**About CBIT(A):** Chaitanya Bharathi Institute of Technology (Autonomous) has an eminence which refers to Research, Creativity, Start Ups, Incubation, Strategic Collaborative Association with Industries and Foreign Universities. The Institute is pioneering the development of an Artificial Heart in Collaboration with SHRII IITB, Pittsburgh University and Cornell University. IIS, ANITA has been working as a temple of learning for the past 42 years. IITC has gained 100 nominations from the Academic Year 2013-14 onwards. The Faculty and Students have successfully received Sponsored Research and Consultancy Projects from various funding Agencies such as IITDRO, IITRI, DST, AICTE and IITC. AIIRSD - (Human Resource Cell (HRC)), MSME - Business Incubation (BI), Hexagon 3D Innovation Lab, Cigital Innovation Lab and Robotics Process Automation Lab have been established in the Research and Entrepreneurship Department, for the students and Faculty to pursue their Research interests.

**About CSE Department:** The Department of CSE was started in the year 1983 with an intake of 20. The intake was gradually increased to 100 with three sections. M.Tech programme was started in the year 2002 with an intake of 10 and increased to 16 in 2011. CSE department is a recognized research center under Chaitanya University. The department comprises of committed and well qualified staff. The infrastructural facilities to CSE Department is conducive to the overall development of the Institute and the discipline of Computer Science and Engineering as a whole. During the year 2020-21, seminar is organized for ten new programmes in emerging technologies: M.E (CSE with AI and ML) and B.E (CSE with IoT, Cyber Security with Blockchain) thus enhancing the intake of students from 100 to 300. The vision of CSE Department is to become a centre of excellence in the field of Computer Science and Engineering that produces innovative, ethical, socially responsible and ethical professionals.

**About Workshops:** In this Five-Day International workshop on "Building Data-Driven Solutions Using Data Analytics with ML and DL Algorithms", the topics included are challenging areas with potential for cutting edge research. The takeaways from this workshop will add immense value to the knowledge base for each of the participants. This workshop will be based upon hands-on approach. Topics included in this workshop are NLP, Data science (Data preprocessing, EDA, Model Building, Model accuracy and model deployment) and computer vision.

**\* Humans can typically create one or two good models a week. Machine learning can create thousands of models a week. \*** - Thomas H. Davenport, Analytics thought Leader

**Objectives of the Workshop:**

- > To create awareness on Data Analytics and EDL using AI Algorithms.
- > To provide instructor-led hands-on the manipulation of Data.
- > To provide hands-on experience over Data Analytics using ML and DL.
- > To acquaint the participants with Research Opportunities in Data Science and Computer Vision.

**Expected Outcomes:**

Upon successful completion

- The participants will be acquire the concepts of data analytics and various tools related to data manipulation.
- Use the EDA to represent the data after preprocessing and analysis of data.
- Formulate the Research problems in Data Science, NLP and Computer Vision.

**Guidelines for Participants:**

- Web Links are replaced on WhatsApp Group.
- E-Certificate will be issued to all the Participants, after successful completion of the Workshop.
- Participants need to mark their attendance on the google form that will be circulated during the Session.
- Use the following Link for Registration: <https://forms.goes/481>

Five-Day International E-Workshop On

Building Data-Driven Solutions Using Data Analytics with ML and DL Algorithms

**Workshop Sessions**

DAY-1: 24th June, 2021  
Towards building real world trustworthy AI systems

DAY-2: 25th June, 2021  
Information Gathering, Data Preprocessing, EDA, Data Modeling, Model Accuracy and Confusion Matrix

DAY-3: 26th June, 2021  
End to end deployment of ML algorithm from model building

DAY-4: 27th June, 2021  
Multi tasking techniques in deep learning

DAY-5: 28th June, 2021  
Image classification using neural networks: basics to hands-on
