I. SCOPE AND OBJECTIVES OF THE COMMITTEE :

Chairman of the Committee explained that the committee should look in to the disciplinary aspects of students , both within and outside the campus as far as the institute's name and

reputation are involved. He said that existing norms of the institute must be followed strictly and invited inputs from the members , keeping in view the present context.

II. REVIEW OF THE CODE OF CONDUCT FOR STUDENTS:

Convener of the committee has presented the details of various aspects of Code of Conduct for CBIT students . It is resolved to keep a copy of the same in the CBIT website with immediate effect and also to send soft copy to every student . Further, it is resolved to collect the undertaking duly signed by the student and parent saying that they are aware of the code and the possible punishments in case of any deviation .

III. ISSUES OF INDISCIPLINE THAT MAY CROP UP IN THE PRESENT CONTEXT:

Keeping in view the present online education system , many members expressed that the biggest problem is to know where they are actually located during the class. They may be even outside and attending classes through mobile phones. Parents also may not be knowing the details. This may lead to the possibility of students being outside and involving in unwanted situations at times.

Members opined that the parents must be immediately informed in all such involvements of students deviating the discipline. Reference must be there in the code of conduct considering the present context and the same must be intimated to students. One of the members suggested that mentors must go closer to the students and the parents should also feel them as family members.

IV. ANY OTHER ITEM :

1. Convener of the committee requested the chairman to permit the segregation of cases of indiscipline such as academic, exams related , plagiarism related, general issues etc., This he said will be refereed to only concerned groups from the disciplinary committee instead of involving the entire committee. Chairman of the committee as approved this in principle.
2. One of the members suggested that records of the cases of indiscipline happening every year must be maintained and should be used to assess and formulate a basis for further policies and actions.
3. Director – SA& P must take the help of AEC and All HoDs in making the Code of conduct reach all students and in collecting the undertaking formats duly signed by the students and their respective parents.
4. Keeping in view the present online system , Cyber specialists must be included in the committee to look in to the issues and resolve them. Chairman permitted to take the help of Dr.M.Swamydas, JD-Academics in this regard.
5. One of the members explained her experience of unknown students creating problem in her online class and requested for a fool proof system to permit only identified students to online classes.

The meeting concluded with the convener thanking the Chairman and all the members present.

Report on the Student Induction Program 2020-21

Chaitanya Bharathi Institute of Technology successfully organized the Student Induction Program as per the norms of AICTE to provide an orientation to the first-year engineering students who joined the institute for their four years BE/B. Tech program. The one-week Orientation Program followed by Student Induction Program was conducted from 25.11.2020 to 04.12.2020 in online mode, following all the safety measures as mandated by AICTE and the state government.

The Inauguration of the Student Induction Program was held virtually on 25 November 2020 from 10:00 AM onwards for all first-year CBIT students. It was also live-streamed on YouTube (<https://youtu.be/B9iiB5-11CY?list=PLJYDfw1IduhsIElQH-aXTstxo2jnGydIT>). Dr. G. P. Saradhi Varma, Principal, CBIT gave the Welcome Address. He welcomed all the freshers and explained the vision and mission of the institute and the institute's emphasis on advanced research to generate knowledge, providing a plethora of opportunities and directing it into a transformation of society. He motivated the students, being future engineers should work with a vision to serve society. He added examples like Infosys, have started as a small start-up, and with enough commitment has risen to a successful MNC. He stressed the importance of the idea of incubating and entrepreneurship is needed and CBIT would enable and support the students to learn them along with their curriculum.

Guest of Honour, Dr. Gourav Mahindra, M.D., Tech Hub Head, JP Morgan Chase & Co., Hyderabad, introduced the necessary skill sets required to progress in industry and firms.

He shared that Research and innovative skills are much to be equipped with where a student needs to know what they need to do, how to create an idea, and plan how that idea works as the company they may work for in the future will rely on them individually and completely in solving a given/existing problem. He stressed the importance of Core skills like 'Time Management' saying that the students need to understand the deadlines given by the teachers and plan properly to meet the deadlines, and also on Soft skills, which have to be focused on as they might have to get into an MNC which expects to hear and understand their idea; He stressed the importance of hearing different types of technical conversations, observe different types of communications, read and practice technical writings. He also highlighted the need for Team Management skills and Career Planning.

Chief Guest, Mr. Kulkarni Raghavendra, director, cognizant Infra Services, Hyderabad spoke on different technologies which the coming generation needs to work on and adapt with sincerity and implementation with agility. He said that the industry is focusing more on how to prevent a problem rather than fixing a problem. He introduced to the freshers, the latest technologies like IOT, AIML, Cloud environment - Azure, Microsoft, and Google, and Development skills in demand in the industry like Database engineering and analytics, App development at the level of market requirement standpoint.

Address by Chief Guest, Mr. Kulkarni Raghavendra

He motivated the students to practice sustainability in learning by getting trained in a skill set that would be useful in the long run rather than which are currently in demand, as IT is a volatile industry. Answering to question raised by the student, he illustrated how AIML is implemented in India by taking an example of how policing in Telangana state is being trained to use AIML.

Few final Year students and alumni also talked about their enriching experiences at CBIT. The Directors and Joint Directors were introduced and addressed the virtual gathering. Director IQAC, Dr. N. Faculty Development Programme on UNIVERSAL HUMAN VALUES & ETHICS

15-19th July, 2019

REPORT

A one-week faculty development program on “**UNIVERSAL HUMAN VALUES & ETHICS**” organized by the Department of Physics, Chaitanya Bharati Institute of Technology, Gandipet, Hyderabad from July 15 – 19th, 2019, flagged off with a grand Inaugural session on 15th July, 2019. The Principal of the Institute Dr. P. Ravinder Reddy graced the occasion and followed by the traditional lighting of the lamp, delivered a motivating speech, highlighting the need & benefits of Faculty Development Programs for the Faculty and recalled how the management and the various departments make efforts in motivating the faculty to enhance in their career with the skills attained while being trained in the FDPs. He articulated the importance of Universal Human values to be invoked in our daily and professional lives, and the need to train the students too. He appreciated and encouraged the Head of the Department and Faculty of Department of Physics, to conduct many more such sessions. After that convener outlined how the FDP is planned and efforts put into it. He also outlined the number and the different places from which the participants registered and participated. A Keynote Address was delivered by the Keynote Speaker, Prof. Sreenivas Sarma, who elaborated on the importance of Universal Human Values in society and how teaching acts as a bridge. He stressed the role of faculty in building values and an ethics-based society globally. Prof. K. Krishnaveni delivered a session on “The role of UHV in technical education”, where she gave the definition of value education and how it helps one to understand ‘what is valuable’ for human happiness. The participants were made to understand the gaps in the present educational system where the complete emphasis is on science or technology and how ‘Value education’ when missed to be imparted will lead to counterproductive and serious crises at the individual, societal and environmental levels, in spite of faculty’s tiresome effort.

Keynote Address: “Need for value education” by Prof. Sreenivas Sarma

On 16th July, 2019, the resource person– Prof. K. Krishnaveni, delivered a thought-provoking and interactive session on “Self-Exploration” and explained how it enables one to look at the confusions and contradictions within self and resolve them by becoming aware of our natural acceptance. She also emphasized the content and process of self-exploration. She explained the way to bring out the goodness in everything naturally. She also reminded us that the process of Self-Exploration results in ‘Realization’ and ‘Understanding’ in us and that this realization and understanding leads to assuring, satisfying universal with respect to Time, Space and the Individual. In the noon session, Dr. G. Suresh Babu spoke on “Right understanding” and elaborated on how it refers to higher-order human skills and insisted the need to learn and utilize our intelligence most effectively for the right understanding. He reminded that the need for right understanding and relationship is what distinguishes a human being from an animal and that the fulfillment of relationships based on right understanding leads to mutual happiness.

On the third day of the FDP, a session on “Happiness and Prosperity” was delivered by Prof. P. Sreenivas Sarma. He started off the session, by interacting with the faculty, the definition of “Happiness” collecting their opinions, and instructing how it’s related to harmony and peace. He also insisted on the importance and lead of the role of one’s healthy and peaceful relationship with others and society. He reminded us how humans are lacking happiness by wrongly connecting it to “prosperity”. He aligned the participants to come up with their understanding and examples of “prosperity”, and made them understand how happiness and prosperity are the bases of all our desires and efforts. He insisted on the need to assess one’s need

for physical facilities, or else how it leads to disharmony. He also reminded the need to learn and utilize our intelligence effectively to create a physical facility and lead a happy life. He trained the teachers on how to promote these in our classroom teaching and pedagogy practices. Dr. A.V.N. Rao in the noon session resourced the participants by providing his thought-provoking ideas and opinions on “Human Aspirations”. He raised the importance for a student to understand values in human aspirations so that he can recognize the connectedness with every individual correctly and it becomes easy to live in harmony with every human being-thus laying the foundation for an undivided society- from family to world family. He reminded that available sources should be utilized properly and also highlighted the importance of being content with what we have, and respecting others and helping them.

And lead the discussion into the definition of Trust and Respect and their importance in peaceful relationships with society. He said that the student needs to be trained to desire to see others happy and earn their trust from them. To maintain integrity and consistency in relationships, he insisted on the self-examination of any lack of competence that leads others to hurt or loss and the need for the right understanding of the intention of all the

human beings around us. He gave hints and a strategic plan for teaching the students to make them understand how this would improve his competence in others and in himself. He also lead the group to define “respect” as ‘individuality’ by gathering their opinions towards its definition and to understand how the sense of individuality is the prime object of respect. “Society and Nature” and its relationship with Universal human values were discussed in the noon session by Dr. G. Suresh Babu, wherein he introduced different levels of society and how an individual should be mature enough to accept everyone to bring harmony and happiness for himself.

Lecture by Prof Sreenivas Sarma on Professional Ethics

On the final day of the FDP, “Competence in Professional Ethics” was discussed by the Resource Person-Prof P. Sreenivas Sarma, CBIT, Hyderabad. He insisted that developing ethical competence in the individual (profession) is the only effective way to ensure professional ethics and said that value education acts as a resource to achieve it. He guided the participants to understand that competence in a profession will only be the manifestation of one's right understanding, with illustrations. The need for clarity about the comprehensive human goal, Confidence in oneself, Clarity and confidence in ethical human conduct, and its correlation with sustained personal as well as collective happiness and prosperity on professional grounds was highlighted. In light of these, he added that one's ability to identify and develop appropriate technologies, production systems etc adhering to people and eco-friendly principles.
