About Civil Engineering Department

Civil Engineering Department of the institute started functioning right from the inception of the institute in the year 1979. The main strength of the department is the well qualified teaching faculty, well equipped labs, which meets the requirements of UG/PG and other research requirements in civil Engineering. The department also has well trained technical staff. The average experience of the faculty is around 10 years. The department is recognized as Research Centre by Osmania University. The department offers one UG programme, B.E, Civil Engineering (Two Sections) and one PG Programme (M.E, Structural Engineering). Conducting seminars, workshops and conferences on the latest developments in civil engineering, arranging expert lectures and industrial visits is a regular feature in the department. The department also offers consultancy services for various Government and Private Agencies and has completed a good number of prestigious projects.

About the Workshop
