

3.6.3 Additional Information AY 2020-21 (Geo-Tagged Photos)

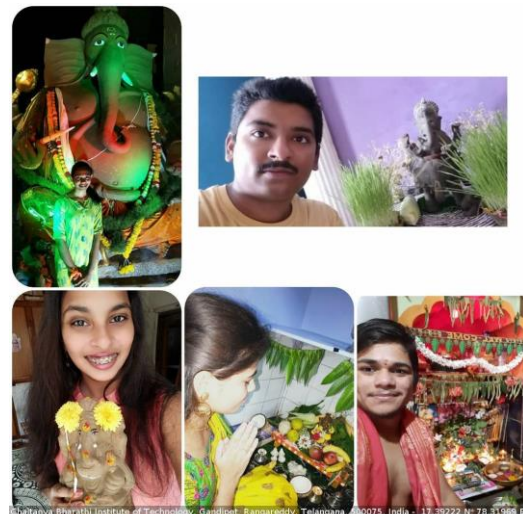

1. AWARENESS POSTERS (<https://photos.app.goo.gl/BgrkjSX7uJa2yNbl7>)

- It is estimated that there are over 1.2 billion smokers worldwide who purchase and use over 5 trillion cigarettes each year, or 105 billion cigarettes per week
- The air pollution emitted by cigarettes is 10 times greater than diesel car exhaust, suggests a controlled experiment, reported in Tobacco Control
- Six trillion cigarettes are manufactured every year globally which take up some 4 million hectares of land and require more than 22 billion tonnes of water. ... When such litter ends up in oceans, waterways the toxic chemicals contaminates the water, which is then harmful to those consuming it.
