Greetings from Being Zero!

We are mid-way in training and topics coverage. So I thought of providing a quick update on the progress of students. We have emphasized on 3 coding platforms so far - **CODECHEF**, **LEETCODE** and **MENTORPICK** (BeingZero's own coding platform) and in time to come, we will also be focusing on **CODEFORCES**.

Numbers as of now are not looking good, and **Students will require addressing/counselling from both Department Side and CDC side**. Based on the progress of students so far, we've divided them into 5 Separate buckets and department wise filters. We are mainly facing issues in disciplining students to practice regularly and in the upcoming time will require help from your side to increase their practice hours and participation in contests.

Attached is the complete Score Sheet and Attendance Report which are the basis of putting students into a particular category. Let me know if there are any further questions or if the data requires a quick meeting to discuss fields in granular detail.

Dear all,

Greetings of the day!!!

B.E. CSE, IT, AIMA, AI&DS, ECE are undergoing competitive coding training every Thursday for the past 2 months conducted by Mr Sandeep of Being Zero in the campus.

We request the FPCs to talk to respective students and motivate them to improve their performance, as this is crucial in cracking dream and super dream placements.

Increase in Mean, median and maximum salaries of students will in turn improve the ranking of the Departments and Institute.

Mail us the reasons for their under performance on or before 12:00noon of 20.03.2023.

Please check the trailing mail and attached files for detailed feedback.

Regards

Hi Sir,

I am Baddam Uday Krishna Reddy (160120737116) from IT-02 of batch 2020-2024. As we know our college is effectively giving us many placement opportunities, it is again the responsibility of an individual to perform well in the DSA Test and Technical Interviews and HR Interviews conducted by any company. So, for our batch the DSA Training in the campus started a bit late at the end of 5th Semester End. But as we are very keen and "Sandeep Sir" is very supportive, we are able to complete the DSA preparation successfully. It has been a productive work which is done in the 3rd year. This boosted many students' skills and drove many students in a successful path. As many students in our batch secured good Internships and Placements. Coming to classes and Teaching, Sandeep Sir has a good team who will regularly solve our problems and always instructed us to participated in the coding contests conducted by different platforms like codechef, leetcode, codeforces.

So, I suggest you with due respect to make our students to do train under Being Zero rather than Smart Interviews. Because many students will take Smart Interviews by attracting to classes held on Saturday and Sunday and mislead themselves because they may miss one class on weekend which leads to complete stress and may not clearly cop up themselves to understand even though they are capable of understanding because they will be in a trauma like they have missed the class. So please guide our students in the way of training under Sandeep Sir in Being Zero. I have also interned at Barclays.

Thanks & Regards  
Baddam Uday Krishna Reddy

Dear Sir

Since we cannot facilitate more than 60 Students for each Lab, I request you to arrange the training for five (5) batches instead of four (4) batches. So, please resend the revised schedule of training for five batches. Since the students will have 1 Mid examinations from 19.12.2022 to 21.12.2022, arrange the training for the first three batches from 5.12.2022 to 14.12.2022 and for the remaining two batches from 22.12.2022 to 24.12.2022 and 27.12.2022 to 29.12.2022. this will help the students to prepare well for their first mid-examinations.

Request you consider this on a priority basis.
