Arun

Dear Students,

Greetings from Indian School of Business (ISB)!

As you inch closer to your graduation, you must be having a lot of questions in your mind.

Like, what next: Job or Higher Education? | MS or other PG or MBA? | Study Abroad or study in India? | Entrepreneurship after MBA?

Meet India's #1 B-School, Indian School of Business (ISB) team, at our campus and get answers to all your queries!

We heartly invite you all to attend the Young Leaders Programme (YLP) info session on **October 12, 2022 (Wednesday) from 2:00 pm to 3:30 pm at CBIT, Hyderabad Campus.**

Venue: XXXXXX

Register at <https://forms.office.com/r/dJB0pT9Et7>

About The Young Leaders Programme (YLP):

The Young Leaders Programme is a foundation programme that helps high-potential college students secure admission to India's #1 MBA* the Post Graduate Programme in Management (PGP) at the Indian School of Business (ISB).

- The programme is meant for pre-final or final year of undergraduate or postgraduate degree.
- YLP equips college students with multidisciplinary perspectives, thinking skills, and research tools and provides clarity on career goals before they begin the PGP in Management.

The following will be the tentative agenda

1. ISB overview: ISB Value Proposition, PGP- YLP Overview
2. How to strengthen your MBA application to crack India's #1 PGP in Management
3. Q & A / Discussion on MBA in India Vs MBA abroad | Other PG/ MS vs MBA and much more.

Speaker Details:

Mr.Arun Prakash is a higher education Marketing Professional. He leads the Young Leaders Programme at the Indian School of Business. He has rich experience working in top brands like Naukri.com, Butterfly Appliances, Eenadu and served in premier educational institutions in various managerial roles. His area of interest lies in Career Counselling, Marketing Strategy, Branding, Digital Marketing, Admissions, Outreach, Students' Life, and Alumni Relations.

Campus to Cognizant

Tech talk series

Dear Students,

We would like to thank you for an overwhelming response to the First series of Cognizant Tech Talk Sessions. We are truly overjoyed to see such participation from the students.

Technology is at the crux of everything Cognizant works on and to give you a deep dive into how we engineer modern businesses to improve everyday life, we will be starting the **Second series of Tech talk sessions** from **5th July** with the topic, **Quality Engineering & Assurance**

We hope to see you all again on **5th July** for the session. Happy learning!

Regards,

Human Resources – GenC

Topic: Quality Engineering and Assurance

Step into IT Journey:

(A) Expectations

- Know the industry before you contribute in the multiple domain options
- Understand customer requirements.
- Learn and Explore

(B) Focus points (in IT industry)

- Upskilling is the primary responsibility
- Have a clear career objective/vision
- Understand the takeaways from the IT industry
- Figure out what you can give back to the industry

(C) Career Building: start- prove - excel.

(D) IT groups

- Operations
- Infra support - server requirements, maintenance requirements are addressed
- Development
- Center of Excellence Support- not bound to projects, they create solutions
- Quality Engineering Assurance
- Sales Team- new expansions, pitching to clients
- Finance Team- manages client finance
- Business Support Team- enlarges opportunities brought by sales team into a workable solution

(E) Where to start

- Focus on getting right opportunities
- Get your basic skills right

Quality Engineering Aspects

(A)Quality

- give an i/p to the team with the requirements clients haven't even mentioned as their requirements
- end-to-end quality engg. team
- integration team
- User interface experience team
- quality testing team

(B) Quality 10 years back vs Now

Back then

validate requirements -application-client requirements resolved

Now

- How fast, how efficiently the application is verified, how technologically driven is the quality testing being done.
- Independent Testing (Tested by other vendors) is the new trend in the market

(C) Skillset

→Attain certifications

→Basic programming

→AL, ML combined with python scripting , selenium with Java scripting are advantage

Opportunities:

- Application Testing
- Integration Testing
- Platform Testing(cloud testing)
- Product Testing (Eg: Testing product developed by oracle)
- Performance Testing (how fast, secure, accessible is the product)
- User-acceptance Testing, Network Testing (back end mainly)
- Crowd Testing.
- End-user Testing
- Sentimental Analysis Testing

Cognizant (What's in for you?)

Opportunities:

→Quality and Futuristic Training for Genc

→Problem solving outside the project scope

→Learning goals irrespective of what your delivery is

→You can contribute to solution building

→Exposure to various domain through lead, supervisor connects

Career Development - Hierarchy at Cognizant:

SERVICE NOW NETWORKING EVENT FOR 2024 PASSOUTS

DATE: 15/09/2022

1. Servicenow mission is to make the world better for everyone. Happy customers, employees, doing their work easily , is what serviceNow does.
2. It has its own platform, software languages which other organizations use.
3. They built an application that manages vaccination programs .

Presence of servicenow:

1. There is a Research and development department in Hyderabad where all the functions take place.It envisions the product , looks at the needs and provides services, product design ui , engineering, support functions, implementation or services department, how we can use the products.There are currently 7 roles in Hyderabad.
2. It doesn't limit you by guidelines. It encourages us to build something new. What we should build, how we should build.

Improvements in the world:

1. The connectivity has improved drastically.
2. Writing letters was the mode of communication back in the old days. Now we send email, video calling etc. That's how there is improvement in technology.

1. What am I supposed to do to become a software developer?

You control your destiny. You put your true self then you'll definitely do it.

1. Focus on education

To take 100 applications , out of 1000 applications , it is based on academics.

2. Start by building good habits. Student life is all about how you build habits. Problem solving habit.

3. Helping other juniors , discussing with somebody. Experience of doing something. You need to collaborate with other people and how you make them work is a key skill.

2. I'm not so good at coding, but I'd like to start my career in testing, development?

If you are not a great programmer then can you take a non software role.

You need to understand the software. It's not just about programming. It is the logical flow of the programming. You don't need to be a master at coding.

3. How do I wisely choose to shortlist the companies for my placement? Which factors should I consider?

Dont filter down the companies.

Go through the website of that company, their domain, their work , does that skillset and product side excites you.

Get aware of the company.

Dont fix in companies

Questions from students:

1. You have a platform to build applications for other companies. How did you come up with this idea? And what kind of challenges did you face?

Servicenow is a product based company. We build enterprise level products.

Idea - when the founder saw the pain in doing things with loads of time and hardwork. It had multiplex levels of steps to get the job done. Today it is just a simple application, login and complete your tasks.

Challenges : to design the simplest flow to get the work done for everybody.

Users and tasks are important. Put it all on digital platforms . Make it a workflow.

To onboard the users is another challenge.

We showed a sample and similarly other applications work. We currently have 11 different applications working.

2. What technologies do Servicenow work on?

There is consumption of every tech stack, once you get into the company, you have to work on a particular tech stack.

3. How to choose a company for placements?

A very competing company compared to product based companies out there.

Career: ds and algo , cn fundamentals ,apart from them we need good communication skills, clearly communicate what you have in your mind.

Suggestion:

Work on as many tech stacks as possible.

Ds and algo.

Preplan everything. Consistency is the answer. Build from fundamentals. Keep practicing. Teaching is the best way to learn. Participate in clubs actively.

Take one step at a time and learn

Number of Students Attended: 400 Students

(includes students from CSE, IT, ECE, EEE, Mechanical, Civil, Bio-Tech and Chemical Engineering departments)

Chief Guest: Sri. Krishna Gollapudi (Executive Vice President – MindTree)

Guest of Honour: Sri. Pradeep Chankarachan (IT Director of Enterprise Applications – Micron)

Guests: Sri. P. Sreenivas Sarma (Professor and Director – Student Affairs & Progression),

Dr. N.L.N. Reddy (Director-CDC), Dr.Y.Ramadevi (Professor and Head – Department of CSE)

Introduction and Objective

HackItOn is the club of CBIT which focuses on all- round development of a student. The club's major goal is to convey up-to-date information about all the hackathons organized being conducted by various companies and colleges for students to participate. The club will even conduct hackathon for students which provide an opportunity for student to strengthen soft skills like leadership, mentoring and communication. The club's aim is to foster industry standard skills through series of resourceful hackathons and to assist engineers in learning and developing technical skills, practice real time problem-solving techniques and provide support in gaining industry-oriented skillsets.

Summary

The Inaugural Event of the HackItOn Club started by the auspicious Lamp Lighting session performed by our guests.

Following this, we commemorated Lord Ganesha through a song performed by the member of our cultural club Chaitanya Geethi.

Sreenivasa Sarma sir has shared his experience and enlightened us about the importance of hackathons and how it impacts us in our day to day life and sir also mentioned the impact of hackathons in our careers and how hackathons help us to develop real world problem solving skills and gives us a chance to work on the real world projects that industry needs in today's world.

NLN Reddy Sir has shared his insights on hackathons and why are they necessary for the students in developing their career. Sir also stated a point about how many companies now-a-days recruiting students for jobs directly through hackathons. He added that hackathons today are not only available for CSE and IT students but also for other departments like ECE, EEE etc.

Ramadevi Mam expressed her happiness towards the launch of the most awaited HackItOn Club. She commented on the achievements of CBIT students in various hackathon. She also added that CBIT students were very successful in cracking the Smart India Hackathon from its very inception.

Our Guest of Honour Pradeep Chankarachan spoke about the challenges we face when we start a new thing. He interacted on how a hackathon is organized and held. He said hackathon projects are for increasing professional creativity and self-expression by using the most innovative and modern technological solutions. He said that they give a learning opportunity to the students and during events students learn the new advancements in the technology. He said that Hackathons can solve almost all problems, be it regarding any software solutions or everyday workflow issues or even the formation of new products. He stated that Hackathon can put you in a situation where you are required to work with new people for many continuous hours. You create a strong bond when everyone is working toward the same goal. You get to learn new things from others' strengths, you learn what working with a team is like, your communication skills will be developed, and most importantly a hackathon will give you a totally new and different experience. He said that besides learning while networking during or after the hackathon, you can approach the company representatives and learn about your potential workplace first-hand. He said that always consider awards, rewards, prizes, certificates & recognition at the bottom of your requirements. There is no point in having a focus on awards if your focus is not about "continuous learning". Winning and losing is part of the game but focus only on learning and the process, results will take care of themselves.

Our Chief Guest Gollapudi Krishna interacted with the students about the present challenges that are faced by many industries and told that this generation students have a plenty of opportunities to solve them. He mentioned the new advancements in technology and how students can use them to undermine the challenge that they are facing. He continued by saying that the world needs a SMART WORKER and a SMART SOLUTION rather than the old-fashioned hard work. He congratulated the students and the organizing committee of the student's club at CBIT as they are launching their 48th club. He guided the students by mentioning the tricks and tips to face a challenge and how to face it. He said that problem solving is the main motive of this club.

Towards the end of the event the guests were felicitated by Sreenivasa Sarma Sir.
