COMMUNITY OUTREACH PROGRAMS

A.Y:2021-22

ACIC-CBIT has been to the Community Outreach Program - Proddutur Village on 17-03-2022..Agriculture, deforestation, and other factors have degraded and eroded topsoil at alarming rates. Globally, 52% of agricultural land is already degraded. The planet is in crisis. If current rates of soil degradation continue, this would be the end of life as we know it. In 20 years, 40% less food is expected to be produced for 9.3 billion people. Poor soil leads to poor nutritional value. Today's fruits and vegetables already contain 90% fewer nutrients. 2 billion people suffer from nutritional deficiencies leading to a multitude of diseases. Depleted soils cannot absorb and regulate water flows. Lack of water retention leads to water scarcity, droughts & floods. Organic matter can hold up to 90% of its weight in water and release it slowly over time. This is a big help in drought-prone areas. To address the above issues as an Atal Community Innovation center we reached out to our nearby community (Proddutur Village) and distributed 100 fruit bearing plants and medicinal plants to villagers and asked them to update the growth of plants in the next outreach program. The long term vision is to increase soil strength and micro entrepreneurship.

COMMUNITY OUTREACH PROGRAMS

A.Y:2021-22

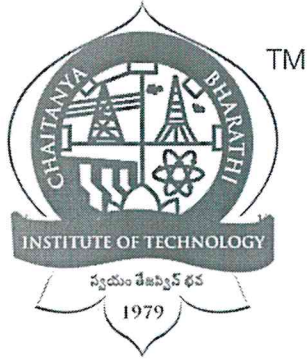

ACIC-CBIT has been to the Community Outreach Program – Zahirabad on 06-05-2022. An interaction session with dryland farmers of zahirabad to understand their problems and best practices. The objectives set for this outreach program are

- 1) To interact with the farming community to identify problems faced in all stages of crop production and sales
- 2) To screen and shortlist problem statements which could be solved using engineering technologies
- 3) To develop methodologies to conduct an ideathon/hackathon involving students, innovators and start-ups in the region, so as to develop innovative solutions

COMMUNITY OUTREACH PROGRAMS

A.Y:2021-22

ACIC-CBIT has been to Gopularam, RR District on 28-12-2021. We visited a nearby village to our center (ACIC CBIT) named Gopularam, RR district, Hyderabad, Telangana. The Village has about 285 Houses with a population of about 1214 residents. Interesting information in this village is Female Population is 50.5%, Scheduled Tribes Population is 2.3%, Scheduled Caste Population is 52.3%, Village literacy rate is 46.9% and the Female Literacy rate is 19.9% out of 1214 total residents. We met Sarpanch of Gopularam Srinivas and he is very proactive in developing his community. He mentioned there are many school and college dropouts in the community and have some inherent skills in his community. In collaboration with him ACIC CBIT wants to conduct some capacity building programs to enhance the villagers livelihood and to bring Innovation & Entrepreneurship activity in the community.

PLASMA DONATION DRIVE

A.Y:2021-22

Sub: Plasma Donation Drive during COVID.

A Plasma Donation Drive was conducted by the volunteers of NSS CBIT from the time period of 13/8/2021 to 18/8/2021. This drive included connecting patients to the hospitals and blood banks providing plasma during the time of COVID. This drive helped solve 80 cases both in the states of Telangana and Andhra Pradesh. Volunteers of NSS CBIT were contacted by the patients and stated their requirements such as blood type, amount of plasma required, name, age and hospital details which were then verified. Hospitals and Blood banks were contacted to find out the availability of the specific requirement. The case was only closed when the patients have received the plasma. Nearly 264 volunteers have personally come forward to donate plasma and meticulously tracked each case until it was closed. Apart from plasma, we also managed to provide Oxygen cylinders and Hospital Beds for people in need.
