Congratulations, Sushcell! We are happy to offer you a **Business Internship** at SmartServ for a period of 6 months effective 24th January 2022. We are super-excited to have you join in our journey.

You've been hand-picked for your perfectly qualifying genius, and we heartily welcome you to the journey of your lifetime. We want you for a reason. All your crazy interviewers were impressed by your determination and hunger to learn. We strongly cherish these values at SmartServ, and hope that you would prove to be an asset to our growing team.

Your stipend will be **Rs. 20,000** per month, payable on a monthly basis while you are working remotely. Once we resume the regular in-office working conditions and you relocate to Pune, your stipend will be increased to **Rs. 25,000** per month for the rest of your internship period.

As a regular employee of the Company, you will also be eligible for a bouquet of non-cash benefits which are announced from time to time. These benefits are funded from the pool of funds specifically for employee benefits and cannot be clubbed or swapped with any other cash components in the CTC of an individual employee.

Family Health Insurance: With joint cover limit available to you & your family (Parents, Spouse and Children) of INR 3,00,000. The annual premium will be borne by us.

Reimbursement benefits:

- a. Internet reimbursement
- b. Work-from-Home gear reimbursement, while working remote

The project details and technical platforms will be shared with you on commencement of internship. Since our customers are based in North America, you are signing to be flexible with your work hours depending on customer and business requirements. You will also be required to work on one of the weekends during your internship against which you will be granted a day off during the weekdays.

This is a full-time internship position and hence while you are employed at this Company, you will not engage in any other employment, consulting or other business activity (whether full time or part-time) that would create a conflict of interest with the Company. Driven by a carpe diem attitude and a thirst for ingenious innovation, we like to whoosh through our days with a passion for data & technology and serving our customers with nothing short of excellence. Our proactive teams and algorithms function as a single recipe spelling success – each person indispensable, each algorithm significant.

Internship Relationship: Internship with the Company is for a specific period of time. Your internship with the Company will be "at will," meaning that either you or the Company may terminate your internship at any time and for any reason, with or without cause, as stated below. Any contrary representations that may have been made to you are superseded by this letter agreement. This is the full and complete agreement between you and the Company on this term. Although your job duties, title, stipend, as well as the Company's personnel policies and procedures, may change from time to time, the "at will" nature of your internship may only be changed in an express written agreement signed by you and a duly authorized officer of the Company (other than you).

Proprietary Information and Inventions Agreement: Like all Company employees, you will be required, as a condition of your internship with the Company, to sign the Company's standard NDA, Proprietary Information and Inventions Agreement.
