Brief about HireMee Software

The pandemic has forced the institutions to take online as a mode of teaching and conducting examinations, which has become a “new normal”. The institutions are concerned about the integrity of the exams when conducted online without invigilation. There is a lot of room for cheating and malpractice among students, which questions the purpose of the exams.

HireMee ProEx has an AI-enabled proctoring system that prevents students from window shifting, copy-pasting, and changing the answers once selected. Also, an AI image proctoring system continuously monitors the students and prevents them from cheating. Sectional timing control adds to preventing malpractice.

HireMee is a SaaS platform for assessments and examination and is a part of Karpaga Assessment App Matrix Services Private Limited (KAAM Services Private Limited) and a social enterprise by VeeTechnologies.

Students take out online test based on 7 parameters drafted by subject experts from the respective domains and get a score. The Mobile App allows students to also upload their answers. HireMee has the advantages like Scalability and Efficiency and it is an Advanced Platform for Online Exams.

This platform has been used by CBIT (A) during the Pandemic for BE/B.Tech VIII and MBA IV Main Semester End Examinations for the Academic year 2019-20.
