Hello everyone!

I am Rakshitha - 2021 graduate and I have been placed in Microsoft. I wanted to pass on to you guys how I applied and got the job in Microsoft.

For any company that you want to apply for, visit their careers portal. Find the relevant job profile which is suitable for fresh graduates and go ahead and apply. Please make sure your resume is up to date and get it checked with your seniors/anyone with relevant experience. Avoid adding too much information. Resume should be clear and concise.

This way you can apply for any company, not just the ones that come to our college (Although our college has a great set of companies that come for placements, never not try other options). If you have any questions, feel free to reach out to me or any of your seniors.

A sample careers portal link to Microsoft is here - [Search results | Find available job openings at Microsoft](#) - keep an eye out for openings

This is the apt role for 2022 graduates- [Software Engineering Full Time Opportunity for University Graduates in Multiple Locations, Multiple Locations, India | Engineering at Microsoft](#)

I had applied around August and got a call for an interview during March, so it might take time for a response but definitely apply and try. Not just Microsoft, you can try for Google or any company in the same way. Try for off campus placements while attempting on campus placements, do not neglect either of them. All the best!

Thanks & Regards  
Rakshitha
