About ECE Department

The Department of ECE offers two undergraduate and two postgraduate programs, namely B.E.(ECE), B.E. (Electronics Engineering - VLSI Design & Technology), M.E.(CE) and M.E.(ES&VLSI). The department features 13 well-equipped laboratories, including dedicated research labs and a center of excellence, making significant contributions in electronics and communication.

About NITTTR

The National Institute of Technical Teachers Training and Research (NITTTR), Chandigarh, is a premier institution established by the Ministry of Education, Government of India, with a mission to enhance the quality of technical education in the country. NITTTR Chandigarh specializes in training technical teachers, conducting cutting-edge research, and developing educational resources to support polytechnics and engineering institutions. The institute offers a wide range of short-term and long-term training programs, workshops, and consultancy services aimed at fostering innovation and professional development. With state-of-the-art infrastructure, expert faculty, and a strong commitment to academic excellence, NITTTR Chandigarh plays a pivotal role in shaping skilled educators and advancing technical education at both national and international levels.

About the Program

In an era of transformation, Higher Education Institutions (HEIs) must evolve not only in pedagogy but also in leadership and organizational culture. The Faculty Development Program on Leadership and Organizational Excellence in HEIs is crafted to empower academic leaders, faculty members, and administrators with the vision, strategies, and tools to lead with purpose and drive institutional success.

This program aligns with the aspirations of NEP 2020, focusing on leadership that is inclusive, innovative, and impact-driven. Through interactive sessions, expert insights, and collaborative learning, participants will explore key dimensions of strategic planning, change management, governance, and team development—essential for building institutions that are future-ready and globally competitive. This program offers a unique opportunity to reflect, reimagine, and redefine leadership in higher education.
