A Brief Report on Guest Lecture

Topic: Webinar on ‘Recent Advances in 5G Communication’

Date: 12 Sept 2020

Target Audience: III Sem, V Sem, IETE ISF students

Platform: Virtual

Host: Deevika Ravi, VII Sem Student, ISF

Faculty Coordinators: Sri.P.Ranjith, Asst Professor, ECE

Sri.T,Sridher, Asst Professor, ECE

The department of ECE under IETE Student Forum (IETE ISF) organized a one day webinar on ‘Recent Advances in 5G Communication’ on 12th Sept 2020. Initially it is planned on the morning of 10:00AM but the webinar has started at 12:00pm due to technical reasons. The program is hosted by the Deevika Ravi, a student coordinator of ISF. Faculty from the department and 75 students from III, V sem and ISF members are attended the webinar.

The speaker of the webinar is Dr. Dr. Venkata Mani V garu, Associate Professor, NIT Warangal, has delivered this talk. The main important points in her lecture are introduction to the Wireless communication, Generation Technologies, Comparison between the 4G and 5G and MIMO.

The webinar also covered the demonstration of hard ware equipment used in the NIT Warangal. The webinar has planned about to one hour. Overall the session is very informative. Sri.P.Ranjith, Asst Professor, and Sri.T.Sridher Asst Professor are coordinators of this webinar.

A Brief Report on ‘QFiesta’

Topic: A Technical and General Quiz on ‘QFiesta’

Date: 02nd Oct 2020

Participants: students from CBIT and other colleges

Platform: Virtual

Faculty Coordinators: Sri.T,Sridher, Asst Professor, ECE

Sri.P.Ranjith, Asst Professor, ECE

The department of ECE under IETE Student Forum (IETE ISF) organized a general quiz on ‘QFiesta’ to the students of engineering colleges on the eve of birth celebrations of Mahatma Gandhi. The main aim of organizing the quiz on awareness of IETE and to test the knowledge of students on technical as well as general administration. There are 33 registration received from the students of second year, third year and final years. 20 minutes of about 30 questions are given in the quiz. The quiz was started at 03:00 pm on Friday. Following the quiz there is a zoom meeting planned to all the participants. Award winners are announced in that meeting. The winners details are mentioned here:

1. First Prize: Joel Kenny Aligala – MGIT 80/100
2. Second Prize: Golla Rachel Shanthi – CBIT – 76/100
3. Third Prize: Ruchira Bodela - CBIT – 72/100

Overall the quiz went well and given a wonderful opportunity to the ISF student coordinators to show their interest and skills. Finally, we thank head of the department for giving this opportunity to organize the quiz on the birth day of great leader. Sri.T.Sridher and Sri.P.Ranjith are the faculty coordinators of the quiz. Deevika Ravi Student Coordinator lead the event on that day.

BRIEF REPORT ON A ONE-DAY WEBINAR

A webinar on “Master Class Ep-5: Masters in Robotics at the University of Maryland” was conducted by IEEE CBIT SB and ECE Dept. of CBIT on 26th September 2020. About 100 participants from the institute. The main purpose of this event was to enlighten students on Masters in Robotics and what it takes to get into the largest universities like Maryland, which is known for its research facilities and alumni network.

Ms. Manika Makam, alumni of CBIT with a Bachelor’s degree in Electronics and Communication Engineering, has made a mark in Robotics and innovation and is getting into one of the largest public research universities, the University of Maryland. She has got a vast interest in the Perception, Planning, and decision-making of Autonomous vehicles. She is also skilled in Robot Operating systems (ROS), Path Planning, IoT, Robot control, Image Processing, Mobile Robotics, Machine Learning. Having made the video available to the general public, we have received around 2000 views ever since, and we look forward to reaching more people. The webinar has helped the students gain knowledge in the dynamic world of Robotics and has made it easier for them to understand the process of getting into prestigious universities worldwide. Most of the students had an opinion that this webinar acted like an eye-opener to them and gave them a direction to pursue their goals

BRIEF REPORT ON A ONE-DAY WEBINAR

A webinar on "Master Class Ep-3: Indian School of Business - Young Leaders Program" was conducted by IEEE CBIT SB and ECE Dept. on 30th August 2020. About 90 participants from the institute. The webinar is to connect the alumni of CBIT to the students of CBIT to encourage learning from example. The main purpose of this event was to enlighten students on how to bag an admit into one of the most prestigious business schools in India, The Indian School of Business. The entire process and the pros and cons were discussed, making the session very fruitful and successful.

Revannth Vedala, alumni of CBIT who has made a mark in every field he has stepped into, with one of the most prominent being bagging an admit to the YLP program of Indian School of Business, a dream of millions of students today.

BRIEF REPORT ON A ONE-DAY WEBINAR

A webinar on "Master Class Ep-2: Deloitte - Young Leaders Program" conducted by IEEE CBIT SB and ECE Dept. on 21st August 2020. About 61 participants from various colleges and different states. IEEE organized this incredibly insightful event with Mr. Jagannath Saragadam under a series of webinars called the CBIT ALUMNI'S MASTERCLASS, conducted in collaboration with Transcendent. The webinar is to connect the alumni of CBIT to the students of CBIT to encourage learning from example. The event was a one-hour session, and the main purpose of this event was specially focused on 4th year students since the placement season around the corner. The entire process and the pros and cons were discussed, making the session a very fruitful and successful.

Ms. Anjana Bytha, an alumni of CBIT, a pass out from CBIT in the year 2019. She bagged a placement in the 7th semester in Deloitte India and works as a Business technology analyst. She interned at Tata consultancy services and is a hardworking volunteer for UNICEF. Having made the video available to the general public, we have received around 850 views ever since and we look forward to reaching more people. The webinar has helped the students in gaining knowledge about the key points that would help a student immensely into cracking the company and has made it easier for them to understand the process of going about it. Most of the students had an opinion that this webinar was very insightful and gave them new ways on how to tackle the different rounds of the placement drive.

BRIEF REPORT ON A ONE-DAY WEBINAR

A webinar on "Master Class Ep-1: Microsoft - Young Leaders Program" was conducted by IEEE CBIT SB and ECE Dept. on 15th August 2020. IEEE organized this incredibly insightful event with Mr. Jagannath Saragadam under a series of webinars called the CBIT ALUMNI'S MASTERCLASS, conducted in collaboration with Transcendent. About 120 participants from various colleges and different states. The event was a one-hour session, and the main purpose of this event was to learn the technical prowess needed and to understand what it takes to master the skills required in the industry.

Ms. Ankitha Pilli, alumni of CBIT passed out in the year 2019. She is currently working for one of the giants in the tech industry: Microsoft. She grabbed an internship at Microsoft. Her insights on how she made her dream come true are most valuable for any aspiring graduate. Having made the video available to the general public, we have received around 900 views ever since and we look forward to reaching more people. The webinar has helped the students in gaining knowledge about the key points that would allow a student immensely to cracking the company and has made it easier for them to understand the process of going about it. Most of the students believed that this webinar was very insightful and gave them new ways to tackle the different rounds that can help them crack their dream company MICROSOFT.

About the program:

CBIT is excited to announce a short duration learning program to its students to help building critical skills on Robotic Process Automation.

In the wake of the coronavirus (Covid-19,) organizations are turning to RPA to mitigate business disruptions and advance public health, keep global supply chains moving and governments afloat.

We bring the learning program to extend the support to the students to build the skills online using Automation Anywhere University platform.

All the students are advised to take advantage of the program and stay essential at the fast-changing workforce.

About Robotic Process Automation:

Robotic Process Automation is simple—and powerful—business process automation software.

Robotic Process Automation enables you with tools to create your own software robots to automate any business process. Your “bots” are configurable software set up to perform the tasks you assign and control.

RPA really is for everyone. And the benefits of RPA span all industries and business units. Applying RPA for business process automation is limited only by the imagination and putting bots to work has never been easier, with a growing marketplace of ready-made, ready-to-deploy Digital Workers available on demand, requiring no specialized IT infrastructure.

About Automation Anywhere

Automation Anywhere is a global leader in Robotic Process Automation (RPA), empowering customers to automate end-to-end business processes with software bots – digital workers that perform repetitive and manual tasks, resulting in dramatic productivity gains, improved customer experience and more engaged employees. The company offers the world’s only web-based and cloud native intelligent automation platform combining RPA, artificial intelligence, machine learning and analytics right out of the box, to help organizations rapidly start and scale their process automation journey.

With offices in more than 40 countries and a global network of 1,200 partners, Automation Anywhere has deployed over 1.7 million bots to support some of the world’s largest enterprises across all industries.

For additional information visit www.automationanywhere.com.

Program benefits:

- Understand the nuances of Robotic Process Automation
- Building the basic capabilities to develop Software Bots using Automation Anywhere tools and technologies
- Students will receive Bot Aspirant online badge after successful completion of the learning trail

“BOT ASPIRANT”

Learning outcomes

- Understand the concepts of Digital Workforce Development & Robotic Process Automation
- Describe how Automation Anywhere’s RPA tool can be used for creating software robots (Bots)
- Describe the new features of the Automation Anywhere client to build the Bots

Content of Learning program - 12 Hours

1. Hello Bot: Introduction to RPA and Use Cases v11 (3 hours)
2. Build the digital work force (5 hours)
3. Storing and Manipulating Data: How to Automate Database-related Processes (30 Mins)
4. Automating Excel Operations: Methods to Work with Excel Workbooks (30 Mins)
5. Working with PDF Documents: Methods to Automate PDF-Related Processes (30 Mins)
6. Automating Structured Data: How to Work with XML Streams (30 mins)
7. Automating String Operations: Methods to Manipulate and Extract Strings (30 mins)
8. Communicating with Email Servers: Methods to Automate Email Messages (30 mins)
9. Communicating with Emulators: How to Automate Terminal Applications (30 mins)
10. Unleash Your Intelligent Bots: Developing Cognitive Bots, driven by AI & Machine Learning (IQ Bot) (30 Mins)
11. Bot Story: Where Automation Meets Analytics Using Bot Insight V11.0 (2 hours)

COSC INTERNSHIP DRIVE 2020

WHAT IS COSC INTERNSHIP DRIVE?

COSC Internship Drive is a month- long virtual internship program which aims to promote, among participating students, a better understanding of open source technologies. This experience also provides an opportunity to develop their personal competencies working in an industry insight environment.

Through this event, students are encouraged to provide various solutions to universities/institutional issues with the assistance and enthusiasm of outstanding young students studying in a relevant technical field.

WHY COSC INTERNSHIP DRIVE?

As per AICTE guidelines, all the students after B.E. 2nd semester, 4th semester and 6th semester are required to go through an internship process to help improve their technical skills and better understand the working of an industry environment. To aid students of CBIT to be able to find an internship during this COVID pandemic, COSC has taken the initiative of Internship Drive with Caravel as industry partners to provide students real-life experience, a strong understanding of the industry environment under continuous guidance from CBIT staff, Alumni and IT Professionals.

The aim of this Internship Drive is to benefit students by harnessing and developing their technical skills and provide students an opportunity to be part of an internship.

Internship Dates: 1st June 2020 – 4th July 2020

DEMOGRAPHICS

We saw active participation from students of CBIT which include over 90 students from department of CSE and around 20 from department IT. Over 110 students with almost equal participation from 2nd semester, 4th semester and 6th semester was seen. We were thrilled to see such active participation from girls as well as boys with such interest and enthusiasm.

PROJECTS

The participants were divided into teams after the technology sessions were done and they were assigned to their projects along with their student mentors and faculty mentors. The mentors were elated to see the dedicated participants work on their project and helped the team members throughout the development process. A few of the project ideas include:

1. Question Papers Management: This utility provides applications for people to upload question papers when the exam time is up and suitable paper will be accepted and retained. The Admin feature is available in a web application and student facilities are provided by an Android mobile application. The mobile application for the students can be used to upload question papers once the exam is done and the Admin has to approve the desired question paper. The Admin can upload exam timetable as well.

2. Sports Resources Booking system: The problem statement is to create a platform for a college where students can book their sports resources through a mobile app and these resources requests will be accepted by the college faculty through a website. It is an interactive platform where there will be mostly no use of physical presence and it should be built in such a way that even a normal faculty member should be able to access this website and know how to use it.

3. Placement portal for students: The goal is to create a placement portal for students. And where the TPO will post the jobs, seminars and exam details. And TPO has provision to add the new companies. Students are able to view all the companies based on the CGPA criteria. They can apply directly through this

portal. And students need to provide all information regarding him/her self with the resume. Students will be notified through notification feature when the TPO posts any. Finally TPO will have the dashboard to keep track of every student.

4. Student Club Management System: Club activities are fun but it gets tiresome with the registration and gathering of event participants, so a student-club system for all clubs is the problem statement requirement. A user-end app would be used by students to access their registered clubs, participate in events. The club admins will be given a webApp to deal with the nuances of their club handling(accepting and rejecting registrations, starting club events, holding club activities) with a super admin overseeing the entire process.

5. Sudhee Event Management System: Sudhee Event Management System is a software that facilitates the manual task of event registration. It aims to simplify the task of event management. This software has an admin side, which is web based and which is responsible for adding CC members, adding clubs as well as viewing previous CC members and events. The android side is developed primarily in order to ease the burden on the users interested in registering for an event which can be done without the need of added manual intervention.

A CC member has certain features such as adding, eding and deleting events and can also view the list of registered students for any event. The application aims to provide the tasks and activities related to event management at a single point inorder to simplify an otherwise manual task.

6. Students Discussion Forum: The problem statement is to create a platform for our college where students can actively take part in discussing projects and other technical stuff. This application allows students to insert posts & comments, edit a post, search post, delete a post, view replies, delete replies, etc. The admin has the access to view all the reported users and also delete any

post which is false. This allows us to circulate the right and accurate information to the students and students can interact by posting their views on that post. The admin can also block a user.

7. Application for Shruthi sports: To make the process of Shruthi sport events hazard free and reachable we have made an application for Shruthi sport events. It has mobile application interface for user and website interface for admin. Every student can view the sport details. They can also register as a team for the sport and view their team details. The admin updates the sport details, make match fixtures and accepts registrations of the teams

8. Out pass Application : Students often find themselves in circumstances where they might need to leave the college due to a predicament. So, an out-pass app for user interface was created which succours the student to apply for a gate pass avoiding inconvenience to both the student and the respective HOD. Furthermore, the admin can control the processing of the application using a web-app which allows them to supervise the status of the students out pass application at any given situation, this includes numerous alternatives such as accepting, rejecting, setting the number of out passes and even leaving remarks.

9. Faculty Leave Management System: These days it is hectic to file a leave and then get it approved by the HOD, so our problem statement stresses on that issue by providing a solution where all the leave management is done in an online, stress-free, efficient manner. In this there would be a webapp where the HOD can view all the leave applications by the faculty and he can view, approve, reject, call to his cabin with this. And there is an android application where the faculty can login/register and apply for the leave. Then after the HOD views the application in his web app he may take an appropriate action.

The interns were asked to push the code to GitHub repositories. The internship ended after a formal closing ceremony.

CIRCULAR

This is to inform that our department is organizing a TEQIP sponsored one day workshop on "Patent Searching Skills" on 20th July, 2019 from 9:30 AM to 4:15 PM. In the morning session the expert will be delivering seminar related to Patent Searching and clinical trials. In the afternoon session all participants will be having hands on training session. Fourth year students also will be attending this workshop as part of core training for their placements. A certificate of participation will be given to all participants who attend the workshop. I request all faculty to utilize this opportunity to learn about Patent Searching Skills.

Dr. S. Venkata Mohan
Principal Scientist
BEES
CSIR-Indian Institute of Chemical Technology
Warm greetings,

The Department of Biotechnology, Chaitanya Bharathi Institute of Technology will be organising Neozion-2019, a national level technical symposium as a part of Sudhee-2k19. The conference will gather students and researchers from various institutions who will be presenting their work in the field of Biotechnology. As one of the leading figures at the junction of environmental science and Bioengineering, we hope to invite you to be our guest speaker during the opening ceremonies on September 13th, 10:00 AM to 11:00 AM. We appreciate it if you could discuss your works on **treating negatively valued waste to produce value added products and harness sustainable bio-energy** and inspire the attendees to research in such areas and move towards a sustainable future.

13/9/19

We hope you will be able to fit this event in your busy schedule. The participants and organizers will benefit a lot from your expertise on the topic.

Thank you.

Dr. Rajasri Yadavalli

CIRCULAR

It is proposed to organize an Alumni Talk No. 05/2020 on “**Genome Editing: Hacking the Code of Life**” to the IV, VI and VIII Semester Students of B.Tech. (Biotechnology) on **24.06.2020 from 10:00 AM to 11:00 AM** through online mode as part of the CBIT Alumni Theme for 2020, **The Knowledge Partners**. **Ms. Mani Deepika Mallavarapu, working for CCMB, Habsiguda, Hyderabad, an Alumnus of CBIT, 2019 Batch of Biotechnology, will deliver the talk.** All the above said Students are directed to attend the same. Other interested Students and Faculty may also attend.

PRINCIPAL

To
The Head of the Department of Biotechnology, for information and with a request to arrange for circulation among all the concerned Faculty and Students under your control.

C.C. to All Directors, Joint Directors, COE, Head-HR, for information.

C.C. to the Advisor-RCG, CBIT, for kind information.

A BRIEF REPORT

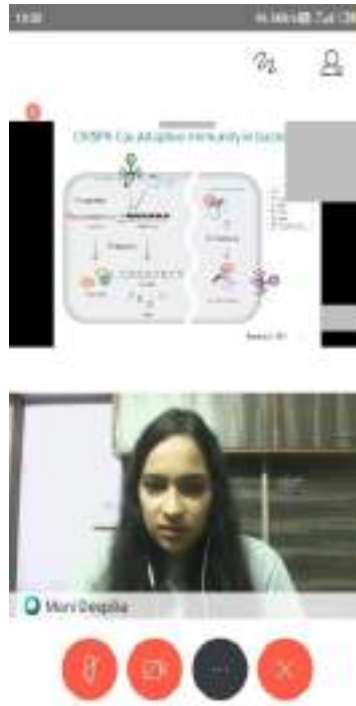

On

Biotechnology-Alumni Talk conducted on 24th June, 2020; 10.00 - 11.00 AM

CISCO WEBEX Meeting : <https://meetingsapac24.webex.com/meet/pr912492202>

Name of the Knowledge Partners	Ms. Mani Deepika Mallavarapu (2019 batch of Bio-Technology)
Designation	Project Research Fellow, CSIR-CCMB, Hyderabad, India
Topic of presentation	Genome Editing: Hacking the Code of Life
Overview of Session Dr. V. Aruna, Asst. professor, Biotechnology gave a brief introduction about Ms. Mani Deepika Mallavarapu , Project Research Fellow, CSIR-CCMB, Hyderabad. The lecture session was started with introduction to “Central Dogma” which is the main theme of the protein synthesis pathway in the cell and how to focus on changes happening in DNA level. Then, a thorough discussion about genome editing was presented. Finally, CRISPR (Clustered Regularly Interspaced Short Palindromic Repeats) mechanism was narrated in details with respect to genome editing. This editing process has a wide variety of applications including basic biological research, development of biotechnology products, and treatment of diseases. The CRISPR-Cas9 system is a prokaryotic immune system that confers resistance to foreign genetic elements such as those present within plasmids and phages. There was Q/A session for both students and faculties after the talk.	
Target Participants: All the students of B. Tech Biotechnology (II-Semester: Total 36 Students; IV-Semester: Total 42 Students; VI-Semester: Total 26 Students; VIII-Semester: Total 20 Students) and Faculties of Biotechnology department were attended the session.	
Outcome of the Session <ul style="list-style-type: none">• A thorough knowledge about the genome editing was learned• How CRISPR-CAS mechanism is helpful to edit the DNA sequence was also understood

FABA TALKS ON CELL-BASED THERAPIES & REGENERATIVE MEDICINE-EMERGING OPPORTUNITIES

NAME G. Rithika

ROLL NO 160118805022

DEPARTMENT OF BIOTECHNOLOGY

DATE 14th October 2020

Speaker Name: Mohan C Vemuri

Designation/Role: Director of R&D for cell and gene therapy

Company Name/Institution name: Thermo Fisher Scientific, Inc.

- The talk was hosted by Dr. Nidhi Khurana, she introduced the speaker Mr. B. N. Manohar the CEO and MD of Stempeutics Research Pvt. Ltd.
- The session started by discussing about Stempeutics as it had filed 60+ patents across 18 countries and published 75 peer reviewed international publications.
- Stempeucel, which is a lead product on-demand, allogeneic regenerative medicine therapy focusing on CLI, OA, DFU & PAF.
- Stempeutics focuses on the development of innovative products based on mesenchymal stromal cells derived from donor bone marrow of healthy adult volunteers.
- He then spoke about the clinical stages and phases followed for its marketing approval, Stempeucel's primary efficacy endpoints in Phase 2 ARDS caused by pneumonia due to covid-19.
- This was followed by a session on Cell-based Therapies and Regenerative Medicine: Emerging Opportunities by Mr. Mohan C Vemuri the Director of R&D Cell and Gene therapy at Thermo Fisher Scientific, Inc.
- He discussed about the types of Regenerative therapies, it's growth all over the world. The Innovative Therapies Pipeline as 1,078 clinical tests currently ongoing worldwide in different phases and in different fields like gene therapy, cell based, tissue engineering.
- We understood cell therapy, their composition and how they are involved in use of living autologous¹ or autologous² cells.
- The Pluripotent stem cells are involved in iPSC Technology as its primary objective is to use iPSC approaches to make these cells available for disease modelling drug discovery & cell therapy, about Mesenchymal stem cells as it is directly involved in tissue repair to treat elderly diseases of bone, fat tissue and cartilage repair.
- Further we discussed about Antitumor Immunotherapies as cancer is currently treated with multiple cell types like T-cells, Hematopoietic stem cells, Natural killer cells and Dendritic cells and a brief of them. Which is followed by gene delivery for therapy and tissue engineering and regenerative medicine briefly.

- workforce for Regenerative medicine technologies according to the Bioscience competency model and in a pyramid of NIOSH safe-skilled ready workforce program of ETA which is a comprehensive competency model for biosciences.
- Typical Biopharma Workforce, its activities include manufacturing (clinical, commercial, others) and development/research, S&T Functional areas including manufacturing, operations, product/process development, Quality assurance/control, Sales & service.

The talk ended with a question and answer round, it was very interactive and the explanation about the topics could be easily understood.

Dear College Partner,

It is my pleasure to invite you to attend the FABA Academy webinar on "CELL BASED THERAPIES AND REGENERATIVE MEDICINE : EMERGING OPPORTUNITIES"

Please find the flyer attached with this email which has the link to register for the event. Once a participant registers on the given link, they will be provided with the link to the meeting in the confirmation email. This webinar is sponsored by Stempeutics, Bangalore. (PFA for details)

Date of the Webinar: 14th October, 2020

Time: 5:30 pm - 7:00 pm

I am also providing the link for registration here:

DATE 21st October,2020

Dr Prabhu Mishra, managing director and founder StemGenn, a leading firm providing regenerative medicine and stem cell therapies that has set an undeniable revolution in the healthcare industry.

His company StemGenn has given an all new dimension to the ever growing healthcare industry by providing end-to-end solutions for regenerative conditions such as diabetes.

Dr. Prabhu enlightened us with a talk on bio-entrepreneurship: a great career opportunity, develops strategic alliances implements national and international projects for the mission of advancing regenerative medicine and stem cell therapy.

StemGenn specializes in stem cell & anti-aging treatment, Its operations include the development of proprietary cell therapy products as well as revenue-generating physician and patient-based regenerative medicine/cell therapy training services, cell collection and cell storage facilities and the operation of cell therapy clinics .

StemGenn provides Cgmp-compliant cell manufacturing, consulting services that address regulatory, financial and technical, procedures as well as training and quality system strategies.

Dr. Prabhu gave us knowledge over the opportunities available in bio fields , the qualities, needs of being a bio- entrepreneur, and how the students have different opportunities in field of biology .

This session has left me with a lot of food for thought , it was very interesting and very thought provoking , the information shared will be very useful.

Dear Students,

"Coders Hub - CBIT" of IT Department, is conducting a series of mentoring sessions for current III Semester students with the following objectives:

To enlighten students about:

- ✓ Career Guidance
- ✓ Short, Medium and Long term Goal setting
- ✓ Latest Industry Trends
- ✓ SWOT Analysis
- ✓ Orientation towards future

I Session is scheduled on 16.11.2020 i.e., Monday

Mr Jagannath S, graduated from Dept. of IT in 2019, currently pursuing MS in Carnegie Mellon University will address from 06.00PM to 07.00PM

II Session is scheduled on 17.11.2020 i.e., Tuesday

Ms Meghana, current final year student, interned at Goldman Sachs will address from 06.00PM to 07.00PM

III Session is scheduled on 19.11.2020 i.e., Thursday

Mr Avinash Bharadwaj, will graduate from Dept of IT in 2020, currently working in JPMC will address from 06.00PM to 07.00PM

IV Session is scheduled on 20.11.2020 i.e., Friday

Mr Chandra Mouli, will graduate from Dept. of CSE in 2020, currently working in Microsoft India Pvt Ltd., will address from 06.00PM to 07.00PM

You are requested to attend the online sessions and help yourselves in building your profile.

Only 100 participants are allowed to join in Google Meet on a first come first serve. The rest of the participants can attend via YouTube Live.

Google Meet Link and youtube URL will be shared in your respective class groups on the day of the session.

Attendance will be recorded during the session.

ABOUT THE COLLEGE

CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY, established in the Year 1979, esteemed as the Premier Engineering Institute in the States of Telangana and Andhra Pradesh, has been promoted by a Group of Visionaries with an objective to facilitate the Engineering and Management Education and contribute towards meeting the needs of Skilled and Technically conversant Engineers and Management Professionals across Industries.

The Institute, committed to Education and Innovation, over the 40 Years, has emerged as a Dream Destination for Students seeking to excel in Engineering and Management Education, Teaching Community to progress with a rewarding Career and Corporates to source well-rounded Engineers.

The Stake Holders of the Institute have been relentlessly endeavouring to position CBIT as an Institution that is a Leader and an Innovator in the Ecosystem of Engineering and Management Higher Education.

With the Students being the singular Objective, the Institute has established excellent Academic Infrastructure such as State-of - the Art Laboratories, Library, Sports, Hostel, and other Infrastructure for Extra and Co-Curricular Engagements, in the serene ambience of 50 acres to inspire, encourage and pursue academics.

In its relentless strive for academic excellence, CBIT has scaled great heights both Nationally and Internationally in Industry and Global Universities.

DEPARTMENT OF MASTER OF COMPUTER APPLICATIONS (MCA)

Master of Computer Application Programme was started in the department of CSE in the year 1991 with an intake of 10 and subsequently increased to 60 in the year 2000. The MCA department was formed and began to function independently since 2008. The Department has well qualified and experienced faculty.

ABOUT THE WORKSHOP

It's a power-packed training organized for young and dynamic minds on college campus. Topics in the workshop center upon strengthening fundamental concepts. Python is a general-purpose language, which is used to build and develop engineering applications which has tremendous requirement in software industry which is powered by tools/libraries. Professionally, Python is very good for backend web development, data analysis, artificial intelligence, machine learning and scientific computing. Many developers are using Python to build productivity tools, games, and desktop apps, hence there are plenty of resources to help the students to build very useful software products at par to meet the requirements in software industry.

The intended workshop will impart the python applications to students at group and individual exercises, case studies, quizzes, concept hand-outs etc.

Benefits of the Workshop

- Hands-on expert guided training
- Access to Python power-points, research papers and other learning resources
- Opportunity to interact with industry experts for career guidance.

Importance of Python programming skills

- To become a sought after professional.
- For aspiring Data Scientists, Python is probably the most important language to learn because of its rich ecosystem. Python's major advantage is its breadth. For example, R can run Machine Learning algorithms on a preprocessed dataset, but Python is much better at processing the data.

TARGET AUDIENCE

The workshop is immensely useful for staff and students of all streams of B.E / B.Tech, M.E. / M.Tech, MBA & MCA.

Note: Participants are suggested to bring their own laptops.

SESSION CONTENTS ON DAY 1

- Introduction to Python
- Why so much Buzz around Python?
- Environment Setup & Installation
- Basic Data types in Python
- Control Structures in Python
- List, Tuple & Dictionary in Python
- Functions in Python

SESSION CONTENTS ON DAY 2

- Engineering Applications of Python
- What is Data Science & Machine Learning
- What is Raspberry-Pi chip? (Electronics)
- Use of Mechatry (Mechanical Engg.)
- Electrical Python for calculation
- Use of BioPython
- API integration Case Study

:Report:

Department of CSE, has conducted a seminar on Career in Information Security

Date & Time: 10-01-2020, 3 to 4 PM

Agenda: seminar on Career in Information Security

Speaker Profile: Name : Mr.Hari,Pavan

Presentation:

During the event Mr.Hari addressed that he escalating number of data breaches and threats like ransomware has created a mad dash for information security help. Organizations are scrambling to fill jobs and to compete for top talent, and scores of positions go unfilled for months.

One would think that this kind of job-market frenzy creates a big appeal for a person just entering college or considering a career. Especially since information security is one of the few fields where people get snatched up as soon as they walk out with their certificate or diploma (and often, long before.)

Yet there's hardly an influx of newly-minted security professionals eager to flex their freshly acquired white-hat skills. The shortage of infosec workers is expected to grow — reaching 1.8 million by 2022, according to research by Frost & Sullivan. And there is not enough incoming talent to help narrow the gap.

Since there's no danger of this field becoming oversaturated with practitioners in the foreseeable future, pursuing a career in information security is a smart move.

For those mulling over new career choices, information security could provide the next step. This is one of the rare interdisciplinary fields you can enter from various other backgrounds, including business and even liberal arts.

On the fence on whether this is a promising and stable career? Consider the following reasons that make this field enticing. MsT Suvarna, Asst Prof delivered the vote of thanks. Event enthusiastically hosted by Prof.Y.Ramadevi , HOD,CSE Department. Total 169 third year students participants has joined the session.

:Report:

Department of CSE, has conducted a Guest Lecture on Block Chain Technologies

Date & Time: 25-01-2020, 3 to 4 PM

Agenda: Guest Lecture on Block Chain Technologies

Objective: To impart knowledge in a decentralized/distributed and public digital ledger that is used to record transactions across many computers and record cannot be altered in block chain.

Speaker Profile: Name : Mr.Narayana Malladi

Presentation:

During the event Mr.Narayana Malladi addressed that Blockchain is a shared, immutable ledger that facilitates the process of recording transactions and tracking assets in a business network. An asset can be tangible (a house, car, cash, land) or intangible (intellectual property, patents, copyrights, branding). Virtually anything of value can be tracked and traded on a blockchain network, reducing risk and cutting costs for all involved.

Why blockchain is important: Business runs on information. The faster it's received and the more accurate it is, the better. Blockchain is ideal for delivering that information because it provides immediate, shared and completely transparent information stored on an immutable ledger that can be accessed only by permissioned network members. A blockchain network can track orders, payments, accounts, production and much more. And because members share a single view of the truth, you can see all details of a transaction end to end, giving you greater confidence, as well as new efficiencies and opportunities. Dr.Sangeetha Gupta, Assoc Prof delivered the vote of thanks. Event enthusiastically hosted by Prof.Y.Ramadevi , HOD,CSE Department. Total 27 final year students participants has joined the session.

Technologies at IITH”
Organized By CSE Department CBIT
on 2.3.2020**

**Staff Coordinators: Prof N.Ramadevi
Dr. T. Sridevi
Smt I.Srujana**

Department Computer Science and Engineering has organized a Guest Lecture on “Professional Certification Program in AI and Emerging Technologies at IITH” on 2nd March 2020 from 10:30 AM to 12:15 PM by Mr Ruthwick from Talent Sprint. Total 116 VI Semester CSE students participated.

The aim of the session is to bring awareness on program “ AI and emerging technologies “ which is specifically designed for recent graduates and senior college students. This program is launched by Indian Institute of Technology Hyderabad in association with TalentSprint. The Program starts on Mar 14, 2020. This program includes a five-week residential format during the summer of 2019 and provides an opportunity to learn Artificial Intelligence, Internet of Things, Blockchain, and Quantum Computing from reputed IIT Hyderabad professors, stay for a month in a premier academic campus and obtain a high-value certificate upon completion from IITH.

Participants will get to work on industry projects like E-Commerce Recommendations, Object Recognition, Social Network Analytics and more. They will also be able to network and associate with current and future tech leaders.

Some Pictures covered during session:

Finally we thank Dr. P.Ravinder Reddy Sir, Principal, CBIT, Dr. M Swamy Das, Head of the Dept.,CSE in the smooth conduct of the event.

On 13th & 14th Sep'2019, a two-day national level technical event "**ROBOVANZA 2k19**" organized by IEEE CBIT SB and R&I Club, CBIT during SUDHEE' 2k19. About 240 PG and UG students from various colleges from Maharashtra, tamilnadu, Andhra pradesh and telangana participated in the competitions.

The fest jam-packed with cut-throat competitions and breath-taking events for its audience. It is a platform where one got to bring into play their engineering skills to work out the problem statements as well as tussle with other competing robots, and win exciting prizes. Gearing up the bots to participate in 10 interesting events, Robothon, Robo wars, All terrain, Wild soccer, Line follower, Tug of war, Match the dimen, Cross the bridge, Battlefield and Tech expo. This is the ideal destination for the millennials to learn, create and experience the beauty of robotic technology, delight and enthusiasm.

A report of The Activities of Robotics and Innovation Club

The following is a brief report of the activities of the Robotics and Innovation Club from the start of the even semester in the academic year 2019-2020, to date. The sessions were conducted with the aim of imparting basic knowledge on robotics to the new participants, especially for the first years.

Session – 1: Introduction to Robotics

The first session of the Robotics and Innovation Club for the academic year 2019-2020 for aspiring enthusiasts in the field of robotics was conducted on 27th January 2020 in the Assembly Hall. 38 students as teams of three and four participated in the session, where we discussed an Introduction to Robotics and the basic robots that they will be able to build. The building and working of a DPDT Controlled bot were taught to them as the most basic step into robotics. All the teams were given a starter kit using which they were able to build the bot, understand its functionality and execute the same.

Session – 2: Arduino and Line Follower

In the second session, conducted on 1st February 2020 participants were taught how to work with an Arduino Uno, a microcontroller and the various projects they can build using it. 30 students participated in this session in which we discussed the working and building of a Line Follower bot using two IR sensors following the introduction to Arduino. The line follower was taught as a simple implementation of a fully autonomous robot. Due to time constraints the participants were unable to implement the same on the bot.

Session – 3: **Bluetooth Controlled Bot**

As a continuation to the second session, the third session was conducted with the aim of understanding the functionality of the bots and to execute the same. 27 students participated in the session conducted in the Assembly Hall on 15th February 2020. The teams implemented the line follower bot from the previous session.

The design and working of a Bluetooth controlled bot were discussed shortly after. The participants learned how to interface a Bluetooth module with an Arduino Uno and use the same to wirelessly control a 4 wheeled robot. The students were able to finish the bot and control it using an Android application.

Entrepreneurship Development Cell

Entrepreneurship Development Cell (EDC), CBIT, is a student coordinated club supervised by experienced faculty members. The motto of the club is Entrepreneur 'rising' ideas. The club has a vision to pave a path towards 'Entrepreneurial India'. We aim to groom and support all students with entrepreneurial interests and start up ideas.

With this theme we have started the EDC in CBIT. We have received a grant of Rs7, 00,000/- (Rupees Seven Lakh only) Under EDC Scheme for the financial year 2005-2006 from AICTE with the F.No.: 8023/RID/BOIII-EDC/12/2005-2006 dated: 09-Jan-2006.

As part of this several entrepreneurship awareness camps, seminars, guest lectures, conferences and faculty development programmes etc. were organized. Entrepreneurship is being offered as an elective subject for B.E Final year (All branches). Institute has also organized one year Technology Entrepreneurship Programme for 2nd, 3rd & 4th year students in collaboration with ISB, Hyderabad and AP Society for Knowledge Networks. It also organized one month Business Skill Development Programme for its students in collaboration with MSME-DI, Ministry of Industries, Govt. of India.

Entrepreneurship cell and incubation facility

a) Facilities: Established & functional EDP cell

Well-equipped Infrastructure facilities and resource personnel available in all departments of the Institute

Arrangement of Guest Lectures, workshops and seminars etc. to promote awareness and importance of entrepreneurship

In-house training programmes conducted by the faculty members

b) Management: Faculty coordinators of EDC plans and executes various activities of EDC by taking approval from Head of the Institution through proper channel. It also involves its students in organising various events so that students are exposed and learns various skills pertaining to planning, execution, leadership, communication and organising.

c) Impact of Entrepreneurship cell: Significant number of the students are having inclination to become entrepreneurs in the near future of their career development.

Details of the event and outcome

1. CHAITANYA REETHI (The Lifestyle Club)

Event Name: One-day workshop titled ‘Nurturing Holistic Lifestyle Among Professionals’ for Staff and students of CBIT.

Venue and Date: N – Block seminar hall, CBIT Campus on **12-02-2020**

Description: We have learned to grow with the age of technology while upholding our values and traditions imbibed in us. With an eye to promote a sustainable and healthy lifestyle and help people develop an organized way of living, Chaitanya Reethi (The Life Style Club – CBIT) consisting of the four wings have together organised the workshop by inviting eminent guest speakers.

Chaitanya Svaasthya - The wellness Club has invited **Mrs. Ramya Raman** a Certified Master Trainer and Facilitator as guest speaker. Her speech and activity has justified the theme of the workshop. Her multi-sensory and multilingual expertise was quick to understand and implement. All the staff and student participants could easily connect and relate to her lively and versatile oration.

Chaitanya Parivrita - Environmental Club has invited Principal, Directors, Faculty, Staff and students to join hands and appeal the government regarding ‘Declaration of Climate Emergency’. Later, **Dr. P. Rama Raju**, Retd. Engineer in chief, I & CAD Department, Government of the then Andhra Pradesh, has delivered a talk on “Unprecedented floods in river Krishna- 2009”. He had discussed about the climate change and how it has brought changes by discussing the case study of floods in Krishna basin in the year 2009. The students responded by talking about some of the concerns about the food wastage, need to educate the agriculture sector on over usage of pesticides.

Chaitanya Teja - Entrepreneurship Development Cell has invited **Mr. Pandyala Prasad**, CEO & Founder, Leaders Making Academy, Hyderabad to deliver a talk on ‘Entrepreneurial Journey’. He has enlightened about the skills and qualities required for entrepreneur. He highlighted the funding sources available and discussed different business models. He has distributed 160 copies of book “Discover your strength... Design your Life” to students for free.

Chaitanya Urja - Energy Saver's Club has invited **Dr. P. Chandra Sekhar**, Managing Director, Technique Design Group, Hyderabad to deliver a talk on ‘Energy conservation in daily life’. He has explained a about energy conservation in large scale and in daily life. He has informed audience about different ways of conservation of energy by small increase in awareness. Concept of energy conservation in daily life was well explained with the case study of conversion of existing domestic living community into green building with effective energy management techniques.

Dr. S. Venkata Mohan
Principal Scientist
BEES
CSIR-Indian Institute of Chemical Technology
Warm greetings,

The Department of Biotechnology, Chaitanya Bharathi Institute of Technology will be organising Neozion-2019, a national level technical symposium as a part of Sudhee-2k19. The conference will gather students and researchers from various institutions who will be presenting their work in the field of Biotechnology. As one of the leading figures at the junction of environmental science and Bioengineering, we hope to invite you to be our guest speaker during the opening ceremonies on September 13th, 10:00 AM to 11:00 AM. We appreciate it if you could discuss your works on treating negatively valued waste to produce value added products and harness sustainable bio-energy and inspire the attendees to research in such areas and move towards a sustainable future.

13/9/19

We hope you will be able to fit this event in your busy schedule. The participants and organizers will benefit a lot from your expertise on the topic.

Thank you.

Dr. Rajasri Yadavalli
Associate Professor & I/C Head

Seminar Notice

Title: “ Wireless Channel Modelling of Drone-Ground links”

Speaker: Prof. K V S Hari , Dept. of ECE, IISc, Bangalore

Date: 30-08-2019

Time: 02:00 to 03:00PM

Venue: Seminar Hall

Abstract

In this talk, we will first consider the challenges of developing a communication system for drone-to-ground links. As a first step, experiments to model the wireless channels for such links are being carried out in IISc. The channel measurement system design and data collection methodology will be presented. Based on the data collection, preliminary channel models based on these measurements will be presented in the talk.

Short Biography

K V S Hari is a Professor in the Department of ECE, Indian Institute of Science, Bangalore. He holds a BE (ECE) degree from Osmania University, Hyderabad, MTech (Radar and Communication Systems) from IIT Delhi and PhD (Systems science) from U C San Diego and has been a visiting faculty at Stanford University (1999-00) and Affiliate Professor at KTH- Royal Institute of Technology, Stockholm (2010-16). His research interests are in Signal Processing with applications to 5G wireless communications, radar systems, autonomous vehicles, neuroscience, and affordable MRI systems. He is a co-author of an IEEE standard on wireless channel models. He was an Editor of EURASIP's Signal Processing (2006- 16) and is currently the Editor-in-Chief (Electrical Sciences) of Sadhana, the journal of the Indian Academy of Sciences published by Springer. He is a Fellow of the Indian National Academy of Engineering and a Fellow of IEEE and also on the Board of Governors, IEEE Signal Processing Society as Regional Director-at-Large of Asia-Pacific.

All are Welcome.

BRIEF REPORT ON A ONE-DAY SEMINAR

On 30th August 2019, a seminar entitled “**Wireless Channel Modelling of Drone-Ground links**” organized by the Research and Development Centre and Department of Electronics and Communication Engineering. About 117 UG as well as PG students and staff from ECE, and IT have attended the seminar. **Prof. K V S Hari , Dept. of ECE, IISc, Bangalore** is the speaker for this program.

In this talk, the challenges of developing a communication system for drone-to-ground links is discussed first. Experiments being carried out at IISc to model the wireless channels for such links was briefed. The channel measurement system design and data collection methodology were presented. Preliminary channel models based on these measurements were discussed.

Department of CSE, has conducted a Guest Lecture on Data Science with python

Date & Time: 26-07-2019, 10 to 12 PM

Agenda: Guest Lecture on Data Science with python

Speaker Profile: Name : Mr.Vihar Kuruma

Presentation:

During the event Mr.Vihar Kuruma addressed that Data is the new Oil. This statement shows how every modern IT system is driven by capturing, storing and analysing data for various needs. Be it about making decision for business, forecasting weather, studying protein structures in biology or designing a marketing campaign. All of these scenarios involve a multidisciplinary approach of using mathematical models, statistics, graphs, databases and of course the business or scientific logic behind the data analysis. So we need a programming language which can cater to all these diverse needs of data science. Python shines bright as one such language as it has numerous libraries and built in features which makes it easy to tackle the needs of Data science. Ms.G.Kavitha, Asst Prof delivered the vote of thanks. Event enthusiastically hosted by Prof.Y.Ramadevi , HOD,CSE Department. Total 142 III Semester students participants has joined the session.

:Report:

Department of CSE, has conducted a Seminar on Big data technologies

Date & Time: 26-10-2019, 10 to 12 PM

Agenda: Seminar on Big data technologies

Speaker Profile: Name : Mr.Sridhar

Presentation:

During the event Mr.Sridhar addressed that Although the concept of big data itself is relatively new, the origins of large data sets go back to the 1960s and '70s when the world of data was just getting started with the first data centers and the development of the relational database.

Around 2005, people began to realize just how much data users generated through Facebook, YouTube, and other online services. Hadoop (an open-source framework created specifically to store and analyze big data sets) was developed that same year. NoSQL also began to gain popularity during this time.

The development of open-source frameworks, such as Hadoop (and more recently, Spark) was essential for the growth of big data because they make big data easier to work with and cheaper to store. In the years since then, the volume of big data has skyrocketed. Users are still generating huge amounts of data—but it's not just humans who are doing it.

With the advent of the Internet of Things (IoT), more objects and devices are connected to the internet, gathering data on customer usage patterns and product performance. The emergence of machine learning has produced still more data.

While big data has come far, its usefulness is only just beginning. Cloud computing has expanded big data possibilities even further. The cloud offers truly elastic scalability, where developers can simply spin up ad hoc clusters to test a subset of data. And graph databases are becoming increasingly important as well, with their ability to display massive amounts of data in a way that makes analytics fast and comprehensive.. Ms.Sangeetha Guptha Assoc Prof, Ms.K.Spandana, Asst Prof delivered the vote of thanks. Event enthusiastically hosted by Prof.Y.Ramadevi , HOD,CSE Department. Total 50 fourth year students participants has joined the session.

ABOUT THE COLLEGE

CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY, established in the Year 1979, esteemed as the Premier Engineering Institute in the States of Telangana and Andhra Pradesh, has been promoted by a Group of Visionaries with an objective to facilitate the Engineering and Management Education and contribute towards meeting the needs of Skilled and Technically conversant Engineers and Management Professionals across Industries.

The Institute, committed to Education and Innovation, over the 40 Years, has emerged as a Dream Destination for Students seeking to excel in Engineering and Management Education, Teaching Community to progress with a rewarding Career and Corporates to source well-rounded Engineers.

The Stake Holders of the Institute have been relentlessly endeavouring to position CBIT as an Institution that is a Leader and an Innovator in the Ecosystem of Engineering and Management Higher Education.

With the Students being the singular Objective, the Institute has established excellent Academic Infrastructure such as State-of – the – Art Laboratories, Library, Sports, Hostel, and other Infrastructure for Extra and Co-Curricular Engagements, in the serene ambience of 50 acres to inspire, encourage and pursue academics.

In its relentless strive for academic excellence, CBIT has scaled great heights both Nationally and Internationally in Industry and Global Universities.

DEPARTMENT OF MASTER OF COMPUTER APPLICATIONS (MCA)

Master of Computer Application Programme was started in the department of CSE in the year 1991 with an intake of 30 and subsequently increased to 60 in the year 2000. The MCA department was formed and began to function independently since 2008. The Department has well qualified and experienced faculty.

ABOUT THE WORKSHOP

It's a power-packed training organized for young and dynamic minds on college campus. Topics in the workshop center upon strengthening fundamental concepts. Python is a general-purpose language, which is used to build and develop engineering applications which has tremendous requirement in software industry which is powered by tools/libraries. Professionally, Python is very good for backend web development, data analysis, artificial intelligence, machine learning and scientific computing. Many developers are using Python to build productivity tools, games, and desktop apps, hence there are plenty of resources to help the students to build very useful software products at par to meet the requirements in software industry.

The intended workshop will impart the python applications to students at group and individual exercises, case studies, quizzes, concept hand-outs etc.

Benefits of the Workshop

- Hands-on expert guided training
- Access to Python power-points, research papers and other learning resources.
- Opportunity to interact with industry experts for career guidance.

Importance of Python programming skills

- To become a sought after professional.
- For aspiring Data Scientists, Python is probably the most important language to learn because of its rich ecosystem. Python's major advantage is its breadth. For example, R can run Machine Learning algorithms on a preprocessed dataset, but Python is much better at processing the data.

TARGET AUDIENCE

The workshop is immensely useful for staff and students of all streams of B.E / B.Tech, M.E. / M.Tech, MBA & MCA.

Note: Participants are suggested to bring their own laptops.

SESSION CONTENTS ON DAY 1

- Introduction to Python
- Why so much Buzz around Python?
- Environment Setup & Installation
- Basic Data types in Python
- Control Structures in Python
- List , Tuple & Dictionary in Python
- Functions in Python

SESSION CONTENTS ON DAY 2

- Engineering Applications of Python
- What is Data Science & Machine Learning
- What is Raspberry-Pi chip? (Electronics)
- Use of Mechpy (Mechanical Engg.)
- Electrical Python for calculation
- Use of BioPython
- API integration Case Study

SESSION CONTENTS ON DAY 2 (27th July, 2019)

Day 1	Contents
Forenoon	
I Session	Engineering Applications of Python What is Data Science & Machine Learning
II Session	What is Raspberry-Pi chip? (Electronics)
Afternoon	
III Session	Use of Mechpy (Mechanical Engg.) Electrical Python for calculation
IV Session	Uses of BioPython API integration Case Study Valedictory Ceremony

The Workshop was a grand success. The participants were very happy with the hands-on experience on Python. They also learnt various areas in which Python was used. The participants were from different streams of engineering consisting of students and staff from various colleges.

Constructive feedback was given by the participants with few suggestions and requested for a one week workshop on the same topic.

CBIT Hyderabad

CBIT is a college of repute in the state of Telangana and AP which ranks 1st in the state and 16th in the country in the category of the self-financed engineering colleges. It was started in the year 1979, by Chaitanya Bharathi Educational Society, with the motto of Swayam Tejaswin Bhava. It is accredited by NBA, AICTE and NAAC, New Delhi. It is the first ISO 9001:2008 certified technical institute. The college is an UGC autonomous institute. The college offers 9 UG and 7 PG courses.

In its Four Decades of existence, all the Stake Holders of the Institute, relentlessly endeavored to position CBIT as an Institution that is a Leader and an Innovator in the Ecosystem of Engineering Higher Education.

Department of Chemical Engineering

Established in 1995, the department has gained reputation in the field of Chemical Engineering education in the state of Telangana and AP. The department is well equipped with undergraduate laboratories and infrastructure. The department conducts National level Conferences & Seminars and In-house workshops to cater to the overall personality, regularly. The department has also inked MOUs (with "Prathishta Biotech" & "Dr. Reddys labs") for training need of students with some of the leading industries. The faculty along with students are actively involved in numerous In-house projects in research areas such as Heat Transfer, Mass Transfer and Environmental Eng. (funding agency: TEQIP and CBIT Institute)

Workshop Highlights

Aspen Plus is an advanced chemical optimization software used by the bulk, fine, specialty, and biochemical industries, as well as the polymer industry for the design, operation, and optimization of safe, profitable manufacturing facilities.

Aspen Plus enables users to:

- > Optimize processing capacity and operating conditions.
- > Improve equipment design and performance.
- > Reduce costs and improve product quality.
- > Perform economic evaluation to realize savings in the process design.

Approach

- > Instructor-guided demonstrations of features.
- > Hands-on sessions.

Benefits

- > Gain the skills and knowledge to design processes.
- > Learn detailed design aspects of distillation column and reactors.

Topic: JOT applications in solar PV systems

A. Raghuram
president, SEPA

Duration: 10:30 to 12:15

~~Topic~~ Target:

Key Points about his lecture.

- 1) Selection of solar panel, Govt. Plans till 2022.
- 2) He mostly concentrate on solar photovoltaic systems.
- 3) How to place solar panel according to irradiation.
- 4) Types of solar PV systems - grid, off grid, hybrid.
- 5) Single line diagram of solar PV system.
↳ Practical Problems
- 6) Solar Panel Product and Performance warranty, Degradation factor - 0.7% / year
- 7) Expense of solar energy research in India.
- 8) Opportunities by solar energy.

(A. Raghuram)

president, SEPA

IoT Applications in solar PV systems

Solar is not a constant source of Power

Since earth moves...

Possible Solutions

- Complement the power source
- Store it & use it
- Use it as and when available, without storage ??

The following Guest lectures were organized :

- 1.) A guest lecture was delivered by **AbhayEdlabadkar** an Alumni of 1992 batch (production engineering Branch student) on 11 March 2019 on the topic "**Fundamentals of data theft & surveillance on mobile endpoints**". Abhay is founder and CEO of Redmorph, a firm dedicated to providing people the same right to privacy online as they experience in their personal and professional lives. Abhay founded Redmorph in 2014, when he became concerned about children's safety as they navigated the Internet and discovered they were largely unprotected against extensive tracking and malicious activity. The guest lecture was delivered . The programme was attended by about 200 students .
- 2.) A guest lecture was delivered by **VENKATESH YERRAMALLA** . CEO of Confluence Center for Sustainable Development and Director in Kaarya Consulting Services Private Limited and Alumni of 1992 batch for the students of Mechanical and production Engineering on Oct 31st October 2019 on the occasion of super annuation of Shri Hari Prasad , Associate professor, MED ,CBIT. The guest lecture was on "Emerging Trends in Manufacturing. About 100 students attended the programme and interacted with the Alumni.
