ABSTRACT :

The quiz game is designed to increase learning by requiring students to write a multiple-choice question on each reading assignment and explain why each response is correct or not. To test the game's effects, one developmental psychology class wrote questions with explanations of each response, whereas another class did not write questions. Both classes took pop quizzes composed of the 10 best questions the experimental class wrote. If more than half of the experimental class missed a question, the question written received bonus points. The experimental class had significantly higher quiz scores than the control class, even when grade point averages were statistically controlled. The questions' formal correctness predicted quiz scores, but their conceptual quality did not. Perhaps explaining each response elaborated the experimental students' conceptual network, resulting in improved quiz performance.

1.INTRODUCTION :

The 'Quiz Application' project will be developed to overcome the time consuming problem of manual system. Apart from that in current system, checking the answer sheets after taking test, waste the examiners time, so this application will check the correct answer and save the examiner time and carry the examination in an effective manner. The users which are use this system don't need to high computing knowledge and also system will inform them while entering invalid data.

2.AIM :

The aim of this project is to computerized the existing manual system and help the examiners to save their valuable time and important data. Apart from this, data which are exist in this system, will exist for long period of time and will be easy accessible. This project helps the examiners to manage their services in a good way and provide a better service to their users.

3.OBJECTIVE :

The main objective of the project is to make online exams instead of offline exams. This saves time and due to source code added to that, automatically it gives marks after completing the exam. In case of manual exams, teachers should correct the papers, which leads to lots of burden. So, this is a better practise to write on exams.

- To create an appropriate platform for best managing of MCQ test;
- To overcome the time consuming issues and taking MCQ tests;
- To release the marks of the test taker as soon as possible;
- To manage the information of different tests.

4.EXISTING SYSTEM :

There are various quiz applications exist in the internet with different criteria. Each of the existing applications has their own goodness and problems. In this quiz application which is designed and implemented in JSP based we try to overcome the existing problems with following features:

- Remove source confuse issue;
- Better management;
- Connection to database for better storing of data;

- Better frontend management;
- Better backend management;
- Try to decrease error issuer during runtime.

5.METHODOLOGY :

The methodology of developing of project will be a step-by-step sequence to design, develop and deliver the application. In software engineering this methodology called 'waterfall model' which one portion of work follows after another in a linear sequence. Following steps will be followed in this methodology:

- Initiation (Requirement Specification);
- Planning and design;
- Execution (construction and coding);
- Validation (Testing);
- Closure (Installation and Maintenance).

6.SPECIFICATIONS :

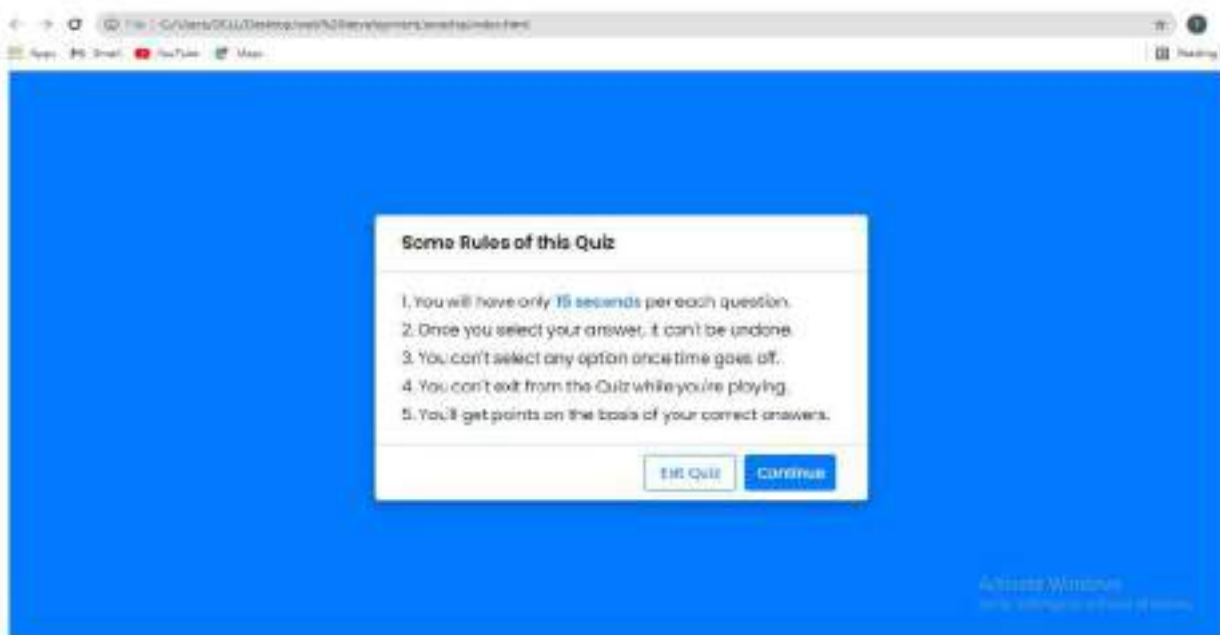

-To play Quiz Time you will need a minimum CPU equivalent to an Intel Core 2 Duo Q6867. Whereas, an Intel Core i3-2340UE is recommended in order to run it. Quiz Time system requirements state that you will need **at least 1 GB of RAM**. Additionally, the game developers recommend somewhere around 2 GB of RAM in your system.

7.PROJECT DESIGN :

For designing and implementing of Online Quiz application we used HTML, CSS, JavaScript. Following pages have been designed using HTML, CSS and JavaScript to handle the defined objective of this project.

1. INDEX :

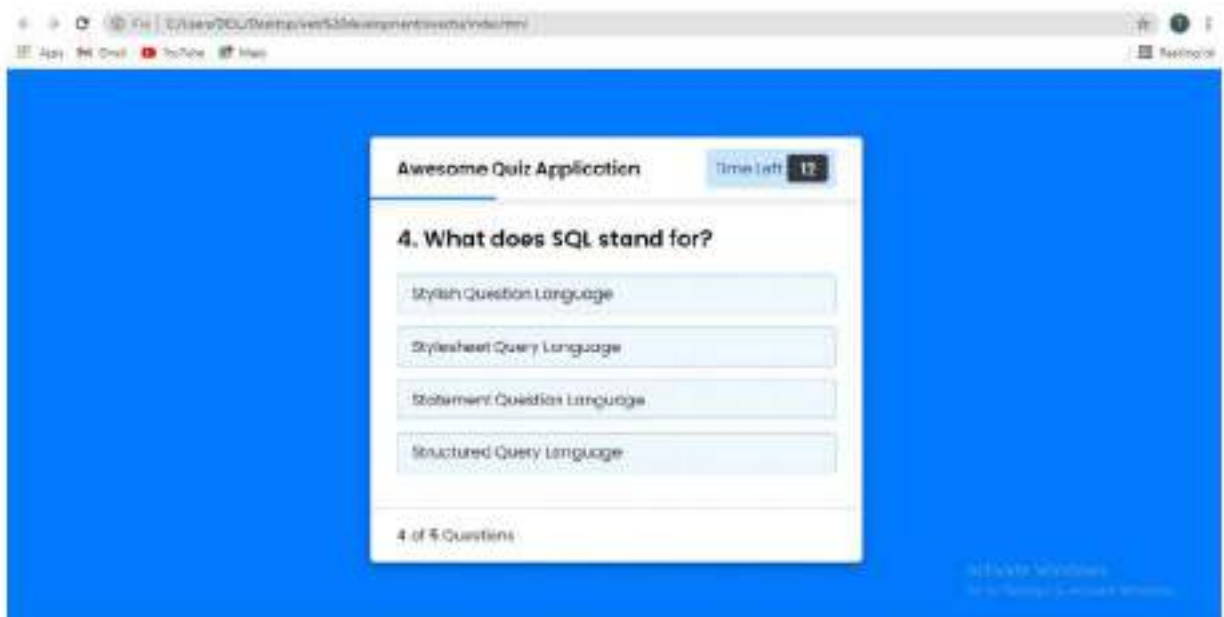

This page asks us to 'start quiz'. If we click on the 'start quiz', it moves on to next page, which contains the instructions of the quiz. At the end of the page, it asks us whether to continue with the quiz or to exit the quiz. If we click on exit game, then the page returns to start quiz page or else, the quiz starts.

2. ATTEMPT QUIZ :

After Clicking on continue, the quiz starts. The quiz contains 5 questions. After clicking the option, automatically we comes to know the correct answer. Even if we dosen't give answer, after 15 seconds we get the answer and moves to next question.

3. RESULT :

After completion of 5 question we get the result of the quiz i.e., marks.

9.CONCLUSION :

By this project, we have successfully explored our idea about online classes. Also, we have implemented the html, css and javascript. By this, we can easily know the marks immediately after completion of exam and no more manual correction is required.

10.FUTURE ENHANCEMENT :

In this project it is only for MCQ test but in the future we have plan to extended it to support subjective type of questions with more functionality. We will add Administrative part on it which able the system to delete test, add user, delete user and so on graphically vie the web.

EXHIBIT B

Anti-Harassment Policy

PwC AC Bangalore and its group of companies prohibits sexual or other unlawful harassment of its employees, interns, vendors, clients or applicants, whether engaged in by company personnel, clients, customers, vendors, or others. This policy also prohibits actions that are based on an employee's or other person's submission to or rejection of unwelcome sexual advances or other behavior prohibited by this policy. This policy applies at PwC AC Bangalore facilities and at other locations where our employees including interns conduct business or socialize, such as client sites or at company or client sponsored business and social functions.

Sexual harassment is viewed as a form of conduct that undermines the integrity of the employment or internship relationship, as the case may be. For the purposes of this policy, sexual harassment is defined as sexual behavior that is unwelcome, is personally offensive, and/or creates a hostile, intimidating or offensive work environment. PwC AC Bangalore will not tolerate sexual harassment by anyone — supervisors, interns, employees, vendors, or clients.

Some examples of sexual harassment are:

- Unwelcome or unwanted sexual advances. This includes patting, pinching, brushing up against, hugging, cornering, kissing, or any other similar physical contact considered unwelcome by another individual.
- Requests or demands of sexual favors. This includes subtle or blatant expectations, pressures, or requests of any type of sexual favor accompanied by an implied or stated promise of preferential treatment or negative consequences concerning one's employment or internship, as the case may be.
- Verbal abuse or kidding that is sex-oriented and considered unwelcome by another person. This includes comments about an individual's body or appearance (where such comments go beyond a mere compliment); off-color jokes that are clearly unwanted or considered offensive by others; or any other tasteless, sex-oriented comments, innuendoes, or offensive actions.
- Any sexually oriented conduct that would unreasonably interfere with another's work performance. This includes extending unwanted sexual attention to someone, which reduces personal productivity.
- Participation in fostering a work environment that is intimidating, hostile, or offensive because of unwelcome or unwanted sexually oriented conversation, suggestions, requests, demands, physical contacts, or attention.
- Possession in the workplace or display of sexually suggestive objects or pictures; emails, internet sites, or other correspondence with sexually suggestive content.
- Tangible employment or internships-related decisions made because of or influenced by an individual's compliance with or refusal to comply with sexual demands.
- Any other unwelcome physical, verbal or non-verbal conduct of sexual nature

This policy also expressly prohibits behavior that harasses an intern, employee or applicant on the basis of his or her race, color, creed, religion, age, gender, national origin, citizenship status, marital status, sexual orientation, disability, or other category protected by Central, State, or local law. Forms of such harassment can include physical, verbal and nonverbal behavior that harasses, disrupts, or interferes with an intern or employee's work performance or in any way creates or contributes to an intimidating, hostile or offensive work environment. This behavior includes, by way of example only, epithets, slurs, off-color jokes, threats, or posters, cartoons, emails, or drawings that are insulting, degrading, derogatory or ridiculing of one based on his or her protected status.

Behavior prohibited by this policy often can occur without the knowledge of others and what one may regard as offensive, another may not. For the Company to effectively implement this policy, all persons must respond to and report behavior that violates this policy. Cooperation in preventing this type of conduct is essential.

If you believe that you have been subjected to inappropriate sexual or other behavior, you should immediately tell the offender that his or her behavior is offensive and must cease. If such a direct approach is ineffective or impractical under the circumstances, you must report such behavior to one of the persons identified below. If you have reason to believe that another intern or employee of the Company has been subjected to or has engaged in behavior that violates this policy, you should also immediately inform one of the individuals identified below.

The Internal Complaints Committee ("ICC") duly constituted by PwC AC under applicable law is available to investigate, promptly and thoroughly, any such complaint or report of inappropriate behavior. Complaints and investigations will be handled in a confidential manner consistent with the need to investigate and take corrective action.

If you are aware of conduct by anyone — including those at any level — that may be unethical, illegal or inconsistent with PwC's Code of Conduct, Our Standards, values or policies — help is available. Talk to your Human Capital Team (HR) representative. You can also report your concerns to the Ethics Helpline, anonymously if you prefer at Bangalore/Hyderabad/Kolkata/Mumbai AC: 000-800-100-1555.

In response to a meritorious complaint, PwC AC will as necessary or appropriate, take disciplinary action against anyone found in violation of this policy, up to and including termination of employment or internship, as the case may be.

Every employee or intern may access this confidential system without fear of reprisal. This policy also prohibits retaliation against anyone who in good faith complains under this policy or participates in an investigation. Full cooperation by each intern or employee asked to assist during any investigation pursuant to this policy is required. Complaints of retaliation (actual, threatened or feared) also should be directed to one of the members of the ICC mentioned above.

Notwithstanding the foregoing, information that is

publicly known and is generally employed by the trade at or after the time I first learn of such information (other than as a result of my breach of the CIPA), shall not be deemed part of the Proprietary Information.

2.

(a) All Works (as defined below) shall belong exclusively to PwC AC Bangalore and/or its affiliates, as the context may require whether or not fixed in a tangible medium of expression. Without limiting the foregoing, to the maximum extent permitted under applicable law, all Works shall be deemed to be "works made in the course of your internship with the PwC AC Bangalore" or "works made for hire", under Section 17 of the Indian Copyright Act, 1957 (as amended from time to time) and PwC AC Bangalore shall be deemed to be the author thereof. If and to the extent any Works are determined not to constitute "works made for hire," or if any rights in the Works do not accrue to PwC AC Bangalore as a work made for hire, I hereby irrevocably assign and transfer to PwC AC Bangalore to the maximum extent permitted by law all rights, title and interest in the Works, including all copyrights (including moral rights), patents, trade secret rights, and other proprietary rights in or relating to the Works. To the extent my moral rights cannot be assigned, I hereby irrevocably and expressly waive them and agree not to assert any claims based on such rights against PwC AC Bangalore or its affiliates. Without limiting the foregoing, I hereby irrevocably assign and transfer to PwC AC Bangalore all economic rights to the Works, including the rights to reproduce, manufacture, use, adapt, modify, publish, distribute, sublicense, publicly perform and communicate, translate, lease, sell, offer for sale, import, export and otherwise exploit the Works. I shall have no right to exercise any rights to the Works. I expressly acknowledge and agree that I wish to remain anonymous and not to have my name or any pseudonym used in connection with the Works. I hereby approve any and all modifications, uses, publications and other exploitation of the Works that PwC AC Bangalore or any successor or transferee thereof may elect to make, and I expressly agree that no such modifications, uses, publications or exploitations will or may cause harm to my honor or reputation. I agree that no modification, use or publication of the Works by PwC AC Bangalore or any successor or transferee thereof will be deemed to constitute a distortion or mutilation of the Works. PwC AC Bangalore shall have the unrestricted right to transfer and convey any or all of PwC AC Bangalore's rights in or relating to the Works to any person or entity.

(b) I understand that the CIPA is not intended and shall not be interpreted to assign to or invest in PwC AC Bangalore any of my rights in any inventions developed entirely on my own time without using PwC AC Bangalore's equipment, supplies, facilities, resources, or trade secret information, except for those inventions that either relate at the time of conception or reduction to practice of the inventions to the business of PwC AC Bangalore or the actual or demonstrably anticipated research or development of PwC AC Bangalore, or result from any work that I performed for PwC AC Bangalore.

(c) I will keep and maintain adequate and current written records of all inventions, original works of authorship, trade secrets or other Works in which rights vest in or are assigned to PwC AC Bangalore hereunder. The records will be in the form of notes, sketches, drawings, and any other format that may be specified by PwC AC Bangalore. The records will be available to and remain the sole property of PwC AC Bangalore at all times.

I will execute any transfers of ownership of letters patent or assignments of copyrights or other proprietary rights transferred or assigned hereunder (including short form assignments intended for recording with the Indian, U.S. or any other foreign copyright and patent authorities, or any other entity). I understand that my obligations under this Section shall survive any termination of this CIPA or of my internship in perpetuity, provided that PwC AC Bangalore will compensate me at a reasonable rate for time actually spent performing such obligations at PwC AC Bangalore's request after such termination. If PwC AC Bangalore is unable for any reason whatsoever, including my mental or physical incapacity, to secure my signature to apply for or to pursue any application for any United States or foreign letters patent or copyright registrations or on any document transferring or assigning any patent, copyright or other proprietary right that I am obligated hereunder to transfer or assign, I hereby irrevocably designate and appoint PwC AC Bangalore and its duly authorized officers and agents as my agent and attorney in fact, to act for and on my behalf and in my stead to execute and file any such applications and documents and to do all other lawfully permitted acts to further the application, registration, prosecution and issuance of letters patent or copyright registrations or transfers or assignments thereof or of any other proprietary rights with the same legal force and effect as if executed by me. This appointment is coupled with an interest in and to the inventions, works of authorship, trade secrets and other Works to which any proprietary rights may apply and shall survive my death or disability.

(e) "Works" means:

(i) any inventions, trade secrets, ideas or original works of authorship that I conceive, develop, discover or make in whole or in part during my internship with PwC AC Bangalore (which term includes, for purposes of this entire definition, any affiliate of PwC AC Bangalore), or which I conceived, developed, discovered, or made in whole or in part during my internship or relationship with PwC AC Bangalore, and that relate to the business of PwC AC Bangalore or its actual or demonstrably anticipated research or development,
