabad. The college offers Nine UG and Eleven PG programs. It has been standing as a temple of knowledge for the past 42 years by producing about 25,000 Eminent and skillful Graduate Engineers, who are successful in their Careers, serving all over the world. The Institute has been accredited by NBA--AICTE and NAAC--UGC. UGC has granted Autonomous Status from the Academic Year 2013-14 onwards. The Grants received from AICTE/UGC are worth about Rs. 2.5 Crores. Brilliant and Meritorious Candidates with good EAMCET Rank are seeking admissions at CBIT. CBIT Students are prepared and perfected to secure Placements in MNCs through College Career Development Center.

ABOUT THE DEPARTMENT

CBIT started Electrical & Electronics Engineering UG course in 1994 and was accredited thrice i.e. in years 2004, 2008 & 2013 by NBA. The intake was increased from 60 to 120 from the Academic Year 2013-14. The Department started offering a PG course in Power Systems & Power Electronics in 2006 with an intake of 18 and was accredited by NBA in the year 2016. The Department has highly qualified and experienced faculty. The Department is having well equipped labs with latest Hardware & Software. The Department is also certified by ISO 9001:2008. The Department is recognized as Research Centre in 2017 by Osmania University to carry out research for the award of Ph.D. degree. The Department is keen on developing consultancy services and welcomes funding research from outside agencies. The Department in the year 2019-20 has received a funding of Rs.2,72,000 under AICTE-STTP Scheme for MATLAB Research Methodology project, Rs. 3,00,000 under AICTE-STTP scheme for Hybrid Electric Utilities Project and Rs.11,00,000 under AICTE-RPS Scheme for Development of Low-Cost Flexible Quality Conditioner to Mitigate Power Quality Issues and MODROBS for special electrical machines to the tune of Rs.17Lakh.

ABOUT THE STTP

Deterioration in air quality, global warming, and a decrease in petroleum resources are becoming the major threats to human beings. More and more stringent emissions and fuel consumption regulations are stimulating an interest in the development of safe, clean, and high-efficiency transportation. It has been well recognized that electric, hybrid electric, and fuel-cell powered drive train technologies are the most promising solutions to the problem of land transportation in the future. In recent decades, the research and development activities related to transportation have emphasized

the development of high efficiency, clean, and Modern Electric, Hybrid Electric, and Fuel Cell Vehicles safe transportation.

Topics to be covered in STTP

- Introduction, Trends of Electric Vehicle & Govt. Policies
- Hybrid Electric Vehicle and its performance
- Electric Vehicle Mechanics, Modeling & Vehicle to Grid Technology
- Modeling & Design of Power Converters for Electric Vehicles
- Design & Manufacturing of PM motor Drives for EVs
- Design & Manufacturing of Induction Machine Drives for EVs
- Energy Storage devices for EVs
- Charging Stations & Wireless Chargers
- PWM Techniques for Inverter

RESOURCE PERSONS

Resource Persons will be from Renowned Institutions such as IIT's/NIT's, Industries and host Institution.

TARGET GROUP

The STTP is expected to benefit Engineers, Scientists, Researchers and Academicians who are working / Teaching / studying in the area of Hybrid Electric Vehicles.

Report on AICTE Sponsored STTP on “TRENDS & CHALLENGES OF HYBRID ELECTRIC DRIVE UTILITIES IN TRANSPORT SECTOR” during 22nd - 27th February 2021

Totally 100 participants from 6 states registered for the STTP, but 58 participants regularly attended the program out of which 52 received certificates by clearing the end examination with equal to or more than 60% in which was conducted on the last day i.e. on 27-02-2021. First four days two sessions are conducted (one in the morning and one in the evening) which is of 1 ½ hour duration. Last two days three sessions are conducted. The program was conducted on google-meet platform. After the completion of each session the attendance and feedback forms are shared in the chat box. The detailed report of each session is given below.

22-02-2021

Session-1

Time: 11:00 AM to 12:30 PM

Speaker: Dr. U.K. Choudhury, Prof. & Director(I&I), CBIT, (Ex ED, CTM, BHEL)

Topic: Introduction to Electric Mobility, Trends, Challenges & Opportunities

The session started with drivers for electric mobility, present scenario & challenges, govt initiatives and forecast, types of EVs, HEVs and their components, fuel cell EV, charging infrastructure and technology, strategy for R&D and manufacturing and opportunities. Then he discussed about electric vehicle components of pure electric vehicle with front wheel drive, back wheel drive and four-wheel drive. He also explained about rechargeable battery electric vehicle. Sir shown a statistic of usage of cars in all over the world along with Indian EV market growth in 2020.

22-02-2021

Session-2

Time: 02:30PM to 04:00 PM

Speaker: Mr. Raunak Chaudhary, Senior Design Engineer, ISIE, India

Topic: Electric Vehicle Components and Market Scenarios

The afternoon session who primary & secondary cells are used in a battery, how different drives are used to provide pickup for a single vehicle and their synchronization. Then the resource person illustrated on EV global & domestic sales post covid-19 market. Then the session continued with EV battery prices, battery energy densities after 2010, Average EV range, Average EV charging speed etc.

23-02-2021

Session-1

Time: 11:00 AM to 12:30 PM

Speaker: Dr. U.K. Choudhury, Prof. & Director(I&I), CBIT, (Ex ED, CTM, BHEL)

Topic: Design & Manufacturing of Special PM Motors for Traction Applications

In this session sir has introduced different types of motors and the motors suitable for electric vehicles. He explained about the Permanent magnet machines used in electric mobility. The session continued with different constructional features of permanent magnet machines, comparison of various magnets like ALNICO, FERRITE, SMCO, NDFEB etc. Then sir discussed about the characteristic comparison of soft magnetic and hard magnetic materials.

Report on AICTE Sponsored STTP on “TRENDS & CHALLENGES OF HYBRID ELECTRIC DRIVE UTILITIES IN TRANSPORT SECTOR” during 22nd - 27th February 2021

23-02-2021

Session-2

Time: 02:30 PM to 04:00 PM

Speaker: **Mr. S. Ravi, M.D., S.R. Hybrid Fuel Cell**

Topic: **Fuel Cell and its application in Electric Vehicle**

The resource person has given overview fuel cell as a future source of electric vehicle, hydrogen economy, polymer electrolyte membrane, solid oxide fuel cells, their basic components, membrane electrode assembly. Then continued with bipolar plate fabrication cell, assembly of stack, stack testing. Explained how a battery operated excavator works with fuel cell, evaluation and testing of fuel cells, FCEV cars, FCEV bus etc

24-02-2021

Session-1

Time: 11:00 AM to 12:30 PM

Speaker: **Prof. V. N. Achuta Naikan, Professor, IIT Kharagpur**

Topic: **Reliability Analysis Techniques**

In this session Naikan sir distinguished between quality and reliability analysis. Quality is fitness for use/application, conformance to design specification like dimensions, strength, slope, finish, efficiency etc. Reliability is the [probability that the system thus intended function adequately over period of time under the prescribed conditions he inferred that quality is static measure and reliability is dynamic measure. Purpose of reliability is to find wide does a work/component fails? How to minimise failures, to predict how often a work fails, what is the reason for failure how to minimise the failure and what are consequence of failures. Then summarised reliability engineering topics like analysis and prediction and life testing, estimation, design and allocation, fault diagnosis, system safety and risk analysis and maintainbity etc.. The session ended with bath tub curve, failure analysis like FTA, FMECA etc.

24-02-2021

Session-2

Time: 02:30 PM to 04:00 PM

Speaker: **Dr. U.K. Choudhury, Prof. & Director(I&I), CBIT, (Ex ED, CTM, BHEL)**

Topic: **Design Hybrid Electric Vehicle Mechanics, Modeling and Performance Calculation**

In this session the resource person discussed about development of PM materials, domain movement during magnetization, hard & soft magnetic materials, effect of air gap length & magnetic thickness, critical points in PMG design like steady-state operation, stabilization, transient operation, effect of temperature on permanent magnets etc. Then sir introduced the basic structure of hybrid electric vehicle, series hybrid and parallel hybrid electric vehicle comparison, rolling resistance, aerodynamic drag, grading resistance etc. The session ended with the challenges to EVs power converters, electric machines, electromagnetic interference, energy storage system, regenerative braking and control, power management & vehicle control.

Report on AICTE Sponsored STTP on “TRENDS & CHALLENGES OF HYBRID ELECTRIC DRIVE UTILITIES IN TRANSPORT SECTOR” during 22nd - 27th February 2021

25-02-2021

Session-1

Time: 11:00 AM to 12:30 PM

Speaker: Dr. Krishna Vasudevan, Professor, IIT Chennai

Topic: Design and Analysis of Power Converters for EVs

Sir started the session with steps involved for designing an inverter. He explained the selection procedure for power device based on current rating and power loss. Discussed about open loop and closed loop control system design for power converter. Illustrated about Heat sink design considerations for inverter. Then he differentiated between diode voltage drop and IGBT voltage drop during selection of power device. The design of DC bus with a decoupling capacitor has been discussed. He also given detailed description about gate driver circuits by considering dead time and its effects.

25-02-2021

Session-2

Time: 02:30 PM to 04:00 PM

Speaker: Mr. Manoj Desai, General Manager, ARAI, Pune

Topic: EV validation and Certification

Introduced why standards or regulations and type approval is important for EV. Elaborated about the process of certification for different types of EVs in India. Then continued with regulation framework for EVs under CMVR. Then discussed about Live, social demand Minimum safety requirement etc. Given standards of EV, HEV, Retro fitment and EVSE (Electric Vehicle Supply Equipment) and explained about EV Testing and EV Regulations. He has shared valuable content of constructional and Functional safety of EV and briefed information about Battery Management System (BMS) and Thermal Management System, Vehicle safety, Battery safety.

26-02-2021

Session-1

Time: 10:0 AM to 11:30 AM

Speaker: Sri. N. V. P. R. Durga Prasad Ex-AGM , BHEL

Topic: EMI & EM Compatibility

This session started with overview of EMI and EMC. Discussed about what is EMI and EMC, the causes and effects of EMI, their significance and importance in Hybrid EV such as ignition system relays and solenoids, modulated DC for interior lighting ,voltage SAG from engine starting inductive load kicks, alternator load dump etc. Sir explain about the objective of EMC, EMI coupling modes viz conduction and radiation, inter-system EMI and intra-system EMI, automotive industry standard AIS-004, immunity standards. Then the session concluded with Compliance of electromagnetism, testing of EMI and EMC, limits and standards of EMI and EMC design approach

26-02-2021

Session-2

Time: 11:30 AM to 12:30 PM

Speaker: Mr. A. Venkanna, Deputy Manager, EM Lab, BHEL

Topic: Induction Motors for Electric Mobility

The speaker discussed about water cooled induction motor for EV application which was manufactured at BHEL R & D. He given various steps involved in the design of induction motor like customer specification like DC link voltage ,continuous torque, peak torque ,rated speed, maximum speed ,weight, efficiency etc. Then continued his session with motor mounting configuration, analytical methods, like type of enclosure, duty cycle of the load and frequency of starting and stopping the motor illustrated various analysis like stress analysis, frequency analysis, temperature distribution etc..

Report on AICTE Sponsored STTP on “TRENDS & CHALLENGES OF HYBRID ELECTRIC DRIVE UTILITIES IN TRANSPORT SECTOR” during 22nd - 27th February 2021

26-02-2021

Session-3

Time: 02:30 PM to 04:00 PM

Speaker: Dr. U.K. Choudhury, Prof. & Director(I&I), CBIT, (Ex ED, CTM, BHEL)

Topic: Software to design e-mobility motors , Wireless Charging & Vehicle to Grid Technology

In this session the resource person introduced the procedure how to develop a prescribed motor design using ANSYS motor CAD software. Discussed about how a winding diagram can be designed the help of software, how machine efficiency can be predetermine with respect to speed variation. Then focussed on vehicle to grid technology aspects. Inferred about the need of wireless power transfer/ charger for EVs.

27-02-2021

Session-1

Time: 10:00 AM to 11:30 PM

Speaker: Sri. S. EASWAR RAO, Senior DGM, BHEL,

Topic: Charging Stations for EVs

The session started with importance of charging station for Electric vehicles like on –board AC charging and OFF board DC charging and fast chargers and charging standards. Batteries life time depends on C-rate i.e charging and discharging rate. The main barrier for e-mobility is battery swapping technology for commercial vehicles and passenger vehicle configurations then focused on OCPP protocols and IEC-61851-1 standard for charging discussed about level-1, level-2, level-3 charges He coated the need of the our is fast charges he ended with different ZVS and ZCS switching methodologies ,and high frequency transformer in the design of chargers in EV .

27-02-2021

Session-2

Time: 11:30 AM to 1:00 PM

Speaker: Dr. G. Tulasi Ram Das, Former Vice-chancellor (JNTUK), Prof, Dept of EEE, JNTUH

Topic: High Vector Control of Electrical Motor Drives for Electric Vehicles

Introduced about various companies, manufacturing different types of electric vehicles, Nationally & Internationally. Discussed about future preparedness, need to address the new materials used, quick charging, induction motor control using SVM etc. Then explained about types of motors used for EVs & HEVs. Given comparison between BLDC motor & PMSM. Then illustrated on indirect field oriented control & direct torque control of induction motors. Given in-detail analysis of IFOC of induction motor used for EVs.

27-02-2021

Session-3

Time: 02:30 PM to 4:00 PM

Speaker: Dr. Venugopal, Ex- ISRO official.

Topic: Electric Vehicle for Transport Application

Introduced about definition of battery and its specifications like energy density, power density and safety. Then battery technologies like reserve battery, thermal battery, quantum battery etc.. Continued with Li-Ion batteries based on active materials, electrolytes, and case materials etc. and then he discussed about various materials used for anode, cathode, separator and electrolyte etc. He quoted about evolving process of Lithium manganese aluminium oxides in the battery technology. Sir has focussed more on progress of Lithium ion, silicon anode and try electrode. Then he discussed about electric vehicle battery pack design trade off. He quoted about aerodynamics and electric vehicles in the city limits. National Automotive testing R&D infrastructure project is also been discussed. Sir explained about battery swapping also.

* Required

1. Email address *

2. 1. Which of the following is NOT the type of Hybrid Vehicle? *

1 point

Mark only one oval.

- Plug-in Hybrid
- Parallel Hybrid
- Natural Gas For Vehicles
- Series Hybrid

3. 2. The Hybrid Electric Vehicle consists of : *

1 point

Mark only one oval.

- Internal Combustion Engine + Electric Motor
- Motor Electric 1 + Motor electric 2
- NGV engine + Gasoline engine
- All of the above

4. 3. "In this system, the engine is used to supply electrical power to the motor, which then turns the wheels" Select the type of Hybrid System according to above description. *

Mark only one oval.

- Series Hybrid
- Parallel Hybrid
- Plug-in Hybrid
- Series-parallel Hybrid

5. 4. _____ is defined as the fraction of the total energy or battery capacity that has been used over the total available from the battery. *

Mark only one oval.

- Battery state of charge(BSOC)
- Depth of Discharge (DOD)
- Daily Depth of Discharge
- None of the above

6. 5. _____ of a battery determines the fraction of power that can be withdrawn from the battery. *

Mark only one oval.

- Battery state of charge(BSOC)
- Depth of Discharge (DOD)
- Daily Depth of Discharge
- None of the above

7. 6. Select the WRONG statement. *

1 point

Mark only one oval.

- Toyota produced the Insight Hybrid
- Hybrid systems rely on very high voltages.
- All of the high-voltage cables are covered in orange sleeves for easy identification.
- To test high-voltage systems you need a Category 3 (CAT III) digital volt ohmmeter

8. 7. Select the cycle use in a Hybrid Engine. *

1 point

Mark only one oval.

- Otto
- Diesel
- Atkinson
- Isentropic

9. 8. A Toyota Prius C Hybrid has ____ engine. *

1 point

Mark only one oval.

- 1
- 2
- half
- no

10. 9. A _____ is a vehicle that can run on just the engine, just the batteries, or a combination of the two. * 1 point

Mark only one oval.

- Mild Hybrid
- Full Hybrid
- Fuel Cell
- Assist Hybrid

11. 10. The benefits of a hybrid car include : * 1 point

Mark only one oval.

- reducing emissions
- improving gas mileage
- high fuel consumption
- high speed driving

12. 11. Regenerative braking involves : * 1 point

Mark only one oval.

- nanofibers that repair the surface of brake pads
- reducing the amount of friction necessary to slow a car
- reclaiming heat from the brakes and using it for power
- None of the above

13. 12. What is the operating voltage of the Toyota Prius version 2004? * 1 point

Mark only one oval.

- 104 volts
- 399 volts
- 288 volts
- 500 volts

14. 13. the rating of the battery is given by * 1 point

Mark only one oval.

- watt
- VA
- Ahr
- volt

15. 14. the type of converter used for battery operated two-wheeler is _____ 1 point
*

Mark only one oval.

- AC-AC
- AC-DC
- DC-DC
- DC-AC

16. 15. Reliability of a system is _____process *

1 point

Mark only one oval.

- static
- dynamic
- mass
- batch

Instructions/Guidelines to be followed by the University/Institution

I. Disbursement of funds to University/Institutions

- The full amount of the grant sanctioned is being released as advance to the University/Institute.
- The amount spent by the institute on the conduct of STTP shall be adjusted on the basis of utilization certificate and detailed expenditure statement submitted by the University/Institution on the prescribed format along with other mandatory documents viz feedback form, copy of proceedings and completion report etc.
- The above said amount of grant shall be refunded back to AICTE if the Letter of Approval (LOA) / Extension of Approval (EOA) is not issued by AICTE to the institute for the academic year 2019-20.

II Maintenance of Accounts

- The Institute shall strictly follow the provisions laid down in the scheme document as available on the portal.
- Funds covered by this grant shall be kept separately and would not be mixed up with other funds so as to know the amount of interest accrued on the grant.
- The University/College/Institute shall maintain proper accounts of the expenditure out of the grants, which shall be utilized only on approved items of expenditure.
- The grant is intended to cover items of expenditure connected with the Short Term Training Programme such as Boarding & Lodging to the participants, TA to outstation participants, Honorarium to Course Coordinator, reading material to participants, Honorarium to resource persons, TA/DA to resource persons including two outstations resource persons & working expenses (reprographic services, postage, transport, daily wages, tea/coffee etc).

III. Conduct of test and issuance of certificate

A test shall be conducted by Program Evaluation Committee (PEC) at the end of the program and the certificates shall be issued to those participants who have attended the program and have qualified in the test.

IV. Submission of Documents by the University/Institutions to AICTE

a. The following mandatory relevant documents are required to be submitted by the University/Institution within one month of the completion of the program:-

- (i) Original Statement of actual expenditure & Utilization Certificate in the prescribed proforma duly signed by the Head of the institution and countersigned by Registrar/Finance Officer/Govt. Auditor. In case of self-financing/private institutions, Statement of actual Expenditure & Utilization Certificate are required to be audited & signed and sealed by a Chartered Accountant endorsing the membership number and complete postal address. Format for the same is available on AICTE web portal.

The University/Institution is not required to submit bills/vouchers/invoices etc for the expenditure incurred out of recurring grants. However, such copies of bills/vouchers/invoices shall be digitized by respective institutions receiving grant and uploaded scanned copies of such bills/vouchers/invoices etc on the portal for availability and view at any point of time.

- (ii) Feedback form in the prescribed proforma.
 - (iii) Copy of the proceedings and completion report.
 - (iv) List of candidates who have successfully completed the program on the basis of the test conducted by Program Evaluation Committee (PEC).
 - (v) Report submitted by Program Evaluation Committee (PEC).
- b. The amount of the grant shall be adjusted on submission of utilization certificate & detailed expenditure statement by University/Institution. On receipt of these documents, the total amount of financial assistance, admissible as per the norms, shall be worked out and grant-in-aid adjusted.

V. General instructions

- a. Preferably 10% of the participants may be industry professionals deputed by industry. Further, not more than 2 participants shall be from the host institution/group of institutions.
- b. Money to be reimbursed on the grant (for any reasons to include unspent amount, interest, penalty if imposed) shall be refunded back to AICTE in the form of Demand Draft payable to Member Secretary, AICTE, New Delhi.
- c. As AICTE needs adequate time for depositing the Demand Draft in the bank, the same be immediately dispatched to avoid any lapse of the validity period.
- d. The STTP is a residential program of a duration of six days with minimum 40 participants. The approved STTP shall be conducted within three months from the date of release of funds.
- e. If programme is not conducted in the period of three months of the issuance of this Sanction Order, the released amount, alongwith interest accrued thereon, has to be necessarily returned back to AICTE within a month.
- f. The expenditure under the Heads 'Honorarium to Course Coordinator' and 'Honorarium to Resource Persons' shall not exceed 1% & 20% respectively of the total sanctioned grant for the Programme. However, overall expenditure shall not exceed the funds sanctioned for the Programme.

- g. Any extra money required to complete the programme must be borne by the institute from their own resources. But the quality of the activities should not be compromised.
- h. Any unavoidable circumstantial change in the program with respect to name of Project Coordinator, Venue and date for organizing STTP would mandatorily require prior approval of the Council. All such requests should be addressed to AICTE, in advance, recording the specific reasons for proposed changes, failing which the offer for the grant already issued would be treated as automatically withdrawn and the financial assistance released in favour of the beneficiary institution shall be refunded immediately to the Council. Kindly mention the File No. 34-65/288/RIFD/STTP/Policy-1/2018-19 in your future correspondence.
- i. **Program Evaluation Committee (PEC)** is required to be constituted at institutional level. The constitution of the PEC shall be as under:

- (i) Principal/Director/Registrar of the institution (Chairperson).
- (ii) Coordinator of the program (Member Secretary).
- (iii) Two HoDs and one subject expert (members).

The members of the said PEC shall not be below the rank of Associate Professor. A test shall be conducted by Program Evaluation Committee (PEC) at the end of the program and the certificates shall be issued to those participants who have attended the program and have qualified in the test. The minutes of the meetings, along with PEC report, are to be submitted to the Council at end of the program along with other mandatory documents.

- j. **GoI GFR rules** (@<https://doe.gov.in/order-circular/general-financial-rules2017-0>) should be followed during utilization of grant.
- k. This Sanction Order may be treated as Offer Letter for all purposes.

NOTE:- Any deviation from the above will invoke serious action against the Institute.

Yours sincerely,

(Dileep N Malkhede)
Advisor-I (RIFD)

Sub:-For information of AICTE approved institutes which have received grants for conducting STTP's/FDP's under AQIS 2018-19.

Sir,

This is in reference to grants released by AICTE under AQIS 2018-19 for conduct of STTP's/FDPs. It is being observed that due to present circumstances of ongoing pandemic of COVID-19, most of Institutes are facing difficulties in organizing and conducting STTP's. This office has received a number of requests from various institute to allow on line method of conducting STTP/FDP to complete their commitments.

In this regard, it is to inform that all such institutes, which have already received grants for conducting STTP's/FDPs through prevailing contact mode, are **allowed to conduct STTP's through online mode subject to following conditions:**

- (i) The Institute will be allowed to adjust the grants received for STTP at following rates:-

a.	Honorarium for Coordinator	Rs. 5000.00
b.	Honorarium to experts	Rs. 75000.00
c.	Provision for payment to lab attendant engaged during lab practices	Rs. 3000.00
d.	miscellaneous charge	Rs. 10000.00
	Total for each STTP's	Rs 93000.00

- (ii) The Institute will conduct more than one STTP's in multiples of Rs. 93000.00 within the total grant received by it and shall return the balance unspent amount to AICTE.

c.g.

if an Institute has received grant for STTP,	=Rs 3,00,000.00
Cost of three STTP	3x93000= Rs. 279000.00
Balance	= Rs. 21,000.00

The institute will return the balance unspent amount of Rs.21,000.00 alongwith interest earned on such amounts to AICTE while submitting UC for adjustment of accounts for keeping its eligibility for receiving grants in next AQIS

- (iii) The institute will conduct all three STTP's as explained above on the same topic which has been approved by AICTE while releasing the grants.
- (iv) Firm dates for each program will be intimated to AICTE beforehand.

On similar lines FDP (02 week program) to be conducted online has the following approval totaling to Rs. 1,86,000.00.

a.	Honorarium for Coordinator	Rs. 5000.00
b.	Honorarium to experts	Rs. 1,68,000.00
c.	Provision for payment to lab attendant engaged during lab practices	Rs. 3000.00
d.	miscellaneous charge	Rs. 10000.00
Total for each FDPs		Rs 1,86,000.00

The conducting of FDP's (two weeks program) shall be subjected to the similar conditions (i) to (iv) given above for conduct STTP courses, except rates of Honorarium to experts.

You are requested to acknowledge receipt of above guidelines and convey your consent if your institute is ready for conducting the STTP through online format on conditions explained above.

It is once again reiterated that online conduct of FDP & STTP will be on explicit permission of AICTE.

Yours sincerely,

1. Conduct of 03 STTTPs in online mode are hereby **approved**.

2. Following to be ensured

- Each STTP will be for 06 days from Monday to Saturday, followed by an online exam on last working day ie. Saturday. Certificates will only be issued to those participants who have attended regularly and qualify in the exam with minimum 60% marks.

- STTTPs to be scheduled in such a manner that in a month only one is conducted (Space it out evenly so as to complete it by 31 Dec 2020).

- Post successful completion, balance unutilised amount along with interest generated will be returned by RTGS as per the letter.

- **Online link of the inauguration will be shared with this office for all the STTTPs with an invite for the inaugural function.**

3. This will be treated as an official correspondence on the subject and will be enclosed at the time of submission of Final Utilisation certificate.

3. Dr. U.K. Choudhury, Prof. Dept. of EEE, 
4. Dr. D. Krishna Reddy, Head, Dept. of ECE, 
5. Dr. P.V. R. Ravindra Reddy, Head, Dept. of Mechanical Engg., 
6. Dr. T. Murali Krishna, Assoc. Prof, Dept. of EEE, 
7. Smt. N. Vasantha Gowri, Asst. Prof, Dept. of EEE, 
8. Mr. M. Nagaraju, Asst. Prof, Dept. of EEE, 

The meeting started with the greetings from the Head of the department.

Item No.1 : To form Program Evaluation Committee

Minutes : Principal Dr. P. Ravinder Reddy suggested the two HoD names Dr. D. Krishna Reddy & Dr. P.V. R. Ravinder Reddy as PEC members and Prof. U.K. Choudhury as subject expert in PEC

Item No.2 : To Conduct STTP on on-line mode

Minutes : HoD asked the coordinator of STTP to prepare Brochure & Schedule for STTP to be conducted as per the AICTE guidelines in three phases and put up a letter to AICTE for approval. Tentative Schedules are as follows

First phase is from 3rd to 8th August 2020,
Second phase is from 24th to 29th August 2020 and
Third phase is from 7th to 12th September 2020.

Item No.3: Conduct of STTP

Minutes : Dr. N. Vasantha Gowri & Sri. M. Nagaraju are asked be the co-coordinators for Phase-1

**TRENDS & CHALLENGES OF HYBRID
ELECTRIC DRIVE UTILITIES IN
TRANSPORT SECTOR**

03rd – 08th August, 2020

Organized by

**DEPARTMENT OF ELECTRICAL
AND ELECTRONICS ENGINEERING**

CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY(A)

CBIT is one of the premier Engineering Institute in INDIA, pioneer in Telangana State, which is at idyllic surroundings of Gandipet Lake, Hyderabad. The college offers Nine UG and Eleven PG programs. It has been standing as a temple of knowledge for the past 41 years by producing about 25,000 Eminent and skillful Graduate Engineers, who are successful in their Careers, serving all over the world. The Institute has been Accredited by NBA--AICTE and NAAC--UGC. UGC has granted Autonomous Status from the Academic Year 2013-14 onwards. The Grants received from AICTE/UGC are worth about Rs. 2.5 Crores. Brilliant and Meritorious Candidates with good EAMCET Rank are seeking admissions at CBIT. CBIT Students are prepared and perfected to secure Placements in MNCs through College Career Development Center.

ABOUT THE DEPARTMENT

CBIT started Electrical & Electronics Engineering UG course in 1994 and was accredited thrice i.e. in years 2004, 2008 & 2013 by NBA. The intake was increased from 60 to 120 from the Academic Year 2013-14. The Department started offering a PG course in Power Systems & Power Electronics in 2006 with an intake of 18 and was accredited by NBA in the year 2016. The Department has highly qualified and experienced faculty. The Department is having well equipped labs with latest Hardware & Software. The Department is also certified by ISO 9001:2008. The Department is recognized as Research Centre in 2017 by Osmania University to carry out research for the award of Ph.D. degree. The Department is keen on developing consultancy services and welcomes funding research from outside agencies. The Department in the year 2019-20 has received a funding of Rs.2,72,000 under AICTE-STTP Scheme for MATLAB Research Methodology project, Rs. 3,00,000 under AICTE-STTP scheme for Hybrid Electric Utilities Project and Rs.11,00,000 under AICTE-RPS Scheme for Development of Low Cost Flexible Quality Conditioner to Mitigate Power Quality Issues and MODROBS for special electrical machines to the tune of Rs.17Lakh.

ABOUT THE STTP

Deterioration in air quality, global warming, and a decrease in petroleum resources are becoming the major threats to human beings. More and more stringent emissions and fuel consumption regulations are stimulating an interest in the development of safe, clean, and high-efficiency transportation. It has been well recognized that electric, hybrid electric, and fuel-cell powered drive train technologies are the most promising solutions to the problem of land transportation in the future. In recent decades, the research and development activities related to

transportation have emphasized the development of high efficiency, clean, and Modern Electric, Hybrid Electric, and Fuel Cell Vehicles safe transportation.

Topics to be covered in STTP

- ↓Over View of Electric Vehicle ↓
- Govt. Policies and Guide Lines ↓
- Special Electrical Machines
- ↓Batteries for Hybrid Electric Vehicles ↓
- Testing and Certification
- ↓Electric Vehicle Design ↓
- Axial Flux Machines
- ↓Hybrid Electric Vehicles

RESOURCE PERSONS

Resource Persons will be from Renowned Institutions such as IIT's/NIT's, Industries like Tata Motors, and host Institution.

TARGET GROUP

The STTP is expected to benefit Engineers, Scientists, Researchers and Academicians who are working / Teaching / studying in the area of Hybrid Electric Vehicles.

Report on AICTE Sponsored STTP on "TRENDS & CHALLENGES OF HYBRID ELECTRIC DRIVE UTILITIES IN TRANSPORT SECTOR" during 03rd - 08th August 2020

Totally 159 participants from 15 states registered for the STTP, but 106 participants regularly attended the program out of which only 91 received certificates by clearing the end examination with equal to or more than 60% in which was conducted on the last day i.e. on 08-08-2020. Every day three sessions are conducted (two in the morning and one in the evening) which is of 1 ½ hour duration. The program was conducted on google-meet platform. After the completion of each session the attendance and feedback forms are shared in the chat box. The detailed report of each session is given below.

03-08-2020

Session-1

Time: 10:40 AM to 01:10 PM

Speaker: Dr. U.K. Choudhury, Prof. & Director(I&I), CBIT, (Ex ED, CTM, BHEL)

Topic: Introduction to Electric Mobility, Policy and Guidelines, Trends and Challenges

The session started with Parts of electric vehicle, difference between ordinary vehicle & electric vehicle, Shape of the front panel of the vehicle & its impact on energy consumption, Electric bus layout, importance of electric vehicle power train, Challenges/barriers to electric vehicles in terms of Technical, Infrastructural, Market & Policy. The he compared the components & distribution of energy losses in diesel bus & battery-operated bus like aerodynamic losses, braking losses wheel losses, Transmission losses, Engine/Battery losses and ancillary losses. He concluded the session with Indian Government Initiatives toward electric vehicles like NMEM, NEMM, EVI, FAME-1 & Fame-2

03-08-2020

Session-2

Time: 02:15 AM to 04:10 PM

Speaker: Dr. U.K. Choudhury, Prof. & Director(I&I), CBIT, (Ex ED, CTM, BHEL)

Topic: Permanent Magnet Motor Drives for Electric Mobility

In this session, the advantages, classification and applications of the permanent magnet machines are discussed. The performance requirement of electric vehicle in terms of torque density, power density speed range, efficiency, hill climbing, intermittent overload capacity, overtaking, reliability, robustness, low acoustic noise and reasonable cost are discussed. Sir shown different pictures of permanent magnets, precision thin material, flexible magnets and the comparison between various magnets are discussed. Domain movement during magnetization, magnetizer and critical points for permanent magnet generators are deliberated.

04-08-2020

Session-1

Time: 09:30 AM to 11:00 AM

Speaker: Mr. Balwanth Reddy, Dy. Manager, BHEL R&D

Topic: Power Electronic Converters for Electric Mobility

Session started with the basic components of Power electronics, Significance of Static switches, PI control gains in the design of power converters, Importance of IGBT in the medium voltage high current applications, Intelligent power modules, Latest materials used in power devices like Silicon carbide, Gallium Arsenide, Thin Film, Superconductors etc. then presented the types of electric vehicles, Basic design aspect of converters like Importance of technical specifications, Application standards, selection of semiconductor device, EMI/EMC standards, DC link capacitor. The continued with Scalar & vector control of induction motor.

04-08-2020

Session-2

Speaker: Dr. U.K. Choudhury, Prof. & Director(I&I), CBIT, (Ex ED, CTM, BHEL)

Topic: Hybrid Electric Vehicle, Regenerative Braking and Future Trends

The resource person has given overview of future advancements in e-mobility. This lecture mainly focused on Regenerative braking, Hybrid Electric Vehicle (HEV), Hydraulic Hybrid Vehicles. He discussed about the complexity in the design of HEVs than IC engine vehicles in all the aspects. He deliberated about advantages and disadvantages of different configurations of HEVs, Types of HEVs. He quoted different topics of research requirements on energy storage systems, regenerative braking, vehicle dynamics and optimization, Challenges in power electronics, vehicle control.

04-08-2020

Session-3

Speaker: Dr. Y. Chandrasekhar, Dept of EEE, NITW

Topic: Optimal Dispatch of Electric Vehicle Battery In EV Charging Stations and Its Impact on Distribution

The session started with a novel dispatch strategy to determine, when and at what rate EV battery should charge/discharge in order to maximize profits to EV owners and responding to power system's requirements while considering the effect of renewable DG power availability. This objective depends on many criteria like buying and selling price of energy, battery state of charge (SoC), Renewable DG power availability, and load levelling. The optimal dispatch strategy is applied to 100 and 200 EV fleets with random travel plan, the effect of these fleets with optimal dispatch strategy is tested on IEEE 33 bus distribution system with added DGs. Furthermore, optimal power dispatch of DGs in EV-rich distribution system is explained with BAT optimization algorithm (BOA).

05-08-2020

Session-1

Speaker: Mr. M. Desai, DGM, ARAI, Pune

Topic: Testing Standards for Electric Vehicle and Its Components

In this session Desai sir quoted the importance of regulatory mechanism like standardization, type of approval/certification Agencies, regulation frame work for electric vehicle under CMVR for 250W-EV, E-Rickshaw/E-cart vehicles. The electric vehicle approval requirements like AIS 038: Constructional & functional safety requirements like traction battery, protection against electric shock, high voltage marking etc. Then continued with AIS:039-Electrical energy consumption, AIS:040-Measurement of range, AIS:041-Maximum Power test, AIS:049-EV Specific requirements like grade-ability test at 60% of State of Charge. Battery Management System, AIS:048-performance and abuse testing for traction batteries are discussed. Then continued with the topics like Present scenario in India, new battery safety standard, Charges/Charging stations like conductive & inductive charging, EV Charging: Ministry of power Guidelines, Different types of charges and charger standards. The session ended with Vehicles converted to Electric-Hybrid, Hybrid vehicle regulations in India, e-motor test bed for 3-10 kW motors, Characterization of Li-ion Cell, module & pack, challenges with adoption of Electric Mobility and the role of Government agencies in India.

05-08-2020

Session-2

Speaker: **Sri Y.K. Lee, MD, Edison Motors**

Topic: **Development of Electric Vehicle by Edison Motors Korea and Special Design Features**

Started with the introduction of Edison motors, their vision & mission from value market to trust market and its operating policy. Then their product electric bus constructional details, Power train, battery & Motor positions in cars, how they entered in Indian market with accelerated adoption of alternate fuels like CNG/LNG/Hybrid/Electric vehicles. He discussed about types of Li-Ion batteries, challenges with adoption of electric mobility, role of Ministry of Heavy Industry, Ministry of Road Transport to manufacture electric vehicles. Concluded the session with the products of Edison motors and their specifications.

05-08-2020

Session-3

Speaker: **Mr. S. Ravi, Hybrid fuel solutions Pvt. Ltd**

Topic: **Fuel Cell and Its Application for Electric Vehicle**

This session concentrated on basic components of fuel cells like PEM stack, Balance of plant, membrane electrode assembly etc. then discussed about hybrid fuel cells, bipolar plate fabrication cell, stack assembly, stack testing BOP components like blowers, LCD, Load connectors, Controller, Short Circuit unit are exemplified. Then depicted the MEA assembly unit, its requirements and applications of fuel cells in practical application like operating excavators in remote areas. Continued with the necessity of supercapacitor, DC-DC converter, Dc-bus in the system. He quoted that the fuel cell fleet is now mostly hydrogen fuelled.

06-08-2020

Session-1

Speaker: **Mr. S. Eswar Rao, Sr. DGM, BHEL R&D**

Topic: **Charging Station for Electric Vehicle**

Sri S. Eswar Rao sir has discussed charges for electric vehicles, batteries for e-mobility to meet the challenges of electric vehicles such as waiting time for recharge, range anxiety, high initial cost etc., continued his session with understanding battery characteristics and battery management system. Then explained about types of charging standards, dc charging station architecture, dc fast charger developed by BHEL, topology of high frequency-based charger, design of controller for grid connected converters, solar based ac charging stations, weigh side charging infrastructure, types of charging, difference between continuous charging and conductive charging. Concluded his session with on-board charges, off-board charges and types of chargers like Level-1, Level-2, Level-3 etc.

06-08-2020

Session-2

Speaker: **By Mr.A. Venkanna, Deputy Manager, EM Lab, BHEL**

Topic: **Liquid Cooled Induction Motor for Electric Mobility**

Introduced water cooled induction motor application for electric vehicle. The first step is customers specification like cost, weight, volume and efficiency, IP 69 K requirements, motor mounting configurations. The main advantage of liquid cooling system in transportation is at the time of starting, overtaking of the vehicle and during transmission of vehicle on gradient surfaces. Then he continued his session on air cooling and water-cooled induction motors. Depicted the cross-sectional view of water-cooled induction motor. Then he concluded the session with electro magnetic design and analytical design of induction motors.

06-08-2020

Session-3

Speaker: Mr. Y. Rama Rao, COO, M/s Deccan Auto

Topic: Design of an Electric Vehicle

Explained about growing economy power in India. India stands fifth position in auto mobile industry. Hence the solution for future transportation is e-mobility. Given a comparison between IC engine and Electric vehicles. explained about batteries and their costs for electric vehicles. He also presented the statistics of electric car. Discussed in detail about electric charging regulations in India. Concluded the session with development challenges, electric vehicle safety, operability, centre of excellence on e-mobility.

07-08-2020

Session-1

Speaker: Dr. P. V. N. Prasad, Prof. (Rtd), Dept of EE, OUCE

Topic: Reliability Modeling and Assessment of Hybrid Electric Vehicles

In this session the importance of reliability in Hybrid Electric Vehicles is discussed. The need of reliability assessment is required because of the increasing automation, complexity in the system, Failure & Repairs, Quality of product, Reduction of overall cost. Two types of assessment viz. Past & Future assessment are discussed. The four parts of reliability are probability, adequate performance, Time, Operating conditions are introduced. Various reliability indices are like number of failures, average time between failures, average down time energy loss, revenue is quoted. The maintainability, availability and bath tub model is conferred. The Markov models for series-hybrid, Parallel hybrid and Series-Parallel Hybrid Electric Vehicles are discussed. Concluded that parallel-hybrid is more reliable than series-hybrid Electric Vehicles.

07-08-2020

Session-2

Speaker: Mr. Jatil Sharma, MD, Tejaswi Green Engg. Pvt. Ltd

Topic: Application of E-mobility for Industrial Transport Application

The vehicles landscape in India is introduced by the resource person. Discussed about EVs, BEVs, ZEVs & BOU etc., electric vehicles viabilities like charging infrastructure, increased efficiency, reduction of cost and policies related to motor drive technology. He more focused on innovation, life cycle, project management. Then continued with the products developed for various applications like EVs in golf-carts, vehicles for cleaning of solar panels, e-ambulances in hospitals, missile carriers in defence sector, vehicles for vigilance & security, forest & tourism, public health and sanitation by Tejaswi GreenEngg. Pvt. Ltd.

07-08-2020

Session-3

Speaker: Dr. Y. Chandrasekhar, Dept of EEE, NITW

Topic: Optical Planning of EV Charging stations and Battery Swapping Stations

For the installation of EV charging stations the objectives are loss minimization and profit maximization in optimization process. Due to development of the batteries and its charging technologies, public incentives and growing criticism on dense air pollution, the electrical vehicles (EVs) gaining more popularity as compared to traditional fuel vehicles. In this scenario, the multi-objective optimal scheduling of Electric Vehicle batteries in Battery Swapping Station (BSS) is explained in order to optimize the number of EV batteries taken from battery stock. Further, degradation cost of batteries and electricity charging cost of batteries also considered for optimal scheduling of EV batteries in BSS. The dynamic electricity pricing model is considered to avoid new peaks of battery charging demand in BSS. EV battery swapping demand in each hour of the day is solved by using a multi-objective Shuffled Frog Leaping Algorithm (SFLA).

08-08-2020

Session-1

Speaker: Dr. R. Gopalan, Director, ARCI

Topic: Materials for 21st Century Energy Crisis for Sustainable Transport Applications

Session started with Sustainable energy, Matter of concern in India, Energy Crisis & demand, wind energy, solar energy, roof-top wind-solar hybrid systems, introduced about 50MW solar plant in Jodhpur, 1000MW solar plant in Tamilnadu, 21st century energy crisis in transport sector. Session continued with Transformation in vehicle technology, Carbon foot print, EV concept, Drivers for growth of electric vehicles in India, Electric vehicle status in India, Permanent magnet technology and its role for energy saving technology, Li-ion battery, possible combination of Li-ion battery, fabrication of Li-ion battery at ARCI, power and energy of various batteries, Alternative energy materials & systems, fuel cells, solar cells, Thermoelectric materials.

08-08-2020

Session-2

Speaker: Dr. G. Tulasi Ram Das, Prof, Dept of EEE, JNTUH, Former Vice Chancellor (JNTUK)

Topic: Electrical Motor Drives for Electric Vehicles

The session started with induction motor and its advantages & limitations in electric vehicles. The session continued with the importance of switched reluctance motors with its major advantages of less heat development, but the main drawback of complex control circuitry, insights for selecting the right motor for electric vehicles for two wheelers & three wheelers. Sir has illustrated the performance comparison between indirect field-oriented control and direct torque control of induction motors with case study. Session ended with future scope of research in electric vehicles.

Instructions/Guidelines to be followed by the University/Institution

I. Disbursement of funds to University/Institutions

- The full amount of the grant sanctioned is being released as advance to the University/Institute.
- The amount spent by the institute on the conduct of STTP shall be adjusted on the basis of utilization certificate and detailed expenditure statement submitted by the University/Institution on the prescribed format along with other mandatory documents viz feedback form, copy of proceedings and completion report etc.
- The above said amount of grant shall be refunded back to AICTE if the Letter of Approval (LOA) / Extension of Approval (EOA) is not issued by AICTE to the institute for the academic year 2019-20.

II Maintenance of Accounts

- The Institute shall strictly follow the provisions laid down in the scheme document as available on the portal.
- Funds covered by this grant shall be kept separately and would not be mixed up with other funds so as to know the amount of interest accrued on the grant.
- The University/College/Institute shall maintain proper accounts of the expenditure out of the grants, which shall be utilized only on approved items of expenditure.
- The grant is intended to cover items of expenditure connected with the Short Term Training Programme such as Boarding & Lodging to the participants, TA to outstation participants, Honorarium to Course Coordinator, reading material to participants, Honorarium to resource persons, TA/DA to resource persons including two outstations resource persons & working expenses (reprographic services, postage, transport, daily wages, tea/coffee etc).

III. Conduct of test and issuance of certificate

A test shall be conducted by Program Evaluation Committee (PEC) at the end of the program and the certificates shall be issued to those participants who have attended the program and have qualified in the test.

IV. Submission of Documents by the University/Institutions to AICTE

a. The following mandatory relevant documents are required to be submitted by the University/Institution within one month of the completion of the program:-

- (i) Original Statement of actual expenditure & Utilization Certificate in the prescribed proforma duly signed by the Head of the institution and countersigned by Registrar/Finance Officer/Govt. Auditor. In case of self-financing/private institutions, Statement of actual Expenditure & Utilization Certificate are required to be audited & signed and sealed by a Chartered Accountant endorsing the membership number and complete postal address. Format for the same is available on AICTE web portal.

The University/Institution is not required to submit bills/vouchers/invoices etc for the expenditure incurred out of recurring grants. However, such copies of bills/vouchers/invoices shall be digitized by respective institutions receiving grant and uploaded scanned copies of such bills/vouchers/invoices etc on the portal for availability and view at any point of time.

- (ii) Feedback form in the prescribed proforma.
 - (iii) Copy of the proceedings and completion report.
 - (iv) List of candidates who have successfully completed the program on the basis of the test conducted by Program Evaluation Committee (PEC).
 - (v) Report submitted by Program Evaluation Committee (PEC).
- b. The amount of the grant shall be adjusted on submission of utilization certificate & detailed expenditure statement by University/Institution. On receipt of these documents, the total amount of financial assistance, admissible as per the norms, shall be worked out and grant-in-aid adjusted.

V. General instructions

- a. Preferably 10% of the participants may be industry professionals deputed by industry. Further, not more than 2 participants shall be from the host institution/group of institutions.
- b. Money to be reimbursed on the grant (for any reasons to include unspent amount, interest, penalty if imposed) shall be refunded back to AICTE in the form of Demand Draft payable to Member Secretary, AICTE, New Delhi.
- c. As AICTE needs adequate time for depositing the Demand Draft in the bank, the same be immediately dispatched to avoid any lapse of the validity period.
- d. The STTP is a residential program of a duration of six days with minimum 40 participants. The approved STTP shall be conducted within three months from the date of release of funds.
- e. If programme is not conducted in the period of three months of the issuance of this Sanction Order, the released amount, alongwith interest accrued thereon, has to be necessarily returned back to AICTE within a month.
- f. The expenditure under the Heads 'Honorarium to Course Coordinator' and 'Honorarium to Resource Persons' shall not exceed 1% & 20% respectively of the total sanctioned grant for the Programme. However, overall expenditure shall not exceed the funds sanctioned for the Programme.

- g. Any extra money required to complete the programme must be borne by the institute from their own resources. But the quality of the activities should not be compromised.
- h. Any unavoidable circumstantial change in the program with respect to name of Project Coordinator, Venue and date for organizing STTP would mandatorily require prior approval of the Council. All such requests should be addressed to AICTE, in advance, recording the specific reasons for proposed changes, failing which the offer for the grant already issued would be treated as automatically withdrawn and the financial assistance released in favour of the beneficiary institution shall be refunded immediately to the Council. Kindly mention the File No. 34-65/288/RIFD/STTP/Policy-1/2018-19 in your future correspondence.
- i. **Program Evaluation Committee (PEC)** is required to be constituted at institutional level. The constitution of the PEC shall be as under:

- (i) Principal/Director/Registrar of the institution (Chairperson).
- (ii) Coordinator of the program (Member Secretary).
- (iii) Two HoDs and one subject expert (members).

The members of the said PEC shall not be below the rank of Associate Professor. A test shall be conducted by Program Evaluation Committee (PEC) at the end of the program and the certificates shall be issued to those participants who have attended the program and have qualified in the test. The minutes of the meetings, along with PEC report, are to be submitted to the Council at end of the program along with other mandatory documents.

- j. **GoI GFR rules** (@<https://doe.gov.in/order-circular/general-financial-rules2017-0>) should be followed during utilization of grant.
- k. This Sanction Order may be treated as Offer Letter for all purposes.

NOTE:- Any deviation from the above will invoke serious action against the Institute.

Yours sincerely,

(Dileep N Malkhede)

Sub:-For information of AICTE approved institutes which have received grants for conducting STTP's/FDP's under AQIS 2018-19.

Sir,

This is in reference to grants released by AICTE under AQIS 2018-19 for conduct of STTP's/FDPs. It is being observed that due to present circumstances of ongoing pandemic of COVID-19, most of Institutes are facing difficulties in organizing and conducting STTP's. This office has received a number of requests from various institute to allow on line method of conducting STTP/FDP to complete their commitments.

In this regard, it is to inform that all such institutes, which have already received grants for conducting STTP's/FDPs through prevailing contact mode, are **allowed to conduct STTP's through online mode subject to following conditions:**

- (i) The Institute will be allowed to adjust the grants received for STTP at following rates:-

a.	Honorarium for Coordinator	Rs. 5000.00
b.	Honorarium to experts	Rs. 75000.00
c.	Provision for payment to lab attendant engaged during lab practices	Rs. 3000.00
d.	miscellaneous charge	Rs. 10000.00
	Total for each STTP's	Rs 93000.00

- (ii) The Institute will conduct more than one STTP's in multiples of Rs. 93000.00 within the total grant received by it and shall return the balance unspent amount to AICTE.

c.g.

if an Institute has received grant for STTP,	=Rs 3,00,000.00
Cost of three STTP	3x93000= Rs. 279000.00
Balance	= Rs. 21,000.00

The institute will return the balance unspent amount of Rs.21,000.00 alongwith interest earned on such amounts to AICTE while submitting UC for adjustment of accounts for keeping its eligibility for receiving grants in next AQIS

- (iii) The institute will conduct all three STTP's as explained above on the same topic which has been approved by AICTE while releasing the grants.
- (iv) Firm dates for each program will be intimated to AICTE beforehand.

On similar lines FDP (02 week program) to be conducted online has the following approval totaling to Rs. 1,86,000.00.

a.	Honorarium for Coordinator	Rs. 5000.00
b.	Honorarium to experts	Rs. 1,68,000.00
c.	Provision for payment to lab attendant engaged during lab practices	Rs. 3000.00
d.	miscellaneous charge	Rs. 10000.00
Total for each FDPs		Rs 1,86,000.00

The conducting of FDP's (two weeks program) shall be subjected to the similar conditions (i) to (iv) given above for conduct STTP courses, except rates of Honorarium to experts.

You are requested to acknowledge receipt of above guidelines and convey your consent if your institute is ready for conducting the STTP through online format on conditions explained above.

It is once again reiterated that online conduct of FDP & STTP will be on explicit permission of AICTE.

Yours sincerely,

To: Principal CBIT <principal@cbit.ac.in>

1. Conduct of 03 STTTPs in online mode are hereby **approved**.

2. Following to be ensured

- Each STTP will be for 06 days from Monday to Saturday, followed by an online exam on last working day ie. Saturday. Certificates will only be issued to those participants who have attended regularly and qualify in the exam with minimum 60% marks.

- STTTPs to be scheduled in such a manner that in a month only one is conducted (Space it out evenly so as to complete it by 31 Dec 2020).

- Post successful completion, balance unutilised amount along with interest generated will be returned by RTGS as per the letter.

- **Online link of the inauguration will be shared with this office for all the STTTPs with an invite for the inaugural function.**

3. This will be treated as an official correspondence on the subject and will be enclosed at the time of submission of Final Utilisation certificate.

TRANSPORT SECTOR

02nd – 07th November, 2020

Organized by

DEPARTMENT OF ELECTRICAL AND
ELECTRONICS ENGINEERING

CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY(Autonomous)

CBIT, established in the Year 1979, has developed in Four Decades of its journey, as one of the Premier Engineering Institutes in INDIA, in Telangana State. The Institute offers Eleven UG and Eleven PG Programs into which Brilliant and Meritorious Candidates with good EAMCET Rank are seeking admissions at CBIT. CBIT Students are prepared and perfected holistically to secure Placements in reputed National and Multi-National Industries. Alumni, nearly 25,000 Graduate Engineers, are successfully placed in their Careers and as Entrepreneurs Globally. The Institute has been granted Autonomous.

ABOUT THE DEPARTMENT

CBIT started Electrical & Electronics Engineering UG course in 1994 and was accredited thrice i.e. in years 2004, 2008 & 2013 by NBA. The intake was increased from 60 to 120 from the Academic Year 2013-14. The Department started offering a

course in Power Systems & Power Electronics in 2006 with an intake of 18 and was accredited by NBA in the year 2016. The Department has highly qualified and experienced faculty. The Department is having well equipped labs with latest Hardware & Software. The Department is also certified by ISO 9001:2008. The Department is recognized as Research Centre in 2017 by Osmania University to carry out research for the award of Ph.D. degree. The Department is keen on developing consultancy services and welcomes funding research from outside agencies. The Department in the year 2019-20 has received a funding of Rs.2,72,000 under AICTE-STTP Scheme for MATLAB Research Methodology project, Rs. 3,00,000 under AICTE-STTP scheme for Hybrid Electric Utilities Project and Rs.11,00,000 under AICTE-RPS Scheme for Development of Low-Cost Flexible Quality Conditioner to Mitigate Power Quality Issues and MODROBS for special electrical machines to the tune of Rs.17 Lakh.

ABOUT THE FDP

Deterioration in air quality, global warming, and a decrease in petroleum resources are becoming the major threats to human beings. More and more stringent emissions and fuel consumption regulations are stimulating an interest in the development of safe, clean, and high-efficiency transportation. It has been well recognized that electric, hybrid electric, and fuel-cell powered drive train technologies are the most promising solutions to the problem of land transportation in the future. In recent decades,

the research and development activities related to of high efficiency, clean, and Modern Electric, Hybrid Electric, and Fuel Cell Vehicles safe transportation.

TOPICS TO BE COVERED IN STTP

- ↓ Over View of Electric Vehicle & Govt. Policies
- ↓ Hybrid Electric Vehicle and its performance
- ↓ Electric Vehicle Mechanics and Modelling
- ↓ Power Converters for Electric Vehicles
- ↓ PM motor Drives for EVs
- ↓ Induction Machine Drives for EVs
- ↓ High Energy Batteries
- ↓ Charging Stations & Wireless Chargers
- ↓ Testing & Certification
- ↓ PWM Techniques for Inverters

RESOURCE PERSONS

Resource Persons will be from Renowned Institutions such as IIT's/NIT's, Industries like Tata Motors, and host Institution.

TARGET GROUP

The STTP is expected to benefit Engineers, Scientists, Researchers and Academicians who are working / Teaching / studying in the area of Hybrid Electric Vehicles.

The meeting started with the greetings from the Head of the department.

Item No.1 : To form Program Evaluation Committee

Minutes : Principal Dr. G. P. Saradhi Varma asked the same members to be in PEC

Item No.2 : To Conduct STTP Phase-II on on-line mode

Minutes : HoD asked the coordinator of STTP to prepare Brochure & Schedule for STTP Phase -2 as per the AICTE guidelines and send the invitation link to AICTE.

Item No.3: Conduct of STTP

Minutes : Dr. U. K. Choudhary suggested resource persons for the STTP.

Sri. M. Nagaraju & Dr. N. V. Phanendra Babu are asked be the co-coordinators for Phase-2

Report on AICTE Sponsored STP on "TRENDS & CHALLENGES OF HYBRID ELECTRIC DRIVE VEHICLES IN TRANSPORT SECTOR" during 01st - 07th November 2020

03-11-2020

Session-2

Time: 02:30 PM to 04:00 PM

Speaker: Dr. P. Selish Kumar, Associate Professor, Dept. of EEE, Osmania University

Topic: **Advances in PWM techniques for Inverters**

The resource person has given overview of space-vector pulse width modulation-based algorithm for multilevel inverters. He explained different pulse width modulation techniques used for multilevel inverters. He started with conventional two-level inverter operation and he focussed on detailed explanation of space-vector pulse width modulation technique. He has shown the comparison between two level and three level inverters in various parameters.

04-11-2020

Session-1

Time: 11:30 AM to 1:00 PM

Speaker: Dr. U.K. Choudhury, Prof. & Director(I&I), CBIT, (Ex ED, CTM, BHEL)

Topic: **Electric Hybrid Vehicle Mechanics, Modelling and Performance Calculation**

The session started with a description on series and parallel electric vehicle and regenerative braking in electric vehicles, and the comparison of TCO and payback for electric vs diesel buses. The variation of braking with respect to deceleration rate has explained. The concept of rolling resistance and grading resistance of road has been discussed for different types of roads. The torque development of the motor with respect to different surfaces is explained. Later, he discussed about aero dynamics concept of wind pressure on vehicle. How the rolling resistance varies with the speed of the vehicle has shown in the graph.

04-11-2020

Session-2

Time: 02:30 PM to 04:00 PM

Speaker: Dr. Krishna Vasudevan, Professor, IIT Chennai

Topic: **Design and Analysis of Power Converters for Electric Vehicles**

Sir started the session with steps involved for designing an inverter. He explained the selection procedure for power device based on current rating and power loss. Heat sink design considerations explained for inverter. Then he differentiated between diode voltage drop and IGBT voltage drop during selection of power device. The design of DC bus with a decoupling capacitor has been discussed. He also given detailed description about gate driver circuits by considering dead time and its effects.

05-11-2020

Session-1

Time: 11:30 AM to 1:00 PM

Speaker: Dr. O. Chandrasekhar, Associate Professor, Dept. of EE, NIT-Srinagar

Topic: **Power Converters for Hybrid Electric Vehicle**

In this lecture, sir has given a detailed explanation of converter regarding objective, applications, IEC standards, general representation of converters. He compared various topologies implemented and available for converters and implementation of IB3 converter. For a given duty cycle what is a simulated voltage and what is a theoretical voltage also been explained. Then the same voltages have observed with different duty cycle. He has shown graphical explanation of power factor, efficiency and ripple content with respect to duty cycle variation. He also discussed the total

Report on AICTE Sponsored STTP on "TRENDS & CHALLENGES OF HYBRID ELECTRIC DRIVE UTILITIES IN TRANSPORT SECTOR" during 02nd - 07th November 2020

harmonic distortion by varying the voltage from 90 volts to 260 volts, and load with different impedances, for a proposed topology.

05-11-2020

Session-2

Time: 02:30 PM to 04:00 PM

Speaker: Dr. V.T. Soma Sekhar, Professor, Dept. of EE, NIT-Warangal

Topic: Open-end winding Induction Motor Drives

This session started with two level inverter concepts. The switches toggling, current waveform and voltage waveform has been explained with wave shape and it is non sinusoidal. Then he discussed the drawback of non-sinusoidal voltage given to induction motor. And sir discussed about pole voltage, motor phase voltage and common mode voltage with calculation of motor phase voltage with remaining two voltages. Sir has given detailed description of switching states and null states of two level inverter with total harmonic spectra with modulation and without modulation. He said how to get three level from two level inverter using space vector modulation. Then neutral point clamped and cascaded inverter concepts have been explained. He focussed on open end winding induction motor with isolated DC source. How to reduce the effect of zero sequence currents also been discussed.

06-11-2020

Session-1

Time: 11:30 AM to 1:00 PM

Speaker: Mr. Manoj Desai, General Manager, ARAI

Topic: Testing and Certification

This session is on testing and certification of electric vehicles. Sir has explained why the standards are required and salient features of electric vehicle. The regulation frame work and the rules followed by vehicle certification of less than 250 watts rating. Also discussed about type approval testing with verification, safety and performance. Then the battery management systems and their performance has been discussed. He focussed on ARAI approaches such as AIS 038 for M and N vehicles, AIS 156 high category vehicle. Described about the AIS 157 and 168 for fuel cell and agricultural. The classification and standards for battery charging stations also depicted. The phase-2 of FAME scheme implemented by govt of India is also been discussed.

06-11-2020

Session-2

Time: 02:30 PM to 04:00 PM

Speaker: Dr. Venugopal, Ex- ISRO official.

Topic: High Energy Batteries and Performance

Started with definition of battery and its specifications like energy density, power density and safety. Classification of batteries based on active materials, electrolytes, and case materials etc. And then he discussed about various materials used for anode, cathode, separator and electrolyte etc. He quoted about evolving process of Lithium manganese aluminium oxides in the battery technology. Sir has focussed more on progress of Lithium ion, silicon anode and try electrode. Then he discussed about electric vehicle battery pack design trade off. He quoted about aerodynamics and electric vehicles in the city limits. National Automotive testing R&D infrastructure project is also been discussed. Sir explained about battery swapping also.

Report on AICTE Sponsored STTP on "TRENDS & CHALLENGES OF HYBRID ELECTRIC DRIVE UTILITIES IN TRANSPORT SECTOR" during 02nd - 07th November 2020

07-11-2020

Session-1

Time: 11:30 AM to 1:00 PM

Speaker: Mr. Jatil Sharma, MD, Tejaswi Green Engg. Pvt. Ltd.

Topic: Electric Vehicle for Transport Application

The vehicles landscape in India is introduced by the resource person. Discussed about EVs, BEVs, ZEVs & BOU etc., electric vehicles viabilities like charging infrastructure, increased efficiency, reduction of cost and policies related to motor drive technology. He more focused on innovation, life cycle, project management. Then continued with the products developed for various applications like EVs in golf-carts, vehicles for cleaning of solar panels, e-ambulances in hospitals, missile carriers in defence sector, vehicles for vigilance & security, forest & tourism, public health and sanitation by Tejaswi GreenEngg. Pvt. Ltd.

Instructions/Guidelines to be followed by the University/Institution

I. Disbursement of funds to University/Institutions

- The full amount of the grant sanctioned is being released as advance to the University/Institute.
- The amount spent by the institute on the conduct of STTP shall be adjusted on the basis of utilization certificate and detailed expenditure statement submitted by the University/Institution on the prescribed format along with other mandatory documents viz feedback form, copy of proceedings and completion report etc.
- The above said amount of grant shall be refunded back to AICTE if the Letter of Approval (LOA) / Extension of Approval (EOA) is not issued by AICTE to the institute for the academic year 2019-20.

II Maintenance of Accounts

- The Institute shall strictly follow the provisions laid down in the scheme document as available on the portal.
- Funds covered by this grant shall be kept separately and would not be mixed up with other funds so as to know the amount of interest accrued on the grant.
- The University/College/Institute shall maintain proper accounts of the expenditure out of the grants, which shall be utilized only on approved items of expenditure.
- The grant is intended to cover items of expenditure connected with the Short Term Training Programme such as Boarding & Lodging to the participants, TA to outstation participants, Honorarium to Course Coordinator, reading material to participants, Honorarium to resource persons, TA/DA to resource persons including two outstations resource persons & working expenses (reprographic services, postage, transport, daily wages, tea/coffee etc).

III. Conduct of test and issuance of certificate

A test shall be conducted by Program Evaluation Committee (PEC) at the end of the program and the certificates shall be issued to those participants who have attended the program and have qualified in the test.

IV. Submission of Documents by the University/Institutions to AICTE

a. The following mandatory relevant documents are required to be submitted by the University/Institution within one month of the completion of the program:-

- (i) Original Statement of actual expenditure & Utilization Certificate in the prescribed proforma duly signed by the Head of the institution and countersigned by Registrar/Finance Officer/Govt. Auditor. In case of self-financing/private institutions, Statement of actual Expenditure & Utilization Certificate are required to be audited & signed and sealed by a Chartered Accountant endorsing the membership number and complete postal address. Format for the same is available on AICTE web portal.

The University/Institution is not required to submit bills/vouchers/invoices etc for the expenditure incurred out of recurring grants. However, such copies of bills/vouchers/invoices shall be digitized by respective institutions receiving grant and uploaded scanned copies of such bills/vouchers/invoices etc on the portal for availability and view at any point of time.

- (ii) Feedback form in the prescribed proforma.
 - (iii) Copy of the proceedings and completion report.
 - (iv) List of candidates who have successfully completed the program on the basis of the test conducted by Program Evaluation Committee (PEC).
 - (v) Report submitted by Program Evaluation Committee (PEC).
- b. The amount of the grant shall be adjusted on submission of utilization certificate & detailed expenditure statement by University/Institution. On receipt of these documents, the total amount of financial assistance, admissible as per the norms, shall be worked out and grant-in-aid adjusted.

V. General instructions

- a. Preferably 10% of the participants may be industry professionals deputed by industry. Further, not more than 2 participants shall be from the host institution/group of institutions.
- b. Money to be reimbursed on the grant (for any reasons to include unspent amount, interest, penalty if imposed) shall be refunded back to AICTE in the form of Demand Draft payable to Member Secretary, AICTE, New Delhi.
- c. As AICTE needs adequate time for depositing the Demand Draft in the bank, the same be immediately dispatched to avoid any lapse of the validity period.
- d. The STTP is a residential program of a duration of six days with minimum 40 participants. The approved STTP shall be conducted within three months from the date of release of funds.
- e. If programme is not conducted in the period of three months of the issuance of this Sanction Order, the released amount, alongwith interest accrued thereon, has to be necessarily returned back to AICTE within a month.
- f. The expenditure under the Heads 'Honorarium to Course Coordinator' and 'Honorarium to Resource Persons' shall not exceed 1% & 20% respectively of the total sanctioned grant for the Programme. However, overall expenditure shall not exceed the funds sanctioned for the Programme.

- g. Any extra money required to complete the programme must be borne by the institute from their own resources. But the quality of the activities should not be compromised.
- h. Any unavoidable circumstantial change in the program with respect to name of Project Coordinator, Venue and date for organizing STTP would mandatorily require prior approval of the Council. All such requests should be addressed to AICTE, in advance, recording the specific reasons for proposed changes, failing which the offer for the grant already issued would be treated as automatically withdrawn and the financial assistance released in favour of the beneficiary institution shall be refunded immediately to the Council. Kindly mention the File No. 34-65/288/RIFD/STTP/Policy-1/2018-19 in your future correspondence.
- i. **Program Evaluation Committee (PEC)** is required to be constituted at institutional level. The constitution of the PEC shall be as under:

- (i) Principal/Director/Registrar of the institution (Chairperson).
- (ii) Coordinator of the program (Member Secretary).
- (iii) Two HoDs and one subject expert (members).

The members of the said PEC shall not be below the rank of Associate Professor. A test shall be conducted by Program Evaluation Committee (PEC) at the end of the program and the certificates shall be issued to those participants who have attended the program and have qualified in the test. The minutes of the meetings, along with PEC report, are to be submitted to the Council at end of the program along with other mandatory documents.

- j. **GoI GFR rules** (@<https://doe.gov.in/order-circular/general-financial-rules2017-0>) should be followed during utilization of grant.
- k. This Sanction Order may be treated as Offer Letter for all purposes.

NOTE:- Any deviation from the above will invoke serious action against the Institute.

Yours sincerely,

(Dileep N Malkhede)

Sub:-For information of AICTE approved institutes which have received grants for conducting STTP's/FDP's under AQIS 2018-19.

Sir,

This is in reference to grants released by AICTE under AQIS 2018-19 for conduct of STTP's/FDPs. It is being observed that due to present circumstances of ongoing pandemic of COVID-19, most of Institutes are facing difficulties in organizing and conducting STTP's. This office has received a number of requests from various institute to allow on line method of conducting STTP/FDP to complete their commitments.

In this regard, it is to inform that all such institutes, which have already received grants for conducting STTP's/FDPs through prevailing contact mode, are **allowed to conduct STTP's through online mode subject to following conditions:**

- (i) The Institute will be allowed to adjust the grants received for STTP at following rates:-

a.	Honorarium for Coordinator	Rs. 5000.00
b.	Honorarium to experts	Rs. 75000.00
c.	Provision for payment to lab attendant engaged during lab practices	Rs. 3000.00
d.	miscellaneous charge	Rs. 10000.00
	Total for each STTP's	Rs 93000.00

- (ii) The Institute will conduct more than one STTP's in multiples of Rs. 93000.00 within the total grant received by it and shall return the balance unspent amount to AICTE.

c.g.

if an Institute has received grant for STTP,	=Rs 3,00,000.00
Cost of three STTP	3x93000= Rs. 279000.00
Balance	= Rs. 21,000.00

The institute will return the balance unspent amount of Rs.21,000.00 alongwith interest earned on such amounts to AICTE while submitting UC for adjustment of accounts for keeping its eligibility for receiving grants in next AQIS

- (iii) The institute will conduct all three STTP's as explained above on the same topic which has been approved by AICTE while releasing the grants.
- (iv) Firm dates for each program will be intimated to AICTE beforehand.

On similar lines FDP (02 week program) to be conducted online has the following approval totaling to Rs. 1,86,000.00.

a.	Honorarium for Coordinator	Rs. 5000.00
b.	Honorarium to experts	Rs. 1,68,000.00
c.	Provision for payment to lab attendant engaged during lab practices	Rs. 3000.00
d.	miscellaneous charge	Rs. 10000.00
Total for each FDPs		Rs 1,86,000.00

The conducting of FDP's (two weeks program) shall be subjected to the similar conditions (i) to (iv) given above for conduct STTP courses, except rates of Honorarium to experts.

You are requested to acknowledge receipt of above guidelines and convey your consent if your institute is ready for conducting the STTP through online format on conditions explained above.

It is once again reiterated that online conduct of FDP & STTP will be on explicit permission of AICTE.

Yours sincerely,

1. Conduct of 03 STTTPs in online mode are hereby **approved**.

2. Following to be ensured

- Each STTP will be for 06 days from Monday to Saturday, followed by an online exam on last working day ie. Saturday. Certificates will only be issued to those participants who have attended regularly and qualify in the exam with minimum 60% marks.

- STTTPs to be scheduled in such a manner that in a month only one is conducted (Space it out evenly so as to complete it by 31 Dec 2020).

- Post successful completion, balance unutilised amount along with interest generated will be returned by RTGS as per the letter.

- **Online link of the inauguration will be shared with this office for all the STTTPs with an invite for the inaugural function.**

3. This will be treated as an official correspondence on the subject and will be enclosed at the time of submission of Final Utilisation certificate.

TRENDS & CHALLENGES
OF HYBRID ELECTRIC
DRIVE UTILITIES IN
TRANSPORT SECTOR

02nd – 07th November, 2020

Organized by

DEPARTMENT OF ELECTRICAL AND
ELECTRONICS ENGINEERING

CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY(Autonomous)

CBIT, established in the Year 1979, has developed in Four Decades of its journey, as one of the Premier Engineering Institutes in INDIA, in Telangana State. The Institute offers Eleven UG and Eleven PG Programs into which Brilliant and Meritorious Candidates with good EAMCET Rank are seeking admissions at CBIT. CBIT Students are prepared and perfected holistically to secure Placements in reputed National and Multi-National Industries. Alumni, nearly 25,000 Graduate Engineers, are successfully placed in their Careers and as Entrepreneurs Globally. The Institute has been granted Autonomous.

ABOUT THE DEPARTMENT

CBIT started Electrical & Electronics Engineering UG course in 1994 and was accredited thrice i.e. in years 2004, 2008 & 2013 by NBA. The intake was increased from 60 to 120 from the Academic Year 2013-14. The Department started offering a

course in Power Systems & Power Electronics in 2006 with an intake of 18 and was accredited by NBA in the year 2016. The Department has highly qualified and experienced faculty. The Department is having well equipped labs with latest Hardware & Software. The Department is also certified by ISO 9001:2008. The Department is recognized as Research Centre in 2017 by Osmania University to carry out research for the award of Ph.D. degree. The Department is keen on developing consultancy services and welcomes funding research from outside agencies. The Department in the year 2019-20 has received a funding of Rs.2,72,000 under AICTE-STTP Scheme for MATLAB Research Methodology project, Rs. 3,00,000 under AICTE-STTP scheme for Hybrid Electric Utilities Project and Rs.11,00,000 under AICTE-RPS Scheme for Development of Low-Cost Flexible Quality Conditioner to Mitigate Power Quality Issues and MODROBS for special electrical machines to the tune of Rs.17 Lakh.

ABOUT THE FDP

Deterioration in air quality, global warming, and a decrease in petroleum resources are becoming the major threats to human beings. More and more stringent emissions and fuel consumption regulations are stimulating an interest in the development of safe, clean, and high-efficiency transportation. It has been well recognized that electric, hybrid electric, and fuel-cell powered drive train technologies are the most promising solutions to the problem of land transportation in the future. In recent decades,

the research and development activities related to of high efficiency, clean, and Modern Electric, Hybrid Electric, and Fuel Cell Vehicles safe transportation.

TOPICS TO BE COVERED IN STTP

- ↓ Over View of Electric Vehicle & Govt. Policies
- ↓ Hybrid Electric Vehicle and its performance
- ↓ Electric Vehicle Mechanics and Modelling
- ↓ Power Converters for Electric Vehicles
- ↓ PM motor Drives for EVs
- ↓ Induction Machine Drives for EVs
- ↓ High Energy Batteries
- ↓ Charging Stations & Wireless Chargers
- ↓ Testing & Certification
- ↓ PWM Techniques for Inverters

RESOURCE PERSONS

Resource Persons will be from Renowned Institutions such as IIT's/NIT's, Industries like Tata Motors, and host Institution.

TARGET GROUP

The STTP is expected to benefit Engineers, Scientists, Researchers and Academicians who are working / Teaching / studying in the area of Hybrid Electric Vehicles.

Minutes of the meeting conducted on 26th October, 2020.

Members Present:

1. Dr. G. P. Saradhi Varma, Principal, CBIT *G.P.S.V.*
2. Dr. G. Suresh Babu, Prof & Head, Dept. of EEE, *GSB*
3. Dr. U.K. Choudhury, Prof. Dept. of EEE, *U.K. Choudhury*
4. Dr. D. Krishna Reddy, Head, Dept. of ECE, *D.K.R.*
5. Dr. P.V. R. Ravindra Reddy, Head, Dept. of Mechanical Engg., *P.V.R.R.*
6. Dr. T. Murali Krishna, Assoc. Prof, Dept. of EEE, *T.M.K.*
7. Mr. M. Nagaraju, Asst. Prof, Dept. of EEE, *M.N.*
8. Dr. N.V. Phanendra Babu, Asst. Prof, Dept. of EEE, *N.V.P.B.*

The meeting started with the greetings from the Head of the department.

Item No.1 : To form Program Evaluation Committee

Minutes : Principal Dr. G. P. Saradhi Varma asked the same members to be in PEC

Item No.2 : To Conduct STTP Phase-II on on-line mode

Minutes : HoD asked the coordinator of STTP to prepare Brochure & Schedule for STTP Phase -2 as per the AICTE guidelines and send the invitation link to AICTE.

Item No.3: Conduct of STTP

Minutes : Dr. U. K. Choudhary suggested resource persons for the STTP.

Sri. M. Nagaraju & Dr. N. V. Phanendra Babu are asked be the co-coordinators for Phase-2

Report on AICTE Sponsored STP on "TRENDS & CHALLENGES OF HYBRID ELECTRIC DRIVE VEHICLES IN TRANSPORT SECTOR" during 01st - 07th November 2020

03-11-2020

Session-2

Time: 02:30 PM to 04:00 PM

Speaker: Dr. P. Selalih Kumar, Associate Professor, Dept. of EEE, Osmania University

Topic: **Advances in PWM techniques for Inverters**

The resource person has given overview of space-vector pulse width modulation-based algorithm for multilevel inverters. He explained different pulse width modulation techniques used for multilevel inverters. He started with conventional two-level inverter operation and he focussed on detailed explanation of space-vector pulse width modulation technique. He has shown the comparison between two level and three level inverters in various parameters.

04-11-2020

Session-1

Time: 11:30 AM to 1:00 PM

Speaker: Dr. U.K. Choudhury, Prof. & Director(I&I), CBIT, (Ex ED, CTM, BHEL)

Topic: **Electric Hybrid Vehicle Mechanics, Modelling and Performance Calculation**

The session started with a description on series and parallel electric vehicle and regenerative braking in electric vehicles, and the comparison of TCO and payback for electric vs diesel buses. The variation of braking with respect to deceleration rate has explained. The concept of rolling resistance and grading resistance of road has been discussed for different types of roads. The torque development of the motor with respect to different surfaces is explained. Later, he discussed about aero dynamics concept of wind pressure on vehicle. How the rolling resistance varies with the speed of the vehicle has shown in the graph.

04-11-2020

Session-2

Time: 02:30 PM to 04:00 PM

Speaker: Dr. Krishna Vasudevan, Professor, IIT Chennai

Topic: **Design and Analysis of Power Converters for Electric Vehicles**

Sir started the session with steps involved for designing an inverter. He explained the selection procedure for power device based on current rating and power loss. Heat sink design considerations explained for inverter. Then he differentiated between diode voltage drop and IGBT voltage drop during selection of power device. The design of DC bus with a decoupling capacitor has been discussed. He also given detailed description about gate driver circuits by considering dead time and its effects.

05-11-2020

Session-1

Time: 11:30 AM to 1:00 PM

Speaker: Dr. O. Chandrasekhar, Associate Professor, Dept. of EE, NIT-Srinagar

Topic: **Power Converters for Hybrid Electric Vehicle**

In this lecture, sir has given a detailed explanation of converter regarding objective, applications, IEC standards, general representation of converters. He compared various topologies implemented and available for converters and implementation of IB3 converter. For a given duty cycle what is a simulated voltage and what is a theoretical voltage also been explained. Then the same voltages have observed with different duty cycle. He has shown graphical explanation of power factor, efficiency and ripple content with respect to duty cycle variation. He also discussed the total

Report on AICTE Sponsored STTP on "TRENDS & CHALLENGES OF HYBRID ELECTRIC DRIVE UTILITIES IN TRANSPORT SECTOR" during 02nd - 07th November 2020

harmonic distortion by varying the voltage from 90 volts to 260 volts, and load with different impedances, for a proposed topology.

05-11-2020

Session-2

Time: 02:30 PM to 04:00 PM

Speaker: Dr. V.T. Soma Sekhar, Professor, Dept. of EE, NIT-Warangal

Topic: Open-end winding Induction Motor Drives

This session started with two level inverter concepts. The switches toggling, current waveform and voltage waveform has been explained with wave shape and it is non sinusoidal. Then he discussed the drawback of non-sinusoidal voltage given to induction motor. And sir discussed about pole voltage, motor phase voltage and common mode voltage with calculation of motor phase voltage with remaining two voltages. Sir has given detailed description of switching states and null states of two level inverter with total harmonic spectra with modulation and without modulation. He said how to get three level from two level inverter using space vector modulation. Then neutral point clamped and cascaded inverter concepts have been explained. He focussed on open end winding induction motor with isolated DC source. How to reduce the effect of zero sequence currents also been discussed.

06-11-2020

Session-1

Time: 11:30 AM to 1:00 PM

Speaker: Mr. Manoj Desai, General Manager, ARAI

Topic: Testing and Certification

This session is on testing and certification of electric vehicles. Sir has explained why the standards are required and salient features of electric vehicle. The regulation frame work and the rules followed by vehicle certification of less than 250 watts rating. Also discussed about type approval testing with verification, safety and performance. Then the battery management systems and their performance has been discussed. He focussed on ARAI approaches such as AIS 038 for M and N vehicles, AIS 156 high category vehicle. Described about the AIS 157 and 168 for fuel cell and agricultural. The classification and standards for battery charging stations also depicted. The phase-2 of FAME scheme implemented by govt of India is also been discussed.

06-11-2020

Session-2

Time: 02:30 PM to 04:00 PM

Speaker: Dr. Venugopal, Ex- ISRO official.

Topic: High Energy Batteries and Performance

Started with definition of battery and its specifications like energy density, power density and safety. Classification of batteries based on active materials, electrolytes, and case materials etc. And then he discussed about various materials used for anode, cathode, separator and electrolyte etc. He quoted about evolving process of Lithium manganese aluminium oxides in the battery technology. Sir has focussed more on progress of Lithium ion, silicon anode and try electrode. Then he discussed about electric vehicle battery pack design trade off. He quoted about aerodynamics and electric vehicles in the city limits. National Automotive testing R&D infrastructure project is also been discussed. Sir explained about battery swapping also.

07-11-2020

Session-1

Time: 11:30 AM to 1:00 PM

Speaker: Mr. Jatil Sharma, MD, Tejaswi Green Engg. Pvt. Ltd.

Topic: Electric Vehicle for Transport Application

The vehicles landscape in India is introduced by the resource person. Discussed about EVs, BEVs, ZEVs & BOU etc., electric vehicles viabilities like charging infrastructure, increased efficiency, reduction of cost and policies related to motor drive technology. He more focused on innovation, life cycle, project management. Then continued with the products developed for various applications like EVs in golf-carts, vehicles for cleaning of solar panels, e-ambulances in hospitals, missile carriers in defence sector, vehicles for vigilance & security, forest & tourism, public health and sanitation by Tejaswi GreenEngg. Pvt. Ltd.

- Petrol engine runs a generator
- Generator may either charge the batteries or power an electric motor that drives the transmission

- Lower fuel cost
- Reduced tailpipe emissions
- recovers energy from braking
- IC engine can run at constant speed, thus increases the engine efficiency
- Reduced IC engine capacity
- Best suited for city transport

ABOUT THE COLLEGE: CBIT is one of the premier Engineering Institutes in INDIA, pioneer in Telangana state which is at idyllic surroundings of Gandipet Lake, Hyderabad. The college offers Nine UG and Eleven PG programs. It has been standing as a temple of knowledge for the past 39 years by producing about 21,000 eminent and skilful graduate engineers, who are successful in their careers, serving all over the world. It was accredited many times by NBA--AICTE and NAAC--UGC. UGC has granted autonomous status to this Institute from the academic year 2013-14 onwards. The grants received from AICTE/UGC are worth about Rs. 2.5 crores. Brilliant and meritorious candidates with good EAMC ET rank are seeking admission. CBIT students are grabbing the opportunity of entering into MNCs through college placement cell.

ABOUT LEARN Program: In technical education, practical training and developing expertise in application of theoretical knowledge has a great importance. The key role of the technical staff in supporting the process of transformation of technical skills among students is commendable / significant. It is the technical supporting staff, who has a more direct bearing on the quality of education. At present, there is short provision for training & development of technical staff under quality improvement programme. With change in the instructional and developmental processes and the utilization of more sophisticated and delicate instruments and equipment, the need to train and develop this category of staff is being felt acutely. To meet diverse requirements and challenges in the profession, technical staff must be provided facilities to his continuous education and for acquiring new competencies. No attempt at quality improvement would be complete without giving due attention to this category of staff.

OBJECTIVES OF LEARN Program:

- To enlighten qualities of the Instructor
- To enhance the fundamental concepts in Electrical & Electronics Engg.
- To touch upon the trouble shooting aspect of day-to-day lab work
- To amplify the computation skills

20-01-2021:

- SCR Characteristics are practiced on hardware kit by technical staff
- Effect of doping level on switching devices and comparison of different switching devices discussed by Dr.T.Muralikrishna

21-01-2021:

- Commutation circuits and effect of inductive load on SCR are discussed by Dr.T.Muralikrishna
- Forward and reverse bias characteristics of P-N diode and Zener diode are explained by Dr.P.Kowstubha

22-01-2021:

- Diode characteristics practiced on bread board by technical staff
- BJT Input and output characteristics are explained by Dr.P.Kowstubha

23-01-2021:

- Difference between open loop and closed loop systems is discussed by shri D.Harsha
- Effect of P,PI& PID on temperature controller is explained by shri D.Harsha

25-01-2021:

- Op Amp working principle and voltage follower are discussed by Dr. P.Kowstubha
- Inverting and non-inverting amplifiers are explained by Dr.P.Kowstubha

27-01-2021:

- Class – A and Class – B commutation circuits are explained by Dr.T.Muralikrishna
- Gate triggering circuits are practiced on hardware kits by technical staff

28-01-2021:

- Introduction to solar PVTR and solar emulator is given by Dr.G.Suresh Babu
- Fixed mode, Table mode and Simulation mode operation of solar emulator is explained by shri. Sai varun.

29-01-2021:

- Inverting and non-inverting amplifiers are practiced on bread board by technical staff
- Commutation circuits practiced on hardware kits by technical staff

30-01-2021:

- Valedictory & Certificate distribution for the participants has been conducted. Principal Dr. GPS Varma distributed the certificates to the participants.

Abstract CBIT(A), Omsana Bharati Institute of Technology (Autonomous) for an ecosystem which caters to Research, Consultancy, Start-Ups, Incubation, Strategic Collaborative Association with Industries and Foreign Universities. The Institute is pioneering the development of an Artificial Intellect Collaboration with IIT/IITM India / Pittsburgh University and Cornell University. IINA, CBIT(A) has been standing as a temple of learning for the past 42 years. IITM has provided Autonomy/autonomy from the Academic Year 2011-14 onwards. The Faculty and Students have successfully executed Sponsored Research and Consultancy Projects from various leading Agencies such as DRDO, ISRO, DST, AICTE and IITM. IITM - Institute Innovation Cell (IIC), IITM - Business Incubation (BI), IITM - IITM Innovation Lab, Ugrasat Innovation Lab and Robotic Process Automation Lab have been established by the Research and Entrepreneurship Department for the Students and Faculty to pursue their Research Ventures.

Abstract CSE Department The Department of CSE was started in the year 1983 with an intake of 20. The intake was gradually increased to 100 in three sections. B.Tech programme was started in the year 2002 with an intake of 18 and increased to 35 in 2011. CSE department is a recognized research center under Omsana University. The department comprises of experienced and well qualified staff. The overall performance in CSE Department is conducive to the overall development of the students and the faculty of Computer Science and Engineering as a whole. During the year 2020-21 statistics is recorded for ten new programmes as emerging technologies: M.E. (CSE with AI and ML) and B.E. (CSE) with AI, Cyber Security with ML, Blockchain and emerging the intake of students from 100 to 300. The vision of CSE Department is to become a centre of excellence in the field of Computer Science and Engineering that produces innovative, skilled, socially responsible and ethical professionals.

Abstract Workshops In this Five-Day International workshop on "Building Data-Driven Solutions Using Data Analytics with ML and DL Algorithms", the topics included are challenging areas with potential for excellent research. The takeaways from this workshop will add immense value to the knowledge base for each of the participants. This workshop will be held upon hands-on approach. Topics included in this workshop are: ML, Data science (Data preprocessing, FDA, Model Building, Model accuracy and model deployment) and computer vision.

"Humans can typically create one or two good models a week. Machine learning can create thousands of models a week." - Thomas H. Davenport, Analytics thought Leader

Objectives of the Workshops

- > To create an awareness on Data Analytics and FDA, using AI Algorithms
- > To provide instructor-led hands-on the manipulation of Data.
- > To provide hands-on experience over Data Analytics using ML and DL.
- > To empower the participants with Research Opportunities in Data Science and Computer Vision.

Expected Outcomes

- Upon successful completion
 - The participants will be acquire the concepts of data analytics and various tools related to data manipulation.
 - Use the FDA to represent the data after preprocessing and analysis of data.
 - Formulate the Research problems in Data Science, NLP and Computer Vision.

Guidelines for Participants

- Web links are updated in WhatsApp Group.
- E-Certificate will be issued to all the Participants, after successful completion of the Workshop.
- Participants need to mark their attendance in the google form that will be circulated during the Session.
- Use the following link for Registration: <https://forms.gle/dB1>

Words of wisdom...to set the context

Bitcoin is a remarkable cryptographic achievement, and the ability to create something that is not duplicable in the digital world has enormous value.
Eric Schmidt, CEO of Google (2001-2011)

Whereas most technologies tend to automate workers on the periphery doing menial tasks, Blockchains automate away the center. Instead of putting the taxi driver out of a job, Blockchain puts Uber out of a job and lets the taxi drivers work with the customer directly.
Vitalik Buterin, Co-Founder of Ethereum

Anything that can conceive of as a supply chain, Blockchain can vastly improve its efficiency- it doesn't matter if its people, numbers, data, money.
Ginni Rometty, CEO IBM (2012-2020)

<p>CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY(A)</p> <p>CBIT, established in the Year 1979, has developed in Four Decades of its journey, as one of the Premier Engineering Institute in INDIA, in Telangana State. The Institute offers Eleven UG and Eleven PG Programs into which Brilliant and Meritorious Candidates with good EAMCET Rank are seeking admissions at CBIT. CBIT Students are prepared and perfected holistically to secure Placements in reputed National and Multi-National Industries. Alumni, nearly 25,000 Graduate Engineers, are successfully placed in their Careers and as Entrepreneurs Globally. The Institute has been granted Autonomous Status from the Academic Year 2013-14 onwards.</p>  <p>ABOUT THE DEPARTMENT The Department of CSE was started in the year 1985 with an intake of 20. The intake was gradually increased to 160. From this academic</p>	<p>year (i. e. 2020) we have started Two new programmes in emerging technologies like B.E (CSE with AI and ML) with an intake of 60 and B.E (CSE with IoT, Cyber Security with Blockchain) with an intake of 60. Thus, increasing the intake of UG students from 180 to 300. M. Tech programme was started in the year 2002 with an intake of 18 and increased to 36 in 2011. CSE department is a recognized research center under Osmania University. It has centers of excellence in the areas of AIML, Cyber security, and IOT. The department is having committed and well qualified staff. The intellectual ambience in CSE Department is conducive to the overall development of the students and the discipline of Computer Science and Engineering as a whole. The vision of CSE Department is to become a Centre of Excellence in the field of Computer Science and Engineering that produces Innovative, Skillful, Socially Responsible and Ethical Professionals</p> <p>ABOUT THE FDP This STTP will enable the participants to acquire knowledge in the data science arena through bigdata analytics and cloud environment without the need to rely on licensed software's. It also intends to enhance the practical skills of the participants in the use of modern analytical tools to explore data science aspects with respect to bigdata. The participants will be able to upgrade their teaching-learning skills with the most up-to-date tools and techniques in the bigdata domain and they will also be able to enhance the quality of research publications by integrating their ideas with latest tools in data science via freely available open source resources</p>	<p>TOPICS TO BE COVERED IN STTP It includes introductory concepts as well as advanced topics in the field of Data Science for Bigdata Analytics in Cloud using Advanced Tools. The following topics will be covered but not limited to:</p> <ul style="list-style-type: none"> ➤ Introduction to Data Science & Bigdata Technologies ➤ Social Media Analytics ➤ Significance of cloud for bigdata ➤ NoSQL Databases for Bigdata Analytics ➤ Bigdata Analytics using R and python ➤ Bigdata Ecosystem-Spark ➤ Spark Streaming ➤ Industrial Applications & Research Directions in this thrust area <p>RESOURCE PERSONS Resource Persons will be from Renowned Institutions such as IIT's/NIT's, Industries like Tata Motors, and host Institution.</p> <p>ELIGIBILITY The Faculty members of the AICTE approved Institutions, Research Scholars, PG Scholars, participants from Government, Industry (Bureaucrats / Technicians etc.) and staff of host institutions</p>

- Getting data may include simply accessing an Excel file, scraping data from an HTML table, or using an API to access a database.
- Cleaning data may include reshaping data from a wide to long format, parsing variables, and/or transforming variables to different formats.
- Transforming data may include filtering, summarizing, and applying common/uncommon functions to data along with joining multiple datasets.
- Visualizing data may range from common static exploratory data analysis plots to dynamic, interactive data visualizations in web browsers.
- Modeling data can be *descriptive*, *predictive*, and *prescriptive* analytic techniques.

<p>CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY(A)</p> <p>CBIT, established in the Year 1979, has developed in Four Decades of its journey, as one of the Premier Engineering Institute in INDIA, in Telangana State. The Institute offers Eleven UG and Eleven PG Programs into which Brilliant and Meritorious Candidates with good EAMCET Rank are seeking admissions at CBIT. CBIT Students are prepared and perfected holistically to secure Placements in reputed National and Multi-National Industries. Alumni, nearly 25,000 Graduate Engineers, are successfully placed in their Careers and as Entrepreneurs Globally. The Institute has been granted Autonomous Status from the Academic Year 2013-14 onwards.</p>  <p>ABOUT THE DEPARTMENT The Department of CSE was started in the year 1985 with an intake of 20. The intake was gradually increased to 160. From this academic</p>	<p>year (i. e. 2020) we have started Two new programmes in emerging technologies like B.E (CSE with AI and ML) with an intake of 60 and B.E (CSE with IoT, Cyber Security with Blockchain) with an intake of 60. Thus, increasing the intake of UG students from 180 to 300. M. Tech programme was started in the year 2002 with an intake of 18 and increased to 36 in 2011. CSE department is a recognized research center under Osmania University. It has centers of excellence in the areas of AIML, Cyber security, and IOT. The department is having committed and well qualified staff. The intellectual ambience in CSE Department is conducive to the overall development of the students and the discipline of Computer Science and Engineering as a whole. The vision of CSE Department is to become a Centre of Excellence in the field of Computer Science and Engineering that produces Innovative, Skillful, Socially Responsible and Ethical Professionals</p> <p>ABOUT THE FDP This STTP will enable the participants to acquire knowledge in the data science arena through bigdata analytics and cloud environment without the need to rely on licensed software's. It also intends to enhance the practical skills of the participants in the use of modern analytical tools to explore data science aspects with respect to bigdata. The participants will be able to upgrade their teaching-learning skills with the most up-to-date tools and techniques in the bigdata domain and they will also be able to enhance the quality of research publications by integrating their ideas with latest tools in data science via freely available open source resources</p>	<p>TOPICS TO BE COVERED IN STTP It includes introductory concepts as well as advanced topics in the field of Data Science for Bigdata Analytics in Cloud using Advanced Tools. The following topics will be covered but not limited to:</p> <ul style="list-style-type: none"> ➤ Introduction to Data Science & Bigdata Technologies ➤ Social Media Analytics ➤ Significance of cloud for bigdata ➤ NoSQL Databases for Bigdata Analytics ➤ Bigdata Analytics using R and python ➤ Bigdata Ecosystem-Spark ➤ Spark Streaming ➤ Industrial Applications & Research Directions in this thrust area <p>RESOURCE PERSONS Resource Persons will be from Renowned Institutions such as IIT's/NIT's, Industries like Tata Motors, and host Institution.</p> <p>ELIGIBILITY The Faculty members of the AICTE approved Institutions, Research Scholars, PG Scholars, participants from Government, Industry (Bureaucrats / Technicians etc.) and staff of host institutions</p>

- Getting data may include simply accessing an Excel file, scraping data from an HTML table, or using an API to access a database.
- Cleaning data may include reshaping data from a wide to long format, parsing variables, and/or transforming variables to different formats.
- Transforming data may include filtering, summarizing, and applying common/uncommon functions to data along with joining multiple datasets.
- Visualizing data may range from common static exploratory data analysis plots to dynamic, interactive data visualizations in web browsers.
- Modeling data can be *descriptive*, *predictive*, and *prescriptive* analytic techniques.

Prologue

Education or teaching in the broadest sense is any act or experience that has a formative effect on the mind, character or physical ability of an individual. In its technical sense, education is the process by which society deliberately transmits its accumulated knowledge, skills and values from one generation to another.

Objectives of the Webinars:

- ◆ To appraise the ethics and values which are latent.
- ◆ To interpret the concept of environment and sustainable living.
- ◆ To justify individuality and support teamwork.
- ◆ To illustrate communication skills.

Date: 26.08.2020

Time: 2:00PM – 3:00 PM

Mode: Online through Zoom Meetings

Students registered: 93

Report by: Dr. E. Jalaja, Associate Professor, SMS-CBIT.

This program is an awareness program organized by SEBI, Mumbai to the college students regarding Investment in Mutual Funds. Nikhita and Vyshali are the members who approached me regarding this program from Jai Vatnani and Company on behalf of SEBI to organize this program. Mr. Thyagaraj was the Guest Speaker of the program. The Guest speaker is having two decades of experience in Financial services industry.

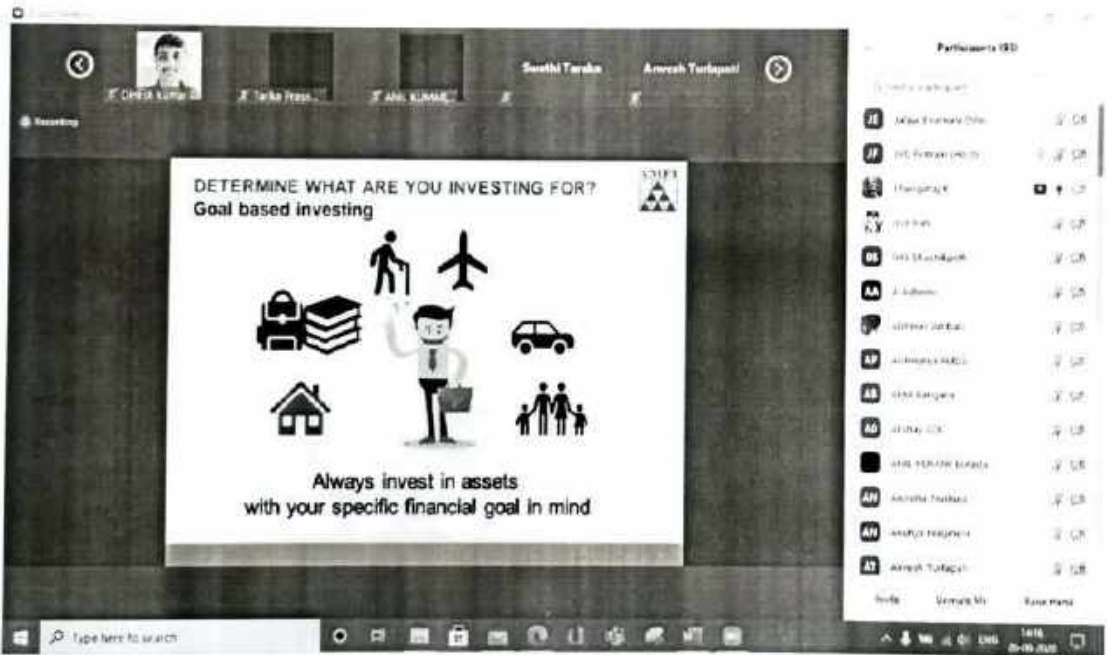

He has explained the students about the following

- The Impact of Inflation
- Goal based investing
- Appropriate asset allocation
- Understanding of Mutual Funds
- Mutual funds structure and scheme categorization
- How to invest in Mutual Funds with focus on SIP
- SEBI complaints and Redressal system

He briefed about inflation, investing and about asset allocation and has given details explanation about Mutual Funds, investing in Mutual Funds and about the types of schemes available. He encouraged students to invest in Mutual Funds in with small amounts.
