About NITTTR

The Institute at Chandigarh is one of these four NITTTRs, started in collaboration with Royal Netherlands Government (upto 1974). To improve the competence of teachers for implementing new curricula designed by this institute, short term courses have been offered since 1967.

About the Program

Modern educators can leverage AI to automate and enhance routine tasks such as grading, lesson development, and research, freeing up time to focus on meaningful interactions with students. AI can also tailor content for individual learners, provide real-time analytics, and assist with multimedia creation, effectively acting as a "classroom assistant".
