Abstract

The Simple Color Game was developed using Python module where it compose of multiple platform that utilize the media programming. The game is played in a simple windowed interface that display a background and colored text. The player can play the game via keyboard all the letter characters are the key answer in the game. The game is very simple you just need to enter the correct color name before the time runs out. The game will be over if your time limit is already done. The score will automatically save after the game is over. The Simple Color Game is a simple arcade game where your goal is to score as many as you can.3
