VISION

To Establish an Institutional Culture for Management Education and Research to Achieve Sustainable Impact on Society

MISSION

- Impart Quality Management Education through Innovative Teaching and Learning Practices.
- To Promote Research and Innovation through Collaborations.
- Cultivate in Students a sense of Professionalism, Ethics, and Social Responsibility.
- Nurture Innovative Business Leaders and Entrepreneurs through Integrated Education.

Program Educational Objectives

PEO	PEO Statements
PEO 1	To develop a comprehensive understanding of management theories and practices and apply them effectively to solve complex business problems.
PEO 2	To inculcate research attitude in interdisciplinary fields through experiential learning and the development of entrepreneurial skills.
PEO 3	Adapt to dynamic and competitive business environment with leadership, collaborative and supportive team environment.
PEO 4	To acquire a diverse set of professional skills that enhance employability, entrepreneurship, and enable further academic pursuits at an advanced level.

Program Outcomes & Program Specific Outcome (PSO)

PO/PSO	PO Statements
PO 1	Apply knowledge of management theories and practices to solve business problems.
PO 2	Foster Analytical and Critical thinking abilities for data-based decision making.
PO 3	Ability to develop Value based Leadership ability.
PO 4	Ability to understand, analyze and communicate global, economic, legal, and ethical aspects of business.
PO 5	Ability to lead themselves and others in the achievement of organizational goals, contributing effectively to a team environment.
PSO 1	Equipped with professional skills for Employment, Entrepreneurship and Higher Education.

Dear Students and Parents,

CBIT-School of Management Studies, with an Objective to Professionally orient the students to address the Industry 4.0 Challenges that are disrupting the Business Ecosystem, has redesigned the Curriculum to perfect the “Doing and Being Skills” with Competencies required to convert the Opportunities during the Course of their Professional Career, Entrepreneurship, Pursuing Higher Studies, Research and Advisory.

In an increasingly interconnected Global Economy and Society, Our Objective starts from a belief in a future filled with Opportunities - a future where the right Education and Skills provide the new routes to growth, built on Human Capital. Utilizing the existing Resources more effectively, we have strengthened the performance of the Education System by designing with a focus on results at every level, learning from the best results driven Systems in Education and across Sectors. We have moved Innovation in Teaching and Learning to the Centre of the Education Structure by providing opportunities to debate on Case Studies and Internship with Industry to experience the Hands-on-Industry Operations, thus moving beyond the ‘Chalk and Talk’ method to make Students experience the Academic Lessons.

The industry-oriented Curriculum designed will focus just not on facilitating a Job but to help the Management Graduates face Challenging situations through Industry Collaboration in the current World. The extensive Library with Books from across the World and E-Journals that can be downloaded by the students would go a long way in the Self-learning by the Students for the Academic Sessions and also while undertaking their Project Works.

CBIT School of Management Studies with its committed endeavor to Education would like to have a Page in the History of Management Education and the Students as one of the Stakeholders will have a great role in upholding the Banner of the Institute. We Wish the Students - A Memorable Time during their Studentship with the Institute and hope to see them rise in the Corporate Ladder.

--- CBIT - SMS

ORIENTATION PROGRAM

Orientation Program is designed for Freshers at the Commencement of the MBA Programme to navigate them through the Campus Culture, Ethical and Human Value Practices, Environment, Infrastructure, Academic Scope, Learning Resources, Activities that they can engage themselves; Social, Co and Extra Curricular and other Personality Development Schedules, that would during the period of the Program enable them to efficiently utilize the Opportunities and equip themselves with needed Skills in every Area of Management to address the future Challenges in their Careers.

The Orientation encompasses but not limited to the following activities:

S.No.	Activities during the Orientation Program
1.	Autonomous system - Academic Rules, Curriculum, Code of conduct
2.	Learning Resources
3.	Extension Activities
4.	Managerial Skills for Effectiveness
5.	Co-Curricular and Extra-Curricular
6.	Business Games
7.	Mentoring and Ethics

CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY

In line with AICTE Model Curriculum with effect from AY 2023-24

Instruction	4 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation	40 Marks
Credits	4

COURSE OBJECTIVES: This course aims to

1. To familiarize the students with the fundamentals of managing Business and to focus on the Critical and Challenging areas of Organizational Planning and Organizing.
2. To describe Motivation, Leadership, Communication and Controlling and to provide knowledge on how individual and group behaviour will have an implication on the process of management.
3. To understand the nature of Power, Politics, Conflict, and the Negotiation process.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Demonstrate the Concepts and Theories of Management to make effective Business Decisions.
2. Analyse the need and effectiveness of Planning and Decision Making and also assess the elements of Organizational Structure and evaluate their impact on Employees.
3. Apply various types of Motivational theories and Leadership styles, Communication and Controlling processes to enhance the participative Managerial Skills.
4. Gain the knowledge of processes used in developing Organizational Designs and apply Organization Behaviour concepts to real-world problems faced by Managers.
5. Demonstrate the authority and use power to influence people to get the work done and execute the Negotiation process to manage Conflicts and resolve disputes.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	3	2	1	2	2	2
CO2	2	2	3	1	2	2
CO3	3	3	3	2	2	2
CO4	3	1	2	2	3	2
CO5	2	2	3	2	2	2

UNIT - I

Introduction to Management: Management- Definition, Nature, Purpose, Evolution of Management Thought- Scientific Management, Administrative Theory, Human Relations Approach, Hawthorne experiments, Behavioural Approach, Systems Theory. Managerial Roles (Mintzberg Model), Managerial Levels, Managerial Skills, Functions of Management, Administration vs. Management, Contemporary Management Issues and Challenges.

UNIT - II

Planning and Organizing: Planning – Nature, Purpose, Process, Types of Plans, Management by Objectives (MBO). Corporate Strategy and Vision/Mission, Policies and Strategies. Decision Making – Types of Decisions, Decision Making Process, Decision Making under Certainty, Uncertainty and Risk.

Organizing – Formal and Informal Organization, Weber's Bureaucratic model, Process, Types of Organization Structures, Line and Staff concepts, Span of Management – Factors, Delegation of Authority, Decentralization, and Empowerment. Organisation structure for global environment, Organisational fit, McKinsey 7 S framework, Restructuring and Downsizing.

UNIT - III

Leading and Controlling: Motivation- Early and Contemporary Theories of Motivation. Leadership - Leadership Behaviour and Styles. Communication - Purpose, Process, Barriers in Communication, Overcoming barriers to communication.

Controlling- Basic Control Process, Critical Control Points, Standards, and Benchmarking, Control as a Feedback System, Requirements for effective controls. Balance Scorecard method.

UNIT - IV

Organization Behaviour: Organization Behaviour – Nature, Levels, Challenges. Individuals in Organizations - Personality and Ability. Personality - Determinants, Personality and Situation, Big Five Model of Personality, Myers–Briggs Type Indicator (MBTI), Other Organizationally Relevant Personality Traits. Ability - Cognitive Ability, Physical Ability, Emotional Intelligence. Nature. Perception - Nature, Characteristics of Perceiver, Target and Situation, Biases and Problems in Person Perception. Transactional Analysis, Johari Window. Group Dynamics and Teams- Types of Work Groups, Group Development, Characteristics of Work Groups, Effective Work Groups and Teams.

UNIT - V

Conflict and Negotiations: Nature of Power and Politics, Sources of Individual Power, Functional and Divisional Power. Organizational Politics - The use of Power. Organizational Conflict - Sources, Pondy's Model of Organizational Conflict, Negotiation: Resolving Conflict - Individual level conflict, Group level conflict and promoting Compromise.

23MBC102**FINANCIAL ACCOUNTING FOR MANAGEMENT**

Instruction	4 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation:	40 Marks
Credits	4

COURSE OBJECTIVES: This course aims to

1. Develop a solid understanding of fundamental accounting concepts and apply them in real-world scenarios to prepare final accounts in business.
2. Familiarize students with the concept of depreciation and enable them to critically evaluate financial statements using ratio analysis techniques.
3. Equip students with the skills necessary for analysing and interpreting financial statements accurately and effectively.

COURSE OUTCOMES: Completion of this Course, Student will be able to

1. Develop a comprehensive understanding of the basic concepts and principles of accounting, enabling them to proficiently maintain accurate books of accounts.
2. Analyse and prepare financial statements in accordance with accounting standards, ensuring accuracy, reliability, and compliance.
3. Calculate and record depreciation expenses, while understanding their significance in impacting the financial statements.
4. Apply ratio analysis techniques to analyse and interpret financial statements, facilitating informed decision-making.
5. Prepare, analyse, and interpret the cash flow statements of companies, providing valuable insights into their financial performance and liquidity position.

23MBC104**RESEARCH METHODOLOGY AND STATISTICAL ANALYSIS**

Instruction	4 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation:	40 Marks
Credits	4

COURSE OBJECTIVES: This course aims to

1. To introduce the basic concepts of Research Methodology, Ethics in Business Research and relevance of Research Designs used in Business Research.
2. To impart knowledge on Descriptive, Inferential Statistics and parametric tests.
3. To provide students with an understanding of different Forecasting techniques for Business applications.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Understand relevant concepts of Research, Research design and Research Ethics
2. Identify and adopt appropriate Data Collection Tools, Sampling Procedures and Measurement scales
3. Analyze statistical data using measures of central tendency and dispersion.
4. Formulate hypotheses and test the same using appropriate parametric tests.
5. Apply the statistical concepts to forecast the trends in business outcomes and appreciate the need for preparing, presenting a structured Research Report.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	3	3	-	2	1	2
CO2	2	3	-	-	1	2
CO3	3	3	-	1	1	1
CO4	2	3	-	-	2	1
CO5	2	3	1	1	2	3

UNIT - I

Introduction: Meaning and importance of Business Research, Types of Research, Research Process, Review of Literature, Conceptualization of Variables and Measurement, Types and Measurement of Variables, Research Design - Introduction and Types, Ethics in Business Research.

UNIT - II

Data Collection and Sampling: Data Collection Methods & Tools: Types of Data, Sources and Instruments for Data, Questionnaire design, Sampling procedure- Characteristics of a Good sample -Sampling Techniques, Measurement and Scaling, Reliability and Validity in Measurement of Variables, Sources of Error in Measurement.

UNIT - III

Descriptive Statistics: Statistics - An Overview, Its Applications. Descriptive Statistics: Measures of Central Tendency- Mean, Median, Mode. Measurement of Dispersion- Range, Quartile Deviation, Mean Deviation, Standard Deviation, Coefficient of Variation. Skewness and Kurtosis.

UNIT - IV

Inferential Statistics: Testing of Hypothesis: Type I and Type II Errors, Statistical Significance. Large Sample Tests- Test for one and two Means. Small sample tests: t- distribution, Properties and Applications, Testing for one and two Means, Paired t- test. Analysis of Variance: One way and Two-way ANOVA (with and without interaction). Chi-square distribution: Test for goodness of fit, Test for independence of attributes.

UNIT - V

Data Analysis and Report Writing: Introduction to the analysis of data - Nature and Types of Data. Correlation Analysis: Scatter Diagram, Karl Pearson's Coefficient of Correlation, Spearman's Rank Correlation (With and without ties), coefficient of determination (R^2). Regression Analysis: Concept, Two lines of Regression- Properties of Regression Coefficients. Data Representation: Tabulation and Graphical presentation. Report Writing- Importance, Report Structure, Guidelines for Effective Documentation, Referencing Styles, and Plagiarism.

23MBC105**STATISTICS LAB**

Instruction	4 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	50 Marks
Continuous Internal Evaluation:	50 Marks
Credits	2

COURSE OBJECTIVES: This course aims to

1. To demonstrate the management and analysis of data using graphs, tables, worksheets.
2. To familiarize the students with advanced Excel Tools for conduction of Data Analysis.
3. To demonstrate descriptive statistics, inferential statistics and its usage in Decision Making in different disciplines.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. To enable the practice of MS-Excel.
2. To apply advanced Excel Tools for conduction, evaluation of Data Analysis using Pivot Tables and Pivot Charts.
3. Analyze the Data using Descriptive Statistical tools.
4. To conduct various parametric and Non-parametric Tests using MS Excel.
5. Apply the statistical concepts to forecast the trends in business outcomes.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	1	3	-	1	2	1
CO2	3	3	-	3	3	2
CO3	1	3	-	1	1	2
CO4	1	3	-	1	1	2
CO5	2	3	-	2	1	2

UNIT - I

Worksheets: Create, save, edit, protect and print worksheets. Data Entry - Manual and Automatic, importing and exporting data, Adding Data, Tabs and ribbons, file menu, quick access toolbar, Conditional Formatting, Cell Operations, Sorting and Filtering, Tables. Create Charts- Create a new chart, Add additional data series, Analyze data by using Quick Analysis.

UNIT - II

Advanced Excel: Create and Manage PivotTables- Create PivotTables, Modify field selections and options, Macros - Relative & Absolute Macros, Look up data by using the VLOOKUP function, Look up data by using the HLOOKUP function.

UNIT - III

Descriptive Statistics: Measures of Central Tendency - Mean, Median, and Mode; Measures of Dispersion - Range, Quartile deviation, Standard Deviation and Variance, Coefficient of Variation, Population Confidence Intervals.

UNIT - IV

Parametric Tests and Non-parametric Tests: One Sample Z and T test for the Population Mean, Chi-Square Tests - Independence of Attributes. The sign test, Wilcoxon signed rank-sum test and Mann-Whitney U test for two independent samples. Single-factor ANOVA (or one-way ANOVA) and Kruskal-Wallis test.

UNIT - V

Correlation, Simple Regression and Time Series Analysis: Correlation Analysis - Scatter plot, Covariance, Pearson's correlation coefficient, testing the significance of Pearson's correlation coefficient. Simple Regression Analysis using data analysis toolpak, Time Series analysis: Fitting a Straight Line using simple data, Moving average.

23MBS101**BUSINESS COMMUNICATION LAB**

Instruction	4 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	50 Marks
Continuous Internal Evaluation:	50 Marks
Credits	2

COURSE OBJECTIVES: This course aims to

1. To understand the significance of Business communication.
2. To develop effective listening & reading skills and learn how to draft various Business Correspondence.
3. To enhance the professional way of presentation and realize the essence of Social and Professional Etiquettes.

COURSE OUTCOMES: Completion of this Course, student will be able to

1. Showcase their Enrichment in Business communication knowledge.
2. Display competence in listening skills and reading skills
3. Prepare well organized and objective written messages.
4. Combat stage fright while delivering speeches and formal presentations before a variety of audiences
5. Demonstrate appropriate social and professional behaviour and promote positive atmosphere at workplace.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	3	1	2	2	1	3
CO2	2	3	2	2	2	3
CO3	1	1	1	2	-	3
CO4	2	2	2	2	1	3
CO5	3	1	1	2	2	3

UNIT - I

Introduction: Business communication, Overview-Communication networks in the organization, Different flows of communication – Barriers of Communication- Features of successful professional communication. Technology enabled communication.

UNIT- II

Listening and Feedback: Listening process – Types. Barriers to good listening. Techniques for Effective Listening. Listening and note taking. Importance of feedback, principles of asking, giving and taking feedback – Principles of feedback. Significance of Reading skills.

UNIT - III

Writing Skills: Managerial writing. What's App & SMS to communicate internally and externally. Business letters, Enquiry letters and reply, Order letter and reply, Complaints and claims. Notices, Circulars, Memos, Agenda and Minutes. Report Writing.

UNIT - IV

Speaking and Presentation Skills: Managerial speeches-Speech of Introduction, Speech of Thanks, Occasional speech, Theme speech. Techniques for combating stage fright. Presentation for Business sales and Training with aid of Verbal and Multimedia. Effective ways of presenting. Non-Verbal dimensions of Communication- Understanding the significance of body language.

UNIT - V

Social and Professional Etiquette: Telephone Etiquette-Email Etiquette-Meeting Etiquettes, Office etiquettes - Table Manners-Dress Code-Greetings.

23MBD101**COMPREHENSIVE DEVELOPMENT - I**

Instruction	-
Duration of Semester End Examination	-
Semester End Examination	-
Continuous Internal Evaluation:	50 Marks
Credits	1

COURSE OBJECTIVES: This course aims to

1. To develop the students with practical experiences that reinforce the concepts taught in the classroom and enhance their managerial skills and soft skills.
2. To allow the students to pursue interests, develop skills, and socialize beyond the classroom setting through extra-curricular activities.
3. To encourage the students to engage with the community extension programs and activities; and to promote the overall health and wellness.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Develop leadership skills, network with professionals and gain practical experience outside of the classroom.
2. Grab the opportunities for personal growth, leadership development, and explore new passions.
3. Transform themselves as leaders to social change to provide solutions to social problems.
4. Develop themselves, enhance skills, and make a positive impact on the department, institute, and the community at large.
5. Lead a holistic sense of wellness, promoting a social, emotional, physical, mental and intellectual growth of a student.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	3	3	2	1	2	2
CO2	2	2	1	1	2	1
CO3	2	2	2	1	1	1
CO4	2	2	1	1	2	1
CO5	1	1	2	1	1	1

Description:

For the holistic development, student shall get engaged in the categories of activities:

1. Co-Curricular Activities,
2. Extra-curricular activities,
3. Community Engagement/Extension Activities,
4. Coordinator for Class, Alumni, Internship, Placements, Leadership and Volunteer Roles for Department Activities/Events, participation in department events etc.

The assessment will be done for maximum 50 marks at the end I semester considering the achievements of I semester.

Every student shall participate in the activities and submit a report of the participation with the proofs along with learning outcomes. Assessment will be done by a panel formed by the Head of the Department.

Refer MBA Academic Rules (R-23) p.no.7

23MBO101**CORPORATE GOVERNANCE AND BUSINESS ETHICS**

Instruction	4 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation:	40 Marks
Credits	4

COURSE OBJECTIVES: This course aims to

1. To provide the basics of corporate governance and ethics in business.
2. To educate on the various codes and committees related to corporate governance.
3. To focus on the need for business ethics in business.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Understand concept and various theories corporate governance.
2. Analyse various codes and committees associated to corporate governance.
3. Explain the role and responsibilities of board.
4. Describe theories and principles of business ethics.
5. Summarize the approaches and issues in business ethics.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1

23MBO102**MANAGERIAL ECONOMICS AND BUSINESS ENVIRONMENT**

Instruction	4 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation:	40 Marks
Credits	4

COURSE OBJECTIVES: This course aims to

1. To provide in depth knowledge on Managerial Economics Concepts, Demand and Supply Functions in Business Decision Making.
2. To understand the concept Production, Cost and Market Analysis.
3. To familiarize with various aspects of business environment factors along with detailed discussion on Planning and Industrial policies, mechanism of fiscal policy and monetary policy.

COURSE OUTCOMES: Completion of this Course, students will be able to

1. Understand the basic concepts and principle of Managerial Economics.
2. Analyse the concept of Demand, Supply and Demand forecasting Techniques.
3. Examine the various concepts of Production, Cost techniques and different types of Markets to decide Price.
4. Understand the various Business Environmental factors and Industrial Policies that influences the domestic and international business activities.
5. Analyse the Fiscal policy and Monetary Policy and its impact on business operations.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	3	1	-	3	1	2
CO2	3	3	-	3	2	2
CO3	3	3	-	2	1	2
CO4	3	1	-	3	1	2
CO5	2	2	-	3	2	2

UNIT - I

Introduction to Managerial Economics: Introduction to Managerial Economics, Nature and Scope, Definitions, Relation with other disciplines, Fundamental concepts of Managerial Economics- Opportunity cost, Discounting principle, Time Perspective, Incremental cost/ Reasoning, Equi-marginal concept.

UNIT - II

Demand and Supply Analysis: Theory of Demand, Demand Function, Law of demand, Elasticity of Demand, Demand Estimation- Market Research Approaches, Need for Forecasting, Forecasting Techniques. Supply Function, Law of Supply, Elasticity of Supply.

UNIT - III

Production, Cost and Market Analysis: Production function, Law of Variable Proportions, ISO-quants, Returns to Scale, Cobb Douglas and CES Production function, MRTS, ISO-Costs, Optimal Combination of Input Factors, Economies and Diseconomies of Scale, Break Even Analysis.

Types of Market Structure, Price Output Determination in Perfect Competition, Monopoly, Monopolistic Competition and Oligopoly in Short and Long Run.

UNIT - IV

Business Environment: Business Environment – Meaning, Importance, Environmental Factors, International Business-Overview; Planning in India – Planning Commission –Five-year Plans- Niti Aayog- New Industrial Policy, Make in India.

UNIT - V

Economic Policies and Development: Small Scale Industries (SSI)-MSMEs, Industrial Finance, Foreign Direct Investment (FDI)- modes – India's inflow and outflow. Fiscal Policy- Latest Union Budget. Monetary Policy- Basic Concepts, Monetary Policy in the 21st Century, Digital Economy, Foreign Trade and Balance of Payment, India's new EXIM policy.

23MBC203**OPERATIONS RESEARCH**

Instruction	4 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation:	40 Marks
Credits	4

COURSE OBJECTIVES: This course aims to

1. To familiarize the students with the basic Concepts and tools of Operations Research.
2. To make the students understand the mathematical models used in Operations Research.
3. To provide the students to learn the techniques constructively to make effective Business decisions.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Develop mathematical model and solve the real-life system with limited constraints by applying LPP.
2. Formulate and solve transportation and assignment concepts to implement Supply chain management.
3. Evaluate alternatives using decision making under risk and uncertainty and game theory.
4. Apply PERT and CPM techniques to plan, schedule and control project.
5. Apply simulation process in queuing theory to evaluate the system.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	3	3	-	2	1	2
CO2	3	3	-	1	1	2
CO3	3	3	-	2	2	2
CO4	3	3	-	1	2	3
CO5	3	3	-	1	1	1

UNIT - I

Introduction: Operation Research, Definitions, Evolution, Scope and Applications in Business. Linear Programming: Models, Assumptions of Linear Programming Problems (LPP), Formulation, Graphical Method, Simplex Method, Big-M Method. Formulation of Dual to Primal.

UNIT - II

Transportation and Assignment: Transportation Problem, Initial Solution Methods, North -West Corner Method, Least Cost Method (LSM) and Vogel's Approximation Method, Degeneracy, Unbalanced TP. Optimality Test - Stepping Stone Method and MODI Method. Assignment Problem, Hungarian Method, Unbalanced problems, Restricted AP. The Travelling - Salesman problem.

UNIT - III

Statistical Decision Theory and Game Theory: Decision Theory, Criteria for Decision Making under Risk and Uncertain Environments, Concept of Utility, Expected Monetary Value, EVPI Utility as a Concept of Decision Making. Game theory, Zero Sum Game, Saddle point, Pure strategies, Mixed strategies, Dominance, Graphical Method for (mx2) and (2xn) games.

UNIT - IV

Project Management by Network Analysis: Network fundamentals - Scheduling the Activities - PERT Vs CPM - Three Time estimates - beta Distribution - Identifying Critical Path - Probability of completing the Project within Scheduled time, Critical Path Method – Optimization of Project parameters - Crashing.

UNIT - V

Queuing Theory and Simulation: Queuing Theory - Concepts of Queue/Waiting Line - General structure of a Queuing system - Operating characteristics of Queues, Probabilistic Queuing model - Single Channel Queuing model - Poisson arrival and Exponential service times with infinite Population. Simulation: Process of Simulation, Applications of Simulation to different Management Problems.

TEXT BOOKS:

1. Richard.I. Levin, David. S. Rubin “Quantitative Approaches to Management”, Mc Graw Hill International Book Co., 1992.
2. Barry Render, Ralph M. Stair, Jr., Michael E. Hanna “Quantitative Analysis for Management”, Pearson Education, 2017.
3. J. K.Sharma, “Business Statistics - Problems and Solutions” Pearson, 2011.
4. Panneerselvam, “Operations Research”, 3rd ed., PHI Learning Pvt. Ltd, 2023.

SUGGESTED READINGS:

1. Kanthi Swarup, Gupta Pk, Man Mohan, Sultan Chand and Sons, 2014.
2. Gupta Prem Kumar, Operations Research, S Chand, 2018.
3. Harvey M. Wagner, “Principles of Operations Research”, 2nd Ed, PHI, 2004.
4. Hamdy A. Taha, “Operations Research”, Pearson, 10th Ed, 2019.
5. Rathindra P. Sen, “Operations Research Algorithms and Applications”, 2nd Ed, PHI, 2011.
6. A. M. Natarajan, “Operations Research”, 2nd Ed, Pearson, 2014.

23MBC204

OPERATIONS MANAGEMENT

Instruction	4 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation:	40 Marks
Credits	4

COURSE OBJECTIVES: This course aims to

1. To understand the role of Operations in the overall Business Strategy of the firm, understand the trends and challenges of Operations Management in the current business environment.
2. To know the applications of operations management policies and techniques of the manufacturing firms.
3. To understand the role of the service sector in an economy and develop insight into design, development of new services.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Apply knowledge of basic Concepts of Operations Management for developing processes and improving Operational Performance.
2. Develop Aggregate Capacity plans and Master Production Schedules in operation environments and enable the importance of facility location, layout and line balancing.
3. Analyze and evaluate the work methods and create more efficient ways of performing a job.
4. Acquire knowledge about the inventory and inventory control systems.
5. Apply knowledge in designing and developing new services.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	3	2	-	1	2	2
CO2	3	3	-	2	3	3
CO3	2	3	-	1	2	2
CO4	1	3	-	2	1	1
CO5	3	3	1	2	2	2

UNIT - I

Introduction: Introduction to Operations Management - The evolution of Operations Management - Interface between the Operation Systems and Systems of other functional areas. Process Planning and Process Design, Ergonomic Considerations. Production Planning and Control: Basic functions of Production Planning and Control, Production Cycle. Types of Production Systems - Project, Assembly, Batch and Continuous flow. Productivity- Measuring Productivity. Sustainability and operations. Recent trends and challenges in operations management.

UNIT - II

Scheduling and Economics of Maintenance: Aggregate Planning, Master Production Schedule (MPS), Sequencing and Scheduling- Single Machine, Flow Shop Scheduling- Johnson Rule, Extension of Johnson's Rule, Palmer's Algorithm. Plant Location and Layout: Factors influencing Location, Different types of Layouts. Line Balancing. Maintenance Management: Objectives, Preventive and Breakdown Maintenance, Failure Concept, Reliability, Replacement Policies. Information System for Maintenance Management.

UNIT - III

Work Study: Work Study: Method Study and Work Measurement - Objectives of Work Study - Relationship of Time and Motion Study to Work Study - Basic Work Study procedure - Various techniques in Method Study for identifying the most appropriate method. Work measurement - Its uses and different methods, allowance and its types, computation of Standard Time.

UNIT - IV

Materials and Inventory Management: Components of Integrated Material Management, Materials Requirement Planning [MRP-I], Manufacturing Resource Planning [MRP-II] - Sources of Supply of Materials- Selection, Evaluation and Performance of Suppliers. Vendor Rating Techniques. Value Analysis: Aims, Procedure, Advantages and Application areas. Inventory Control - Types of Inventory, ABC Analysis, EOQ Model.

UNIT-V

Service Operations Management: Nature and Role of Services in the Economy. Service Operations and their Management Fundamentals, service concept. Service Strategy-Competitive service strategies, service winners, service qualifiers. Service Design and Development- New service Development, Service innovation, Service System Design, Service blueprints. Technology & automation in services.

TEXT BOOKS:

1. Stevenson J. William, "Operations Management", Tata McGraw-Hill, 13th edition, Indian Edition, 2022.
2. Panneerselvam R, "Production and Operations Management", 3rd edition, Prentice Hall India Learning Private Limited, 2012.

6. Jay Heizer, Barry Render, Chuck Munson, "Operations Management- Sustainability and Supply Chain Management", Pearson Education Limited, 12th edition, Pearson, 2020.

23MBC205

BUSINESS ANALYTICS

Instruction	4 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation:	40 Marks
Credits	4

COURSE OBJECTIVES: This course aims to

1. To provide in-depth knowledge of handling Data and Business Analytics tools that can be used for Decision-making in an Organization.
2. To familiarize Students on Data Warehousing Concepts, Data Mining Techniques and understand relationships between the underlying Business Processes of an Organization.
3. To provide knowledge on Prescriptive Analytics and its types, and the various applications of Business Analytics on different Domains.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Understand the basic Concepts of Business Analytics in an Organization.
2. Establish the Data Warehousing Mechanism.
3. Experiment various methods of Visualization and Data mining methods.
4. Compare and contrast among Descriptive, Predictive and Prescriptive Analytics.
5. Practice the application of Business Analytics in different domains.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	-	3	-	2	1	3
CO2	3	-	-	1	1	2
CO3	2	1	-	1	2	1
CO4	2	3	-	1	-	3
CO5	2	2	-	-	1	1

UNIT - I

Introduction: Introduction to Analytics, Data Science, Big Data. Applications of Analytics in different Domains. Business Analytics - Challenges from Outside and Within, BASP (Business Analytics Success Pillars) framework, Analyst's Role in the BA Model - Three Requirements the Analyst Must Meet.

UNIT - II

Descriptive Analytics: Data Warehousing - Introduction, Characteristics, Data Marts, Meta Data, Data Warehouse Architecture, Data Extraction, Transformation and Load Processes in a Data Warehouse, Business Reporting and Business Performance Measurement and Visual Analytics.

UNIT - III

Predictive Analytics: Data Mining - Introduction, Characteristics, and Data Mining Process. Text Mining - Introduction, Text Analytics, Applications and Sentiment Analytics and Applications. Web Mining - Introduction, Web Analytics.

UNIT - IV

Prescriptive Analytics: Prescriptive Analytics - Introduction, Prescriptive Models - Simulation, Heuristic, Automated Decision Systems and Expert Systems, Knowledge Management.

UNIT - V

Future of Big Data: Big Data: Definition. Big Data Technologies - Hadoop, R, Python, Machine Learning and Artificial Intelligence. Data Scientist, Applications of Analytics in different Domains. Fundamentals of Marketing Analytics, Finance Analytics, HR - Analytics and Supply Chain Analytics.

TEXT BOOKS:

1. U.Dinesh Kumar, “Business Analytics”, Wiley, 2017.
2. Ramesh Sharada, Dursun Delen, Efraim Turban, “Business Intelligence and Analytics”, 10th Ed., Pearson, 2014.
3. Jean Paul Isson, Jesse S.Harriot, “Win with Advanced Business Analytics”1st Ed., Wiley, 2012.
4. Gert H.N. Laursen, Jesper Thorlund, “Business Analytics for Managers”, John Wiley and Sons, Inc.2010.

SUGGESTED READINGS:

1. Laursen, Thorlund, “Business Analytics for Managers”, 2nd Ed., Wiley, 2017.
2. Sahil Raj, “Business Analytics”, 3rd Ed., Cengage Learning, 2015.
3. Albright, Winston, “Business Analytics - Data Analysis and Decision Making”, 5th Ed., Cengage Learning, 2015.
4. Jac Fitz, Mattox II, “Predictive Analytics for Human Resources”, 3rd Ed., Wiley, 2015.
5. Artun, Levin, “Predictive Marketing”, 2nd Ed., Wiley, 2015.
6. R N Prasad, Seema Acharya, “Fundamentals of Business Analytics”, Wiley, 2011.

23MBS201**PERSONALITY DEVELOPMENT AND CAREER GUIDANCE**

Instruction	4 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	50 Marks
Continuous Internal Evaluation:	50 Marks
Credits	2

COURSE OBJECTIVES: This course aims to

1. To educate the students on the concepts and aspects of Personality Development.
2. To help them understand the important elements in Soft Skills.
3. To prepare them for facing job Interviews and Career Planning.

COURSE OUTCOMES: Completion of this Course, students will be able to

1. Identify their personality style, while recalling the importance of Personality Development for better employment and entrepreneurship.
2. Develop right attitude and exhibit appropriate leadership style to achieve self and Organizational goals.
3. Demonstrate the soft skills that are required for effective functioning of an organization.
4. Exhibit good employability skills that are expected from the industry.
5. Devise and Implement a Proper Career Planning and development Strategy.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	2	2	2	1	-	3
CO2	2	2	3	1	3	1
CO3	2	3	2	3	1	2
CO4	1	2	1	-	1	3
CO5	1	2	1	-	-	2

UNIT - I

Introduction: The Concept of Personality- Dimensions and Theories of Freud and Erickson- Personality Analysis - Significance of Personality Development - Personality Tests.

UNIT - II

Aspects of Personality Development: Attitude- Concept- Significance - Ways to Develop the Attitude. Self-awareness - Meaning, Components, benefits, improving Self-Awareness - Personal Hygiene – Honesty – Integrity - Trust.

UNIT - III

Soft Skills: Interpersonal Skills - Time Management - Networking- Creative Thinking - Problem Solving- Negotiation and Conflict Resolution - Stress Management - Task Orientation Perspective - Work Ethics.

UNIT - IV

Job Preparation and Career Skills: Sources of Occupation Information - Resume Building - Writing Resumes and Cover Letters - The Art of Participation in Group Discussions - Psychometric Analysis - Strategies to be Successful in an Interview - Mock Sessions - How to search for a Job opportunity in the market?

UNIT - V

Career Planning and Development: Career Opportunities - Career Goals and Plans - Developing Career Goals - Benefits of Career Planning - Guidelines for Choosing a Career - Tips for Successful Career Planning - Career Growth Benefits from E-Learning - Career Planning within a Corporate Setting and while Switching a Company - Do's and Don'ts.

TEXTBOOKS:

1. BarunK.Mitra, “Personality Development and Soft Skills”, 2nd Edition, Oxford University Press, 2016.
2. Swamy Vivekananda, “Personality Development”, Adhakshya Advaita Ashrama, 1st Edition, 2015.
3. M.S. Rao, “Soft Skills: Enhancing Employability, Connecting campus With Corporate”, Wiley (Dreamtech Press), 1st Edition, 2019.
4. Mellisa Hume, “Career Guidance for Now and for the Future”, Balboa Press, 1st Edition, 2014.

SUGGESTED READINGS:

1. Niles, S. & Harris-Bowlsbey, J., “Career development interventions in the 21st century”. (4th ed.), Upper Saddle River, NJ: Pearson, 2013.
2. Bill Gothard, Phil Mignot, Melvyn Ruff, “Career Guidance in context”, Sage Publications, 2012.
3. Richard N. Bolles, “What Color Is Your Parachute? 2020 A Practical Manual for Job-Hunters and Career Changers”, Ten Speed Press, 2019.

5. Joseph Murphy, “The Power of Your Subconscious Mind”, 1st Edition, Jaico Publishing House, 2018.
6. Stephen R. Covey “The 7 Habits of Highly Effective People: Powerful Lessons in Personal Change”, 25th Edition, Turtleback books, 2013.

23MBD201

COMPREHENSIVE DEVELOPMENT -II

Instruction	-
Duration of Semester End Examination	-
Semester End Examination	-
Continuous Internal Evaluation:	50 Marks
Credits	1

COURSE OBJECTIVES: This course aims to

1. To develop the students with practical experiences that reinforce the concepts taught in the classroom and enhance their managerial skills and soft skills.
2. To allow the students to pursue interests, develop skills, and socialize beyond the classroom setting through extra-curricular activities.
3. To encourage the students to engage with the community extension programs and activities; and to promote the overall health and wellness.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Develop leadership skills, network with professionals and gain practical experience outside of the classroom.
2. Grab the opportunities for personal growth, leadership development, and explore new passions.
3. Transform themselves as leaders to social change to provide solutions to social problems.
4. Develop themselves, enhance skills, and make a positive impact on the department, institute, and the community at large.
5. Lead a holistic sense of wellness, promoting a social, emotional, physical, mental and intellectual growth of a student.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	3	3	2	1	2	2
CO2	2	2	1	1	2	1
CO3	2	2	2	1	1	1
CO4	2	2	1	1	2	1
CO5	1	1	2	1	1	1

Description:

For the holistic development, student shall get engaged in the categories of activities: 1. Co-Curricular Activities, 2. Extra-curricular activities, 3. Community Engagement/Extension Activities, 4. Coordinator for Class, Alumni, Internship, Placements, Leadership and Volunteer Roles for Department Activities/Events, participation in department events etc.

The assessment will be done for maximum 50 marks at the end II semester considering the achievements of II semester only.

Every student shall participate in the activities and submit a report of the participation with the proofs along with learning outcomes. Assessment will be done by a panel formed by the Head of the Department.

Refer MBA Academic Rules (R-23) p.no.7

23MBO201

LOGISTICS AND SUPPLY CHAIN MANAGEMENT

Instruction	4 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation:	40 Marks
Credits	4

COURSE OBJECTIVES: This course aims to

1. To facilitate Career in Business and to get a clear understanding of the Logistics and Supply Chain Management.
2. To help them understand the role of Logistics and Supply Chain Management in the Industry.
3. To help them focus on Warehousing and Transportation techniques useful in career of Logistics and Supply Chain Management.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Understand the History, Evaluation and various Concepts of Logistics and Supply Chain Management.
2. Classify and compare Various Processes and Technology used in Logistics and Supply Chain Management.
3. Analyse and differentiate various strategies in Transportation and Warehousing in Logistics and Supply Chain Management.
4. Analyse Various Strategic issues and Manufacturing Techniques in relation to Logistics and supply chain management.
5. Develop best Network Design, Planning and Operations in Logistics and Supply Chain management.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	1	-	-	3	-	1
CO2	2	2	-	3	2	2
CO3	2	3	-	3	2	2
CO4	3	3	-	3	2	2
CO5	3	3	-	2	2	3

UNIT - I

Introduction: Introduction to Logistics and Supply Chain Management. LSCM - Concept, Difference between Logistics and Supply Chain Management, Evolution, Objectives, Importance and Functions of SCM, Conceptual Framework of SCM, Process view of Supply Chain, Supply Chain Strategies, Drivers and Metrics of Supply Chain. Strategic Fit, Achieving Strategic Fit and National Logistics Policy-Gati Shakthi.

UNIT - II

Logistics Management: Logistics Management, Inbound, Internal and Outbound Logistics in SCM, Logistics Organization, Development of Integrated Logistics Strategy, 3PL, 4PL, 5PL, 6PL, 7PL Reverse Logistics. Role and Importance of Inventory in SC, JIT, VMI, Outsourcing. SEZ in India, Dry Ports in India, Custom House Agent (CHA) ICDS.

UNIT - III

Transportation and Warehousing: Transportation in Supply Chain, Transportation Formats, Modes of Transportation, Transportation Performance factors, Modes of Transport, Fleet Management, Multimodal transport, Containerization, Vehicle Scheduling and Routing, Milk run and Cross docking. Warehousing- Types of Warehouses, Warehouse Management systems, RFID/CRM.

UNIT - IV

Strategic Issues in Supply Chain: Strategic Partnerships, Alliances and Collaborative advantage, Bullwhip effect, Benchmarking - Issues and Problems, Types, Methods, Process, Lean Manufacturing, Agile Manufacturing. Laws related to Transport in India.

UNIT - V

Supply Chain Interface: SC Network Design, Distribution Network in Supply Chain, Factors influencing Design, Models in Distribution Network, Supply Chain Integration – Internal and External, Role of IT and HR in SCM, Retailing and SCM, Green Supply Chain Management, Contemporary Issues in LSCM, Supply Chain Analytics- Overview. Supply Chain Coordination.

ESSENTIAL READINGS:

1. Chandrasekaran. N, “Supply Chain Management Process, System and Practice”, 2nd edition-revised, Oxford University Press, 2023.
2. K. Shridhara Bhat, “Logistics and Supply Chain Management”, 1st Ed. Himalaya Publishing House, 2016.
3. Sunil Chopra, Peter Meindl and D.V.Karla, “Supply Chain Management, Strategy, Planning and Operations”, 6th edition, Pearson education, 2016.
4. B. Rajashekar and G.V.R.K. Acharyulu, “Logistics and Supply chain Management”, Excel Books, 2009.

SUGGESTED READINGS:

1. Shah, J, “Supply Chain Management, Text and Cases”, 2nd Ed., Pearson education, 2016.
2. Crandall, Richard E and others, “Principles of Supply Chain Management”, 2nd edition, CRC Press, 2014
3. Judy Dickens, “Supply Chain Planning and Execution”, 1st edition, Willford Press, 2019.
4. Richard B Chase, Ravi Shankar and F Robert Jacobs, “Operations and Supply Chain Management”, 15th edition, Mc Graw Hill Education, 2018.
5. James Stevens, “Supply Chain Management: Strategy, Operation and Planning for Logistics Management”, 1st edition, Create Space Publications, 2016.
6. Sudalaimutu, S and Anthony Raj, “Logistics Management for International Business” 1st edition, PHI learning, 2009.

23MBO202**PROJECT MANAGEMENT**

Instruction

Duration of Semester End Examination

Semester End Examination

Continuous Internal Evaluation:

Credits

4 Hours per week

3 Hours

60 Marks

40 Marks

4

COURSE OBJECTIVES: This course aims to

1. To provide insights on Concepts of Project Management
2. To educate the process of project planning, monitoring, and control.
3. To enable learn the preparation of project report and its application areas.

COURSE OUTCOMES: Completion of this Course, the Students will be able to

1. Understand the concepts of Project Management.
2. Ability to estimate the project feasibility and strategic orientation.
3. Determine the importance and methods of monitoring and control.
4. Summarize the project report.
5. Examine the latest applications in the field of project management.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	3	3	1	1	-	1
CO2	3	3	1	1	-	1
CO3	1	1	2	1	-	1
CO4	1	1	1	1	-	1
CO5	3	1	1	1	2	1

UNIT - I

Introduction: Project, Project Management, Importance of project management, Genesis, Roles and responsibilities of Project manager, Project team, Organizations structures, Types of projects, Project Management Life Cycle.

UNIT - II

Project Planning and Execution: Project Identification and formulation, Project Feasibility, Project Pricing and Estimation, Cost-Benefit Analysis Stakeholder engagement - Resource Levelling – Resource Allocation, Project Management Techniques, Strategic aspect of Project Management. Include contents of execution

UNIT - III

Project Monitoring and Control: Setting a Base Line - Project management Information System – Indices to monitor progress. Contract Management, Projects - Teamwork in Project Management - Attributes of a good project team – Formation of effective teams – stages of team formation, Conflict Management.

UNIT - IV

Project Closure: Project Metrics, Project management information system (PMIS) Project evaluation - Project Auditing – Phases of project Audit - Ethics in Project Management - Project closure reports Guidelines for closeout reports.

UNIT - V

Special Topics in Project Management/Contemporary issues in Project Management: Contract Management, Quality Management, Computers, e-markets, and their role in Project management - Risk management, Environmental Impact Assessment, The Project Management Maturity Model (PMMM), Agile project Management.

TEXTBOOKS:

1. Harold Kerzner, “Project Management- A Systems Approach to Planning, Scheduling, and Controlling”, Twelfth Edition, 12th ed., Wiley Publications, 2017.
2. Stanley E. Portny, PMP, “Project Management for Dummies”, 5th Edition, John Wiley & Sons, Inc., 2017.
3. Richard Newton, “Project Management Step-by-step, How to plan and manage a Highly Successful Project”, Pearson Education, 2012.
4. Paul Sanghera, “PMP® In Depth Project Management Professional Certification Study Guide for The PMP® Exam”, Third Edition, Apress, Springer Science Business Media, 2018.

SUGGESTED READINGS:

1. Albert Lester, “Project Management Planning and Control, Managing Engineering, construction, and Manufacturing projects to PMI, APM and BSI Standards”, 7th ed., Butterworth-Heinemann an imprint of Elsevier, 2017.
2. Ed Stark, “Agile Project Management, Quick start Guide, The simplified Beginner’s Guide to Agile Project Management”, Second Edition, Clyde Bank Business, 2012.
3. “A Guide to the Project Management Body of Knowledge (PMBOK Guide 3rd Edition)” by The Project Management Institute, 2017
4. Dale Cooper, Stephen Grey, Geoffrey Raymond, Phil Walker, “Project Risk Management Guidelines, Managing Risk in Large Projects and Complex Procurements”, 2nd ed., John Wiley & Sons Ltd., 2014.
5. Melanie McBride, “Project Management Basics - How to Manage Your Project with Checklists”, Apress, Springer Science Business Media, 2016.
6. Massimo Pica, “Project Life Cycle Economics - Cost Estimation, Management and Effectiveness in Construction Project”, Gower Publishing Limited, 2016.

23MBO203**BANKING MANAGEMENT**

Instruction	4 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation:	40 Marks
Credits	4

COURSE OBJECTIVES: This course aims to

1. To provide Conceptual and Practical understanding of Banking Industry and Monetary Policy implications.
2. To make Students proficient in Management of various Lending functions and educate them in Credit Delivery and Monitoring and Managing.
3. To equip the students with latest trends, Regulations and Innovations in banking arena.

COURSE OUTCOMES: Completion of this Course, Student will be able to

1. Understand Banking system and get insight on overview of Banking.
2. Acquire Knowledge on Banks monetary Policy –Implication and Analyze Financial Statements.
3. Develop a clear understanding and knowledge about the Lending functioning of bank.
4. Analyze the importance of Credit Delivery and monitoring as well as how a bank manages Credit Risk.
5. Explain on banking Regulatory system and evaluate new innovations in banking products and services.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	2	1	2	-	1	3
CO2	3	-	1	1	1	2
CO3	2	2	-	1	2	2
CO4	1	2	1	1	1	3
CO5	2	2	-	-	2	2

UNIT - I

Introduction: Banking: Evolution of Banking in India - Origin, Nationalization, Reforms of Banking sector. Types of Banking: Universal Banking, Wholesale Banking, Branch Banking, Retail Banking; Role of Banks in the development of Economy, RBI: Origin and Growth - Functions. Monetary Policy: Central Bank tools to regulate Money Supply. Banks Financial statements: Basic Concepts - Bank Liabilities, Assets and Income statement. Analysing Banks Financial Statements, CAMELS Ratings.

UNIT - II

Sources and Uses of Bank Funds: Sources of Bank Funds, Approaches to Deposit pricing, Types of lending: Fund-based lending, non-fund-based lending, Asset-based lending. Credit process and Financial appraisal for Credit Decisions, Different types of Loans and their features, Loan Pricing - The Basic Model, Pricing Fixed and Floating Rate Loans, Hedging, Matched funding, Cost-Benefit Loan Pricing, Customer Profitability Analysis.

UNIT - III

Credit Delivery and Monitoring: Modes of Credit Delivery - Cash Credit, Working Capital Demand Loan, Overdrafts, Bills finance and Pricing of Loans. Legal aspects of lending - Secured and Unsecured Loans and Types of Securities. Credit Monitoring - Need for Credit Review, Triggers of Financial Distress - Models of Financial Distress - The Altman's Z score

UNIT - IV

Managing Credit Risk: Basic Concepts - Expected and Unexpected Loss, Elements of Credit Risk, Managing Credit Risk-Estimating PD, EAD and LGD, Migration Approaches - Credit Migration Approach used by Credit Metrics, Calculation of Portfolio Risk, Option pricing Approach - KMV Model.

UNIT -V

Regulation and Innovations in Banking System: Regulation of Bank Capital: Concept of Economic Capital, Regulatory Capital, Basel Accords I, II and III - Implementation, Criticism. NPA's - Gross and Net concept of NPA's, Causes, Implications and Recovery of NPA's. Banking Innovations: Retail Banking-Products and Services, Plastic Money and E-Money, National Electronic Funds Transfer, RTGS, ATM, Mobile Phone Banking, Net Banking and Security Issues in E-Banking.

TEXT BOOKS:

1. Padmalatha Suresh and Justin Paul, "Management of Banking & Financial Services", 4th Edition, Pearson Education, 2018
2. Peter.S.Rose and Sylvia. C. Hudgins, "Bank Management & Financial Services", 8th Edition, Tata McGraw Hill, 2014.
3. K. Sriharsha Reddy and R.Nageswar Rao, "Banking & Insurance, First Edition, Paramount Publishing House, 2013.
4. Vasant Desai, "Banks & Institutional Management", Himalaya Publishing House, 2nd Edition, 2010.

SUGGESTED READINGS:

1. Bank Financial Management, IIBF, Macmillan, 2010.
2. Vijayaragavan Iyengar, Introduction to Banking, Excel Books, 2009.
3. Reddy. P.N., Appannaiah. H.R.; Theory & Practice of Banking; 8th Edition, Himalaya Publishing House, 2004.
4. V.Rajaraman, Credit Appraisal Risk Analysis & Decision Making, 10th Edition, Snow white, 2019.
5. S.K. Maheshwari S.N. Maheshwari, "Banking Law and Practice", Kalyani Publishers, 11th Edition 2014.
6. Mittal R.K., Saini A.K. & Dhingra Sanjay, "Emerging Trends in the Banking Sector", Macmillan, 2008.

5. Strategic Planning: Formulation of Corporate Strategy, V. S. Ramaswamy, S. Namakumary, Macmillan Publishing House. 2000
6. Strategic Management: Theory and Applications, Adrian & Alison, Oxford University Press, 2010.

23MBE301**INVESTMENT MANAGEMENT**

Instruction	3 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation:	40 Marks
Credits	3

COURSE OBJECTIVES: This course aims to

1. To provide in-depth analysis of various investment opportunities including fixed income securities.
2. To demonstrate fundamental and technical analysis along with common stock valuation.
3. To provide an insight into portfolio theories and evaluation.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Classify various investment options with risk and return calculations.
2. Evaluate the bonds and strategies to manage them.
3. Choose the investment option with the help of fundamental and technical analysis.
4. Measure the value of common stocks by applying various approaches.
5. Construct the portfolio using various models.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	3	2	1	1	1	3
CO2	3	2	1	1	1	3
CO3	3	2	1	1	1	3
CO4	3	2	1	1	1	3
CO5	3	2	1	1	1	3

UNIT - I

Introduction: Concept, Investment Decision Process; Real vs. Financial assets; Sources of investment-information; Investment vs. Gambling and Speculation; Factors to be considered in investment decision. The concept and Measurement of Risk and Return (Individual and Portfolio) - Range, Standard Deviation and Co-Efficient of Variation, Ex-ante and ex-post returns. Risk return trade-off. (Simple Problems).

UNIT - II

Fixed Income Securities: Fixed Income Securities Features and types of debt instruments, Types of bonds- Euro bonds, Foreign bonds and Global bonds, Gold Bonds, Bond indenture, factors affecting bond yield. Bond yield measurement - Current yield, holding period return, YTM, AYTM and YTC. Bond duration- Macaulay's duration and modified Macaulay's duration. Bond convexity. Bond portfolio management strategies - active and passive. (Problems and Cases).

UNIT - III

Fundamental and Technical Analysis: Approaches to Investment analysis- Fundamental Analysis- Economy, Industry and Company analysis - Factors, Technical Analysis. - Dow theory, charts, moving averages, Relative strength index, Efficient Market Hypothesis, Japanese candle stick method, Random Walk Hypothesis, Martingale Strategy, Bollinger Band. (Problems and Cases).

UNIT - IV

Common Stocks- Analysis and Valuation: Common Stocks - Analysis and Valuation Basic Features of Common Stock, Approaches to valuation- Balance sheet model, dividend capitalization models; earnings capitalization models; Security Market Indexes, their uses; computational procedure of Sensex and Nifty. (Problems and Cases).

UNIT - V

Portfolio Theory and Evaluation: Portfolio Theory and Evaluation Concept of portfolio. Portfolio return and risk. Harry Markowitz's Portfolio theory, construction of optimal portfolio, Single-index model. Capital market theory: Introduction of risk-free asset, Capital Market Line (CML). Capital asset pricing model (CAPM): Security Market Line (SML). Introduction to Mutual Funds. Performance measures - Sharpe's reward to variability index, Treynor's reward to volatility index, Jensen's differential index, Fama's decomposition of returns. (Problems and Cases).

TEXT BOOKS:

1. Gerald R. Jensen, Charles P. Jones "Investments: Analysis and Management", 14th edition, Wiley India edition. 2019.
2. Prasanna Chandra, "Investment Analysis and Portfolio Management", 6th edition, McGraw Hill India, 2021.
3. V.K. Bhalla, "Investment Management", 19th edition, S. Chand Publications, 2013.

CO2	1	3	-	-	1	2
CO3	2	3	-	-	1	1
CO4	2	2	-	-	-	2
CO5	2	3	-	-	2	2

UNIT - I

Introduction: Data Mining; Kinds of data that can be mined- Database Data, Data Warehouses, Transactional Data, Other Kinds of Data; Major Issues in Data Mining- Mining Methodology, User Interaction, Efficiency and Scalability, Diversity of Database Types, Data Mining and Society

UNIT - II

Data Pre-processing: Data Pre-processing: An Overview- Reasons to process the data, Major Tasks in Data Pre-processing; Data Cleaning- Missing Values, Noisy Data, Data Cleaning as a Process; Data Reduction- Principal Component Analysis, Histograms, Clustering, Sampling, Data Cube Aggregation; Data Transformation and Data Discretization- Data Transformation by Normalization, Discretization by Binning, Discretization by Histogram Analysis. Case Study: Handling Missing Values in Melbourne Housing Price Data.

UNIT - III

Association Rule Mining and Clustering: Mining Association Rules - Item sets, Association Rules, Generating Rules Efficiently; Metrics for Association Rule Mining- Support, Confidence and Lift; Pros and Cons of Association Rule Mining.

Clustering- Finding Similarities Using Distances- Euclidean Distance and Other Distance Metrics; K- Means Clustering and Hierarchical Clustering; Comparing Clusters Created by K-Means and Hierarchical Clustering
Case Study III.1: Market Basket Analysis of Groceries Dataset
Case Study III.2: Mall Customer Clustering

UNIT - IV

Classification Problems- I- Logistic Regression: Overview of Classification; Binary Logistic Regression; Classification- Encoding Categorical Features, Building Logistic Regression Model, Printing Model Summary, Predicting on Test Data; Measuring Accuracies - Creating Confusion Matrix, Receiver Operating Characteristic (ROC) and Area Under the Curve; Finding Optimal Classification Cut-off - Youden's Index and Cost - Based Approach.

Case Study: Predicting Employee Attrition on HR Attrition Dataset.

UNIT - V

Sentiment Analytics Using Naïve Bayes Algorithm: Exploring the Dataset; Text Preprocessing- Bag-of-Words Model, Creating Count Vectors, Displaying Document Vectors, Removing Low Frequency Words, Removing Stop Words, Creating Count Vectors, Distribution of Words across Different Sentiment. Using Naïve Bayes Model for Sentiment Classification. Using n-Grams for Sentiment Classification

Case Study: Sentiment Analytics on Sentiments Expressed by Users of Zomato

TEXT BOOKS:

23MBE308**PYTHON PROGRAMMING**

Instruction	3 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation:	40 Mark
Credits	3

COURSE OBJECTIVES: This course aims to

1. To Understand Python programming and related eco-system of libraries and packages.
3. To demonstrate usage of Python as standard Programming Language.
4. To analyze the data and represent the data with various visualization techniques.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Understand the basics of Python and extend the functionality using add-on packages.
2. Identify and apply different ways of storing information.
3. Extract data from dataset and apply loop and control statements.
5. Analyze data using various data manipulation tasks on the dataset.
6. Compare and contrast the data and its variations with visualization techniques.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	2	2	-	-	-	1
CO2	-	3	-	-	-	2
CO3	-	2	-	-	-	2
CO4	-	2	-	3	-	-
CO5	-	3	-	-	-	3

UNIT- I

Introduction: Introduction on Essential Python Libraries- NumPy, Pandas, Matplotlib, IPython and Jupyter, SciKit-Learn, StatsModels; Declaring Variables in Python-Integer, Float, Boolean and String.

Activity I.1: Installation and Setup;

Activity I.2: Basic Exercises Using Python- Input and Output Exercise.

UNIT- II

Built-In Data Structures-I: Introduction to Loops- If, If-else, else, for and while; Introduction to Functions; Strings; Random Number Generation; Performing Basic Statistics on the Generated Random Numbers; Introduction to Built-in Data Structures- List, Dictionary, Set and Tuple;

Activity II.1: Exercise on Loops, Functions and Strings

Activity II.2: Exercises on List- List Operations and Manipulations, List Functions, List Slicing, List Comprehension.

UNIT- III

Built-In Data Structures-II: Introduction to Dictionary- Operations and Manipulations, Dictionary Functions and Comprehension; Introduction to Sets- Operations and Manipulations and Comprehension; Introduction on Tuples- Creation of a Tuple, Operations and Manipulations, Unpacking a Tuple

Activity III.1: Exercise on Dictionary and Sets Activity III.2: Exercise on Tuples

UNIT- IV

Working With Pandas Dataframe: Loading the dataset into Pandas Data Frame; Type of the Dataset; List of Columns in the Dataset; Printing first 5 and last 5 records; Transpose Operation; Shape and Information of Dataset; Slicing and Indexing; Value Counts and Cross Tabulations; Sorting Data Frame by Column Values; Creating New Columns; Grouping and Aggregating; Joining Data Frames; Applying Different Operations; Conditional Filtering; Dropping a Column or a Row.

Case Study: World Happiness Score Data

UNIT- V

Data Visualization Using Matplotlib and Seaborn: Importance of Data Visualization in presenting a Business Problem; Types of Charts- Bar Chart, Pie Chart, Histogram, Distribution Plot, Box Plot, Comparing Distributions, Scatter Plot, Pair Plot and Heat Map. Subplots, Colors, Markers, Line Styles, Ticks, Labels and Legends, Annotations and Drawing on a Subplot

Case Study: Data Visualization of Retail Mart Data.

TEXT BOOKS:

1. Gowrishankar, Veena, "Introduction to Python Programming", 1st Ed., CRC Press, 2019.

23MBC302**INTERNSHIP**

Instruction	4-5 weeks/90 hrs
Duration of Semester End Examination	-
Semester End Examination	-
Continuous Internal Evaluation:	100 Marks
Credits	2

COURSE OBJECTIVES: This course aims to

1. To equip the students with the opportunity to apply the theoretical knowledge and skills acquired during their coursework to real-world business scenarios and enhance their managerial, leadership, problem-solving, and decision-making skills through hands-on experience.
2. To facilitate networking opportunities for students to connect with professionals in their field of interest, potentially leading to future job opportunities or mentorship
3. To Foster the development of professionalism, work ethics, and adaptability in a real business environment.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Demonstrate their practical skills, industry knowledge, and adaptability, making them more attractive to potential employers.
2. Connect with professionals, mentors, and industry experts, expanding the students' professional network and potential job prospects.
3. Gain Improved Self-Awareness and gain a better understanding of their strengths, weaknesses, and areas for improvement, which can guide their professional development.
4. Acquire Industry Insights and exposure to industry-specific challenges, market dynamics, and best practices, equipping students with valuable insights and knowledge.
5. Get Job Offers from the companies, get an opportunity for higher education or set up a start-up.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	3	3	3	3	3	1
CO2	3	3	3	3	3	1
CO3	2	2	3	2	3	3

CO5	1	1	1	3	3	3

Assessment:

Stages of Evaluation	Marks
1. Evaluation by Faculty & Industry	30 Marks
2. Evaluation by Faculty Guide	30 Marks
3. Evaluation through Seminar Presentation/Viva-voce at the Institute	40 Marks
Total	100 Marks

Details are giving in the Academic Rules: p.7 & 8; 14 to 27 (Annexure-I)

23MBC303**PROJECT WORK (PART-1)**

Instruction	4 Hours per week
Duration of Semester End Examination	-
Semester End Examination	-
Continuous Internal Evaluation:	100 Marks
Credits	2

COURSE OBJECTIVES: This course aims to

1. To teach students how to conduct a comprehensive literature review, critically analyze existing research, and identify relevant theories and concepts.
2. To enable students to identify research gaps, formulate clear research questions, and define the scope of their proposed studies.
3. To guide the students in selecting appropriate research methodologies, data collection techniques, and analysis methods based on their research questions.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Conduct a comprehensive literature review to establish the context, theoretical framework, and rationale for their research.
2. Develop clear and focused research questions that address gaps in existing literature or real-world issues.
3. Choose appropriate research methodologies, whether qualitative, quantitative, or mixed methods, aligned with their research objectives.
4. Design research plans that outline data collection procedures, data analysis techniques, and sampling strategies.
5. Understand and apply ethical standards of conduct in the collection and evaluation of data and other resources

COs	PO1	PO2	PO3	PO4	PO5	PSO1

CO2	3	2	1	1	1	2
CO3	3	3	2	2	2	3
CO4	2	3	1	3	-	2
CO5	2	2	2	2	3	3

Assessment:

Assessment (CIE) will be carried out at the end of III semester by the Committee (constituted by Head of the Department) for 100 max marks on the below parameters:

	Criteria	Max. Marks Awarded
1.	Title and Significance of the Study	10
2.	Objectives and Hypothesis	10
3.	Relevance of Review of Literature	10
4.	Sources of Data (Primary & Secondary)	10
5.	Statistical Tools (Identification & Relevance)	10
6.	Interaction and Discussion with Guide	10
7.	Organization of PPTs & Presentation Skills	10
8.	Answering the Queries	10
9.	*Paper presented in Conferences	20
	Total	100

*Papers presented in Conferences [National 10 marks, International (within India) 15 marks, International Abroad 20 marks]

Details are provided in MBA Academic Rules (R-23): p.no.8; 28 (Annexure-II)

23MBD301**COMPREHENSIVE DEVELOPMENT - III**

Instruction	-
Duration of Semester End Examination	-
Semester End Examination	-
Continuous Internal Evaluation:	50 Marks
Credits	1

COURSE OBJECTIVES: This course aims to

1. To develop the students with practical experiences that reinforce the concepts taught in the classroom and enhance their managerial skills and soft skills.
2. To allow the students to pursue interests, develop skills, and socialize beyond the classroom setting through extra-curricular activities.
3. To encourage the students to engage with the community extension programs and activities; and to promote the overall health and wellness.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Develop leadership skills, network with professionals and gain practical experience outside of the classroom.
2. Grab the opportunities for personal growth, leadership development, and explore new passions.
3. Transform themselves as leaders to social change to provide solutions to social problems.
4. Develop themselves, enhance skills, and make a positive impact on the department, institute, and the community at large.
5. Lead a holistic sense of wellness, promoting a social, emotional, physical, mental and intellectual growth of a student.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	3	3	2	1	2	2
CO2	2	2	1	1	2	1
CO3	2	2	2	1	1	1
CO4	2	2	1	1	2	1
CO5	1	1	2	1	1	1

Description:

For the holistic development, student shall get engaged in the categories of activities: 1. Co-Curricular Activities, 2. Extra-curricular activities, 3. Community Engagement/Extension Activities, 4. Coordinator for Class, Alumni, Internship, Placements, Leadership and Volunteer Roles for Department Activities/Events, participation in department events etc.

The assessment will be done for maximum 50 marks at the end of III semester considering the achievements of III semester only.

Every student shall participate in the activities and submit a report of the participation with the proofs along with learning outcomes. Assessment will be done by a panel formed by the Head of the Department.

Refer MBA Academic Rules (R-23) p.no.7

23MBC401**INNOVATION AND ENTREPRENEURSHIP**

Instruction	4 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation:	40 Marks
Credits	4

COURSE OBJECTIVES: This course aims to

1. Understanding the basic concepts of Innovation and entrepreneurship,
2. To provide insights in converting an idea to an opportunity and develop
3. Familiarizing the concepts of funding, venture capital financing and international entrepreneurial opportunities.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Understand the basic concepts and types of innovation.
2. Explain the importance of Entrepreneurship in Economic Development.
3. Analyse the Feasibility in Report writing.
4. Analyse the different funding sources for promotion of entrepreneurship.
5. Identify the Appropriate agencies for funding to start-ups.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	2	1	-	1	1	3
CO2	1	1	-	2	1	3
CO3	3	3	1	2	1	3
CO4	1	1	-	2	1	3
CO5	1	1	-	2	2	3

UNIT - I

Innovation: Meaning, difference between innovation and creativity, Innovation types and Platforms, Business Model Innovation, Service Innovation, Design-led innovation, Improvisation, Large firm Vs. Start-up innovation, Co-creation, and open innovation, developing an innovation strategy, Sources of innovation, Innovation Environment, Creative Destruction.

UNIT - II

Entrepreneurship: Definition, Factors, Characteristics, Functions, Types and Skills. entrepreneur v/s manager, Concept of intrapreneurship, entrepreneurial decision process, challenges faced by entrepreneurs and changing role of entrepreneur. Women enterprises, social, and rural entrepreneurship. Role of Innovation and Entrepreneurship in Economic Development.

UNIT - III

From Idea to opportunity: Idea generation- sources and methods, Concept of Design Thinking, idea to business opportunity, Opportunity assessment, Business Plan, Feasibility Analysis – aspects and methods: Economic analysis, financial analysis, market-, and technological feasibility.

UNIT - IV

Entrepreneurial Finance, Assistance and Entrepreneurial Development Agencies: Estimating financial requirement; Sources of finance – Banks, and Financial Institutions, Financing of Small-Scale Industries in Developing Countries. Role of central government and state government in promoting entrepreneurship with various incentives, subsidies, grants, export-oriented units – fiscal and tax concessions. Overview of MSME policy of government in India. Entrepreneurship Development Programs.

UNIT - V

Launching a Business Venture: Process of New Venture and its Challenges, Venture capital, Angel investing, Crowdfunding. Launching a New Venture: Steps involved in launching a business (Process charts), Various Forms of business ownership, Registration of business units; start-up to going IPO; revival, exit and end to a venture.

TEXTBOOKS:

1. Desai, Vasant; Dynamics of Entrepreneurial Development and Management; Himalaya Publishing, 2009.
2. Madhurima Lall, Shika Sahai: Entrepreneurship, 2nd edition, Excel Books, 2011.
3. Mitra, Jay: The Business of Innovation, SAGE Publishing, 2017.
4. Robert Hirsch Michael Peters Dean Shepherd, Entrepreneurship 10th Ed (Indian Edition) McGraw Hill, 2016.

SUGGESTED READINGS

1. Rajeev Roy: Entrepreneurship, Oxford University Press, 3rd Edition, 2020.
2. Khanka, S.S.; Entrepreneurial Development; S. Chand and Co., 2006
3. Blundel, R. and Lockett, N.; Exploring Entrepreneurship Practices and Perspectives; Oxford Publications., 2021.
4. Dollinger, M. J.; Entrepreneurship: New Venture Creation; PHI Learning. 2016
5. "Reinventing Your Business Model" by Mark W. Johnson, Clayton M. Christensen, and Henning Kagermann), HBR. 2020

23MBE401**FINANCIAL RISK MANAGEMENT**

Instruction	3 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation:	40 Marks
Credits	3

COURSE OBJECTIVES: This course aims to

1. To make the Students understand the various facets of Risk Management.
2. To provide in depth the concept of Derivatives and its various types.
3. To familiarize the Students about Forwards, Futures, Swaps and Options.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Understand the measures and differentiate between different types of Risks that an Organization faces.
2. Have a comprehensive view about types of Derivatives and their Trading and Settlement.
3. Evaluate Forwards and Futures Contracts and Hedging Strategies.
4. Comprehend the computational aspects of Swaps and the associated Risk.
5. Evaluate various Option Trading Strategies and select the suitable one for the given situation.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	2	3	-	3	1	3
CO2	3	3	-	3	1	3
CO3	2	3	-	3	2	3
CO4	3	3	-	3	1	1
CO5	3	2	-	2	1	2

UNIT - I

Introduction to Risk Management: Concept, Nature, Source, Measurement, Identification and Evaluation of Risk. Types of Risk. Possible Risk Events, Risk Indicators, Risk Management Process- Pre-requisites and fundamentals. Misconceptions of Risk. An Integrated Approach to Corporate Risk Management. Management of Interest Rate Risk, Credit Risk and Exchange Rate Risk. Non-Insurance methods of Risk Management- Risk Avoidance, Loss Control, Risk Retention and Risk Transfer.

UNIT - II

Derivatives – Forwards & Futures: Definition, Evolution and Features of Derivatives, Types of Derivatives, Uses of Derivatives, Participants in Derivative Market, OTC and Exchange Traded Securities; Clearing and Settlement, the Role of Derivatives Market.

Forwards: Definition- Features and pay-off profile of Forward Contracts. Valuation of Forward contracts. Futures: Definition- Specifications of Futures Contract - Margin Requirements- Marking to Market- Basis and Convergence of Future price and Spot price. Valuation of Future Contracts. Difference between Forwards and Futures Contracts.

UNIT - III

Swaps: Concept and Nature- Evolution of Swap Market- Features of Swaps - Major Types of Swaps: Interest Rate Swaps- Currency Swaps - Commodity Swaps- Equity Index Swaps. Credit Risk in Swaps - Credit Swaps - using Swaps to Manage Risk - Pricing and Valuing Swaps.

UNIT - IV

Options: Definition - Exchange and OTC Traded Options, Specifications of Options – Option types – Option payoff, Options on Stock Indices and currency. Option Pricing Models: The Binominal Option Pricing Model (BOPM): Assumptions and problems - single and two period models. The Black and Scholes Option Pricing Model (BSOPM): Assumptions and problems.

UNIT - V

Fund Accounting and Mutual Funds: Fund accounting: Definition, concept, types of Fund Accounting (Governmental, Proprietary, and Fiduciary). Mutual Funds: Definition, Concept, Types & classifications, Asset Management Company (AMCs), Computation of NAV of a mutual fund.

TEXT BOOKS:

1. John C. Hull & Sankarshan Basu, “Options, Futures and Other Derivatives”, Pearson Education ,11th Ed, 2022.
2. S.K.Mishra, “ Derivatives and Risk Management”, Everest Publishing House ,2nd Ed., 2010 .
3. David. A. Dubofsky; Thomas. W. Miller, Jr., “Derivatives Valuation and Risk Management”, Oxford University Press, 2003.
4. Sundar Sankaran, “Indian Mutual Funds Handbook: A Guide for Industry Professionals and Intelligent Investors”, 5th Ed., Vision Books, 2018.

SUGGESTED READINGS:

1. R.Madhumathi,M. Ranganatham, “ Derivatives and Risk Management”, Pearson Education, 2012 .
2. Paul Hopkins, Kogan Page, “Fundamentals of Risk Management”, Institute of Risk Management,4th Ed., 2017.
3. Jean-Philippe Bouchaud and Mark Potters, “Theory of Financial Risk and Derivative Pricing”, 2nd Ed.,Cambridge press, 2009.
4. Prabina Rajib., “Commodity Derivatives and Risk Management”, 2nd Ed, PHI, 2017.
5. Ankit Gala & Jitendra Gala.,” Guide to Indian Mutual Fund”, 2nd Edition, Buzzingstock Publishing House; 2007.

23MBE402**INTERNATIONAL FINANCE**

Instruction	3 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation:	40 Marks
Credits	3

COURSE OBJECTIVES: This course aims to

1. To make the students to understand the international finance environment.
2. To provide the students to learn foreign exchange market and determination in the context of risk management.
3. To familiarize the students about corporate decision making in global markets and international tax environment.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Understand the international financial system, international banking and financial instruments.
2. Know and Evaluate exchange rate mechanism and Balance of Payment
3. Understand and solve theories of exchange rate and debt and currency crises.
4. Understand and evaluate the multinational financial functions.
5. Have a comprehensive view about international tax environment.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	3	1	-	2	2	3
CO2	3	3	-	3	1	2
CO3	3	3	-	2	1	2
CO4	3	3	-	3	1	2
CO5	3	3	-	3	2	3

UNIT - I

International Financial System: Evolution of International Financial System–Gold Standard, Bretton Woods Standard, Floating Exchange Rate, European Monetary System, Currency Board, Sterilized and Unsterilized Intervention; Global Financial Institutions – IMF, Bank for International Settlements; International Banking-Euro Bank, Types of Banking Offices-Correspondent Bank, Representative Office, Foreign Branch, Subsidiary Bank, Offshore Bank.

UNIT - II

Foreign Exchange Market: Distinctive Features and Types, Participants in Foreign Exchange Market, Structure of Foreign Exchange Market in India, Exchange Rate Mechanism – Quotes in Spot Market and Forward Market, Triangular Arbitrage; Nominal Effective Exchange Rate (NEER), Real Effective Exchange Rate (REER); Foreign Exchange Management Act; BOP, BOP Trends in India; Current Account Convertibility, Capital Account Convertibility, Tarapore Committee Report.

UNIT - III

Exchange Rate Determination & Risk Management: Theories of Exchange Rate Behaviour, Parity Conditions – Purchasing Power Parity, Interest Rate Parity, International Fisher Effect, Unbiased Forward Rate Theory. International Debt Crises and Currency Crises- Asian Currency Crisis, Greek Debt Crisis; Management of foreign exchange exposure and measurement – Translation, Transaction and Economic exposure.

UNIT - IV

Multinational Corporate Decisions in Global Markets: Nature of International Finance Functions and the Scope of International Financial Management, IFM and Domestic FM, Foreign Investment Decision-Foreign Direct Investment (FDI) – Motives, FDI Theories – Theory of Comparative Advantage, OLI Paradigm of FDI in India, Modes of Foreign Investment, Evaluation of Overseas Investment Proposal using NPV and APV; International Portfolio Diversification – Rationale, Barriers, Home Country Bias.

UNIT-V

US Taxation: Concept, Definition, US Business Tax, US Corporate Tax, US Individual Tax, US Direct Tax, US Tax, Types of various tax forms such as 1065, 1120, 1120s, 1040, 1041, 990, Schedule K-1, K-2 & K-3, Preparation & Reviewing of tax forms, US International Tax compliance Form 1120-F, 5471 and 8858, 8865, 8990, 8991, 8992, FBAR, FATCA, PFIC, etc

23MBE403**INDUSTRIAL RELATIONS AND LABOUR LAWS**

Instruction	3 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation:	40 Marks
Credits	3

COURSE OBJECTIVES: This course aims to

1. To develop an understanding of the basics of industrial relations Concepts.
2. To introduce them the concepts of Trade Unions and Labour Administration Machinery.
3. To discuss the importance and various provisions of labour laws in the Digital Era.

COURSE OUTCOMES: Completion of this Course, student will be able to

1. Apply the knowledge of basics and approaches of industrial relations in real time situations.
2. Understand the dynamics of trade unions and their recognition for successful negotiations.
3. Appraise the process of labour administration and labour policy in the Digital Era.
4. Develop Strategies to deal with various parties involved in Industrial Relations.
5. Interpret and implement various updated provisions related to Labour Laws.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1

CO2	2	1	2	2	2	2
CO3	2	1	1	2	2	1
CO4	2	2	2	2	2	2
CO5	2	2	2	2	2	2

UNIT - I

Industrial Relations Perspectives: Conceptual framework and approaches to Industrial Relations – Factors influencing Industrial Relations in India - Industrial relations vs Employee relations. Industrial conflict - Types and causes of Industrial disputes - Machinery for prevention and settlement of Industrial disputes. Recent Amendments.

UNIT - II

Trade Unions: Structure, characteristics and Functions of Trade Union; Trade Union Act-1926 - Problems of Trade union recognition - Recognition of Trade unions as Collective Bargaining Agents - Problems and Issues involved in Collective Bargaining Process - Role of Collective Bargaining in promoting Industrial amity and peace - Levels of Collective Bargaining i.e. Unit, Plant, Industry, Geographical, National Levels - Industrial Employment (Standing Orders) Act-1946. Recent Amendments.

UNIT - III

Labour legislation Administration: Importance of Labour laws, The classification of Labour Laws - Labour Administration - Evolution of Labour Administration in India - Public Interest Litigation and Child Labour - Role of ILO in Labour Administration. WTO and Social Clause - Employee Discipline: Causes of Indiscipline – Code of Discipline – Disciplinary Procedure – Code of Conduct.

UNIT - IV

Employee Benefits: Defining and Exploring employee benefits - Employee benefits practice - Legal and discretionary benefits practice - The economics of employee benefits - The ESI Act 1948 - The Maternity benefit Act 1961 - The workmen's compensation Act 1923 - The Payment of Gratuity Act 1972 - Employee Provident Fund and Miscellaneous Provisions Act 1952. -Recent Amendments.

UNIT - V

Wage legislation and administration: The need for and importance of Wage legislation - Payment of Wages Act 1936 -The minimum wages Act 1948 - The payment of Bonus Act 1965- Equal remuneration Act 1976 - The context and concept of wage – Components and the determinants of wage -Recent Amendments.

23MBE404**LEADERSHIP AND CHANGE MANAGEMENT**

Instruction	3 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation:	40 Marks
Credits	3

COURSE OBJECTIVES: This course aims to

1. To develop an understanding of the basics of Leadership and Change Management Concepts.
2. To introduce them the concepts of Leadership Approaches and elements of Change.
3. To discuss the importance and various components of Change Management in the Global Era.

COURSE OUTCOMES: Completion of this Course, student will be able to

1. Apply the knowledge of philosophies, theories and Styles of Leadership in real time situations.
2. Understand the dynamics of Systemic Leadership and its importance in leading.
3. Appraise the process of authority and Obedience and Leading in the Global Era.
4. Develop understanding towards the Realities, forces of Change and Manage Change accordingly.
5. Interpret and Implement desired behaviours and group dynamics and implement Change.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	3	2	2	2	3	2
CO2	2	2	2	3	2	2
CO3	2	2	1	1	3	2

CONSUMER BEHAVIOUR

Instruction	3 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation:	40 Marks
Credits	3

COURSE OBJECTIVES: This course aims to

1. To give the perspective of Consumers, their Buying Behavior patterns and address the importance of environmental influences on volatile Consumer Behavior.
2. To get the students acquainted with the concepts of Consumer Motivation, Personality, Perception and its implication that help them in obtaining knowledge on individual determinants of Consumer Behavior.
3. To enable students to understand the consumer decision making process and gain insights about the models of Consumer Behavior comprehensively.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Understand the concepts to be applied to Marketing strategy.
2. Analyze the environmental factors affecting Consumer Buying Behavior and learn the impact of socio-cultural settings on the consumption behavior.
3. Develop the Marketing Strategies by applying the dynamics that influence consumers in taking decisions.
4. Analyze the challenges that might influence the formulation of effective Marketing Strategies from a Consumer Behavior perspective.
5. Evaluate the dynamics of Human behavior and the basic factors that influence the Consumer Decision Process.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	3	2	1	2	1	2
CO2	3	3	2	3	1	2
CO3	2	3	1	2	2	2
CO4	3	3	2	2	1	1
CO5	2	2	1	3	1	1

UNIT - I

Introduction: Introduction, Definition, Customers and Consumers, Consumer Behavior and its Applications, Evolution of Consumer Behavior, Market Research and Consumer Behavior, Market Segmentation and Positioning, Consumer Behavior Model. Role and Impact of social-Media on Consumer Behavior, Social Media Marketing- Impact, benefits and challenges Consumer Behavior Analytics.

UNIT - II

Environmental Influences on Consumer Behavior: Culture, Cross-Cultural Subcultures – Nature and characteristics and influence, Social Class - Process of Social Stratification, Social Class and Consumer Behavior, Social Groups -Classification and Properties, Reference Groups- Nature and types, Family, Family Life Cycle, Family Purchasing Decisions, Communication and Influence Flow, Opinion Leadership, Adoption and Diffusion of Innovations.

UNIT - III

Individual Determinants of Consumer Behavior: Personality and Self-Concept- Theories and Applications, Self-Concept, and Consumer Behavior; Motivation and Involvement - Nature and Role of Motives, Dimensions of Involvement. Information Processing - Information Acquisition, Perceptual Encoding, Marketing Implications. Learning and Memory- Characteristics and theories, Retrieval of Information. Attitudes - Characteristics, Functions, Sources of Attitude Development, Attitude Theories and Models.

UNIT - IV

Consumer Decision Processes: Problem Recognition- Types, Situations, Results, Marketing Implications. Search and Evaluation of Information- Process and Marketing Implications. Purchasing Processes Choosing a Store, In-Store Purchasing Behavior, Non-store Purchasing Processes, Purchasing Patterns. Post Purchase Behavior, Product Disposition, Social-Media influence on attitudes, beliefs and Purchasing Decisions of a Consumer,

UNIT - V

Models of Consumer Behavior: Microeconomic Model, Macroeconomic Model. Contemporary Models Nicosia Model, Howard-Sheth Model, Engel-Kollat-Blackwell- Model, Sheth Family Decision Making Model, Bettman's information Processing Model, sheth-Newman Gross model of Consumption Values, Mc Kinsey social media model.

23MBE406**SERVICES AND RETAIL MARKETING**

Instruction	3 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation:	40 Marks
Credits	3

COURSE OBJECTIVES: This course aims to

1. To provide students with the concepts of Services, identify critical issues in service design, building service model.
2. To provide an in-depth understanding on strategies to deal with characteristics of services and the unique challenges inherent in managing and delivering quality services and concept of services marketing triangle.
3. To create awareness on retail formats, theories and discuss the issues relating to merchandise management, emerging concepts.

COURSE OUTCOMES: Completion of this Course, students will be able to

1. Understand the concepts of services and how unique characteristics impact on design and execution of marketing strategies of services; and basics and the retail scenario in emerging markets.
2. Understand how 7Ps of marketing can be used to address various marketing issues and recognise the challenges faced in services delivery as outlined in the Gaps model.
3. Apply suitable marketing mix for various services and develop strategies to deal with characteristics of services.
4. Design unique retail formats considering the need of the customers.
5. Analyze consumer evaluations of retail offerings and apply retail concepts to real situations and formulate retail marketing strategies for the success of retail industry.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	1	-	-	2	1	1
CO2	1	1	-	2	1	2
CO3	3	2	1	3	2	2
CO4	3	1	2	3	2	2
CO5	3	2	1	2	3	2

UNIT - I

Introduction: Introduction to Services Industry, Services Concepts- Nature and Characteristics of Services, Scope of Goods and Services, Goods- Services continuum, 4Is of Services, Service Encounters, Types of Services Industries.

Retailing – Concept of Retail, How Retail Business works? Organized vs Unorganized retailing, Retail Scenario in emerging markets (India) - Significance, Indian retail sector evolution in different sector.

UNIT - II

Service marketing Mix and Service Excellence: Services Marketing Mix: Product, Pricing, Promotion, People, Physical evidence and Process. Service Excellence – Enabling Service Excellence, Delivering Value, Service Failure & Recovery, Service Quality, Customer Loyalty.

UNIT - III

Strategies for Service Marketing: Overview, Strategies for dealing with Intangibility, Inventory, Inconsistency and Inseparability. Service Marketing Triangle- External Marketing, Internal Marketing, Interactive Marketing.

UNIT - IV

Retail Marketing: Retail Classification system and Retail formats, Retail Strategy mix, Retail Pricing- Pricing basics, methods and consequences, role of franchising in retail, Technology in retail, CRM in retailing. E-tailing- Basics, various E-tailing business models, future of e-tailing, challenges.

UNIT - V

Merchandise Management: Sources of Merchandise, Merchandise Presentation Techniques, Category Management, Store Layout and Visual Merchandising – Fundamental of Store Design, Types of Display Areas, Space Planning, Point of Purchase, Retail Operations – Controlling Store Operations, Customer Evaluation.

TEXT BOOKS:

1. Rampal M. K and Gupta S. L, “Services Marketing Concepts, Applications and Cases”, Galgotia Publishing Company - New Delhi, 2008.

23MBE407**ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING**

Instruction	3 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation:	40 Marks
Credits	3

COURSE OBJECTIVES: This course aims to

1. To understand the various Machine Learning Algorithms.
2. To familiarize various Classification Techniques and Recommender Systems.
3. To get the students acquainted with the concepts of different searching techniques of AI systems.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Define the concept of Artificial Intelligence.
2. Apply real life problems in a state space representation so as to solve them.
3. Understand the features of machine learning to apply on real world problems.
4. Compare and contrast Classification and Regression problems.
5. Evaluate various types of recommendation systems.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	3	1	-	-	-	2
CO2	2	3	-	-	2	2
CO3	3	1	-	-	-	1
CO4	3	-	-	1	-	-
CO5	2	-	-	-	-	3

UNIT - I

Artificial Intelligence: Introduction- Meaning and Foundations of AI, History of AI. Intelligent Agents- Agents and Environments, Concept of Rationality, Nature of Environments, The Structure of Agents, AI: The present and Future.

Problem Solving-I: Solving Problems by Searching- Problem Solving Agents, Searching for Solutions, Uninformed Search Strategies

UNIT - II

Problem Solving: Informed Search Strategies, Heuristic Functions, Beyond Classical Search- Local Search Algorithms, Constraint Satisfaction Problems, Chatbot –Introduction, Characteristics and its importance.

UNIT - III

Machine Learning: What is Machine Learning, Types of Machine Learning Algorithms- Supervised, Unsupervised and Reinforcement Learning.

Supervised Learning- Linear Regression, K Nearest Neighbors.

Case Study: Stock Price prediction using Linear Regression,

Predicting Employee Churn Using KNN.

UNIT - IV

Decision Tree Classification: Introduction to Decision Tree; Building Decision Tree Classifier using Gini Criteria; Measuring Test Accuracy; Displaying the Tree; Building Decision Tree Classifier using Entropy Criteria; Finding Optimal Criteria; Maximum Depth of the Tree and Benefits and Disadvantages of Decision Tree

Case Study: Applying Decision Tree Classification on German Credit Data.

UNIT - V

Recommender Systems Using Machine Learning: User Based Similarity- Calculating Cosine Similarity Between Users, Filtering Similar Users, Challenges with User Based Similarity. Item Based Similarity- Calculating Cosine Similarity between Movies, Finding Most Similar Movies. Matrix Factorization

Case Study: Application of Recommender System using Netflix Movie Recommender Data.

TEXT BOOKS:

1. Wei- Meng Lee, “Python Machine Learning”, 3rd Ed., Wiley, 2019.
2. Rich, Knight, Nair, “Artificial Intelligence”, 3rd Ed., Tata McGraw Hill, 2017.
3. Tom M. Mitchell, “Machine Learning”, 4th Ed., McGraw Hill, 2017.
4. Russell, Norvig, “Artificial Intelligence: A Modern Approach”, 2nd Ed., Pearson Education, 2015.

SUGGESTED READINGS:

5. Paul Deitel, Harvy Deitel, “Python for Programmers- with introductory AI Case Studies”, 1st Ed. Pearson Education, 2019.
6. Puneet Mathur, “Machine Learning Applications Using Python: Cases Studies from Healthcare, Retail, and Finance”, 1st Ed., Apress, 2019.

23MBE408**CLOUD COMPUTING**

Instruction	3 Hours per week
Duration of Semester End Examination	3 Hours
Semester End Examination	60 Marks
Continuous Internal Evaluation:	40 Marks
Credits	3

COURSE OBJECTIVES: This course aims to

1. To impart the basics of cloud computing for business management.
2. To illustrate and explore the benefits of cloud storage and its applications, usage by managers.
3. To enable students explore cloud computing driven real time systems.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Understand the characteristics and models in Cloud computing.
2. Asses Cloud services applications and the challenges associated with Cloud Computing.
3. Apply various cloud services and deployment models and virtualization techniques for business.
4. Analyze the concepts of cloud storage and demonstrate their use.
5. Evaluate various cloud programming models and apply them in virtual office management.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	3	-	-	-	-	1
CO2	2	2	-	-	-	2
CO3	2	2	-	-	2	2
CO4	2	-	-	-	2	2
CO5	-	3	-	-	2	2

UNIT - I

Introduction to Cloud Computing: Evolution - Cloud Computing, Hardware, Internet and Software, Virtualization. Cloud service Attributes: Access to the cloud, Cloud Hosting, Information technology support. Characteristics of Cloud Computing: Rapid Elasticity, Pay per use, Independent Resource Pooling, Network Access, Web Services on Cloud

UNIT - II

Cloud Services Applications: Cloud Delivery Models- Infrastructure-as-a-Service, Platform-as-a-Service, Software-as-a-Service. Cloud Categories: Public Cloud, Private Cloud, Hybrid Cloud, Community Cloud. Applications – Online Planning and Task Management –Event Management – CRM. Cloud Service Development tools - Word Processing, Databases, Storing and File Sharing on Cloud

UNIT - III

Cloud Computing for Managers: Centralizing Email Communications – Collaborating on Schedules - To-Do Lists, Contact Lists. Online Community development, Online collaboration tools for Projects, Cloud Computing for Business

UNIT - IV

Cloud Management: Privacy and its relation to Cloud-based Information Systems. Security in the Cloud: Data Security and Control, Provider Loss, Subpoenaed Data, Lack of Provider Security, Encryption. Common Standards in the Cloud, End- User Access to the Cloud Computing, Legal and Ethical dimensions, Cloud Pricing Models.

UNIT - V

Virtual Office Management: Web-based communication tools, Web Mail Services, Web Conference Tools, Social Networks and Groupware, collaborating via blogs and Wikis, IBM, Amazon Ec2, Google Apps for Business

TEXT BOOKS:

1. John W. Rittinghouse and James F. Ransome, “Cloud Computing Implementation, Management and Security”, CRC Press, Taylor & Francis Group, Boca Raton London, 2010.
2. Kumar Saurabh, “Cloud Computing – Insights into new era infrastructure”, 2nd Edition, Wiley India, 2011.
3. Michael Miller, “Cloud Computing: Web-Based applications That Change the Way You Work and Collaborate Online”, Que Publishing, 2009
4. Haley Beard, “Cloud Computing Best Practices for Managing and Measuring Processes for Ondemand Computing, Applications and Data Centers in the Cloud with SLAs”, Emereo Pty Limited, 2008.

SUGGESTED READINGS:

1. Alfredo Mendoza, “Utility Computing Technologies, Standards, and Strategies”, Artech House INC, 2007.
2. Bunker and Darren Thomson, “Delivering Utility Computing”, John Wiley and Sons Ltd, 2006.
3. Igor Fyanberg, Hui-LanLu, Dorskuler, “Cloud Computing business Trends and Technologies”, Wiley Publishers, 2016.
4. Michael Hugos, “Business in the Cloud”, John Wiley & Sons Ltd., 2011.
5. Joe Wienman, “Cloudonomics: The Business value of cloud computing”, John Wiley and sons Ltd, 2012.
6. Anthony T.Velte, Toby J. Velte, Robert Elsenpeter, “Cloud Computing: A Practical Approach”, MCgraw Hill Publishers, 2010.

23MBC402**PROJECT WORK (PART-2)**

Instruction	6 Hours per week
Duration of Semester End Examination	-
Semester End Examination	100 Marks
Continuous Internal Evaluation:	100 Marks
Credits	4

COURSE OBJECTIVES:

This course aims to:

1. To familiarize students with the various stages of the research process, from formulating research questions to presenting findings.
2. To enhance students' research skills, including data interpretation and presentation.
3. To improve students' written and oral communication skills, particularly in presenting project findings and recommendations.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Effectively and clearly present project findings, analyses, and recommendations clearly through written reports and presentations.
2. Formulate practical, data-driven solutions or recommendations to address the identified business problems.
3. Exhibit professionalism, ethical behaviour, and integrity throughout the project work.
4. Demonstrate awareness of ethical considerations in research, including the protection of participants' rights and proper citation practices.
5. Apply the knowledge gained in the course to independently develop and refine research proposals for future academic or professional projects.

Assessment:**CIE Evaluations (100 Marks)**

S.No	Criteria	Marks Awarded
1.	Presentation of the Report	20
2.	Quality of Writing style	10
3.	Heading, sub-heading, spacing, rules of citations etc.	10
4.	Adherence to the Guidelines	10
5.	PPT Presentation	20
6.	Answering the Queries	10
7.	*Research Paper/Case Studies Submitted for Journals/Case Studies Series/inventory in Department	20
Total		100

*ABDC Journals/Journals listed by CBIT

SEE Evaluation (100 Marks)

S.No	Criteria	Marks Awarded
1.	Project Report	40
2.	Viva Voce	40
3.	*Outcome/Learnings of the Project – Contribution of the Work (Business Impact, Social Impact etc)	20
Total		100

Refer MBA Academic Rules (R-23) P.8 & 29 (Annexure-II)

23MBD401**COMPREHENSIVE DEVELOPMENT - IV**

Instruction	-
Duration of Semester End Examination	-
Semester End Examination	-
Continuous Internal Evaluation:	50 Marks
Credits	1

COURSE OBJECTIVES: This course aims to

1. To develop the students with practical experiences that reinforce the concepts taught in the classroom and enhance their managerial skills and soft skills.
2. To allow the students to pursue interests, develop skills, and socialize beyond the classroom setting through extra-curricular activities.
3. To encourage the students to engage with the community extension programs and activities; and to promote the overall health and wellness.

COURSE OUTCOMES: Completion of this Course, Students will be able to

1. Develop leadership skills, network with professionals and gain practical experience outside of the classroom.
2. Grab the opportunities for personal growth, leadership development, and explore new passions.
3. Transform themselves as leaders to social change to provide solutions to social problems.
4. Develop themselves, enhance skills, and make a positive impact on the department, institute, and the community at large.
5. Lead a holistic sense of wellness, promoting a social, emotional, physical, mental and intellectual growth of a student.

CO-PO Articulation Matrix

CO/PO	PO1	PO2	PO3	PO4	PO5	PSO1
CO1	3	3	2	1	2	2
CO2	2	2	1	1	2	1
CO3	2	2	2	1	1	1
CO4	2	2	1	1	2	1
CO5	1	1	2	1	1	1

DESCRIPTION:

For the holistic development, student shall get engaged in the categories of activities: 1. Co-Curricular Activities, 2. Extra-curricular activities, 3. Community Engagement/Extension Activities, 4. Coordinator for Class, Alumni, Internship, Placements, Leadership and Volunteer Roles for Department Activities/Events, participation in department events etc.

The assessment will be done for maximum 50 marks at the end IV semester considering the achievements of IV semester only.

Every student shall participate in the activities and submit a report of the participation with the proofs along with learning outcomes. Assessment will be done by a panel formed by the Head of the Department.
