Faculty Development Programme on Establishment & Management of Business Incubators (10-12 March 2022)

Rationale

Everywhere new ideas and new knowledge are created every day. Business Incubators renovate them into real innovation by creating a new economic activity which provides employment opportunities and also creates wealth. Incubators assist startups by providing an integrated package of work space, shared office services, access to specialized equipment and machinery along with value added services like fund raising, legal services, business planning, technical assistance and networking support.

In India Business Incubators exist since 1980 which were supported by the Government of India but later private sector also entered in setting-up of Incubators. There are two types of Business Incubators, one which focuses on promotion of technology based enterprises and assist in completion of the technologies under development and are generally located at or near universities, R&D institutes, and Science and Technology parks and another promote regional and national economic growth through job creation and utilizing local resources. Hence, main objective of the business incubators is to produce successful business ventures that create jobs and wealth in the country. There are more than 300 Incubators in the country. Recently, the Government of India has initiated to establish 100 Innovation Centers in the country through Atal Innovation Mission.

A good number of Institutions including private sector are now managing Business Incubators and many others are keen to setup the same. **ni-msme** organizing Faculty Development Programme on "Establishment & Management of Business Incubators" during 10-12 March 2022 to create awareness on significance of Incubation Centers, design of revenue model for its successful management apart from sharing of experiences in promoting innovative businesses at Chaitanya Bharathi Institute of Technology, Gandipet, Hyderabad.

Objectives

- Appreciate significance of Incubators in promotion of innovation & entrepreneurship
- Policies & Programmes for promotion of Business Incubators
- Grass root innovations, issues and challenges
- Role of academic institutions in successful operation of Business Incubators
- Develop business networks for commercialization of innovations

National Institute for MSME (ni-msme) - The Premier Institute

National Institute for MSME (ni-msme), the pioneer institute in the field of MSME is playing a major role in providing pro-business environment to foster the progress of MSME towards success and prosperity. The raison d'être of this Institute is to assist the Government in formulating policies for micro, small and medium enterprises and to help the practicing and potential entrepreneurs through a host of services like training, research, consultancy, information, education and extension.

Set up in 1962, National Institute for MSME (ni-msme) has made valuable contributions by creating an impressive record of achievements beyond the Indian shores, enabling other developing countries to get the benefit of the Institute's facilities and expertise. The Institute is associated with prestigious world bodies such as UNIDO, UNESCO, ILO, CFTC, UNICEF, AARDO and GIZ.

ni-msme's intellectual activities are pursued by its four Schools of Excellence, viz., School of Enterprise Development (SED), School of Enterprise Management (SEM), School of Entrepreneurship and Extension (SEE) and School of Enterprise Information and Communication (SEIC). The Institute has been publishing Small Enterprise Development and Management Extension (SEDM) Journal since 1974 in the domain of small enterprises, attracting contributors and users not only from every corner of the country but also from other developing as well as developed nations.

The Institute is having theme focused Centers like National Resource Centre for Cluster Development (NRCD) for helping the MSMEs by implementing the Cluster Development Approach. At present, the Institute is involved in development of more than 50 Rural, Artisan, Industry clusters across the nation and supporting to KVIC, Coir Board, NBCFDC, NSFDC and various state Governments for development of Handlooms, Handicrafts, Food Processing and Textiles Clusters. Intellectual Property Facilitation Centre for MSMEs (IPFC) provide IP advisory services to various research and academic institutions, Clusters, SMEs, Start-ups and Individual innovators. Around 350 SMEs & Start-Ups got benefited from IP registrations including 102 Trade Marks, 41 Patents, 4 Copyrights, 6 Industrial Designs and one Geographical Indication. Goods and Services Tax Cell (GSTC) provide GST registrations and tax compliances, Entrepreneur Development Cell (EDC) and Livelihood Business Incubator (LBI) supports MSMEs for creating a favorable ecosystem for entrepreneurial development in the country. The Institute stores and supplies information that helps to make a successful entrepreneur who is well versed in the intricacies of business and can participate in business activities intelligently and diligently through its Small Enterprises National Documentation Centre (SENDOC).

The Institute has trained more than 5,48,815 participants by organizing around 16,198 programmes which includes prospective/existing entrepreneurs and officials from various Ministries of Govt. of India and State Governments. ni-msme has also imparted skill training to 1,18,531 educated unemployed youth by conducting 3908 Entrepreneurship and Skill Development Programmes (ESDPs). The Institute is implementing ITEC Scheme of Ministry of External Affairs, Govt. of India since 1967 and trained 10,600 International Executives from 143 developing countries. The Institute has also completed more than 947 research and consultancy projects.

The management of the Institute rests with the Governing Council appointed by the Govt. of India. The governing body acts through the Director General. The present Director General is Dr. S. Glory Swarupa.

Dear Sir,

Chaitanya Bharathi Institute of Technology, Hyderabad is organizing a two-day National level student technical fest IIT-DEE-2K22 on 23rd and 24th of March 2022. As a part of it Mechanical Engineering is organizing **MECHANICA-2K22** (on 23rd and 24th of March 2022) inviting participants from several Engineering Institutes in and around Hyderabad and Telangana state.

In this regard, our professor Dr. G. ChandraMohan Reddy approached you with a request to deliver key note address at 11.30AM on **23/03/2022** and we convey our profound thanks to you for accepting to deliver the same.

Through this letter, we request you to confirm the same. Our faculty coordinator will get in touch with you to make necessary arrangements.

Synopsis of Alumni Activities in MED in 2021

The mechanical department of CBIT has conducted interactive sessions with seniors of 2019, 2020 and 2021 passed out batches. These CBIT Alumni have interacted with the 100 plus students who are pursuing Mechanical Engineering and have shared their rich experience for the benefit of the future aspirants. The Alumni speakers were from prominent companies like BYJUS, HYUNDAI, TECHNIPFMC, HYUNDAI TRANSYS, GODREJ and HUL.

A guest lecture was conducted by our Alumni of 1992 batch, Mr Vikas Jaja, Vice President, Reliance Industries Ltd., on the occasion of Superannuation of Mr B Suryanarayana, Associate professor, MED, CBIT on 30 Sep 2021. The topic of guest lecture was related to Supply Chain enabling Modern Retail logistics. This session has benefitted 100 plus students in raising their awareness and understanding the current business model.

An Online awareness session on MS programmes was arranged on 28 Nov'21 for the benefit of the students who would like to pursue MS programmes in future. The interaction session was delivered by our Alumni Mr Srujan of 2019 batch, who is presently pursuing MS in Supply Chain Engineering at Georgia tech, USA.

Mechanical Engineering has organised Guest lectures on World Entrepreneurship Day celebrations at CBIT.

The following Guest lectures were delivered in connection with World Entrepreneurship Day celebrations at CBIT.

A guest lecture was delivered Mr. Venkatesh Yerramalla , CEO, Confluence Centre for Sustainable Development on 19 Aug 2021 . He is an Alumni of 1992batch. Mr Venkatesh spoke on the topic Building successful Start-ups. During his lecture he emphasized on market validation, design thinking, partnering, and entrepreneurial learning for making a start-up successful. He also discussed about the Business model canvas and its importance. Mr venkatesh also said that the entrepreneurs should develop passion and must analyse and understand the customer thoroughly. The programme was attended by about 200 students.

On 24/08/2021 there was an interactive session on the topic "Entrepreneur in current scenario opportunities and challenges by Mr. Prasad Kandimalla MD & CEO , LAZULINE BIOTECH PVT LTD. Mr Prasad is an alumni of 1992 batch. In his talk Mr.Prasad said Entrepreneurship is a philosophy and opportunities would always exist. He also said that opportunities can be created by doing things differently. In his lecture he focused on 5 R's and 4 S's .i.e Reseach, Resources , Relationships, Risk and mitigation and role models - Strategy ,sustainability, standards and scalability.

Mr.Navneet Kumar who is the Executive Head, Hexagon Capability Centre, delivered a lecture on " Entrepreneur outlook in organizations - possibilities and constraints" on 24/08/2021 in the second session.. Mr.Navneet is an alumni of 1991 batch. He compared the rolls of Entrepreneur and Employee and discussed how an employee in an organization can have an entrepreneurial outlook. He also emphasized on how an employee can add value to an organization . He gave examples of entrepreneurs like Ambani, Sekhar Kammala, Dr Malkonda Reddy and like A.P.J Abdul Kalam.

SCM & Logistics

- Supply Chain Management (SCM) encompasses the network of organizations that are involved through upstream and downstream linkages, in the different processes and activities that produce value in the form of products and services in the hands of the ultimate consumer.
- Logistics is the process of strategically managing the procurement, movement and storage of materials, parts and finished inventory and the related information flows through the organization and its marketing channels for the cost-effective fulfillment of customers' orders.

A Webinar on

Saturday, 14th May 2022

11:30 AM – 12.30 PM

IEEE CBIT SB

Abstract / About the Programme:

The major goal of this session is to give an awareness to faculty members about proposing edited book proposals with various publishing houses like Springer, IGI-Global, DE-Gruyter's etc. Session also covers best practices to be followed for getting quality book chapters from potential authors. Speaker will discuss in detail with the proposal forms, guidelines to be followed and timelines.

Name of the Speaker:

Dr. Mayuri Mehta

Professor | Department of Computer Engineering,
Sarvajani University, Surat, India

About the Speaker:

Dr. Mayuri is a passionate learner, teacher and researcher. Her areas of teaching and research include Data Science, Healthcare Informatics, Machine Learning/Deep Learning, Computer Algorithms and Python Programming. Her 22 years of professional experience includes several academic and research achievements along with administrative and organizational capabilities. She is awarded the "Researcher of the Year Award (Engineering, Female)" by 3rd International Business and Academic Excellence Award (IBAE-2021) committee for her Exceptional Calibre and Outstanding Performance as Academician, Researcher, Mentor, Advisor, and a Thought Leader. She has 4 granted International innovation patents, 4 published patents and 1 granted copyright. She has co-edited two books: (1) Tracking and Preventing Diseases with Artificial Intelligence and (2) Knowledge Modelling and Big Data Analytics in Healthcare with Springer and CRC Press respectively. Her book on "Explainable AI: Foundations, Methodologies and Applications" with Springer is in process. She has worked on several academic assignments in collaboration with professors of universities across the globe. Her AI-powered Healthcare project was approved for funding. She has also received funds several times from Gujarat Council on Science and Technology (GUJCOST). She has received fund from Student Start-Up & Innovation Policy (SSIP), Government of Gujarat, India for filing 2 patents. She has served in several International Conferences in different positions. She has conducted 70+ sessions in International Conferences, Short Term Training Programs (STTPs) and Faculty Development Programs (FDPs). With the noble intention of applying her technical knowledge for societal impact, she is working on several AI-powered research projects in Healthcare in association with doctors doing private practice and doctors of Medical Colleges. She is a member of professional bodies such as IEEE, ISTE, CSI.

Report on
Writing Effective Edited Book Proposal

On 14th May 2022, the session was organized under the IEEE CBIT student branch, a book proposal is a document intended to convince a publisher that your project is economically viable for their publishing house. It needs to persuade its reader that your idea has enough commercial potential that the publisher should take the risk of putting money and resources into your book. When writing your proposal it is important to think about your audience. It is very likely that your proposal will be read by someone who does not know you or anything about your subject. With this in mind, how can you describe your project in such a way that it sounds interesting and compelling, and above all, economically viable? And remember, convincing this reader is only the first step. If they get behind your project, they will then have to convince the publisher's sales team and/or finance department that it is worth the risk. Dr. Mayuri is a passionate learner, teacher and researcher. Her areas of teaching and research include Data Science, Healthcare Informatics, Machine Learning/Deep Learning, Computer Algorithms and Python Programming.

Abstract

The talk will provide an overview of Embedded Systems ecosystem and unleash the emerging trends in this domain. It will be augmented with the supporting technologies that makes it possible to develop end-to-end applications based on Embedded Systems. We will discuss few interesting applications and also walk through some good practices in designing and developing projects around Embedded Systems. The talk will also provide an insight on the skills that are necessary for being an Embedded Systems engineer and provide pointers on how it can be acquired.

Keywords that will be touched upon include: Processors, Drivers, Bare Metal, RTOS, Embedded OS, IoT, Protocols, AI, Blockchain.

About the Speaker

Prof. Mahesh U. Patil is Associate Director, HoD, Cyber Security (R&D) at Centre for Development of Advanced Computing (C-DAC). His major area of R&D includes Cyber Security, Embedded Systems, Mobile, IoT Security, Blockchain and Education & Training. He is BOS member for NIT, Warangal, ECE. He has delivered 100+ talks at various R&D and Academic Institutes across the country. He has published several research papers and is currently pursuing PhD proposed towards developing binary analysis techniques for providing security posture of Embedded Systems firmware.

BRIEF REPORT OF THE WEBINAR ON
"EMERGING TRENDS IN EMBEDDED SYSTEMS"
ORGANISED BY CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY(A)
In association with IEEE-CIRCUITS AND SYSTEMS SOCIETY, Hyderabad
on Saturday, 5th March 2022
11:00 AM – 12:30 PM

An exclusive webinar session provides an overview of the embedded systems ecosystem and outlines the supporting technologies needed to enable end-to-end application development based on embedded systems. The special focus was on some best practices for developing embedded application Projects and given an insight on the skills necessary to become an Embedded System Engineer. About 63 participants including, faculty, UG students from VI Sem (ECE), and ME (ES&VLSI); attended the webinar. **Prof. Mahesh U. Patil, Associate Director, C-DAC, Hyderabad**, is the webinar speaker

Prof. Mahesh U. Patil spoke about a range of job opportunities in Embedded System and shared pointers on how they can be acquired. Towards the end of the talk, he discussed some of the ongoing research works in Embedded Systems. The talk followed a discussion.

Feedback: The speech was wonderful, insightful, and well presented! Excellent session, challenging, and thought-provoking received positive feedback from the participants.

Abstract

In this talk, Sri.Kalyan will touch up on the lifecycle of a startup along with the lifecycle of the entrepreneurs association with the startup. He will discuss how to ideate a startup, evaluating the idea and subsequent bootstrapping a startup till the first customer stage of a startup along with the right combinations, the right investments and valuation stages of a startup. The stress while discussing the ideating a startup section would be on innovation and the latest consumer and marketing trends that the startups are catering to. The talk will be followed by an open Q & A with range covering the entire lifecycle of a startup.

About the speaker

Sri. Kalyan Gudladana, is a Masters graduate from University of Texas, Dallas in 1997 and was a B.Tech graduate from KLCE and has worked in various architect and leadership roles in large multinational companies like, Alcatel, Nortel, Bally Technologies along with multiple startups before starting his own entrepreneurship journey almost a decade ago. The first startup was merged with BSE listed Delta Corp and is currently in the process of scaling the current startup to international markets. The areas that Kalyan has worked on primarily are in telecommunications, Gaming, Core AI/ML, Healthcare & Cloud Technologies.

**Report on
A Webinar on "Brainstorming and Bootstrapping a Startup"
(Code: CBIT/TP-Webinar/1011/ECE/D004/2022)**

A webinar on "Brainstorming and Bootstrapping a Startup" was conducted by R&D Centre, CBIT and ECE Department on 12 February 2022 during 10 a.m to 11.30 a.m. Sri. Kalyan Gudladana, Founder & MD, TYkhe Gaming Pvt Ltd (India), TYkhe Gaming LLC (USA), delivered talk about the lifecycle of a startup along with entrepreneurs association with the startup. He discussed about how to ideate, evaluating the idea and subsequent bootstrapping a startup till the first customer stage of a startup along with the right combinations, the right investments and valuation stages of a startup.

While discussing the ideating a startup section, the stress was on innovation and the latest consumer and marketing trends that the startups are catering to. About 22 faculty and 35 students attended the webinar. The participants included both UG and PG students and the faculty. The

Dr. Amit Saugroya, Scientist, TCS Research & Innovation, Gurugram, Haryana	Dr. M. Swamy Das, Professor, Dept. of CSE, & Joint Director - Academics (Informatics), CBIT(A)
Dr. Debasish Das, Assoc. Prof., Dept. of CSE, IIT Jodhpur	Dr. L. Pratap Reddy, Professor, JNTUH and Working President, Sreecha, Hyderabad
Dr. Arun Kr., Scientist, TCS Research & Innovation, Gurugram, Haryana	

Objectives of the STTP

To introduce the concepts of Blockchain and platforms.
To provide Blockchain use cases in various domains.
To introduce Crypto-Currencies and Non-Fungible Tokens.
To acquaint the participants with research challenges in Blockchain.

Expected Outcomes

The participants will acquire an overview of the structure and mechanisms of Blockchain.
The participants will get acquainted with cryptocurrencies and non-fungible tokens.
The participants will gain an understanding of research trends in blockchain.

CHIEF PATRON

Kavi Kireeti Dr. V. MALAKONDA REDDY,
President Emeritus, CBIT

PATRON

Sri. N. SUBASH,
President, CBIT

CHAIRPERSONS

Dr. P. Ravinder Reddy, Principal, CBIT (A)

REPORT ON FIVE-DAY INTERNATIONAL SHORT TERM TRAINING PROGRAM (STTP) ON BLOCKCHAIN FOR DIGITAL TRANSFORMATION ORGANIZED BY DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING , CBIT, FROM 12.08.2021 TO 16.08.2021

Short term training programmes are very helpful in knowledge enhancement process. Dept of Computer Science and Engineering , CBIT has organized five-day international short term training program (STTP) on blockchain for digital transformation from 12.08.2021 to 16.08.2021 under the esteemed supervision of CBIT Management, Principal, Head of CSE Dept.

STTP was inaugurated in the gracious presence of honorable Chief guest Dr. Srujan Kotikela, Texas A&M University USA, Dr. P. Ravinder Reddy-Principal, CBIT, Dr. Y. Rama Devi , Head of CSE Department , CBIT, on 12.08.2021 at 6.30 pm.

There were 685 participants from various states like Tamil nadu, Karnataka, Telangana, Andhra Pradesh, Himachal Pradesh, Madhya Pradesh, Maharashtra, Jammu and Kashmir, West Bengal, Uttar Pradesh, Odisha, Jharkhand, Uttarakhand, Delhi, Assam, Harayana, Gujarat , Rajasthan, Bihar, and outside the country such as USA, Saudi Arabia, Ethiopia, Oman .

Day1 (12.08.2021) :

The program was inaugurated on 12.08.2021 at 6.30 pm by Chief guest Dr. Srujan Kotikela, Texas A&M University USA, Dr. P. Ravinder Reddy ,Principal, CBIT, Dr. Y. Rama Devi , Head of CSE Department , CBIT.

Dr. Mesfin Abebe , Dept of CSE, ASTU, Ethiopia was the Keynote speaker for the first session. Dr. Mesfin Abebe has enlightened participants about framework for malware detection, and Machine Learning model . Dr. Amit Sangroya, scientist at TCS Innovation Labs ,Delhi, India was the speaker for the second session. He gave introduction to the blockchain technology, applications and its concerns. Dr. Srujan Kotikela explained about an emerging area "Root of Trust for Decentralized Identity". He shared his in-depth knowledge about DID architecture, DID document, DID operations and chain of trust.

Day2 (13.08.2021) :

Dr. Debasis Das was the speaker for second day. He is working as Associate Professor in IIT Jodhpur. His research interests include Vehicular Ad-Hoc Networks (VANETs), Block chain, Internet of things, Machine Learning, Artificial Intelligence. He has been awarded the Early Career Research (ECR) award from Science and Engineering Research Board (SERB), Department of Science and Technology. He has many research collaborations with premier institutions in India and out side India.

In session1 Dr. Debasis Das has given an enlightening talk on Block chain based Next Generation in Smart Grid Transactions. He discussed about the importance of renewable source of energy specially focussing on solar energy. He shared his work related to design of an efficient, secure, safe, fair and sustainable smart grid system.

Session2 was interactive where Dr. Debasis Das has focussed on the various real time problems which can be solved with Blockchain technology. The security issues encountered with block chain, achievement of decentralization, immutability and transparency for smart grid data was discussed.

Day 3 (14.08.2021):

The speaker for the day was Mr. Arun Kumar Jindal. He is a Scientist at TCS Research and Innovation Labs, Delhi, India. At TCS Research, he works in the Cyber Security and Privacy Research Group. His current research interests are in the area of secure and private systems. His efforts and contributions have led to several product offerings from TCS which are deployed in various geographies.

In the first session Mr. Arun Kumar Jindal gave introduction to Cryptographic Hash function. It can be applied to block of data of any size, produces a fixed length output, and is easy to be applied to any given message. The property of collision resistance also referred to as strong collision resistance was discussed. He discussed about about Various padding schemes to increase the size of the message, Merkel Damgard Strengthening is one such way of padding the message.

In the second session Arun Kumar Jindal gave a talk on Cryptocurrency-BitCoin which is a decentralized, digital or virtual currency for security, immune to government interference or manipulation. He also discussed about public key infrastructure, Bit-coin Account and signature, Transaction Order, High Level Solution, Proof of Work and Block rewards of Bitcoin. He also shared his knowledge about Non Fungible Token (NFT) which function like cryptographic tokens, unlike cryptocurrencies like Bitcoin. Comparison between NFT and Internet was shown.

Day 4 (15.08.2021):

Dr. Debasis Das was the speaker for fourth day. He is working as Associate Professor in IIT Jodhpur. He gave a talk on Research Challenges in Blockchain for Financial Applications.

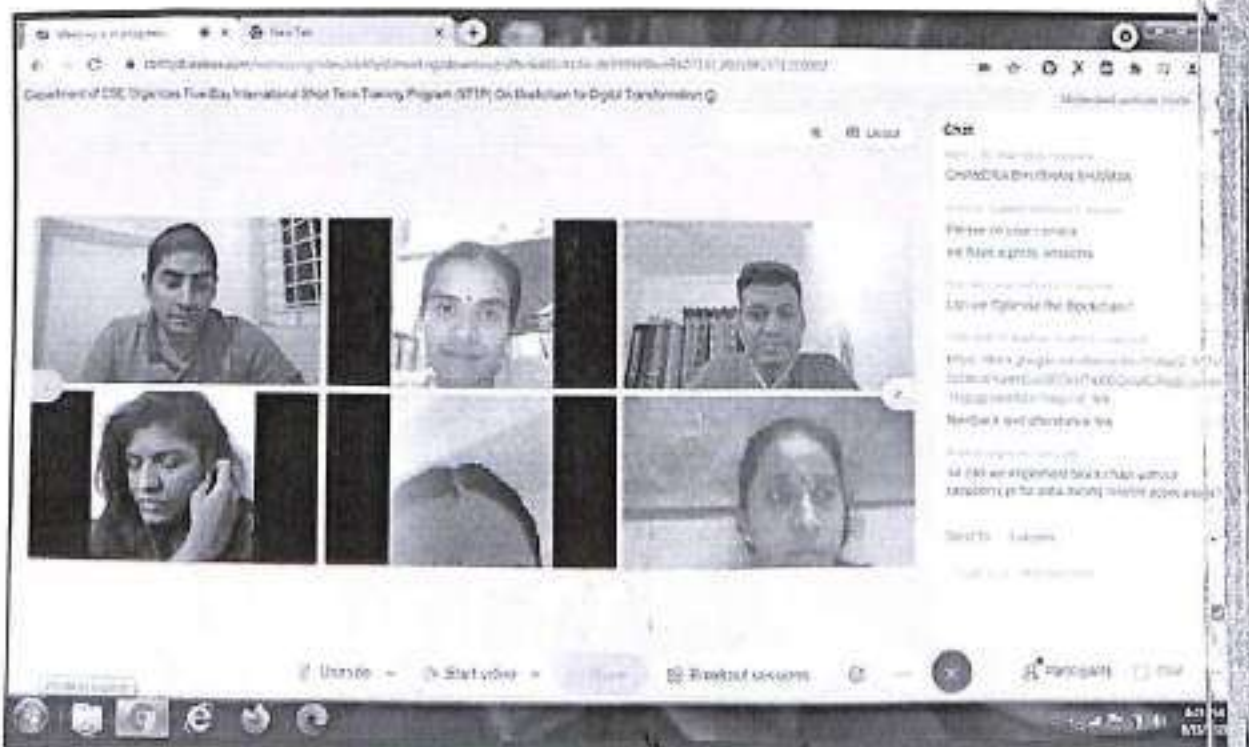

In the first session, Dr. Debasis Das gave an introduction to core trends in CS Research such as Blockchain, increasing role of AI, Smart Grid, 5G and Future Networks, Internet of Things, Quantum Computing and Quantum Communications. He discussed about role of Blockchain in financial transactions like payment transparency, digital currencies and distributed ledger technologies. Dr. Debasis Das explained about the new protocol called FinBlock which promises to have a lower transaction processing time and higher transaction throughput by introducing the pipelining into Blockchain and reducing one round of broadcasting of transactions.

In the second session, Speaker discussed about Framework for recommendation system and the evaluation criteria like comparing to baseline techniques in predicting anomalies, performance of Urban Anom in predicting particular anomaly category, different parameter setting affecting the performance, and how performance varies with different combination of modules in joint architecture. The session was interactive and fruitful.

Day5: 16.8.2021

Dr. M. SwamyDas , professor, Dept of Computer Science and Engineering, Joint director- Academics , CBIT was the speaker for fifth day. Sir Enlightened participants about Data security issues and challenges.

Dr. L. Pratap Reddy, Professor, JNTUH and Working President, Swecha , Hyderabad was the speaker for 2nd session. Sir shared his indepth knowledge about Surveillance models and discussed interesting case studies.

The screenshot shows a Zoom meeting interface. The main content is a slide titled "Evolution of the Web". On the left, a line graph plots "Data Storage Space" against time, showing exponential growth from Web 1.0 to Web 2.0 and Web 3.0. On the right, a table compares the three web eras:

Web 1.0	Web 2.0	Web 3.0
Static website	Web 2.0 sites	Portable and personal SW & hardware
Company web	Participative	Individual flow
Home page	Blog/micro	Geo-streamed video
Static content	Sharing content	Contextizing content
Web forms	Web applications	Smart applications
Director	Tagging	User behavior
Page view	Customer click	User engagement
Banner advertising	Interactive advertising	Understand advertising
Emails, contact info	Connect people, interaction	Cloud knowledge, personalized SW
Believes with a web	Wanted to social web	Deliberate web
HTML, URL	API, RSS, ID	PDF, PDF/S, 3D, etc

A Brief report on the **National Level Hands-on workshop on "GitHub"**, organised in virtual mode on 23.10.2021 by Departments of IT and CSE

The Departments of IT and CSE together organised a National Level Hands-on workshop on "GitHub" on 23.10.2021 in virtual mode. The session was scheduled from 09:30AM to 12:30PM. The resource person for the event is Mr Revanth Rellabandi, Alumna of the Department of Information Technology, CBIT(A). The faculty coordinators of the event are Ms. T. Prathima, Ms. A. Sirisha, Assistant Professors from Department of IT and Ms Kavita Agrawal, Mr M Venkata Krishna Reddy, Assistant Professors from Department of CSE. This program is open to all students of all branches. We have received 1930 registrations from different states of India like Maharashtra, Uttar Pradesh, Kerala, Tamil Nadu, Madhya Pradesh, Andhra Pradesh, Telangana etc. The No. of Participants who attended is 576. 1921 views received on YouTube by the time this report is prepared i.e., 23.10.2021 2:55pm.

Inaugural of the workshop was hosted by Ms Kavita Agrawal. Prof. K Radhika, Head of the Department of IT addressed the participants about the College and Department of IT, Prof. Y Ramadevi, Head of the Department of CSE addressed the participants about the Department of CSE, Ms T Prathima addressed the participants about the event, Ms A Sirisha introduced Resource Person Mr Revanth Rallabandi. The technical support was provided by Mr Rajesh Kannan, Assistant Professor, Dept. of IT for the event in live streaming and certificate generation.

GitHub is software built for developers, it is development platform where we can host and review code, manage projects, and build software alongside multitude of developers. Git also tracks the history of changes to a project's source code, including what specifically has been changed, who has changed what and when without any overrides, this is called version control. Version control is "a system that records changes to a file or set of files over time so that you can recall specific versions later." Even when developers work on each other's files at the same time, Git's version control system will inform them that they're about to overwrite somebody else's work! Github can be used as a publishing tool, as a version control system, as a collaboration tool

The session was scheduled to demonstrate the following aspects of Github:

- **Repository:** The most fundamental element of Github, a repository is essentially a projects' folder. Repositories store every single project file, its documentation and its revision history of every document.
- **Commit:** Commits are the most frequented activities by a developer using github. A commit is like saving an updated file to its original folder

- Clone: are copies of repository that sit on the developers computer instead of a sever.
- Branch: is a parallel version of a repository. It is contained within the repository, but does not affect the primary or master branch allowing the user to work freely without disrupting the live version
- Fetch: Fetching refers to getting the latest changes from an online repository without merging them in. Once these changes are fetched you can compare them to your local branches
- Fork: A fork is a personal copy of another users repository that lives on your githubs account. Fork allows to freely make changes to a project without affecting the original
- Push: Pushing refers to sending committed changes to a remote repository such as GitHub.com. For instance, any local changes, can be pushed so that others may access them.
- Issue: issues are suggested improvements, tasks or questions related to the repository. Issues can be created by anyone (for public repositories), and are moderated by repository collaborators. Each issue contains its own discussion forum, can be labeled and assigned to a user.
- Blame: The role of the Blame feature on GitHub passes 'blame' on the version of the code file that resulted in an error occurring.
- Merge: Merging takes the changes from one branch (in the same repository or from a fork), and applies them into another. A merge can be done automatically via a Pull Request via the GitHub.com web interface if there are no conflicting changes, or can always be done via the command line.

Objectives of the Workshop:

- i. Introduce code sharing platform GitHub to share and manage project code.
- ii. To make students competent to participate in Hackathons.
- iii. Encourage students to take up open source projects by utilising the code available from git repository.
- iv. To enable students to make their code visible to others.

CIRCULAR

CBIT Coding School and CDC are organising Preplacement training for V Semester students in online mode in the webex link provided in the circular. The Objectives of the In house training session are:

1. To make students familiarise with Computer Science topics relevant to Campus placements in Software Industry
2. To revise the Object Oriented Programming features through Java
3. To teach Python Programming
4. To enable students to prepare for InfyTQ Certification.

Heads of respective Departments are requested to **collect attendance cum feedback form** after every class through respective teachers as per V Semester time table and **attendance must be posted in the student ERP immediately** after the class in consultation with AEC. Sample attendance cum feedback form will be shared through email. End of the day the feedback cum attendance forms may be mailed to director_cdc@cbit.ac.in

Students are informed to **attend the programme online and submit attendance cum feedback form after every class**

The courses to be covered for the said students of CSE, IT, ECE and MCA are as follows (Detailed syllabus is attached):

organised on 19.02.2022 by Career Development Cell, CBIT.

The Career Development Cell (CDC) of CBIT has organised a guest lecture on "Journey of a program from .C to .EXE and it's Memory Management" on 19.02.2022. The session was scheduled from 09:30AM to 12:30PM. The resource person for the event is Mr K Durga Naveen, CEO, COIGN & GoalStreet. The faculty coordinators of the event are Ms. T. Prathima, Assistant Professor from Department of IT and Ms. P. Vimala Manohara Ruth, Assistant Professor from Department of CSE. This program is open to all students of all branches. There are 1063 student participants from the states Tamil Nadu, Andhra Pradesh and Telangana. A total of 1,303 views are received on YouTube by the time this report is prepared i.e., 03.03.2022 12:52pm.

The inaugural of the Guest Lecture was by Ms T. Prathima who addressed the participants about the event, Ms Rimsha, student of IT Department, introduced Resource Person Mr K Durga Naveen. The technical support was provided by Mr Rajesh Kannan, Assistant Professor, Department of IT, for the event in live streaming and certificate generation.

The world is driven towards automation for accuracy and reducing human effort. The stages of automation development were explained in detail which included applications, technologies, languages, backend components and libraries. The dissection of turbo C was performed such as editing, pre-processing, compiling and executing the programs. The scope and lifetime of variables and the allocation of memory to these variables in main memory was demonstrated with various examples. Memory Management of Random Access Memory (RAM) and the various memory allocations in RAM such as code, stack and heap were illustrated with simple and effective examples and analogies. It was an interactive session where most of the student queries were covered by the speaker. The session ended with vote of thanks proposed by Ms. Divya, Student, Biotech.

Objectives of the Guest Lecture:

- i. To learn the process of converting Source Code to Executable Code.
- ii. To understand Memory management during program execution.

No. of faculty	3	19	27	18	4	4	5	4	10	3

The resource person explained how faculty from different disciplines can collaborate and work together to develop sustainable solutions for real life problems. Scope to work in domains like Atomic Layer Deposition (ALD), Chemical Sensor Research and Development Activity, Gas Sensor Activity, Integrated Watershed Development, GIS based locust risk zone mapping, Decision Support System for IFFCO Project, Indigenous Web enabled DSS developed using open GIS libraries, Synergistic use of Geospatial & Location Based Services, Economic aspects of Geospatial technology utilisation for Crop Intensification (National Food Security Mission), Estimates of Fish Culture Potential in water bodies, Crop Insurance Decision Support System with Technology and field based information products and services (CIDSS), Remote Sensing Inputs to Precision Agriculture, are discussed.

Objectives of the Seminar:

- To bring out holistic approach to research
- Integrate perspectives and problem solving tools from multiple disciplines.
- Synthesize ideas from a variety of disciplines to create a unique approach to subject matter, allowing insights not possible through any one discipline alone.
- Challenge teachers and students to integrate studies from outside of their primary discipline.
- To move from research, publications and patents to economically viable products to promote make in India

Ms Niveda R an Entrepreneur who is the Founder Bliss Natural Pads has addressed the students and shared her success story of growing into an entrepreneur from a Project given by her mentor during her last semester undergraduate program. She motivated the students towards startups and also emphasized on the various steps of design thinking and the approach to be followed to trouble shoo the problems eveloveing in this process of growing as an entrepreneur.

She has won many awards to her credit:

1. Ist chattra Vishwakarma Award
2. Innovation Most promising Student Innovator Award
3. I3 sidbi Mitra award
4. iCreate award

5+ innovation awards

1. Kovai Wonder women awards

@ 06:30 pm

Mr. Patrick Widmann, AI Startup consultant and Startup mentor from Germany delivered a session on "Turning Social ideas into Scalable businesses" on February 24th 2022 @ 06:30 PM under IIC -CBIT.

He spoke on the importance of various community-based innovations and opportunities available. He discussed with various case studies, how innovations can be converted into businesses and scaling them.

Students have gained a lot of insights from him, especially on social innovation. He motivated students to work on social ideas. Students from all branches of engineering, MBA and Faculty participated in the event.

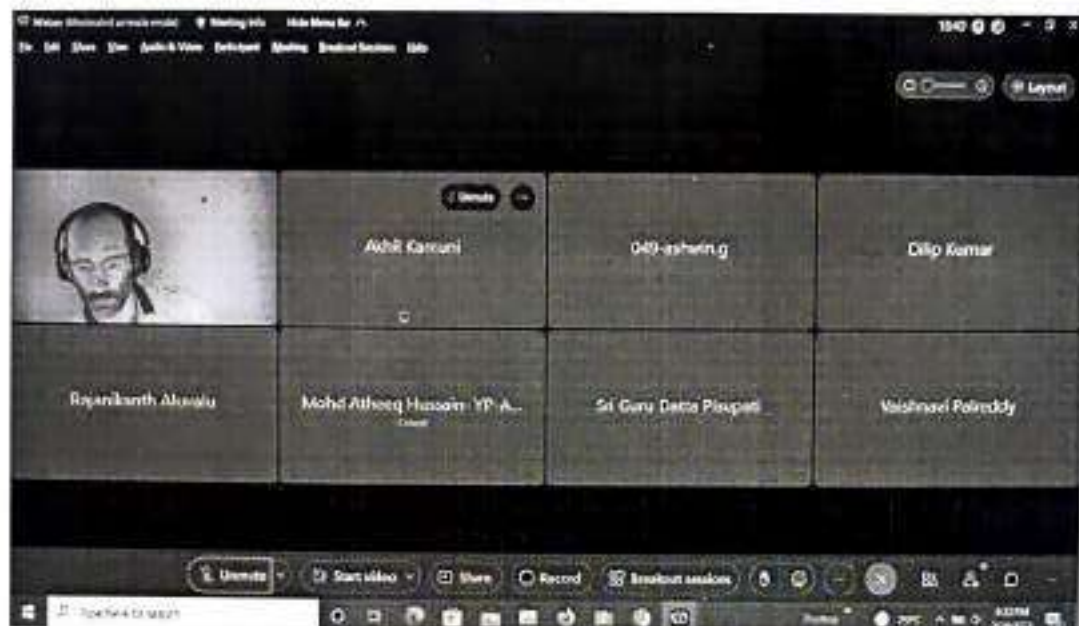

Dr. Rajanikanth Aluvalu, Associate Professor, Department of IT and Mr. Atheeq Hussain, Young professional, ICIC, CBIT Coordinated the event under the guidance of the Director. Dr. U.K. chowdharygaru.

In earlier years, Patrick managed the international operations and strategy for 9 international markets in one of Europe's leading omnichannel retail groups. Later he lived for several years in India and helped to develop Social Startup Accelerators by acting as a startup coach, digital advisor, and establishing bridges between the continents. Currently, he is building an AI ecosystem in Germany, in cooperation with the state Baden-Württemberg, to nurture the entrepreneurial potential of world-class scientific research at the leading tech universities. Besides being a startup founder himself, he engages as a mentor across various international startup programs to connect and develop the global ecosystem.

About CBIT: CVR Group of Institutions (Autonomous) has an ecosystem which caters to Research, Consultancy, Start-Ups, Incubations, Strategic Collaborative Associations with Industries and Foreign Universities. The Institute is pioneering the development of an Artificial Heart in Collaboration with SHARE India (Pittsburgh University and Cornell University, USA). CBIT(A) has been standing as a temple of learning for the past 43 years. UGC has granted Autonomous status from the Academic Year 2013-14 onwards.

About IT Department: The department comprises of committed and well qualified staff. The intellectual ambience in IT Department is conducive to the overall development of the students and the discipline IT as a whole. During the year 2020-21 sanction is accorded for two new programmes in emerging technologies: B.E (AI & DS) thus enhancing the intake of students from 180 to 200. The vision of IT Department is to become a centre of excellence in the field of center of excellence in the field of information technology that yields pioneers and research experts who can contribute for the socio-economic development of the nation.

About the Workshop:

Technologies and computing systems are becoming ubiquitously integrated into our daily lives. Blockchain is a digital disruptive technology compared to the internet permitting transactions in the financial, commercial and other areas. Blockchain technology is fairly simple yet very profound and is an emerging technology platform for developing decentralised applications and data storage. Powered by cryptography, Blockchain enables confidentiality, privacy and security of data and user identities. Blockchain is considered the future backbone of digital transactions because of the way it secures and regulates digital relationships.

OBJECTIVES OF THE WORKSHOP

To introduce the concepts of Blockchain and Platforms To provide Blockchain case studies in various domains

To acquaint the participants with research challenges in Blockchain

EXPECTED OUTCOMES

Upon successful completion of the workshop,

The participants will acquire an overview of the concepts and mechanisms of Blockchain

GUIDELINES FOR PARTICIPANTS

- Web Links are updated on WhatsApp Group
- E-Certificate will be issued to all the Participants, after successful completion of the Online Workshop
- Participants need to mark their attendance in the people form which is circulated during the Session

Subject: Proposal of a coding club

Respected Sir,

The students of our college are proud of the excellent functioning of many clubs in our college. We, as students, believe that through the means of clubs, we often improve our personality. Clubs help students to know each other very well and we think it would be best if we can use them to gain industry-based knowledge and technical skills. We, as students of Information Technology, felt that we lack such exposure to competitive coding and the pandemic made it even more difficult. We believe the need to build a strong foundational network in our college which extensively worked for the student body to develop the culture of coding and other technical skills.

Hence, we propose to start a coding club for CBIT, that is the **UNITED CODERS CLUB** of CBIT or the **UC3**. The proposed coding club would cater to all the students and would be an open-source club. We brainstormed a lot of plans for the club, and we plan to implement them step by step. The club would ensure in creating a proper atmosphere to the students, guiding them to insights about the coding culture and opportunities available in the technical world. Here is a glimpse of the activities and events that we plan for the club.

1. A social media handle to circulate information among students.
2. Interviews with industrial experts to share their experiences and learnings.
3. Roadmaps and Cheat sheets for coding career.
4. Monthly Challenges/ Bootcamps / Ideation
5. Frequent Hackathons for spreading idea about real life problem solving.
6. Blogs and Podcasts relating to the technical world.
7. Seminars on Competitive Programming and Open Source Community.

We sincerely request you to grant us the permission to create this club. We strongly believe this would be of great benefit to the student body and help in their professional endeavors.

Thanking You,
Yours Sincerely,

Forwarded for permission

One Week Online Faculty Development Programme on UNIVERSAL HUMAN VALUES

20-24th July, 2021

REPORT

Faculty Development Programme on "Universal Human Values" has been organized by the Department of Physics, Chaitanya Bharathi Institute of Technology (A), Gandipet, Hyderabad during 20-24th July, 2021 in online mode. The programme started with inaugural session on Zoom platform. Prof. P. Ravinder Reddy, Principal, CBIT graced the occasion and explained the necessity of conducting the FDPs for the enhancement of the value-based knowledge and skills of academic community. He appreciated the Department of Physics, CBIT for organizing such a wonderful online FDP. Prof. B. Sreenivasa Reddy, Head, Dept. of Physics, CBIT and Advisor of the FDP presented a report on activities conducted by the Department of Physics. Dr. V. Srinivasa

Reddy, Convenor, FDP has given a brief introduction and need about the FDP and informed that about 50 participants registered for the FDP from different parts of the country. Dr. M. Subhadra, Coordinator, FDP introduced the Keynote Speaker Dr. P. Ravinder Reddy, Principal, CBIT, Hyderabad. Dr. Ravinder Reddy has given enough motivation to all the participants through his lecture on New Education Policy. The inaugural session was ended with vote of thanks by Sri. G. Nataraju.

Dr. G. Suresh Babu, HoD EEE, CBIT delivered a talk on "Harmony in self, Harmony with body" on second day. The lecture has boosted the enthusiasm and motivation among the participants to know the harmony and need of human values in the life. Prof. B. Sreenivasa Reddy encouraged the participants to interact with the speaker through Question & Answer session and asked the questions on behalf of participants who raised questions in the chat box. The session was concluded after proposing vote of thanks to Dr. G. Suresh Babu by Dr. Subhadra.

On Day-3, the programme started with the introduction of the resource person Prof. Sreenivasa Sarma, CBIT, by Dr. M. Subhadra, Assistant Professor, Department of Physics, CBIT. Prof. Sreenivasa Sarma, conveyed a talk on “care and guidance”. Participants queries were answered in Q&A session. The meeting was ended with session of vote of thanks.

Prof. G. Suresh Babu took a session on “Gratitude and love” on day-4. He explained about Knowledge, Right Feelings, Physical facilities, human desire, effort, need of right understanding and mutual happiness and mutual prosperity. In the interactive session, he answered questions raised by the participants and the session ended after “expressing thanks” to the expert by Dr. Neelima Agarwal.

The last day of the programme on 24th July, 2021 started with expert lecture by Prof. P. Sreenivasa Sarma, Professor, Department of Civil Engineering, CBIT, Hyderabad. Professional ethics are principles that govern the behaviour of a person or group in a business environment. Ethical principles may differ depending on the profession; However, there are some universal ethical principles that apply across all professions, like honesty, trustworthiness, loyalty, respect for others, adherence to the law, accountability. Prof. Srinivasa Sarma explained about the importance of professional ethics in the life. It was a good interactive session and the participation in the discussion by the participants led this session as meaningful one. The lecture was ended with a vote of thanks to the Speaker by Neelima Agarwal.

The screenshot shows a Zoom meeting window. The main content is a presentation slide with the title "Universal Human Values ?". The slide lists several points:

- Types of Values (Universal, Human, Temporal)
- Universal Values (Accepted by all people at all times . Underlie all religions and Philosophies. They are eternal and include Ethical, Moral , Spiritual , Philosophical, Aesthetic and Mathematical)
- Human Values (Interface between Universal and Temporal ; Include Cultural, Political, Religious and Societal) Ex: Cooperation, Happiness , loyalty ,
- Temporal (They are Fuzzy; include Material and Economic). Ex: Accuracy, Communication, Efficiency ...)
- Universal Human Values (Human Values as applied to the day to day practical expressions of Universal Values) Ex: Honesty , Integrity, Courage , Purity , Righteousness, Self Restraint, Truthfulness, Purity, Humility, Responsibility, Simplicity , Love, Peace, Respect, Non-Violence, Trustworthiness...
- Espoused and Applied Values
- Challenges in Practicing Values (Internal and External)

On the right side of the slide, there are three small video thumbnails, each with a 'P' icon above it, indicating that the participants' video feeds are muted. The Zoom interface at the bottom shows a play button and other controls.

DEPARTMENT OF PHYSICS
One Week Online Faculty Development Programme on
UNIVERSAL HUMAN VALUES
(FDP on UHV)
20-24th July, 2021

About College: CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY, established in the Year 1979, esteemed as the Premier Engineering Institute in the States of Telangana and Andhra Pradesh, has been promoted by a Group of Visionaries with an objective to facilitate the Engineering and Management Education and contribute towards meeting the needs of Skilled and Technically conversant Engineers and Management Professionals across Industries. The Institute, committed to Education and Innovation, over the 42 Years, has emerged as a Dream Destination for; Students seeking to excel in Engineering and Management Education, Teaching Community to progress with a rewarding Career and Corporates to source well-rounded Engineers. With the Students being the singular Objective, the Institute has established excellent Academic Infrastructure such as State-of - the - Art Laboratories, Library, Sports, Hostel, and other Infrastructure for Extra and Co-Curricular Engagements, in the serene Ambience of 50 Acres to inspire, encourage and pursue Academics.

About FDP: As per the guidelines of AICTE, it is mandatory to complete Universal Human Values course by every undergraduate student of Engineering. It is also a component during the Student Induction Program for

the newly joined students. Main Purpose behind this initiative is to set a healthy daily routine, create bonding in the batch as well as between faculty and students, family and in turn society. It is of utmost importance that the faculty members/teachers are well equipped and prepared to teach UHV and The FDPs like this will help in training the faculty members.

Registration: Teachers engaging or interested to engage UHV classes in AICTE approved institutions are eligible for participation. As the programme is of more interactive nature, number of participants is limited to 50. The participants are selected on first come first serve basis. The selected participants will be intimated by 15th July, 2021. There is no registration fee. Interested participants can register using the link <https://tinyurl.com/zr4tyh4g>

Guidelines for participation: The programme is conducted on Zoom platform and the link will be sent one hour before commencement of the session to registered e-mail. Attendance to all sessions is mandatory. e-certificates will be awarded to all the participants who submit attendance/feedback form every session.

Report on Guest Lecture Conducted by chemistry Department

To

Date: 24-03-2021

The Principal,

CBIT,

Hyderabad.

Respected Sir,

Sub: Request to grant permission to conduct Guest Lecture on "Nanomaterials"-regd.

I am Dr.D.Saritha, Assistant Professor in Chemistry Department. I am currently dealing with "Engineering chemistry" course for B.Tech ECE 1st Semester. As the students will be learning the course as a part of their academic curriculum and understanding the Nano materials in the aforementioned domain which inculcates latest trends in technological development, I am planning to conduct a Guest Lecture on "Nano-Materials" on 6-02-2020 i.e., on Saturday. The session will be delivered by Dr. K Venkateswara Rao, Professor of nanotechnology, JNTUH, kukatpally, Hyderabad-85.

In this regard, I request you to grant permission for the smooth conduct of the Guest Lecture and sanction the honorarium to the resource person as per the norms of the institute.

Kindly find the attachment of the schedule as below:

Sno	Time	Topic to be Discussed
1	11.00 AM - 12:00 Noon	Introduction to Nano-Materials, Synthesis, characterization techniques and applications

Dear Professor,

On behalf of Department of Chemistry, Chaitanya Bharathi Institute of Technology, it is an honor and great privilege to invite you to deliver lecture at our Institute as part of the Guest Lecture Program on First year Chemistry Topics. We are pleased to invite you to deliver a Guest Lecture on "Nanomaterial's" scheduled on February 6, 2021 at CBIT from 11:00 a.m. to 12:00 Noon (Online mode). We believe that your contribution to this field is unparalleled and a Guest Lecture on "Nanomaterial's" topic will be of great benefit to students as well as Faculty. We are expecting an audience of approximately 600 First year engineering graduate students and faculty for this lecture.

We look forward to a positive confirmation, an honor for us indeed.

Best wishes,
Sincerely yours,

Nanotechnology

India's future lies in Nanotechnology.

Nanotechnology will be the future with nanoscience developing Nano material and devices. This lead to further convergence of technology with wide application

The Principal,

CBIT,

Hyderabad.

Respected Sir,

Sub: Request to grant permission to conduct Webinar on **"2D Nanomaterial's for Advanced Electronic Applications"**-regd.

I am Dr.D.Saritha, Assistant Professor in Chemistry Department. As the Faculty and students will understand the Nano materials in the aforementioned domain which inculcates latest trends in technological development. So, I am planning to conduct a Webinar on **"2D Nanomaterial's for Advanced Electronic Applications"** on 10-04-2021 i.e., on Saturday. The session will be delivered by Dr. Kishore Kumar Sadasivuni, Center for Advanced Materials, Managing Editor, Emergent Materials, Springer, Qatar University, Qatar.

In this regard, I request you to grant permission for the smooth conduct of the Webinar.

Kindly find the attachment of the schedule as below:

Sno	Time	Topic to be Discussed
1	10.00 AM - 11:30 AM	2D Nanomaterial's Introduction , Polymer Nano composites and their Advanced Electronic Applications

Thanking You,

Faculty Co-ordinator

Sub: Request to deliver a Lecture for Webinar on 10/4/21 at CBIT-regd

Dear Professor,

On behalf of the Department of Chemistry and Smart center of Life sciences, Chaitanya Bharathi Institute of Technology, Hyderabad it is an honor and great privilege to invite you to deliver a lecture at our Institute as part of the Webinar. We are pleased to invite you to deliver a Lecture scheduled on April 10, 2021 at CBIT from 10:00 a.m. to 11:30 a.m. (Online mode) tentatively. We believe that your contribution in the field of Advanced Materials is unparalleled and your Lecture will be of great benefit to students as well as Faculty.

We look forward to a positive confirmation, an honor for us indeed.

Best wishes

Sincerely yours,

Dr.D.Saritha (PhD from IIT Madras)

Abstract

Our Smart Nano-Solution Research team is mainly focused on the development of cost effective, high performance multi-functional materials from a broad range of polymer Nano composites for different applications. Our research team has developed non-enzymatic sensor to detect diabetes by monitoring acetone level in human breath. We are also concerned about the global warming and to overcome this issue, we capture CO₂ and convert it into fuels via electrochemical method. Our team is continuously working on the recycling of both plastic and industrial waste and developed Resistive transducers. Thus, Nano composites of both plastic and carbon black has been fabricated by our team to develop an efficient sensor which can be used for several applications. The piezoresistive sensor composed of industrial waste Nano composites was printed with the help of 3D printing technology. Taking the advantage of polymer based composites water absorbent property, we have employed hydrogels in agriculture to monitor the water needs of the plants and to allow safe release of the fertilizers. Hydrogel device can be used as a water reservoir in addition to sensors. The quantity of water in the soil can be maintained and regulated using hydrogel based sensor. Furthermore, our team will present a review on the methods used for the fabrication of current advanced sensors.

About the speaker

Dr. Kishor Kumar Sadasivuni has established an international reputation in the fields of polymer Nano composites, composite materials, design of biomedical devices especially for diabetics and heart failure. Since 2009, Dr. Kishor has been helping to build communities in the interdisciplinary area of Nano composites and its industrial technologies. Recently, Dr. Kishor has started a group called Smart Nano Solutions at Center for Advanced Materials, Qatar University. He has published over 250 papers in the international peer-reviewed journals such as Small, ACS Applied nanomaterials, Sensors and Actuators B, Journal of Physical Chemistry B, Progress in Polymer Science, etc. His research work has been cited more than 4500 times as listed by Google scholar with h-index 37. He has edited 8 books and two of them were included in Springer's Top 25 e-book download of the year. He has registered 7 invention patents and 4 of them have been filed. He has given several invited talks at international conferences. He is serving as a Managing Editor for the Emergent Materials Journal (Springer) and Editorial Board member for the Bulletin of Chemical and Pharma Research. He serves as a guest editor for Sensors & Transducers journal and as a lead guest editor for International Journal of Materials Science and Applications. Dr. Kishor achievements have been recognized by awards such as Tyre & Rubber Industry Leadership Acknowledgement Awards (TRILA): Young Research Scholar of the Year 2017. Dr. Kishor has been involved in 3 National Priorities Research Program (NPRP) Grants and 6 Qatar University Internal Grants (LPI, PI) of total amount of 2.5MS. Dr. Kishor was included in the world's top 2% Scientists list of 2019 published by Stanford University in 2020.

About CBIT(A): Chaitanya Bharathi Institute of Technology (Autonomous) has an ecosystem which caters to Research, Consultancy, Start-Ups, Incubators, Strategic Collaborative Association with Industries and Foreign Universities. The Institute is promoting the development of an Artificial Heart in Collaboration with SHARE India / Pittsburgh University and Cornell University, USA. CBIT(A) has been standing as a temple of learning for the past 42 years. UGC has granted Autonomous status from the Academic Year 2013-14 onwards. The Faculty and Students have successfully executed Sponsored Research and Consultancy Projects, from various funding Agencies such as DRDO, ISRO, DST, AICTE and UGC. MHRD - Institute Innovation Cell (IIC), MSME - Business Incubation (BI), Hexagon 3D Innovation Lab, Cognizant Innovation Lab and Robotic Process Automation Labs have been established in the Research and Entrepreneurship Department, for the Students and Faculty to pursue their Research Interests.

About MCA Department: Master of Computer Applications Programme was started in the department of CSE in the year 1991 with an intake of 30 and subsequently increased to 60 in the year 2000. The MCA department has been formed full-fledged since September 2008. The Department has well-qualified and experienced faculty with One Professor, One Associate Professor and Nine Assistant Professors. The department has good infrastructure facilities with full-fledged laboratories. The staff members are deputated to participate in International conferences, Symposia, Workshops and Refresher courses to keep in pace with recent developments in the field of Information Technology.

About Workshop: In this Two-Day National online workshop on "Python Programming", the topics to be covered are introduction to Python, various data types, conditional statements, functions, Python Libraries, Data handling and Visualization techniques. The takeaways from this workshop will add immense value to the knowledge base for each of the participants.

This workshop will be based upon hands-on approach. All Faculty, Research Scholars, Students and Industry Persons can participate.

Objectives of the Workshop:

- ◆ To gain hands-on exposure on Python
- ◆ To create awareness on Python fundamentals.
- ◆ To provide instructor-led hands-on live manipulation of Data.
- ◆ To provide hands-on experience over Data Analytics using Python.
- ◆ To acquaint the participants with Data Visualization skills.

Expected Outcomes: Upon successful completion

- The participants are expected to get a fair amount of fundamental knowledge on Python Programming.
- The participants will be able to understand data handling analysis and implementation using Python built-in Libraries.

Guidelines for Participants:

Web Links are updated on WhatsApp Group.

E-Certificate will be issued to all the Participants, after successful completion of the Online Workshop.

Participants need to mark their attendance in the google form that will be circulated during the Session.

**SUMMARY REPORT ON TWO-DAY NATIONAL ONLINE WORKSHOP ON PYTHON PROGRAMMING
DEPARTMENT OF MCA, CBIT(A) - HYDERABAD HELD ON 16th and 17th July 2021**

Workshop started on 16th July 2021 at 10:00 AM with Inaugural by Inviting various delegates. The Inaugural program continued with lightening of virtual lamp, prayer song followed by addressing of Resource person, HOD of MCA and Principal Sir. We have received a huge response from different states like Gujarat, Jammu & Kashmir, UP, Maharashtra, AP and other. Not only from India, responses also received from countries like Sweden and US. Coming to the registrations, we received totally 968 registrations.

We are feeling very happy for one more thing that Dr. J. Shantanu Krishnan, Guru of our Resource person also participated in this Workshop. We used Webex for conducting this online workshop. We took feedback for each and every session.

The In Session-I Resource person Dr. B. Nagaraju started his delivery of content with fundamental things of python and covered the concepts – variables, primitive data types, lists, Tuples, dictionaries and sets. This session was ended with functions concept.

The Session-II of day-1 was started with creation a sample data set. Sir also explained how to create our own datasets in an easy and fabulous way.

Coming to the Session-I on day-2, sir had given an elaborated way of explanation on Data handling techniques using pandas, dataframes along with Descriptive statistics. In the final Session of lecture on day-2, sir had given the way to preprocess the datasets with different scaling techniques and encoders.

In the same session sir also explained the plotting of data using different visualization methods in Python. Thank you once again sir for giving your valuable time and extraordinary content delivery on python using Hands-on approach.

About CBIT(A): Chaitanya Bharathi Institute of Technology (Autonomous) has an ecosystem which caters to Research, Consultancy, Start-Ups, Incubations, Strategic Collaborative Association with Industries and Foreign Universities. The Institute is pioneering the development of an Artificial Heart in Collaboration with SHARE India / Pittsburgh University and Cornell University, USA. CBIT(A) has been standing as a temple of learning for the past 43 years. UGC has granted Autonomous status from the Academic Year 2013-14 onwards. The Faculty and Students have successfully executed Sponsored Research and Consultancy Projects, from various funding Agencies such as DRDO, ISRO, DST, AICTE and UGC. MHRD - Institute Innovation Cell (IIC), MSME - Business Incubation (BI), Hexagon 3D Innovation Lab, Cognizant Innovation Lab and Robotic Process Automation Lab have been established in the Research and Entrepreneurship Department, for the Students and Faculty to pursue their Research Interests.

About MCA Department: Master of Computer Applications Programme was started in the department of CSE in the year 1991 with an intake of 30 and subsequently increased to 60 in the year 2000. The MCA department has been formed full-fledged since September 2008. The Department has well qualified and experienced faculty with One Professor and Nine Assistant Professors. The department has good infrastructure facilities with full fledged laboratories. The staff members are deputed to participate in International Conferences, Symposia, Workshops and Refresher courses to keep in pace with recent developments in the field of Information Technology.

About Workshop:

The salient features of the workshop are as follows:

1. Foot printing And Reconnaissance.
2. Advanced Penetration Testing.
3. Web application penetration testing.
4. Developing Ethical Hacking tools with python.

Objectives of the Workshop:

The participants shall be able to understand, deal and achieve the following objectives:

- Introduction to Ethical Hacking.
- Scanning.
- System Hacking.
- Sniffing.
- Hacking Web servers.
- Hacking wireless Networks.

Expected Outcomes:

Upon successful completion-

- The participants are expected to get a fair amount of fundamental knowledge on Cyber Security
- The participants will be able to understand data handling, analysis and implementation of Information Security and hacking fundamentals.

Guidelines for Participants:

- Certificate will be issued to all the Participants, after successful completion of the Online Workshop.
- Participants need to mark their attendance in the google form that will be circulated during the Session.

All Students, Research Scholars, Faculty and Industry Persons can participate.

NO REGISTRATION FEE

TECHWIZZ-2021**

Saturday, 10 July 2021 : 10 AM-12 NOON

About the Techwizz-2021:

The objective of the event is to identify the student's talent in the field of computer applications. Here we are providing opportunities for the students to express their talent in the field of computer programming languages and reasoning. In this programme, a Technical Quiz will be organized using well known programming languages – Python, 'C', C++, Java and reasoning. This Quiz consists of 60 questions out of which 12 from Python, 12 from 'C', 12 from C++, 12 from Java and the remaining 12 from reasoning. All of the questions are multiple choice type. Duration to attempt the Quiz test is 90 minutes. It is an online test, using Google form. The link will be provided to all the participants, who are registered for the programme. Link will be active for only 90 minutes. All the students who are scoring above 60 percent will be awarded with a participation certificate.

Note :-

1. No registration fee.
2. Limited registrations on first cum first serve basis.
3. Merit Certificates for top 10 students.

6. Which of the following is an invalid if-else statement?

Mark only one oval.

- if (if (a == 1)){}.
- if (a){}
- if ((char) a){}
- if (func1 (a)){}.

7. Which of the following functions from "stdio.h" can be used in place of printf()?

Mark only one oval.

- fputs() with FILE stream as stdout.
- fprintf() with FILE stream as stdout.
- In "stdio.h", there's no other equivalent function of printf().
- fwrite() with FILE stream as stdout.

8. If you want to exchange two rows in a two-dimensional array, the fastest way is to:

Mark only one oval.

- Exchange the elements of the 2 rows
- Exchange the address of each element in the two-row
- Silence the address of the rows in an array of the pointer and exchange the pointer
- None of these.

9. Choose a correct statement about C file operation program. ?

```
int main()
{
    FILE *fp;
    char ch;
    fp=fopen("readme.txt","r");
    while((ch=fgetc(fp)) != EOF)
    {
        printf("%c",ch);
    }
}
```

Mark only one oval.

- fopen opens a file named readme.txt in Read Mode ('r').
- EOF is End Of File. ch==EOF checks for end of file and while loop stops or exits.
- fgetc(fp) is a function that returns one character and cursor goes to next character.
- All the above

10. What is output of below program?

```
int main()
{
    int i,j,count;
    count=0;
    for(i=0; i<5; i++){
        {
            for(j=0; j<5; j++){
                {
                    count++;
                }

int main()
{
    char *s;
    char *fun();
    s = fun();
    printf("%s\n", s);
    return 0;
}

char *fun()
{
    char buffer[30];
    strcpy(buffer, "RAM");
    return (buffer);
}
```

Mark only one oval.

- 0xffff
- Garbage Value
- 0xffee
- Error

13. What will be the output of the C program?

```
#include<stdio,h>
int main()|
char arr[15] = "pointer array";
int *ptr;
ptr = arr;
printf("%c",ptr[1]);
return 0;
}
```

Mark only one oval.

- Garbage value
- o
- t
- compile time error

17. What is the output of the following C++ program?

```
#include<iostream>

Using namespace std;
main(){
char s[]="Fine";
    *s='N';

    cout<<s<<endl;
}
```

Mark only one oval.

- Fine
- Runtime error
- Compile time error
- Nine

18. Which one is suitable syntax for function template?

Mark only one oval.

- template< class T> return_type Function_Name(parameters)
- template<T class> return_type Function_Name(parameters)
- template<T typename > return_type Function_Name(parameters)
- None

19. What will be the output of the following C++ code?

```
#include <iostream>
Using namespace std;
class A{
public:
    A(){
        cout<<"Constructor called\n";
    }
    ~A(){

};
int main(int argc, char const* argv[])
{
    A *a =new A[5];
    delete a;
    return 0;
}
```

Mark only one oval.

- "Constructor called" five times and then "Destructor called" five times
- "Constructor called" five times and then "Destructor called" once
- Segmentation fault
- Error

20. Which of the following feature of OOP's is not used in the following C++ code?

```
class A
{
    int i;
public:
    void print(){ cout<<"hello"<<i;}
}
```

```
class B:public A
{
    int j;
public:
    void assign(int a){j = a;}
}
```

Mark only one oval.

- Polymorphism
- Encapsulation
- Inheritance
- Abstraction

21. In C++, for what purpose the "rank()" is used?

Mark only one oval.

- It returns the maximum number of elements that can be stored in the array
- It returns the size of each dimension
- It returns the dimension of the specified array
- None of the above

22. What will be the output of the following C++ code?

```
#include <iostream>
#include <string>
using namespace std;
int main()
{
    cout<<is_array<int>::value; // case A
    cout<<is_array<char[10]>::value; // case B
    cout<<is_array<string>::value; // case c
    return 0;
}
```

Mark only one oval.

- a. 110
- b. 001
- c. 010
- None

23. What is the output of the following program?

```
#include<iostream>
.
Using namespace std;
Class Base{
public:
void f(){
    cout<<"Base\n";
}
};
Class Derived: public Base{
public:

    cout<<"Derived\n";
};
};
main(){
Derived obj;
obj.Base::f();
}
```

Mark only one oval.

- Base
- Derived
- Compile error
- None of the above

24. Which of the statements is true in a protected derivation of a derived class from a base class?

Mark only one oval.

- Protected derivation does not affect private and protected members of the derived class
- Protected members of the base class become public members of the derived class
- Private members of the base class become protected members of the derived class
- Public members of the base class become protected members of the derived class

25. What will be the order of execution of base class constructors in the following method of inheritance? class A: public B, virtual public C {...};

Mark only one oval.

- B(); C(); A();
- B(); A(); C();
- C(); B(); A();
- A(); B(); C();

26. In case of inheritance where both base and derived class are having constructors, when an object of derived class is created then

Mark only one oval.

- constructor of derived class will be invoked first
- constructor of base class will be executed first followed by derived class
- constructor of base class will be invoked first
- constructor of derived class will be executed first followed by base class

27. Which one of the following statements are true about Catch handler?

Mark only one oval.

- It can have multiple parameters
- Generic catch handler can be placed anywhere after try block
- There can be multiple catch handler for a try block
- None

28. Which of the followings are true about constructors

Mark only one oval.

- Constructors return values
- A class can have more than one constructor
- They can be inherited.
- All of the above

29. What is the output of the following statements?

```
di=[{'name':'Python','points':10},{'name':'Java','points':18}]  
print(list(map(lambda x : x['points']*25,d1)))
```

Mark only one oval.

- [250,200]
- 250,200
- (250,200)
- None of the above

Andi

30. What is the output of the following statements?

```
d=dict.fromkeys('CBIT')  
print(d)
```

Mark only one oval.

INTERNATIONAL CONFERENCE ON BIOTECHNOLOGY AND INTERDISCIPLINARY TECHNOLOGIES (iCBIT-2021)

November 8th 2021 - November 12th 2021

icbit21.cbit.org.in

ABOUT THE INSTITUTION

CBIT is one of the premier Engineering Institutes in India located in Telangana State, which is in a highly surrounding of Gandhi Lake, Hyderabad. The college offers UG and Post Graduate Programs. CBIT students are prepared and oriented to secure Placements in reputed MNCs. The institute has been accredited by NAAC - UGC with 'A' Grade and various programs are accredited by NBA - AICTE. The UGC has granted Autonomous Status from the Academic Year 2013-14 onwards. To meet Academic Standards, Industry Compliant Teaching Methodology, Research Projects from Private and Public Sector organizations, industries in Engineering and Management and Consultancy Practice, enabled the institute to position as leaders in the Technical Education and is Ranked No. 1 amongst the Private Engineering Colleges in both the Telugu speaking States.

ABOUT THE DEPARTMENT

The department was established in the year 2005 with an intake of 40 in UG of Tech. Biotechnology Program. The department has good infrastructural facilities and has 5 full-fledged laboratories and R&D equipped with modern equipment. The department also has well qualified faculty and technical staff. The department has full fledged assistance and technological feedback for strengthening the areas of R & D from Osmania University (OU), Chaitanya Bharathi Institute of Technology (CBIT), OMR, APJKTU, NITB etc. The department has MoUs with national and international academic organizations, research institutions viz. Central University, CSIR-CT, Hyderabad, Green biotech & ph works Pvt Ltd and SVAK- Bi sciences.

ABOUT THE CONFERENCE

The "CBIT International Conference on Biotechnology and Interdisciplinary Technologies 2021" comes up with a leading associative platform for researchers, practitioners and educators to present and discuss the most recent innovations, trends, and concerns, as well as practical applications, challenges and solutions accepted in the field of Biotechnology. The main aim of the conference is to bring cooperatively leading academic scientists, researchers and research scholars to exchange and share their research experiences and practices in all aspects of Biotechnology and Interdisciplinary Technologies. CBIT 2021 includes keynote sessions led by eminent scientists, oral presentations of sub disciplines, poster presentations, vision workshops and events for school students. It is the eventual virtual meeting place for all the experts worldwide for new associated scientific collaborations and networking. With its content sessions, you are provided opportunities to probe the present day technologies and developments that are applied to your research area. As usual the Conference has a wide extent of topics and pursued in a guided sessions related to the specific area of research.

Scientific sessions/Track:

iCBIT 2021 is comprised of various tracks and sessions designed for oral/poster presentations to offer content rich sessions that address current issues in the field of Biotechnology. Each session starts with a stated talk by eminent scientists/academics/professors, sessions followed by oral/poster presentations by the participants. Abstracts of the keynote, invited lectures and contributory presentation (poster) would be published in Conference Proceedings with ISSN number. High quality original research work might be considered for publication in international journal (Scopus indexed & peer reviewed). More acceptable of the abstract in the conference would not qualify the abstract for publication in the special issue of journals.

EVENTS

- Technical sessions, poster and poster presentations

Papers and posters presented in CBIT 2021 may be submitted to the above journals (based on journal's scope). Each registered delegate can submit only one paper to the selected journal. Please visit the website of appropriate journals (links given below) for instruction on to submit and the guidelines for submission.

REGISTRATION DETAILS

For Indian participants

• Industry personnel	150 INR
• Faculty / Research scholars	500 INR
• Students	250 INR
• Delegates (Participation only)	200 INR

4th year -45
3rd year -56
2nd year -59

total 160

For International participants

• Faculty / Research scholars	300 USD
• Students	150 USD
• Delegates	100 USD

If more than 5 registrations from an Institute then a group discount of 10% per person will be given

Any publication charges by the journals have to borne by the participants at an extra cost other than registration fee, if applicable
Hard copies of certificates will be issued to all participants

Best oral and poster awards will be given for all technical sessions

CIRCULAR

It is proposed to organize an Alumni Talk No. 01/2021 on "Precision Medicine and its Applications" to the III, V and VII Semester Students of B.Tech (Biotechnology) on 10.12.2021 from 02.30 PM to 03.30 PM through online mode as part of the CBIT Alumni Theme for 2021, The Knowledge Partners. Dr. Prerana Bhan, Senior Manager, Product Development Division, R & D Dept., ACT Genomics Co. Ltd., an Alumnus of CBIT, 2011 batch of Biotechnology, will deliver the talk. All the above said students are directed to attend the same and the attendance will be taken by the concerned Class Teachers. I/c Head, Department of Bio-Technology, is advised to instruct the concerned Faculty to take attendance of the respective students during the Session. Other interested Students and Faculty of other departments may also attend.

PRINCIPAL

To

All Heads of the Departments / Sections, for information and with a request to arrange for circulation among all the faculty members and students under their control.

CC: All Directors, COE, HR & PRO for information.

Name of the Knowledge Partners	Dr Prerana Bhan (2011 batch of Bio-Technology)
Designation	Senior Manager, product Development Division, R&D Department, ACT Genomics Co.Ltd
Topic of presentation	Precision Medicine and its applications

Overview of Session
 Mr Caleb Joel from final year Biotechnology introduced Dr Prerana Bhan, Senior Manager, product Development Division, R&D Department, ACT Genomics Co.Ltd.
 The lecture session was started with introduction to "Diseases and diagnosis". The symptom driven diagnosis of diseases as a whole earlier, but now the environment lifestyle and individual defense againsta disease and unique genetic profile are taken into account now cancer moonshot project by Barack Obama after human genome project and cancer genome Atlas that started back in 1995 - all these to develop pharmacogenomics concepts paradigm shift from chemotherapy to targeted therapy and then to immunotherapy giving an example of cancer. One of the major factors that affect drug response of an individual is genetic variation the 3 genetic alterations like point mutations, copy number alterations (gain or loss) and chromosomal rearrangement 2 types of variants - germline and somatic driver genes, driver mutations and cancer hallmarks harbouring a genetic variation could help prevent or even cure certain cancers breast cancer - HER2 amplification - therapy is herceptin; lung cancer - EGFR gene mutation - Tarceva and Iressa targeted therapies are under study. US, UK, Asia have patients battling cancer. They are trying to collect genomic data from their population and healthy tissues. Genome sequencing is carried out to obtain health DNA sequence to be compared with that of abnormal (cancerous) cells. Polymorphism is different among populations. advances in precision medicine in Taiwan and India and other initiatives around the world existing conventional molecular diagnostics, techniques like RT-PCR, Sangers DNA sequencing (focusing on specific small portions of the genome) and hence costly. Scientists are therefore planning to come up with something less expensive, more efficient with high throughput advancements. need exists because many tests are to be run and many healthcare professionals are in need for high throughput sequencing technology to reduce cost and time and focus on large portions of DNA). Companion diagnostics, a field of pharmacogenomics. The major goal of genetic testing is to not only diagnose a diseases but to also have an prognosis factor. In Next generation sequencing (NGS), illumina is the widespread machinery used as sequencing technology, how NGS improved detection sensitivity, clinical applications of NGS in precision cancer medicine, cancer prevention > early detection > treatment selection > disease monitoring, how can AI help in developing precision medicine
 Erica Tsai - done collaboration projecta and produced a number of papers - joined genetic

testing company and started studying precision medicine. they work together on in vitro diagnostics, inspired us to dream big and learn more by sharing her experience

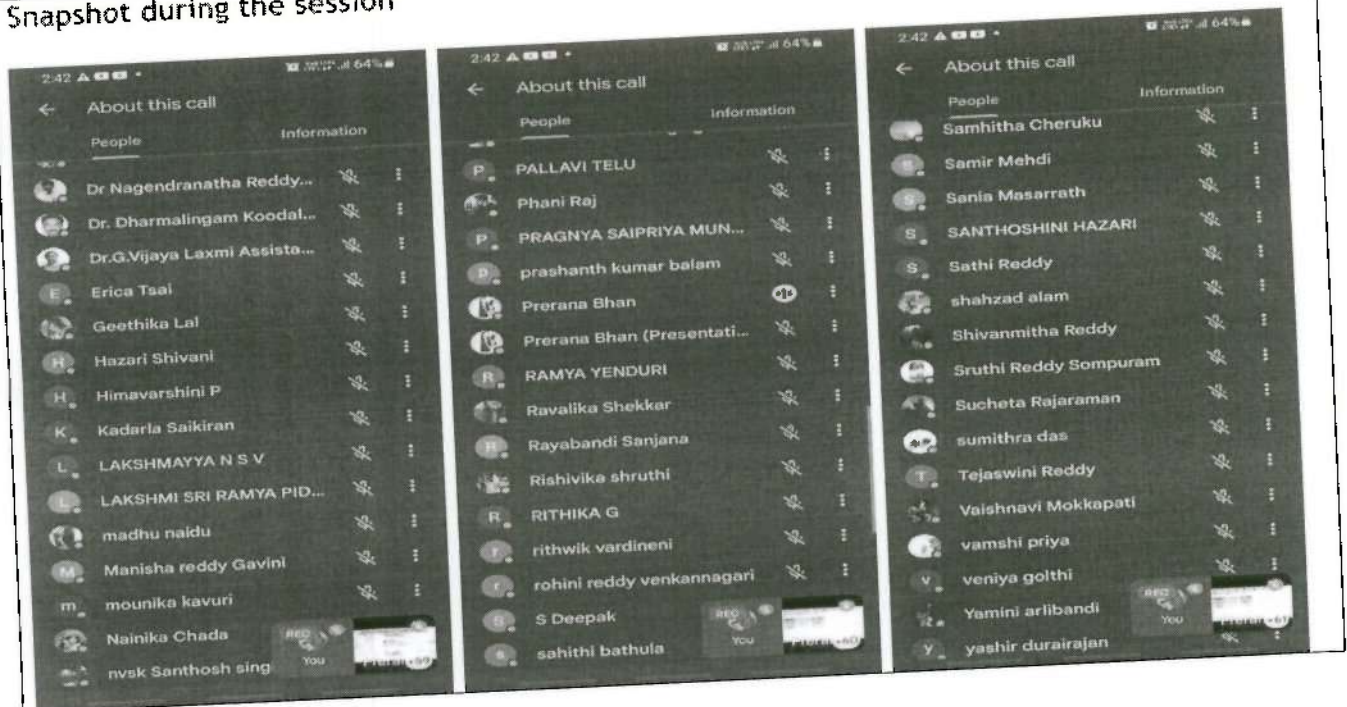

There was Q/A session for both students and faculties after the talk.
Vote of thanks by Ms. Mounika from 3rd year Biotechnology

Target Participants: All the students of B.Tech Biotechnology (70 participants) and Faculties of Biotechnology department have attended the session.

Outcome of the Session

- A thorough knowledge about the precision medicine was learned

Name of the Knowledge Partners	Mr Madhava Tirukovela (2018 batch of Bio-Technology)
Designation	Regulatory Affairs Graduate student at Northeastern University, President and Co-founder of the Regulatory Affairs student organization at Northeastern University, Toronto
Topic of presentation	Biotechnology and the rise of the 4th industrial revolution

Overview of Session

Mr Abhishek from final year Biotechnology introduced Mr Madhava Tirukovela, Regulatory Affairs Graduate student at Northeastern University, President and Co-founder of the Regulatory Affairs student organization at Northeastern University, Toronto.

The lecture session was started with introduction to "Biotechnology and the rise of 4th Industrial Revolution". The classification of various industrial revolutions and the significance of 4th Industrial revolution viz., cyber physical systems, internet of things, and networks, etc. was stated. The information about the fourth industrial revolution is given and insights about how the basic subjects that we study in our undergraduate will help in the fourth industrial revolution. The 4th Industrial revolution gave insights about the fusion of various technologies viz., gene sequencing, nanotechnology, renewables, quantum computing etc., and their interaction across the physical, digital and biological domains. The role of bio remediation, bio security, bio innovation in accelerating bio manufacturing revolution. The information about GINKGO bio works is shared and also about their genetically modified microorganisms. Also talked about current opportunities in India in biotechnology. Talked about BIRAC and other related institutions.

Mr Madhav also shared the information about the NURA-Toronto Student Organization, its vision, mission and challenges faced. Building a proactive regulatory affairs community, organize brainstorming sessions and bringing innovation in regulatory science were accomplished by the association they formed and they are working towards achieving their goals. The information about regulatory affairs and challenges in it is shared.

There was Q/A session for both students and faculties after the talk. Discussion about regulatory affairs, its scope and significance, variation in different countries etc. were done along with a brief idea about the North Eastern University and career related issues were explained
Vote of thanks by Mr Abhishek from 3rd year Biotechnology

Target Participants: All the students of B.Tech Biotechnology (100 participants) and Faculties of Biotechnology department have attended the session.

Outcome of the Session

- A thorough knowledge about the Regulatory issues was learned

A BRIEF REPORT

On
Key-note address - NEOZION'2022
 Date: 23.03.2022, Time: 11.30-12.45 PM,
 Venue: Biotechnology Seminar Hall

Name of the Knowledge Partners	Dr. PRASAD ERNALA
Designation	Sr. Scientist / Technology specialist, Fermentation Technology Development Center, Dr. Reddys Laboratories-Hyderabad
Topic of presentation	Ignition of Young Minds with Innovative Ideas in Fermentation Technology Research

Overview of Session

Dr. Prasad had delivered his talk explaining the following topic with respect to latest technology and innovation in the field of biotechnology.

- *What is fermentation- Redefine*
- *Ideas and advancements in Fermentation technology*
- *Evolution and need for nano-biotechnology*
- *Bioscience v/s Bio-Business*

Dr. Prasad had started his interactive talk in the topic of fermentation definition, fermentative products, and Strategies for Production of Active Pharmaceutical ingredients (APIs). He had thrown light in the topic of bioengineering and its applications (pathways optimization, strain optimization, and process optimization). Various cutting edge technologies helping fermentation industry was also elaborated briefly. Followed by this, he discussed about application of microbiology in nano-biotechnology. Finally, various aspects of cancer, nano-medicines, concept of targeted drug delivery was discussed.

Target Participants:

All the students of B. Tech Biotechnology and Faculties of Biotechnology department were attended the session.

Outcome of the Session

- *Students could understand the real definition of fermentation and latest innovation in the field*
- *Students had exposed the real-time Ideas and advancements in Fermentation technology*

ADVANTAGE INDIA

Cost Efficiency

- Low cost of production and R&D boosts efficiency of Indian pharma companies leading to competitive exports
- Indian drugs and pharma exports reached US\$ 5.78 billion between April 2021 and June 2021

Economic Drivers

- High economic growth along with increasing penetration of health insurance to push expenditure on healthcare and medicine in India.

Policy Support

- In June 2021, Finance Minister Ms. Nirmala Sitharaman announced an additional outlay of Rs 197,000 crore (US\$ 26,578.3 million) that will be utilised over five years for the pharmaceutical PLI scheme in 13 key sectors such as active pharmaceutical ingredients, drug intermediates, and key starting materials.

Increasing Investments

- The foreign direct investment (FDI) inflows in the Indian drugs and pharmaceuticals sector reached US\$130 million between April 2021 and June 2021.

Summary

- Updated curriculam for biosciences.
 - Syllabus having topics related to commertialisation of scientific ideas.
 - New cources in fusion with business and administration.
- For students
 - 1st year: generate an idea
 - 2nd year to 3rd year work of feasibility.
 - 4th year prepare a prototype

To,

Principal/ Director,

Respected Sir/Madam,

Sub: Invitation to National Level Technical Symposium: Neozion 2022-Reg.

Greetings from the Department of Biotechnology, CBIT, Hyderabad, Telangana.

It gives us immense pleasure to inform you that the Department of Biotechnology, Chaitanya Bharathi Institute of Technology, Gandipet, Hyderabad is organizing a **Two-day National Level Technical Symposium, NEOZION2022 on 23rd and 24th March 2022**. The Department of Biotechnology has been organizing this annual technical fest since 2008 annually. The theme of this year technical fest is "**Ignite, Innate and Innovate**". Eminent personalities have been a part of these events.

The main aim of this Annual Technical National Symposium is to provide a platform to participants to learn about the latest advances in Biotechnology besides interacting with eminent scientists.

The Symposium covers the following events:

Expert lecture	Paper Presentation
Idea/Poster Presentation	Live Projects
Bio Quiz	Bio-hackathon
Debate	

Neozion 2022 will be organized in physical mode only.

Papers, Posters, and live projects are invited on topics, but not limited to: Plant and Animal Biotechnology, Stem cell technology, Environmental Biotechnology, Nano-biotechnology, Bioinformatics, Biomedical Engineering, Pharmaceutical sciences, Bio-process Technology, Algal biotechnology and Chemical engineering.

The best presentation as adjudged by the jury will receive attractive prizes.

Eligible Participants:

Research scholars, M. Tech/M. Sc/B. Sc/B. Tech (Biotechnology/Chemical /Life Sciences), B. Pharm/ M. Pharm.

I hereby enclose the brochure along with a copy of the poster, with a kind request to display the same in your departmental notice board for the information to students.

Thanking you in anticipation,

ABOUT THE DEPARTMENT

The department was established in the year 2005 with an intake of 60 in UG (B.Tech). Biotechnology program the department has good infrastructural facilities and has 8 full-fledged laboratories and R&D equipped with modern equipment. The department also has well qualified faculty and technical staff. The department encourages students to pursue internships in reputed organizations. More than 80% of the students have been successfully engaged in higher studies and jobs. The department has full pledged assistance and technological feedback for strengthening the areas of R & D from Osmania University, Hyderabad, IICU, ICRISAT, DRR,MPAU,NIAB etc. The department has MoUs with national and international academics organization, research institutes viz Curtin University, CSIR-DCT, Hyderabad, Green bubble algal works Pvt. Ltd. and SVAK

Poster Presentation Specifications

NEOZION-2022

General specifications

- The poster will be displayed on standard Portrait Format
- Poster should be 90 cm (Length) X 60 cm (Width) (Conference or Event poster) in size.

Design specifications

- The poster needs to be created as per suggestion under
 1. The poster title should be displayed prominently at the top of the poster.
 2. The text should include (most likely as separate elements of the poster) Introduction, Aim, Methods, Results, Conclusion and Acknowledgements
- The poster should be self-explanatory, Text should be brief and well organized
- The typeface chosen should be a simple and clear one (Times Roman)
- Color suggestions:
 1. When using light backgrounds (white, yellow, light blue) we suggest using dark fonts (black, navy blue, dark green)
 2. When using dark backgrounds (blue, purple) we suggest using light fonts (white, yellow, cyan)
 3. Avoid using red or green in any fonts or backgrounds as they are colors that are difficult to read
- Illustrations/images/photographs used in the poster should be enlarged enough to show relevant details

Sub: Permission to organize an online guest lecture on 05.04.2022

Respected Sir,

I would like to inform you that we the Faculty of Department of Biotechnology are interested to organize an online guest lecture entitled "Recent Trends in Bioprocess Technology" on 05.04.2022 from 10.00 am to 11.00 am for the academic year 2021-2022. In this regard, we kindly request you to grant permission to conduct this event for B.Tech. (Biotech) IV, VI and VIII semester students and to sanction the honorarium amount (Rs. 3000) to be handed over to the speaker Prof. S. Senthilkumar, Department of Biosciences and Bioengineering, Indian Institute of Technology, Guwahati.

Thanking you.

Yours Sincerely,

CIRCULAR

We would like to inform you that **30M Genomics Pvt. Ltd.** will be conducting a two-day Hands-On Workshop on “**Advanced Genomics for Molecular Diagnostic Applications**” for III/IV B.Tech. Biotech students on **11.05.2022 and 12.05.2022** at the Department of Biotechnology, CBIT. In this regard, 36 students have registered to attend this training program as it will help them to get placed in core companies thereby strengthening the placements of the Biotechnology Department, CBIT.

It is mandatory for all these 36 students to attend this training program without fail. Their classes in this period can be conducted online during weekends. Classwork for the remaining students will be conducted as per the timetable. Kindly make a note of the same.

Two days Hands-on Workshop On “Advanced Genomics for molecular diagnostic applications”

PREVIEW OF THE WORKSHOP:

Molecular diagnostics is a highly developing area in Biotechnology, which is potentially implemented in Healthcare, Agriculture and Veterinary Sciences. However, molecular diagnostics requires high technical and theoretical knowledge with hands-on expertise. Understanding the concept and applications of molecular diagnostics will help the students to pursue their research career or make them qualified for working in diagnostic industry. With this vision, we are offering hands-on training programme at an affordable fee for the students to make them future leaders.

WHY YOU CAN TRUST US?

With the vision of providing molecular diagnostics to everyone in need, we are providing exclusively hands-on, on-site workshops. Our workshop has the following advantages:

- Complete hands-on experience
- Less training fee
- On-site event with field experience
- Research/Industry jobs oriented approach
- Student feedback based training
- Compliments to well performing students

WHAT EXPERTISE WE HAVE?

30M Genomics Private Limited is a Startup India (DPHT – DIPP42596) recognized company incorporated with Ministry of Corporate Affairs, Government of India (U85300AP2019PTC112451). We are young research entrepreneurs working with a vision of providing personalized diagnostics to all people-in-need, irrespective of their socioeconomic status and geographical location. We, the founders of the company has expertise in the field of molecular diagnostics from reputed institutions like JIPMER, Puducherry, CSIR-CCMB, Hyderabad, C-CAMP, Bangalore. We have organized several workshops and

conferences in institutions like JIPMER - Puducherry, CIDRF - Puducherry, Government Degree College - Srikakulam, Andhra Pradesh, before starting our own startup venture.

PROGRAMME MODULES:

Day - 1

Time	Module	Expected Outcome
9.00 – 10.00	Introduction to Molecular Diagnostics	A lecture on recent advancements in molecular diagnostics and its importance. The related job opportunities in healthcare and agriculture will be discussed.
10.00 – 10.20	Q & A Session - Tea Break	
10.20 – 11.20	Buffer Preparation for DNA isolation	Students will practically learn the concepts such as normality, molarity, etc., involved in preparation of chemicals & buffers. The buffers for the workshop will be prepared by the students themselves. This would be helpful to students interested in research and industrial jobs.
11.20 – 12.30	Peripheral venous blood sample collection	The art of collecting blood sample from peripheral veins will be taught. This is an important skill for students interested in human & animal biotechnology. The students can collect their own blood for DNA isolation (if interested)
12.30 – 1.30	LUNCH BREAK	
1.30 – 4.00	Genomic DNA isolation from human blood	DNA isolation from human blood will be carried out by non-enzymatic method. In addition, DNA isolation from other sources like plants and microbes will be discussed.

Day - 2

Time	Module	Expected Outcome
09.00 – 09.30	Q & A Session on Day – 1 training	
09.30 – 10.30	Primer Designing and Basic Bioinformatics	An introduction to the bioinformatic designing of primers which would be used in PCR amplification. The students will be learning the parameters and the concepts involved in designing primers with high accuracy.

 HEAD
 Dept. of Bio-Technology
 Chaitanya Bharathi Institute of Technology
 Gandipet, Hyderabad-500 075.

10.30 – 10.40	Q & A Session – TEA BREAK	
10.40 – 12.30	Polymerase Chain Reaction	The concept of nucleic acid amplification will be elaborated practically. This skill will be helpful for the students in their research, as PCR is a potential technology that revolutionizes molecular diagnostics.
12.30 – 1.30	LUNCH BREAK	
1.30 – 03.30	Agarose Gel Electrophoresis	The visualization of the amplified PCR product will be carried out using agarose gel electrophoresis.
03.30 – 04.30	Q & A Session - Competition - Valedictory	

TRAINING FEE & INCLUSIONS:

The training fee for the whole two day sessions is **Rs. 1,500/-** per student. The minimum number of participants should be 30. In order to provide significant hands-on experience, the maximum number of participants is limited to 50. The training fee includes all consumables required for the workshop, training certificate, laboratory manual and reading materials. (Refreshments & lunch is not included)

STUDENT COMPETITION:

Few critical thinking questions will be asked during the Q&A sessions in the course of workshop. The highly performing student will be complimented with free career guidance and free internship at 30M Genomics Private Limited.

REQUIREMENTS FROM THE HOST INSTITUTE:

The host institute is expected to provide the following requirements for smooth and effective training:

- Uninterrupted power supply
- LCD projector with screen (only for one hour)
- Laboratory space for 20-30 students
- Weighing balance
- pH meter
- Centrifuge
- Hot plate
- Gel Electrophoresis Unit
- UV transilluminator

Kindly note that the unavailability of any of the above requirement should be informed prior, so that it can be arranged from our side, with additional cost.
